2.70.4.4 DURATION: Permanent
[2.70.4.4 NMAC - N, 2/1/07]

2.70.4.5 EFFECTIVE DATE: August 30, 1989
[2.70.4.5 NMAC - N, 2/1/07]

2.70.4.6 OBJECTIVE:
   A. Section 21-1-21 NMSA 1978 states: "No expenditure shall be made by any state educational institution confirmed by Article 12, Section 11 of the state constitution for the purchase of real property or the construction of buildings or other major structures or for major remodeling projects without prior approval of the proposed purchase or construction or remodeling by the board of educational finance and the state board of finance".
   B. Involvement of the state board of finance in the approval of capital outlay projects and capital expenditures at New Mexico colleges and universities is specified by this statute. This involvement is substantially different from the involvement with state building projects, where the state board of finance is the final authority for accepting bids and determining whether the project will be constructed. In the case of educational institutions, the authority for the actual construction of the project resides with the board of regents of the institution. However, New Mexico statute requires the higher education department and the state board of finance to provide prior approval to the board of regents before they are allowed to proceed with the project.
   C. Since the statute requires the higher education department and the state board of finance to provide "prior" approval of the project, these two bodies should review all major capital projects to determine that the proposed project is in keeping with the overall statewide plan for higher education. The source of funding for the project should also be carefully reviewed to determine that sufficient funds are available for the project and the use of the funds will not have an adverse effect on other portions of the institution's budget. The sufficiency of planning for the project, and the completeness of the review of the project by the board of regents should also be determined.

2.70.4.7 DEFINITIONS: For these purposes, "major" is defined as:

   B. any project funded, in whole or in part, by capital outlay legislation signed into law which costs over $750,000.00, at institutions with FTE enrollments of 1,500 or more;
   C. any project funded exclusively by sources other than legislative appropriations which costs over $50,000.00, at institutions with enrollments of 1,500 FTE or less; or
