MEMORANDUM

Date: January 10, 2020

To: All State Agency Human Resource Managers and Chief Financial Officers

From: Lakisha Holley, Central Payroll Bureau Chief

Subject: New Parental Leave Time Reporting Codes

New FMLA Paid Parental Leave (FMPRN) and Paid Parental (PRNTL) Time Reporting Codes (TRCs) have been implemented into SHARE and are available for use. Only HR Administrators have access to enter and approve time. FMPRN should be used if the employee has FMLA time available. If employee does not have FMLA time available, then PRNTL TRC should be used. The TRCs may be entered alone or in conjunction with one another for intermittent leave purposes.

If an employee is using FMPRN, the TRC will automatically add to the FMLA accumulator. For the first pay period ending 1/10/20, MCOP rates will be included in the pay calculation. If HR Administrators are entering time on the 1st week of January, HR Administrators will have to start the week on 1/1/20, not 12/28/19 or by the view Calendar Period because the new TRCs are effective 1/1/20. HR Administrators should change the view to week starting 1/1/20 for the first week of January only. After the 1st week of January, this won’t be an issue.

Below are the new TRCs with descriptions, access role, mapping earning code and rules/exceptions of each code.
