STATE OF NEW MEXICO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2019

# INTRODUCTORY SECTION

TOAS GORGE SOURCE - NEWMEXICONOMAD.COM

**STATE OF NEW MEXICO** 

#### DEPARTMENT OF FINANCE AND ADMINISTRATION FINANCIAL CONTROL DIVISION

407 GALISTEO STREET
BATAAN MEMORIAL BUILDING, ROOM 166
SANTA FE, NEW MEXICO 87501
(505) 827-4985 FAX (505) 827-3692

Michelle Lujan-Grisham Governor Olivia Padilla-Jackson Cabinet Secretary

> Donna Montoya-Trujillo State Controller

To the Governor, the State Legislature and the Citizens of New Mexico:

In accordance with Chapter 6-5-4.1 of the New Mexico Statutes Annotated 1978 (NMSA 1978), the Financial Control Division of the Department of Finance and Administration transmits the State of New Mexico's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019.

The CAFR presents the financial position and operating results of the State, compliant with generally accepted accounting principles (GAAP) applicable to state and local governments, as established by the Governmental Accounting Standards Board (GASB). The purpose of this report is to provide complete and reliable information as a basis for making management decisions, assessing adherence to and compliance with legal requirements, and evaluating stewardship of the state's assets. The basic financial statements and required supplemental information include a required narrative introduction, referred to as Management's Discussion and Analysis (MD&A). This transmittal letter complements the MD&A, which is located immediately following the independent auditors' report, and should be read in conjunction with this letter.

CliftonLarsonAllen LLP (CLA), an independent accounting firm and the New Mexico Office of the State Auditor, have audited the basic financial statements contained in this report. Their audit was conducted in accordance with the generally accepted government auditing standards and their auditor's report precedes the basic financial statements. The goal of an independent audit is to provide reasonable assurance that the State of New Mexico's basic financial statements for the fiscal year ended June 30, 2019 are free of material misstatement. Independent audit procedures include examining, on a test basis, supporting amounts and disclosures, assessing the accounting principles used, review of any significant estimates made by management, and evaluating the overall basic financial statement presentation. An audit also includes consideration of internal controls over financial reporting as a basis for designing audit procedures that are appropriate under the circumstances, but not for expressing an opinion on the effectiveness of the State's internal controls over financial reporting. Accordingly, the independent auditor expressed no opinion on the internal controls over financial reporting.

Under statute (12.6.3 NMSA 1978), every state agency must be audited annually. To avoid duplication of effort, the CAFR audit relies and builds upon agency audits. The existing group audit process affects timeliness, as CAFR development may only commence after completion of the underlying agency audits, some that were not complete until late December. Legislation to perform a single statewide financial audit was introduced during the 2018 legislative session and while it did not make it completely through the process, it did initiate needed dialog to affect a positive change in the future. Ongoing discussions are taking place within the Department of Finance and Administration (DFA) and the State Auditor's Office (SAO) to look for ways to streamline and shorten the overall process. In addition, the State Auditor's Office is jointly auditing the CAFR to learn more about the process and make recommendations for changes to state law, rules, and regulations.

Improvements in controls and processes over the last six years now allow for the production of a reliable and auditable CAFR and the benefits of these enhancements are continuing.

#### PROFILE OF STATE OF NEW MEXICO

New Mexico, became the forty-seventh state of the United States of America when it entered the union on January 6, 1912. Its borders encompass 121,589 square miles of the Great Plains, Rocky Mountains, and the Rio Grande River with elevations ranging from 2,842 to 13,161 feet above sea level. Nicknamed the Land of Enchantment, the state's landscape ranges from wide, rose-colored deserts to broken mesas and high, snow-capped peaks. The Sangre de Cristo Mountains, the southernmost part of the Rocky Mountains, run north to south along the east side of the Rio Grande. The state is home to the White Sands National Monument, which contains the largest gypsum dune field in the world. The State's major economic sectors include agriculture, mining, energy production, federal technology laboratories and tourism. The estimated population of the state was 2,093,346 as of July 2018.

Structure - The State Constitution divides the powers of government among three equal and independent branches: Legislative, Executive, and Judicial, shown in the organizational chart on page xiii. The powers and duties of each branch of government are outlined in the Constitution of the State of New Mexico, which can be amended only by a majority vote of the State's citizens. The State of New Mexico CAFR includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the executive branch, various offices relating to the judicial branch, the education institutions created by the Constitution of the State of New Mexico, Article XII, Section 11, and discrete component units of the State of New Mexico. Internal Controls - In accordance with the provisions of Chapter 6-5-2.C, NMSA 1978, the Financial Control Division of the Department of Finance and Administration is responsible for ensuring government agencies fulfill their responsibility for implementing and sustaining effective internal controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and reliability of financial records used for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its use, and the evaluation of costs and benefits requires managerial estimates and judgments. All internal control evaluations occur within this framework. Consideration as to the adequacy of internal controls is paramount in developing and maintaining the State's accounting system, and the effectiveness and adequacy of internal controls are evaluated during internal reviews performed by the Department of Finance and Administration and annual external audits.

Types and levels of services provided – The State of New Mexico provides its citizens with the following governmental types of services: educational, environmental, health and human services, highway and transportation services, public safety, legislative, judicial, as well as cultural, recreational and natural resource services. The State of New Mexico also administers two cost-sharing multiple-employer public employee retirement systems and three single-employer public employee retirement systems.

Brief summary of budget process – The Governor is required to submit a balanced budget by agency, program, activity and category to the Legislature annually. The Legislature authorizes expenditures in the annual General Appropriations Act by source, which is then signed into law by the Governor. Unless otherwise indicated, annual appropriations lapse at fiscal yearend. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the Legislature to address any budget shortfalls. Adjustments to the budget may also be made throughout the year for changes in departmental or fund revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation level. The budget is administered using the modified accrual basis of accounting; however, the budgetary basis is not consistent with GAAP.

#### PENSION AND OPEB OBLIGATIONS

The State implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, in Fiscal Year 2015. The State implemented GASB Statement No. 75, Accounting and Financial Reporting for Other Post-Employment Benefits (OPEB) in Fiscal Year 2018. The purpose of the new statement was to improve the accounting and financial reporting of public employee pensions and other post-employment benefits by state and local governments and enhance the usefulness of pension and OPEB information. This change was limited to financial reporting and does not require any changes to the way actual employer plan contributions are determined. Employer contributions to the pension plans continue to be calculated per the requirements of the governing State statutes. GASB Statement No. 68 requires participating employers to recognize their proportionate share of the collective net OPEB liability. GASB Statement No. 75 requires participating employers to recognize their proportionate share of the collective net OPEB liability. The State's share of the net pension liability, net of deferred items and based on a measurement date of June 30, 2019, which is required to be recorded on the financial statements, is \$6.8 billion for the primary government, an increase of \$0.71 billion. The State's share of the net OPEB liability, net of deferred items and

based on a measurement date of June 30, 2019, which is required to be recorded on the financial statements, is \$1.5 billion for the primary government.

#### ECONOMIC CONDITIONS AND OUTLOOK

Economic Factors Affecting New Mexico's Fiscal Year 2019 Budget - New Mexico utilizes a consensus revenue estimating group (CREG) comprised of legislative and executive economists to forecast General Fund revenue so that the Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations.

New Mexico state revenues are highly sensitive to boom and bust cycles in the energy industry; the CREG conducts a Stress-Test on state revenues during the process. The establishment and use of Stress-Testing hedges against an economic downturn or an unforeseen downswing in the energy sector by targeting appropriate levels of general fund reserves to offset the impact of a major downturn.

The New Mexico economy grew moderately in fiscal year 2019 and the energy sector continued to provide significant contributions. Reflective of New Mexico economic growth, state wages and salaries grew by 4.9 percent and total personal income in the state grew by 4.6 percent. During fiscal year 2019, New Mexico employment growth averaged 1.9 percent, adding 15,800 jobs. Oil prices in fiscal year 2019 remained lower than oil prices in fiscal year 2018. New Mexico continued to be the third largest producing state for oil and the ninth largest for natural gas.

New Mexico's economy affected by the upturn in the extractives industry and employment gains in mining and energy-related sectors, experienced Real GDP growth of 1.4 percent in fiscal year 2018.

On March 11, 2020, the World Health Organization declared the outbreak of a coronavirus (COVID-19) a pandemic. As a result, economic uncertainties have arisen which are likely to negatively impact net income. Other financial impact could occur though such potential impact is unknown at this time.

#### LONG-TERM FINANCING

The State of New Mexico's Constitution and laws authorize the State to issue general obligation bonds, severance tax bonds and revenue bonds to finance or refinance the cost of State capital projects. General obligation bonds are secured by the full faith and credit of the State and are repaid from a dedicated statewide property tax. Article 9, Section 8 of the New Mexico Constitution limits General Obligation indebtedness to no more than one percent of the assessed valuation of all the property subject to taxation in the State. Severance Tax Bonds are used to finance statewide capital projects that have been authorized by the Legislature and approved by the Governor. Severance and Supplemental Severance Tax Bonds are repaid from revenues deposited into the Severance Tax Bonding Fund, which primarily include taxes on mineral production in the State. The State continues to maintain a strong creditworthiness rating from Moody's Investors Services and Standard and Poor's Corporation.

#### ACKNOWLEDGMENTS

This report could not have been prepared without the cooperation of all State agencies, the Legislature, and the Judiciary. Executive Management of the Department of Finance and Administration would also like to express our gratitude to the dedicated professionals in the State Financial Reporting and Accountability Bureau, whose work made possible the preparation of this report. The coordinated and collaborative effort have produced a report that will provide a means for government, the financial community, decision makers, and concerned citizens to better understand and evaluate the State's financial condition.

Sincerely

Olivia Padilla-Jacks Cabinet Secretary

STATE OF NEW MEXICO
COMPREHENSIVE ANNUAL FINANCIAL REPORT
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

# FINANCIAL SECTION

# MANAGEMENT'S DISCUSSION AND ANALYSIS

HATCH NEW MEXICO SOURCE - SANTAFENETWORK.TV

#### **INDEPENDENT AUDITORS' REPORT**

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico
Ms. Olivia Padilla-Jackson, Secretary of the New Mexico Department of
Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón, New Mexico State Auditor

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain agencies and component units of the State, which represent the indicated percent of total assets and total revenues as presented in the table below. Those financial statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for those agencies and component units, is based solely on the reports of the other auditors.

#### **Percentage Audited by Other Auditors**

Government-Wide	Total <u>Assets</u>	Total <u>Revenues</u>
Governmental activities	87%	90%
Business-type activities	99%	92%
Aggregate discretely presented component units	67%	32%

#### **Fund Statements**

Major governmental fund - General Fund	42%	54%
Major governmental fund - Debt Service Fund	100%	100%
Major governmental fund - Capital Projects Fund	36%	24%
Major governmental fund - Severance Tax Permanent Fund	100%	100%
Major governmental fund - Land Grant Permanent Fund	100%	100%
Major enterprise fund - Educational Institutions Fund	100%	100%
Aggregate remaining fund information	50%	87%

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified and qualified audit opinions.

#### **Summary of Opinions**

Opinion Unit	Type of Opinion
Governmental activities	Qualified
Business-type activities	Unmodified
Major governmental fund – General Fund	Unmodified
Major governmental fund – Debt Service Fund	Unmodified
Major governmental fund – Capital Projects Fund	Unmodified
Major governmental fund – Severance Tax Fund	Unmodified
Major governmental fund – Land Grant Fund	Unmodified
Major enterprise fund - Educational Institutions Fund	Unmodified
Aggregate remaining fund information	Unmodified
Aggregate discretely presented component units	Unmodified

#### Basis for Qualified Opinion on Governmental Activities

The component auditor of the General Services Department, a significant component of the State, was unable to obtain sufficient audit evidence to support the completeness, existence, accuracy, and valuation of the reported land and construction in process balances on the General Services Department's separately issued financial statements. As a result the component auditor issued a qualified opinion as reported in their separate opinion of the General Services Department financial statements.

#### **Qualified Opinion**

In our opinion, based on our audit and the reports of the other auditors, except for the matters described in the "Basis for Qualified Opinion on Governmental Activities" paragraphs above, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Unmodified Opinions**

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the opinion units identified as "Unmodified" in the schedule "Summary of Opinions" of the State, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Emphasis of Matters**

#### Correction of Errors

As described in Note 9 to the financial statements, the State restated beginning balances resulting from the correction of accounting errors that occurred in the prior period. Our opinion is not modified with respect to this matter.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (pages 7-25), Budgetary Comparison Schedule - General Fund and Notes to Budgetary Reporting (pages 207-214), Schedules of Changes in Net Pension Liability (pages 215-219), Schedule of Changes in Net OPEB Liability (page 220); Schedules of Net Pension Liability (pages 221-225), Schedules of Net OPEB Liability (page 226-229), Schedules of Employer Contributions - Pension (pages 230-239), Schedules of Employer Contributions - OPEB (pages 240-242), Schedules of Investment Returns - Pension (pages 243-244), Schedule of Investment Returns - OPEB (pages 245-247), Schedule of Actuarial Methods and Assumptions - All Retirement Systems (page 248), Schedule of Actuarial Methods and Assumptions - New Mexico Retiree Health Care Authority (page 249), Schedule of the State of New Mexico's Proportionate Share of the Net Pension Liability (pages 251-256), Schedule of the State of New Mexico's Proportionate Share of the Net OPEB Liability (pages 257-258), and Schedule of the State's Contributions (pages 260-267) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The combining statements and individual fund financial statements and schedules, introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements and individual fund financial statements and schedules presented as other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 31, 2020 on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the State's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

Albuquerque, New Mexico March 31, 2020

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

#### INTRODUCTION

The following Management's Discussion and Analysis (MD&A) is required supplementary information to the State of New Mexico's financial statements. It describes and analyzes the financial performance and position of the state, and also provides an overview of the State's activities for the fiscal year ended June 30, 2019. Please read it in conjunction with the transmittal letter in the Introductory Section of this report and with the State's financial statements that follow this section. The subsequent information is highly summarized, and in order to gain a comprehensive understanding of the State's financial condition it should be reviewed in its entirety. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

#### FINANCIAL HIGHLIGHTS

#### **Government-wide**

#### Net Position of the Primary Government

- The primary government (governmental activities and business-type activities) ended fiscal year 2019 with a net position of \$31.4 billion, an increase of \$3 billion, or 10.5 percent, from the previous year.
- The net position is comprised of \$7.6 billion in capital assets, net of related debt, \$29 billion in restricted, and a deficit \$5.1 billion in unrestricted, excluding component units.
- As a result of operating activities, the primary government's total net position increased by \$3 billion, or 10.5 percent, in fiscal year 2019 when compared to the previous year's ending net position. The net position of governmental activities increased \$3.3 billion, or 12.16 percent, from previous year's ending net position.
- Program revenues for the primary government increased around 5.35 percent on a year to year basis. Taxes and other general revenues increased by 7.61 percent from previous year. Expenses of \$19.2 billion, increased by \$351 million, with the majority of the increase being in the Education and Education Institutional functions.
- The net position of the business-type activities decreased by \$283 million or 18.48 percent, from the previous year's ending net position. The business-type activities from the prior fiscal year saw an increase in total revenue by \$32 million and an increase in expenses by \$192 million. Program revenue increased by \$44 million while transfers increased by \$116 million.

#### Long-term Debt

The State's long-term bonded debt decreased a net of \$340 million for both governmental and businesstype activities, combined, due to the payment on the prior year bonds was higher than the issuance of
new bonds. New bond issuance was \$65 million for governmental activities; composed of \$65 million
for revenue bonds. New bond issuance for business type activities was \$18 million in revenue bonds.
See Note 8 for more detailed information on long-term liabilities. More detailed information regarding
the government-wide, fund level, and long-term debt activities can be found in the capital asset and
debt administration section of this management's discussion and analysis (MD&A).

For the Year Ended June 30, 2019

#### **Fund Level**

#### Governmental Funds

- As of June 30, 2019, the State's combined governmental funds reported a ending fund balance of \$29.8 billion, an increase of \$3 billion, or 11.34 percent, from fiscal year 2018 year's ending net position, (see the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances).
- ♣ Year to Year there was an increase in revenue of \$1.1 billion, primarily the result of higher investment and rental and royalty income and strengthened General and Selective Tax Revenues. Year to Year, expenditures increased by \$570 million. Operationally, expenditure increase in the areas of Education and Highway and Transportation being the primary drivers.
- ♣ The unassigned fund balance as of the end of fiscal year 2019 was \$1.6 billion.

#### Proprietary Funds

♣ The proprietary funds reported net position of \$1.3 billion as of June 30, 2019, a decrease of \$283 million, or 18.48 percent, from fiscal year 2018 ending net position.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

The focus of this annual report is on reporting for the state as a whole and on the major individual funds. The report presents a more comprehensive view of the state's financial activities. The Financial Section of this Comprehensive Annual Financial Report (CAFR) presents the State's financial position and activities in four parts:

- Management's Discussion and Analysis (this part)
- Basic Financial Statements
  - Government-wide Financial Statements
  - Fund Financial Statements
  - Notes to the Financial Statements
- Required Supplementary Information other than MD&A
- Other Supplementary Information presenting combining statements and schedules

This report also includes statistical data.

For the Year Ended June 30, 2019

#### Reporting on the State as a Whole

#### **Government-wide Statements**

The government-wide financial statements are designed to present an overall picture of the financial position of the state. These statements consist of the statement of net position and the statement of activities, which are prepared using the economic resources measurement focus and the accrual basis of accounting. This means that all revenues earned and expenses incurred during the year are included, regardless of when cash is received or disbursed, producing a view of financial position similar to that presented by most private sector companies.

The statement of net position combines and consolidates the government's current financial resources with capital assets and long-term obligations. This statement includes all of the government's assets, deferred outflows, liabilities, and deferred inflows. Net position represents one measure of the state's financial health. Other indicators of the state's financial health include the condition of its facilities, roads and highways (infrastructure) and economic trends affecting the state's future tax revenues.

The statement of activities focuses on both the gross and net cost of various activities (governmental, business-type and component units). These costs are paid by the state's tax revenues, charges for services and other revenues. This statement summarizes the cost of providing (or the subsidy provided by) specific government services and includes all current year revenues and expenses.

The government-wide statement of net position and the statement of activities divide the state's activities into the following three types:

#### Governmental Activities

The state's basic services are reported here, including general government, education, transportation, health and human services, public safety and corrections, judicial, natural resources and recreation, legislative, and regulatory services. Taxes, fees and federal grants finance most of these activities.

#### **Business-type Activities**

Activities for which the state charges a fee to customers to pay most or all of the costs of certain services it provides are reported as business-type activities. The state's institutions of higher education are included as business-type activities, as well as unemployment insurance, public schools insurance, medical centers, magazine publication, state fair, state infrastructure bank, environment department, corrections industries, and industries for the blind.

#### Component Units

Component units are legally separate organizations for which the state is either financially accountable or the nature and significance of their relationship with the state is such that exclusion would cause the state's financial statements to be misleading or incomplete. The state has approximately eighty-six (86) discretely presented component units. Financial information for these entities is presented separately in the supplemental statements and in the notes.

For the Year Ended June 30, 2019

#### Reporting on the State's Most Significant Funds

#### **Fund Financial Statements**

Fund financial statements provide additional detail about the state's financial position and activities. Some information presented in the fund financial statements differs from the government-wide financial statements due to the perspective and basis of accounting used. Funds are presented in the fund-level statements based on criteria set by the Governmental Accounting Standards Board (GASB). A fund is a separate accounting entity with a self-balancing set of accounts. The state uses funds to keep track of sources of funding and spending related to specific activities. Some funds are required by law to exist, while others are established internally to maintain control over a particular activity.

All of the State's funds are divided into the following categories, each of which uses a different accounting approach:

#### Governmental Funds

A majority of the state's activity is reported in the governmental funds. Reporting of these funds focuses on the flow of money into and out of the funds and amounts remaining at fiscal year-end for future spending. Governmental funds are accounted for using the modified accrual basis of accounting, which measures cash and other assets that can be readily converted to cash. The governmental fund financial statements provide a detailed short-term view of the state's general governmental operations and the basic services it provides. This information helps determine the level of resources available for the state's programs. The reconciliations following the fund financial statements explain the differences between the governmental activities column reported on the government-wide statement of net position and the government-wide statement of activities, and the governmental funds reported on the fund financial statements. The general fund, debt service fund, appropriated bond proceeds capital outlay fund, severance tax fund and land grant fund are reported as major governmental funds.

#### Proprietary Funds

When the state charges customers for services it provides, these activities are generally reported in proprietary funds. Services provided to outside (non-governmental) customers are reported in enterprise funds, a type of proprietary funds, and are accounted for using the economic resources measurement focus and the accrual basis of accounting. These are the same business-type activities reported in the government-wide financial statements, but are reported here to provide information at the fund level. Activities whose customers are primarily other state agencies (e.g., motor pool) are accounted for in internal service funds. The internal service fund activities are consolidated with the governmental activities in the government-wide statements because those services predominantly benefit governmental rather than business-type activities.

#### Fiduciary Funds

Fiduciary funds account for assets held in a trustee or agency capacity for others. All state fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. The activities are reported separately from other financial activities because the state cannot use the assets to finance its operations. The state's fiduciary responsibilities include ensuring that the assets reported in these funds are used for their intended purpose. Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis accounting.

For the Year Ended June 30, 2019

#### Reconciliation between Government-wide and Fund Statements

The financial statements include schedules that reconcile and explain the differences between the amounts reported for governmental activities on the government-wide statements (accrual accounting, long-term focus) with amounts reported on the governmental fund statements (modified accrual accounting, short-term focus).

The following are some of the major differences between the two statements:

- Capital assets and long-term debt are included on the government-wide statements, but are not reported on the governmental fund statements.
- Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond proceeds result in liabilities on the government-wide statements, but are other financing sources on the governmental fund statements.
- Certain tax revenues that are earned but not yet available are reported as revenue on the government-wide statements, but are deferred inflow of resources on the governmental fund statements.

#### **Notes to the Financial Statements**

The notes provide additional schedules and information that are essential to a complete understanding of the financial statements. The notes apply to both the government-wide financial statements and the fund financial statements.

#### Required Supplementary Information (RSI)

Following the Basic Financial Statements are budgetary comparison schedules for major funds with legally adopted budgets. In addition, the RSI includes schedules on the funded status and employer contributions for the State's Defined Benefit Pension Plans and Other Postemployment Benefits Plan. RSI further supports the information in the basic financial statements.

#### **Other Supplementary Information**

Supplementary Information includes combining statements for the State's nonmajor proprietary and fiduciary funds. This section also includes schedules which compare budgeted expenditures to actual results at the legal level of control, which is generally the program level of the General Appropriation Acts.

#### ADJUSTMENTS TO BEGINNING NET POSITION AND FUND BALANCES

While adjustments were made to the opening balances of a number of entities that are part of the primary government none individually or collectively were significant to merit discussion.

For the Year Ended June 30, 2019

#### FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

#### **Net Position**

- Total Assets and Deferred Outflows of the State as of June 30, 2019, were \$47.2 billion, an increase of \$3.1 billion or 7 percent from prior fiscal year. The majority of the increase is due to investment value gains and increased receivables.
  - For governmental activities, total assets and deferred outflows were \$40.3 billion, an increase of \$3.1 billion, or 8.45 percent.
  - For business-type activities, total assets and deferred outflows were \$6.9 billion, a decrease of \$40 million or .6 percent.
- Total Liabilities and Deferred Inflows as of June 30, 2019 were \$15.8 billion, a decrease of \$102 million or .65 percent from prior fiscal year.
  - Total liabilities and deferred inflows for governmental activities were \$10.1 billion, down \$135 million, or 1.32 percent.
  - For business-type activities, total liabilities and deferred inflows were \$5.7 billion, an increase of \$237 million or 4.36 percent.
- The State's total net position of \$31.4 billion was \$3 billion or 10.5 percent higher in fiscal year 2019 compared to the prior year. Of the State's net position, \$7.6 billion was invested in capital assets, net of related debt, while \$29 billion was restricted by state statute or other legal requirements and was not available to finance day-to-day operations of the state. Unrestricted net position was a \$5.1 billion deficit.

#### **Changes in Net Position**

The State's net position as of June 30, 2019, was \$31.4 billion which was \$3 billion greater than the 2018 net position restated. The State earned program revenues of \$12.6 billion, collected tax revenue of \$7.4 billion, and received \$2.2 billion of general revenues. Total revenues for 2019 were \$22.2 billion, an increase of \$1.2 billion, or 5.9 percent, from fiscal year 2018. Increased revenue was primarily attributable to the \$986 million increase in taxes and \$687 million in charges for services account for the remainder while other general revenues decreased by \$304 million. The expenses of the State were \$19.1 billion, an increase of \$262 million or 1.39 percent, from fiscal year 2018. Further analysis of results of changes in the State's financial condition follows in the analysis of the State's funds. Net program revenues exceeded net program expenses by \$3.1 billion, whereas in fiscal year 2018 this amount was \$2.1 billion. The tax collections of the State provided additional funding, which when added to program revenues, supported payment for governmental services.

The following schedule and charts summarize the State's total revenues, expenses, and changes in net position for fiscal year 2019:

#### **Governmental Activities**

Governmental activities program revenue was \$9.8 billion, consisting of operating grants and contributions of \$6.4 billion, capital grants and contributions of \$377 million, and \$3 billion in service charges. Program revenues increased \$511 million from the prior fiscal year the result of a \$486 million decrease in operating grants and contributions, a \$376 million increase in capital grants and contributions, along with a \$621 million increase in charges for services. Governmental activities expenses increased by \$70 million year to year bring the total to \$14.7 billion. All governmental activities in the government-wide statement of activities had expenses which exceeded program revenues. The health and human services function and education function account for three-quarters of governmental activities expenses and net cost. The charges for services increased due to additional rent royalty for the general control function.

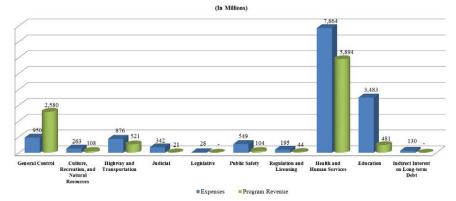

The following table shows to what extent the State's governmental activities relied on taxes and other general revenues to cover all of their costs. For fiscal year 2019, state taxes and other general revenues covered 62.06 percent of expenses. The remaining 37.94 percent of the total expenses, was covered by charges for services and grants and contributions.

## STATE OF NEW MEXICO EXPENSES AND PROGRAM REVENUES: GOVERNMENTAL ACTIVITIES For the Fiscal Year Ended June 30, 2019

#### **Business-type Activities**

Business-type activities generated program revenues of \$2.8 billion, including charges for services of \$2.2 billion, operating grants and contributions of \$663 million and \$24 million in capital grants and contributions. This was \$44 million more than the prior year, attributable to the education function. The total expenses for business-type activities were \$4.4 billion, an increase of \$192 million from the prior year. The largest change occurred in the education institution function, where expenses increase by \$199 million versus prior year and a \$15 million increase in public schools insurance and, offsetting this by \$28 million was a decrease in unemployment insurance. Net expenses exceeded program revenues from the primary government's business—type activities by \$1.1 billion, an increase of \$160 million from the prior year.

For the Year Ended June 30, 2019

#### FINANCIAL ANALYSIS OF THE STATE'S GOVERNMENTAL FUNDS

#### **Fund Balances**

At June 30, 2019, the State's governmental funds reported combined ending fund balances of \$29.8 billion. The State reported \$28.1 billion, or 94.2 percent, as restricted, including \$19 billion related to the Land Grant Fund, \$5.5 billion associated with the Severance Tax Fund and \$1.6 billion attributable to the Capital Projects Fund, all established by state laws. Note 1.G.14 contains more details about the fund balance classifications at June 30, 2019. Committed, assigned, nonspendable and unassigned totaled \$1.7 billion, or 5.6 percent.

### State of New Mexico Fund Balances as of June 30, 2019 (Expressed in Thousands)

Note: Due to presentation change in the financials statements, individual fund percent change from prior year cannot be calculated.

#### **Governmental Funds**

#### **General Fund**

General Fund balance at June 30, 2019 totaled \$3.1 billion. Net change in General Fund balance, was an increase \$952 million. The General Fund ended the fiscal year 2019 with unassigned fund balance of \$1.6 billion.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

#### **Budgetary Highlights - General Fund**

The initial fiscal year 2019 budget was adopted by the Legislature during the 2018 Regular Session. The General Fund original budgeted revenues for fiscal year 2019 were 5 percent higher than the fiscal year 2018 final budget basis revenues. During the year, federal revenue was \$839 million less than the final approved budget. After budget amendments, the actual expenditures in the General Fund were \$1.3 million below the final budgeted amounts. This was mainly the result of agency-mandated measures to reduce expenditures. Refer to the budgetary comparison schedule for the General Fund in the Other Required Supplementary Information section of the CAFR.

#### Severance Tax Fund

Fund balance at June 30, 2019, totaled \$5.5 billion, an increase of \$247 million, or 4.7 percent, related increase in investment earnings.

#### **Land Grant Fund**

Fund balance at June 30, 2019, totaled \$19 billion, an increase \$1.1 billion, or 6.40 percent, reflective of increased investment earnings compared to the portfolio in the prior year.

#### FINANCIAL ANALYSIS OF THE STATE'S PROPRIETARY FUNDS

Exclusive of Internal Service Funds, the State's proprietary funds reported Net Position of \$1.3 billion, a decrease of \$277 million from the prior year net position.

#### **Educational Institutions**

Net Position at June 30, 2019, totaled \$329 million. Current period activity decreased the Net Position of the State's educational institutions by \$314 million, or 48.89 percent. For the fiscal year 2019 the State transferred \$871 million to the State's educational institutions, an increase of \$109 million, or 14.26 percent from fiscal year 2018.

#### DISCRETE COMPONENT UNITS

These are operations for which the State has financial accountability or the nature and significance of their relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. For the most part, these entities operate similar to private-sector businesses and the business-type activities described above. All of the State's discrete component units are presented in the financial statements.

The State's discretely presented major component units are:

- ♣ New Mexico Finance Authority
- New Mexico Mortgage Finance Authority

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

- ♣ New Mexico Lottery Authority
- University of New Mexico Foundation, Inc.
- New Mexico State University Foundation, Inc.

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the State's component units are presented in the notes to the financial statements.

#### CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

#### **Capital Asset Activity**

As of June 30, 2019, the State's investment in capital assets, net of accumulated depreciation, for governmental activities totaled \$5.8 billion and \$2.3 billion for its business-type activities. The state's capital assets include land, buildings, improvements, machinery and equipment, mineral rights, roads, highways and bridges. The change in the State's investment in capital assets for the current fiscal year was a modest decrease of .34 percent in total, for governmental activities decrease of .69 percent and increase of .84 percent for business-type activities.

The State has elected to use the depreciation method to account for infrastructure assets (roads and bridges). Under this method, the State allocates the cost of infrastructure assets over their estimated useful lives as depreciation expense. Expenditures to refurbish infrastructure are capitalized and cost depreciated. Under the allowable methodology, termed the modified approach, infrastructure is capitalized and all expenditures except those adding to capacity are expensed. The state did not elect to use the modified approach for infrastructure assets.

Refer to Note 6 of the financial statements for additional information on capital assets.

#### **Long-term Debt Activity**

The State Constitution and Law authorizes the State to issue general obligation bonds, severance tax bonds, and revenue bonds to finance or refinance the cost of State capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues. During the past year, the State continued to maintain a quality bond rating from Moody's Investors Services (Moody's) and Standard & Poor's Corporation (S&P) on all State bonds.

For the Year Ended June 30, 2019

The State had the following bond ratings at June 30, 2019:

#### State of New Mexico Bond Ratings at June 30, 2019

Bonds	Moody's	Standard & Poor's
General Obligation Bonds	Aa2/Stable	AA/Stable
Severance Tax Bonds	Aa2/Stable	AA-/Stable
Supplemental Serverance Tax Bonds	Aa3/Stable	A+/Stable
State Transportation Revenue Bonds Senior Lien	Aa1/Stable	AA+/Stable
State Transportation Revenue Bonds Subordinate Lien	Aa2/Stable	AA/Stable

Revenue Bonds issuances during the year totaled \$83 million.

Refer to Note 8 to the financial statements for additional information on the State's long-term debt and other liabilities.

#### ECONOMIC CONDITIONS AND OUTLOOK

#### **Economic Factors Affecting New Mexico's Fiscal Year 2019 Budget**

New Mexico utilizes a consensus revenue estimating group (CREG) comprised of legislative and classified executive economists to forecast General Fund revenue so that the Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations. The CREG bases its State General revenue forecast on forecasts of the U.S. economy from IHS Global Insight and Moody's Analytics in combination with forecasts of the New Mexico economy prepared by the University of New Mexico's Bureau of Business and Economic Research and Moody's Analytics. Economic inputs are supplemented with information provided by state agencies, the Congressional Budget Office, and other national data sources. Historical information on the value and volume of crude oil and natural gas produced in the state is derived from the state's GenTax Database reporting system, and product price forecasts are derived from the national economic forecasting services and other sources.

#### Trends in the U.S. Economy

The U.S. economy continued to grow in State fiscal year 2019. The national economy, as measured by real gross domestic, grew by 2.6 percent in fiscal year 2019. Total employment levels averaged 2.4 million, or 1.5 percent, above fiscal year 2018. U.S. average hourly wages grew by 3.2 percent, exceeding inflation of 2.1 percent.

U.S. economic growth grew at a moderate pace in fiscal year 2019, with GDP growth of 2.6 percent. In fiscal year 2019 the international trade war created economic uncertainty and national analytics firms have warned of a potential recession on the horizon. The Federal Reserve is expected to lower short-term interest rates headed into fiscal year 2020, in an effort to bolster US economic strength.

In 2020 the economic outlook for the national economy has changed drastically. In calendar 2020Q1 the national economy is either in a recession or headed into one by 2020Q2. This is due to unprecedented policy actions around the world designed to contain the Covid-19 outbreak. Causing additional uncertainty has been the Saudi Arabia-Russia price war which has flooded the international market with an oversupply of oil. Coupled with the collapse in economic activity due to Covid-19 the national economy faces a recessionary event in 2020.

The economic outlook does not incorporate the changes in oil prices in 2020 as a result of the Covid-19 outbreak and the Saudi Arabia-Russia price war.

#### **New Mexico Economy**

The New Mexico economy grew moderately in fiscal year 2019 and the energy sector continued to provide significant contributions. Reflective of New Mexico economic growth, state wages and salaries grew by 4.9 percent and total personal income in the state grew by 4.6 percent. During fiscal year 2019, New Mexico employment growth averaged 1.9 percent, adding 15,800 jobs. During fiscal year 2019 the Mining Sector has continued to grow setting new record levels for rig count, oil production, and taxable gross receipts. The Mining sector added 2,000 jobs during fiscal year 2019. Other sectors driving growth in fiscal year 2019 were the Construction Sector, the Professional and Business Services Sector, and the Leisure and Hospitality sector increasing employment by 3,100 jobs, 2,000 jobs, and 1,800 jobs respectively.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2019

Natural gas prices remained low in fiscal year 2019. Oil prices in fiscal year 2019 have remained lower than oil prices in fiscal year 2018. However, this has been offset by record levels of oil production in fiscal year 2019. Average New Mexico prices in fiscal year 2019 for crude oil and natural gas were \$51.80 per barrel and \$3.05 per mcf, respectively. New Mexico continued to be the third largest producing state for oil and the ninth largest for natural gas.

#### General Fund Revenue and Reserve Outlook

According to the December 2019 consensus revenue estimate, fiscal year 2019 recurring revenue is expected to have grown by 17.5 percent to over \$8 billion, while year-end financial reserves are estimated to be 28.9 percent of recurring appropriations. The growth in the revenue estimate is due to the increased oil and natural gas productions and the related revenues (both direct severance and direct gross receipts tax receipts from the industry) in fiscal year 2019 added to growth in personal and corporate income taxes and earnings on state balances.

Fiscal year 2020 recurring revenues are estimated to decline slightly by 2.9 percent when compared to fiscal year 2019. Total revenues for fiscal year 2020 are estimated to be around \$7.7 billion. The decline is due to an above average mineral rents and royalties payment received in fiscal year 2019. Mineral rent and royalties revenues are expected to return to trend in fiscal year 2020.

Oil and natural gas- related revenues are projected to be even higher than fiscal year 2019 levels as oil volumes continue to grow in fiscal year 2020. New Mexico oil prices are projected to average \$52.00 per barrel in fiscal year 2020. Natural gas prices have remained low and flat during the time period considered. New Mexico has vast amounts of natural gas in proved reserves. Natural gas production has increased as the energy industry increases its oil production. New Mexico is currently experiencing an oversupply of natural gas production. Putting downward on natural gas prices. New Mexico natural gas prices are expected to average \$2.10 per mcf in fiscal year 2020. Oil volumes are projected to increase by 16.5 percent and natural gas volumes are estimated to increase by 3.1 percent.

Oil and natural gas related growth, including severance, federal mineral leasing bonus and royalty payments and gross receipts tax revenue growth associated with oil exploration, is expected to be the largest driver of General Fund revenue growth in fiscal year 2020. Non-energy related growth in gross receipts tax is also expected as the Rio Grande corridor is expected to continue to see moderate growth, and food and medical hold harmless distributions to local governments continue to be phased out. Distributions from the Permanent Funds are also expected to contribute to growth, increasing general fund revenue by an estimated \$35 million in fiscal year 2020 due to a higher average 5-year market value driven by fund growth. Fiscal year 2020 ending reserves are projected to be \$2,406.7 million or 34 percent of recurring appropriations if no additional FY 2020 supplemental or special appropriations are made mid-year during the 2020 legislative session.

New Mexico is an energy state with a high degree of sensitivity to changes in the oil and natural gas markets. Energy-related revenues contribute significantly to the general fund. The economic outlook does not incorporate the changes oil prices in 2020 as a result of the Covid-19 outbreak and the Saudi Arabia-Russia price war. As this data are not available yet. These economic uncertainties are likely to negatively impact net income. Other financial impacts could occur though such potential impacts are unknown at this time.

#### GOVERNMENTAL FUND FINANCIAL STATEMENTS

#### **General Fund**

This fund is the principal operating fund of the State. It accounts for financial resources of the general government except those required to be accounted for in another fund.

#### **Debt Service Fund**

This fund accumulates resources in order to pay the debt service on the State's long-term debt.

### **Capital Projects Fund**

This fund accounts for all resources used to fund the capital improvement projects in the State.

#### **Severance Tax Fund**

This fund accounts for the annual portion of severance taxes generated from the production of minerals and other natural resources and distributes the monies to the State General Fund.

#### **Land Grant Fund**

This fund accounts for all of the resources of the Land Grant Fund.

#### RECONCILIATION OF THE BALANCE SHEET -GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

June 30, 2019 (In Thousands)

Total Fund Balances - Governmental Funds	:	29,783,941
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds: (See Note 6)		
Land and Other Nondepreciable Assets (less \$826 ISF)	\$ 1,290,561	
Buildings, Equipment, Infrastructure and Other Depreciable Assets		
(not including \$ 143,293 in Internal Service Fund balances)	16,470,667	
Accumulated Depreciation (less \$87,850 ISF)	(10,703,644)	7,057,584
Assets (receivables) not available to provide current resources are offset with		
deferred inflows of resources in the fund statements. The reduction of the deferred		
inflows and recognition of revenue increases net position in the Statement of Net Position.		105,323
Prepaid warranty expenses recorded as expenditures in the governmental funds and		
recorded as an asset, net of amortization, in the Statement of Net Position		8,123
The deferred loss on bond refunding issues is not recognized in the governmental		
funds, but is recognized in the government-wide statements.		70,901
The net pension asset for the pension fund which has a positive		
net position is not reported in the funds statements		18,485
The pension and OPEB related deferred outflows of resources are not recognized in the		
government-wide statements, and neither are the deferred inflows of resources.	735,325	
(less \$11,457 and (\$6,548) for ISF	(421,920)	313,405
The deferred gain on refunding is not recognized in the governmental funds, but		
is recognized the government-wide statements		(10,187)
Internal service funds (ISF) are used by management to charge for certain activities,		
such as insurance, information technology, fleet operations, printing, and		
telecommunications. The assets and liabilities of the internal service funds are		
included in governmental activities in the Statement of Net Position.		15,023
Accrued interest payable is not recognized in the governmental funds statements		(24,672)
Long-term liabilities, are not due and payable in the current period and therefore		
are not reported in the fund financial statements:		
Net pension liability (less \$50,887 for ISF)	\$ (3,290,683)	
Net OPEB liability (Less \$16,531 for ISF)	(1,018,537)	
Bonds payable, including bond premium and loans payable to component unit Compensated absences, notes payable, contingent liabilities, and other liabilities	(2,644,607) (192,702)	(7,146,529)
Other		(1,439)

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2019 (In Thousands)

Net Change in Fund Balances - Total Governmental Funds		\$	3,033,329
The change in Net Position reported for governmental activities in the Statement of Activities is different because:			
Governmental funds report capital outlays as expenditures; however, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:			
Capital outlay Depreciation expense (less \$ 9,578 ISF) Excess of capital outlay over depreciation expense	\$ 487,503 (513,464)		(25,961)
Net effect of revenues reported on the accrual basis in the Statement of Activities that do not provide current financial resources and thus are not reported as revenues in the funds until available.			105,323
Internal service funds are used by management to charge for certain activities, such as fleet operations, risk management, printing and records, communications services, and information processing. The net revenue (expense) of the internal			47.120
service funds is reported with governmental activities.  The governmental funds statements report warranty costs as expenditures, but the government-wide statements report these as prepaid expenses, net of amortization.			47,128 8,123
Net capital gain on the disposal of a building is not recognized in the funds financial statements, but is recognized in the govnernment-wide statements.			5,940
The change in estimate of a long-term receivable used for settlement of the Indian Water Rights liability is recognized only in the government-wide financial statements.			6,099
Bond proceeds, notes, and capital leases provide current financial resources to governmental activities by issuing debt, which increases long-term liabilities in the Statement of Net Position. Repayments of the bond, notes, and capital lease principal are expenditures in the governmental funds, but reduce liabilities in the Statement of Net Position:			
Payment of Bond and Capital Lease Principal Bond and Note Proceeds, Net	\$ 567,644 (321,618)		246,026
Governmental funds report the effect of bond premium and discount items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences.	\$ (9,316) 53,164		43,848
The deferred loss (less deferred gain) on refunding bond issues is capitalized and the amortization is reported in the Statement of Activities.			(20,876)
Pension expense and OPEB expense (revenue) of governmental funds is recognized in the Statement of Activities but not in the funds statements.	\$ (225,556) 21,227		(204,329)
Expenditures are recognized in the governmental funds when paid or due for items normally paid with available financial resources; however, the Statement of Activities is presented on the accrual basis and expenses and liabilities are reported when incurred, regardless of when financial resources are available or expenditures are paid or due. This adjustment combines the next bears of the following helenges:			
the net change of the following balances:  Compensated Absences Expense  Note Payable  Native American Water Rights Liability  Accrued Interest on Bonds Payable	\$ (1,227) (1,250) 6,974 (925)		
Pollution Remediation Obligation Contingent Liability	 23 153,600		157,195
Other		_	(4,435)
Change in Net Position of Governmental Activities		\$	3,397,410

#### PROPRIETARY FUND FINANCIAL STATEMENTS

#### **Educational Institutions Fund**

This fund accounts for the resources used to operate the seven institutions of higher education and three other schools, which were created by the *Constitution of the State of New Mexico*. These institutions are the University Of New Mexico, New Mexico State University, New Mexico Highlands University, New Mexico Institute of Mining and Technology, Western New Mexico University, Eastern New Mexico University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Visually Handicapped, and the New Mexico School for the Deaf.

#### Non-major Enterprise Funds

Non-major enterprise funds are presented in the Financial Section - Required and Supplemental Information.

#### **Internal Service Fund**

Combining financial statements for the internal service funds are presented in the Financial Section - Required and Supplemental Information.

#### FIDUCIARY FUNDS FINANCIAL STATEMENTS

#### Pension and Other Employee Benefits Trust Funds

These funds account for the resources accumulated and held for the payment of retirement and other benefits under plans operated by the Public Employees Retirement Association, the Educational Retirement Board, and the Retiree Health Care Authority. Pension trust funds are presented in the Financial Section - Required and Supplemental Information.

#### **External Investment Trust Funds**

These funds account for assets held by the State in a trustee capacity. The funds are held in custody for external participants in the New Mexico State Treasurer's Investment Trust Funds and the State Investment Council External Investment Trust Funds. External trust funds are presented in the Financial Section - Required and Supplemental Information.

#### **Private Purpose Trust Funds**

These funds account for resources held under trust arrangements and which benefit individuals, organizations, and other governmental units. These funds include the Scholarship Fund, the Education Trust Fund, the Water Trust Fund, and the Bartlett Trust Fund. Private purpose trust funds are presented in the Financial Section - Required and Supplemental Information.

#### **Agency Funds**

These funds are used to report resources held by various State agencies in a purely custodial capacity for distribution to external parties. Agency funds are presented in the Financial Section - Required and Supplemental Information.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 1

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of New Mexico (the State) and its component units have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The State's significant accounting policies are described below. All dollar amounts are in thousands, except when stated.

#### A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Primary government activities are distinguished between governmental and business-type activities. Governmental activities are generally financed through taxes, intergovernmental revenues, and other non-exchange revenues. The governmental activities column incorporates data from the internal service funds as well as the governmental funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

#### B. Reporting Entity

For financial reporting purposes, the State's financial reporting entity includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the Executive Branch, various offices relating to the Judicial Branch, and the ten educational institutions created by the *Constitution of the State of New Mexico*, Article XII, Section 11). The annual financial report does not include the financial statements of the community colleges or public schools.

The GASB has set forth criteria to be considered in determining financial accountability as defined in GASB Statement No. 14, *The Financial Reporting Entity* (as amended). These criteria include appointing a voting majority of an organization's governing body and 1) the ability of the State to impose its will on that organization or 2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. Where a State does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the reporting entity if an organization is fiscally dependent on the State, its resources are held for the direct benefit of the State or can be accessed by the State, or the relationship is such that it would be misleading to exclude it.

#### **Blended Component Units**

The following blended component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority. Except for the University of New Mexico Retiree Welfare Benefit Trust, a fiduciary fund of the University of New Mexico, separately issued financial statements for each of these blended component units can be obtained by the New Mexico State Auditor's Office.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

#### STC.UNM

STC.UNM (formerly known as Science & Technology Corporation @ UNM) is a nonprofit corporation formed under the auspices of the 1989 New Mexico University Research Park Act and the New Mexico Nonprofit Corporation Act. The business of the corporation is to manage the commercialization of technologies developed by the University's faculty and manage the real estate development of the Science & Technology Park at the University of New Mexico on the South Campus. STC.UNM, 101 Broadway Blvd. NE, Suite 1100, Albuquerque, NM 87102.

#### Lobo Development Corporation

Lobo Development Corporation (LDC) was established in October 2007, under the State of New Mexico's University Research Park and Economic Development Act. LDC was established to benefit UNM's Regents in the management and development of University-Owned real estate. The activities of LDC include the acquisition, development, disposition, and rental of University real estate. Lobo Development Corporation, 801 University Blvd. SE, Suite 207, Albuquerque, NM 87106.

#### Lobo Energy, Inc.

Lobo Energy, Inc. (LEI) was formed by the UNM Regents in June 1998, under the University Research Park Act to be a separate 501(c)(3) corporation wholly owned by UNM. Its responsibilities include the procurement of natural gas and electricity, operations and maintenance of all production facilities, and energy measurement and management systems. Lobo Energy, Inc., 800 Bradbury Dr. SE, Suite 216, Albuquerque, NM 87106.

#### University of New Mexico Medical Group (UNMMG)

The UNM Medical Group, Inc., was organized in 2007. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). UNMMG is a nonprofit corporation that was organized under the Act. UNMMG's purpose is to promote, advance and support the clinical, scientific, educational, research and charitable purposes of the School of Medicine and the University of New Mexico Health Sciences Center. UNMMG is responsible for the delivery of patient clinical services, practice oversight, and management of the professional medical practice of UNM. The UNMMG operates 20 clinics in addition to attending at the 76 clinics of the UNM Hospital. University of New Mexico Medical Group, 933 Bradbury Street, Suite 2222, Albuquerque, NM 87106.

#### UNM - Sandoval Regional Medical Center (SRMC)

In 2009, the UNM Regents approved formation of the Medical Center. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). SRMC is a not-for-profit corporation that was organized under the Act. The creation of SRMC resulted from collaborations between the University of New Mexico Medical Group and University of New Mexico Hospital and hold representation on the SRMC board of directors. SRMC purpose is to serve as a community based academic healthcare facility. The administrative offices are located at 3001 Broadmoor Blvd. NE, Rio Rancho, NM 87144.

#### Innovate ABQ, Inc.

Innovate ABQ, Inc. is a nonprofit corporation established under the provisions of the New Mexico Nonprofit Corporation Act and the State of New Mexico University Research Park and Economic Development Act which is operated exclusively for charitable, scientific, and educational purposes under Section 501(c)(3) of the IRC. Innovate ABQ, Inc., a public/private partnership, is a research and high technology business district located between the main University campus and downtown Albuquerque, New Mexico that serves as a catalyst for a new innovation economy

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

in New Mexico and other educational initiatives for the University. Innovate ABQ, Inc., 801 University Blvd. SE, Suite 207, Albuquerque, NM 87106.

#### Arrowhead Center, Inc.

Arrowhead Center, Inc. was organized pursuant to the provisions of the State of New Mexico University Research Park Act of 1989. It provides a financial benefit to New Mexico State University (NMSU) and was established to foster economic development within the State through the development of research parks and University real property as well as to protect, license and market intellectual property developed by faculty, staff and students of NMSU, as well as members of the community. Arrowhead Center, Inc., MSC 3CR, P.O. Box 30001, Las Cruces, NM 88003.

#### New Mexico Institute of Mining & Technology Employee Benefit Trust

This trust is a single-employer benefit plan organized as a legally formed trust that is tax exempt under section 501(c)(9) of the Internal Revenue Code. The trust was established to provide a funding vehicle to which participants and the Institute contribute to prefund, in part, the cost of other postemployment benefits for eligible retirees of the Institute.

#### New Mexico Institute of Mining & Technology Research Park Corporation

This is a New Mexico not-for-profit corporation organized to assist the Institute by making available funds to pursue technology research and other programs carried out by the Institute. The Institute is the sole member of the Corporation and appoints the Board of the Corporation.

#### **Discretely-presented Component Units**

In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the State. These component units are entities that are legally separate from the State, but are financially accountable to the State. Complete financial statements are available at the address given.

#### **Major Component Units**

#### ■ New Mexico Finance Authority (NMFA)

The Laws of 1992, Chapter 61, as amended, created the NMFA. The purpose of the New Mexico Authority Act is to create a governmental instrumentality to coordinate the planning and financing of state and local public projects, to provide for long-term planning and assessment of state and local capital needs and to improve cooperation among the executive and legislative branches of state government and local governments in financing public projects. The NMFA is considered a component unit of the State as the Governor appoints a majority of its Board. The NMFA is composed of eleven members, at which a majority of those members serve at the pleasure of the Governor. New Mexico Finance Authority, 207 Shelby Street, Santa Fe, NM 87501.

#### ■ New Mexico Mortgage Finance Authority (NMMFA)

The Laws of 1975, Chapter 303, as amended, created the NMMFA. The purpose of the NMMFA act is to create a separate public body apart from the State to facilitate programs to assist in the financing of housing for persons of low and moderate income within the State. The NMMFA is considered a component unit of the State because the Governor appoints a majority of its Board. The NMMFA is composed of seven members, at which a majority of those members serve at the pleasure of the Governor. NMMFA fiscal year-end is September 30. This year-end differs for all other

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

state entities, which have a June 30 fiscal year-end. New Mexico Mortgage Finance Authority, 344 Fourth Street SW, Albuquerque, NM 87102.

#### New Mexico Lottery Authority (Lottery Authority)

The Laws of 1995, Chapter 155, as amended, created the Lottery Authority Act. The purpose of the Lottery Authority Act is to create a separate public body apart from the State, to conduct the New Mexico state lottery and provide revenues for public purposes designated by the Act. The State's higher education institutions receive financial benefit. The Lottery Authority is considered a component unit of the State because the Governor appoints members of its Board. The Board is composed of seven members, at which those members serve at the pleasure of the Governor. New Mexico Lottery Authority, 4511 Osuna Rd NE, Albuquerque, NM 87109.

The following two component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority.

#### University of New Mexico Foundation, Inc. (UNM Foundation)

UNM Foundation is a nonprofit corporation, organized in 1979 to solicit, receive, distribute, invest, and manage funds for the benefit of the University of New Mexico. The majority of the Foundation's investments are managed by the University. The University of New Mexico Foundation, Inc., Two Woodward Center, 700 Lomas NE, Bldg. 2-203, Albuquerque, NM 87102.

#### New Mexico State University Foundation, Inc. (NMS Foundation)

NMS Foundation is a nonprofit corporation formed for the purpose of acquiring and managing charitable gifts, including endowed funds, to be used for the sole benefit of New Mexico State University. The Foundation reports on the FASB basis of accounting. New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003-3590

#### Non-major Component Units

The State's non-major component units have been determined to be financially accountable to the State. Non-major component units are: University of New Mexico Alumni Association, University of New Mexico Lobo Club, University of New Mexico - Anderson Schools of Management Foundation, Inc., New Mexico Tech Research Foundation, New Mexico Highlands University Foundation, Inc., New Mexico Highlands University - Highlands Stable Isotopes Corporation, Western New Mexico University Foundation, Inc., Eastern New Mexico University Foundation, Eastern New Mexico University Ruidoso Foundation, Northern New Mexico College Foundation, New Mexico Military Institute (NMMI) Foundation, Inc., New Mexico School for the Blind and Visually Impaired Foundation, Cumbres & Toltec Scenic Railroad Commission, New Mexico Renewable Transmission Authority, New Mexico Small Business Investment Corporation, and New Mexico State-chartered Charter Schools.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

#### C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporates data from the State's Enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the State has five discretely presented component units and twenty-one non-major component units. Component units are shown in total in the government-wide financial statements with a combining statement to show the details. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

#### D. Basis of Presentation - Fund Financial Statements

Fund Financial Statements The fund financial statements provide information about the State's funds, including its fiduciary funds. Separate statements are presented for each fund category – governmental, proprietary, and fiduciary. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining enterprise funds are aggregated and reported as non-major funds. The internal service fund is reported in a separate column on the proprietary funds financial statements. The accounts of the State are organized based on funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures.

The State reports the following governmental funds:

Major funds:

- General Fund This fund accounts for the financial resources of the State, except those required to be accounted
  for in another fund. This is the State's primary operating fund.
- Debt Service Fund Debt Service Fund accounts are used to account for the accumulation of resources for and
  the payment of principal and interest on general long-term obligations and other contractual obligations.
- Capital Projects Fund The Capital Projects Fund accounts for funds appropriated by the State Legislature for
  capital outlay, including severance tax and general obligation bond proceeds and State General Appropriation
  capital outlay funds.
- Severance Tax Fund The Severance Tax Fund accounts for the proceeds of severance taxes, which are levied by the State on certain natural resources extracted from State lands. Severance tax revenues are first applied to pay the required debt service on Severance Tax Bonds issued by the State. Remaining severance tax revenues are then transferred to the Severance Tax Fund, administered by the State Investment Council. Distributions from this fund are stipulated by the State Constitution.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

Land Grant Fund – The Land Grant Fund receives royalties and income from trust lands distributed to various
entities assigned by the Ferguson Act of 1898.

The State reports the following enterprise funds: Maior fund:

Educational Institutions Fund – The Educational Institutions Fund accounts for the activities of the State's ten educational institutions created by the Constitution of the State of New Mexico in Article XII, Section 11: University of New Mexico, New Mexico State University, Eastern New Mexico University, New Mexico Institute of Mining and Technology, Western New Mexico University, New Mexico Highlands University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Blind and Visually Impaired, and New Mexico School for the Deaf.

## Non-major funds:

The State's non-major enterprise funds include the following: Unemployment Insurance, Public Schools Insurance Authority, Miners' Colfax Medical Center, New Mexico Magazine, State Fair, Environment Department Clean Water, Corrections Industries, Industries for the Blind, State Infrastructure Bank, Department of Cultural Affairs Museums Program, and Education Trust Board.

The State reports the following internal service fund:

Internal Service Fund – The State reports the internal service fund type in the proprietary funds statements. The
activities accounted for in the internal service fund include fleet operations, risk management, printing and
records, communications services, and information processing. In the government-wide financial statements, the
Internal Service Fund is included with governmental activities.

Additionally, the State reports the following fiduciary fund types:

- Pension and Other Employee Benefits Trust Funds These funds are used to report resources that are required to be held in trust for the members and beneficiaries of pension plans and other employee benefit plans. These funds account for the activities of the Public Employees Retirement Association (PERA), Educational Retirement Board (ERB), the Retiree Health Care Authority (RHCA), and the Deferred Compensation Plan.
- External Investment Trust Funds These funds account for assets held by the government in a trustee capacity.
   These funds are used to account for cash, securities, and other investments held in custody for external participants in the New Mexico State Treasurer's Local Government Investment Pool and the State Investment Council's Investment Pools.
- Private Purpose Trust Funds These funds are used to report trust arrangements under which principal and
  income benefit individuals, private organizations, or other governments. These funds include the Scholarship
  Fund, Water Trust Fund, Higher Education Savings Plan, Bartlett Trust, Children's Trust, Children's Next
  Generation Trust, and Office of State Insurance Trust.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

Agency Funds – These funds are used to report resources held by the State in a purely custodial capacity for
external parties. Agency funds account for receipt of various taxes, refundable deposits, and other monies
collected or recovered to be held until the State has the right or obligation to distribute them to various entities or
individuals.

#### E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The State generally considers revenues available if they are collected within 60 days of the end of the current fiscal period. All other revenues are recognized when they are received if they are not susceptible to accrual. Expenditures are generally recorded when a liability is incurred, as under accrual accounting; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations.

Proprietary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described previously. Proprietary funds include both enterprise and internal service fund types. Enterprise funds report the activities for which fees are charged to external users for goods and services. Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are student tuition and fees, net of scholarship discounts and allowances, patient services, sales and services, interest on loans, and most federal, state, and local contracts and grants. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

The component units' financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The information is presented in order to be consistent with the government-wide statements, and is less detailed than the presentation in each component unit's separately issued financial statements.

#### F. Budgetary Information

#### 1. Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute, in accordance with procedures prescribed by the Financial Control Division (FCD), Department of Finance and Administration. Per these procedures, accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, permission must be obtained from FCD to pay the obligation out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated. The General Fund presented herein includes the general funds of all state agencies. The largest of these general funds are the component appropriation accounts. These appropriation accounts are part of the Department of Finance and Administration. The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as non-appropriated (not budgeted) by the Legislature are the Severance Tax Permanent Fund, the Land Grant Permanent Fund, and the following Enterprise Funds: the Educational Institutions, State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds. The legal level of budgetary control is at the appropriation level.

#### 2. Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

#### 3. Multiple Year Appropriation - Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These non-operating budgets primarily serve as a management control tool, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided. Special appropriations budgets for one year are included in the Budgetary Comparison Schedule.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

## 4. Excess of Expenses/Expenditures Over Budget

For the fiscal year ended June 30, 2019, the Gaming Control Board exceeded Pcode/program budget authority.

#### G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

#### 1. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand, cash on deposit with banks, investment in the State General Fund Investment Pool, Local Government Investment Pool, and cash invested in short-term securities. Cash equivalents include investments in short-term, highly liquid securities having an initial maturity of three months or less. Cash balances not held by the New Mexico State Treasurer (State Treasurer) and controlled by various State officials are generally deposited in interest-bearing accounts or other legally stipulated investments.

#### 2. Investments

Investments are under the control of the State Treasurer, the State Investment Council, and other administrative bodies as determined by law. In certain instances, investments are restricted by law or other legal instruments. Investments are valued at fair value. The fair value of investments is based on published prices and quotations from major investment brokers at current exchange rates as available. For investments where no readily ascertainable fair value exists, management in consultation with their investment advisors, have determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The change in fair value is recognized as a component of investment income in the current year.

The Education Trust Board calculates the net asset value of its units as of the close of The New York Stock Exchange (the Exchange), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. The net asset values of the investments are determined as of the close of the Exchange on each day the Exchange is open for trading. Short-term money market-type debt securities with remaining maturities of sixty days or less are valued at amortized cost (which approximates market value).

## 3. Investment Pools

State Treasurer - The State is required by statute to deposit any money received with the State Treasurer. Balances maintained at the end of the day are pooled and invested by the State Treasurer in overnight repurchase agreements. All repurchase agreements are collateralized by U.S Treasury Securities held by the State Treasurer's custodian bank. These pooled balances are collectively called the State General Fund Investment Pool (SGFIP), which also includes the deposits in the Tax-Exempt Bonds Proceeds Investment Pool and Taxable Bond Proceeds Investment Pool. The State General Fund is the State of New Mexico's main operating account. All State revenues are credited to the General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature. The Bond Proceeds Pools consist of pooled assets received through the issuance of taxable and tax-exempt bonds. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the SGFIP are reported as a cash equivalent.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

All interest revenue is allocated to the General Fund unless state statute or trust agreements require allocations of interest to other funds. Interest is allocated based on the average daily balance and average monthly interest rates.

In addition to the SGFIP pooled cash account, the State Treasurer maintains the Local Government Investment Pool (LGIP). The LGIP also includes the deposits in the Reserve Contingency Fund. Cities, counties, other non-state agencies, and state agencies invest monies with the State Treasurer in the LGIP. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the LGIP are reported as a cash equivalent.

The LGIP, an external investment pool, is not registered with the Security and Exchange Commission (SEC) as an investment company. The investments are recorded at fair value based on quoted market price; however, individual participant balances remain at their carrying cost. The LGIP does not have unit shares. Per Chapter 6-10-10.1F, New Mexico Statutes Annotated (NMSA) 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in the amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. At June 30, 2019, the LGIP carrying cost approximated the fair value. Participation in the LGIP is voluntary. The external portion of LGIP is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the New Mexico State Treasurer's audited financial statements can be obtained by writing the New Mexico State Treasurer, P.O. Box 5135, Santa Fe, NM 87505 or online at <a href="http://www.saonm.org/audit reports">http://www.saonm.org/audit reports</a>.

Public Employees Retirement Association - The Public Employees Retirement Association created a short-term investment pool (Pool) to maximize the benefits of the investment diversification and investment earnings. The Judicial, Magistrate, Volunteer Firefighters, and Public Employees Retirement Systems (Systems) participate in the Pool. The fair value of the investments in the Pool is the same as the value of the pool shares. All investments in the Pool are either SEC registered or are exempt from SEC registration under exemption 3(a)(3) or 4(2) of SEC regulations. Each System's equity percentage in the Pool is based on that System's investment in the pool and will only increase or decrease by additional deposits or withdrawals.

State Investment Council - The State Investment Council (Council) is responsible for the investment activities of certain state trust funds. The Council's investments are reported in the following categories: governmental activities, business-type activities, private-purpose trust funds, and external investment trust funds. Each of the fund types are participants in the Council's pools. Each pool is composed of units of participation of unlimited quantity. Each unit of participation represents an equal beneficial interest in the respective pool and no unit has priority over any other. Each purchase or sale of units requires written authorization as defined in the joint powers agreements executed between the Council and each participant. All units are purchased by cash payment. Each unit of participation is recorded in book entry form by the Council.

The external portion of the Council's investment pools is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the Council's report can be obtained by writing the New Mexico State Investment Council, 41 Plaza la Prensa, Santa Fe, NM 87507.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

#### 4. Inventories

The governmental funds, except for the Department of Transportation are mandated to use the purchase method of accounting for inventories. Under the purchase method, inventories are recorded as expenditures when purchased. For the consumption method, costs are recorded as expenditures when consumed rather than when purchased.

Inventories of the proprietary funds are valued by using either the average cost, retail inventory, or first-in-first-out (FIFO) methods.

#### 5. Receivables and Loan Receivables

Receivables, net of allowance, in the governmental, business-type activities and fiduciary activities consist mainly of amounts due from the federal government, local governments, customers, patients and applicable insurance companies, taxpayers, students, and others.

Various reimbursement procedures are used for federal awards received by the State. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year-end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Determining the amount of expenditures reimbursable by the federal government, in some cases, requires management to estimate allowable costs to be charged to the federal government. As a result of this and other issues, management provides an allowance for potential contractual allowances for federal revenue. Any changes in these estimates are recorded in the period that the estimate is changed. Loans are stated at their principal amount. Interest on loans is accrued based on the daily principal balance outstanding, except when a loan has been past due for 90 days. Certain loans are to governmental entities and secured by certain pledged revenues. The loans are being repaid in accordance with their loan agreements.

## 6. Capital Assets

Capital assets, which include automobiles, buildings and improvements, furniture and fixtures, software, library books, infrastructure (e.g., roads, bridges, sidewalks, and similar items), machinery and equipment, and portable buildings are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The State defines capital assets as costing at least five thousand dollars or more when acquired and having an estimated useful life greater than one year.

Capital assets purchased by governmental funds are recorded as expenditures in the governmental fund financial statements. Interest expense for capital asset construction related to governmental activities is not capitalized. Interest expense incurred during construction of capital facilities related to business-type activities and component units is immaterial and is not capitalized in all cases. There is no depreciation recorded for land and infrastructure (right-of-way land). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

In accordance with the practices followed by many museums and libraries, museum and library collections are not reported as assets in the accompanying financial statements. Purchases of the items are reported as expenditures. Certain library books, however, are capitalized.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

There is no depreciation recorded for land, and construction in progress. Buildings, equipment, infrastructure and other depreciable assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Years
Infrastructure	10-40
Land Improvements	15-30
Furniture and Equipment	3-25
Vehicles	3-12
Buildings and Improvements	5-75

As provided by GASB standards, the State elected to use the depreciation method to account for infrastructure assets (roads and bridges). This method requires the State to allocate the cost of infrastructure assets over their estimated useful lives as depreciation expense.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

#### 7. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

#### 8. Accrued Liabilities

Accrued liabilities include accrued current payroll and fringe benefits payable at year end. These benefits consist of the employee and employer portions of taxes, insurance, retirement, and other compensation-related withholdings.

## 9. Compensated Absences

Qualified employees' vacation leave is accrued at a graduated schedule of 80 to 160 hours per year, depending upon the length of service and employees' hire date. Employees are paid for the accumulated annual leave upon retirement or other termination up to 240 hours. A maximum of thirty days of annual leave (240 hours) may be carried forward into the beginning of the calendar year, with any excess forfeited. Qualified employees sick leave accrued at the rate of 3.7 hours per bi-weekly pay period. There is no limit to the amount of sick leave, which an employee may accumulate. Employees are paid for accumulated sick leave annually, or upon retirement or other termination, but only for accumulated sick leave in excess of 600 hours. Annually, employees may be paid 50.0 percent of the excess over 600 hours, up to a maximum of 120 hours. Upon retirement or other termination, employees are paid 50.0 percent of the excess over 600 hours, up to maximum of 400 hours. The total liability of the governmental activities for compensated absences is recorded in the government-wide Statement of Net Position as part of long-term liabilities. However, in accordance with GAAP, the liability is not recorded in the Governmental funds financial statements. See additional disclosure in the detailed notes.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

#### 10. Unearned Revenue

In the government-wide statements, proprietary fund statements, and fiduciary fund statements, unearned revenue is recorded when cash or other assets are received prior to being earned. *GASB Statement No. 65* requires resources received from another government under voluntary or government-mandated non-exchange transactions before time restrictions are met, but after all other eligibility requirements are met, should be classified as deferred inflows of resources.

#### 11. Bonds Payable

Bond premiums and discounts and deferred amounts on refunding are deferred and amortized over the life of the bonds using the bonds outstanding method or straight-line method, which approximates the effective interest method. Bonds payable are reported at face amount, with the applicable bond premium or discount and deferred amount on refunding reported separately. In accordance with GASB Statement 65, bond issuance costs are expensed. In the governmental fund financial statements, total bond premium or discount is recognized when the bonds are first issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### 12. Insurance Losses and Loss Adjustment Expense

Public Schools Insurance Authority – The New Mexico Public Schools Insurance Authority (PSIA) insurance losses and related adjustment expenses are charged to operations as incurred. The reserves for losses and loss adjustment expenses are determined based upon case-basis evaluations and actuarial projections, and include a provision for claims incurred but not reported. The actuarial projections of ultimate losses on reported claims and the estimate of claims incurred but not reported are based on a composite of PSIA's experience and benefits, property, casualty, and workers' compensation insurance industry data, which supplements PSIA's historical experience and includes the effects of inflation and other factors. Losses are reported net of estimated amounts recoverable from excess insurance, salvage and subrogation, and the deductible portion of claims. Adjustments to the probable ultimate liability for losses and loss adjustment expenses are made continually, based on subsequent developments and experience, and are included in operations as made.

Retiree Health Care Authority - The amount shown for the Retiree Health Care Authority as reserve for losses and loss adjustment expenses is an actuarially calculated estimate of the ultimate costs of settling all incurred but not reported claims as of the fiscal year-end, while the amount shown on the accompanying fiduciary statement of changes in fiduciary Net Position as losses and loss adjustment expenses represents the change in this estimate during the fiscal year. These reserves represent, in management's opinion, the best estimate of the ultimate cost of settling all reported and unreported claims. There exists a range of variability around the best estimate of the ultimate cost of settling all unpaid claims. Accordingly, the amount reflected in the accompanying financial statements may not ultimately be the actual cost of settling all unpaid claims and the difference may be significant.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

#### 13. Interfund Transactions

#### **Government-Wide Financial Statements**

Interfund Activity – In general, eliminations have been made to minimize the double counting of internal activity, including internal service fund type activity. However, interfund services, provided and used between different functional categories, have not been eliminated in order to avoid distorting the direct costs and program revenues of the applicable functions. Operating transfers between governmental and business-type activities are reported at the net amount.

**Interfund Balances** – Interfund receivables and payables have been eliminated from the government-wide Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

#### Governmental Fund Financial Statements

Interfund Activity – Interfund transactions for goods sold or services rendered for a price approximating the external exchange value and employee benefit contributions are accounted for as revenues and expenditures/expenses in the funds involved.

Transfers are used to report flows of cash (or other assets) between funds without equivalent flows of assets in return or a requirement for repayment. The State's transfers are based on legislative appropriations or other legal authority.

#### 14. Net Position and Fund Balance

Net Investment in Capital Assets consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of bonds, mortgages, notes, or other debt attributable to the acquisition, construction, or improvement of such assets. Significant unspent related debt proceeds are not included in the calculation of Net Investment in Capital Assets. The unspent portion of the debt is included in restricted for capital projects. The State issues General Obligation bonds and Severance Tax bonds to finance projects for the State and local governments. The Legislature appropriates the bond proceeds from each bond issue to projects throughout the State. Only bonds issued for projects appropriated to State agencies and recognized as a State asset are included in this calculation.

The State reports Net Position as restricted when constraints placed on Net Position are a) externally imposed by creditors, grantors, contributors or laws, or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Restricted Net Position is designated as either expendable or nonexpendable. Expendable Restricted Net Position includes those funds that may be expended either for a stated purpose or for a general purpose subject to externally imposed stipulations. Nonexpendable Restricted Net Position includes those funds that are required to be retained in perpetuity. Restricted Net Position includes the State's permanent endowment funds subject to externally imposed restrictions governing their use.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

Unrestricted Net Position consists of net position that does not meet the definition of Net Investment in Capital Assets or Restricted Net Position.

When both restricted and unrestricted net position are available for use, it is the State's policy to use restricted resources first and then unrestricted resources, as they are needed.

In the governmental fund financial statements, fund balances are classified as non-spendable, restricted, committed, assigned, or unassigned. Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed by outside parties or internally imposed by law through constitutional provision or enabling legislation.

Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislature, such as an appropriation or legislation. The State Legislature is the highest level of decision-making authority that can, by passage of legislation, commit fund balance that is not already restricted. Once adopted, the limitation remains in place until similar action takes place, usually in the form of a new budget bill or other legislation.

Assigned fund balance is constrained by the Legislature's intent to be used for specific purposes by directive of the Legislative Finance Committee of the Legislature or in some cases by legislation. Legislative directives dictate that all fund balances remaining at the end of the fiscal year shall be reverted back to the State General Fund unless the fund is stipulated as non-reverting by the Legislature or by laws or regulations imposed by grantors. If the fund is non-reverting, the agency governing board or department head has the authority to assign a fund balance for a specific use. The State has not adopted a formal flow assumption policy and therefore uses the GASB recommendations; that is, it is the State's policy to use restricted fund balance before using components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance, and lastly, unassigned fund balance.

## H. Revenues and Expenditures/Expenses

In the government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g. general control, education, health and human services, etc.).

Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted." General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g. federal grants), available only for specific purposes. Unused restricted revenues at year-end are recorded as restrictions of fund balance. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

In the governmental fund financial statements, expenditures are reported by character: Current, Capital Outlay, or Debt Service. Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Revenues and expenses of proprietary funds are classified as operating or non-operating and are sub-classified by object (e.g. depreciation, benefits, claims and premiums, and game expense). Operating revenues consist of sales of goods or services, interfund services provided/used, grant revenues for specific activities that are considered operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified as operating. An example of this would include interest income on loans. All other revenues that do not meet the above criteria should be classified as non-operating.

#### Grants

Federal grants and assistance awards made based on entitlement periods are recorded as revenues when entitlement occurs. All federal reimbursement-type grants are recorded as revenues when the related allowable expenditures are incurred and all applicable eligibility requirements are met.

#### Investment Income

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses (which includes investment management and custodial fees, securities lending expense, and all other significant investment related costs). Negative investment income is reported where the decrease in fair value of investments due to market conditions exceeded the other components of investment income.

#### **Endowments**

Net appreciation on the Educational Institutions' investments of donor-restricted endowments are available for authorization for expenditure by the governing boards of the universities with endowments, which are reported in Net Position as restricted for purposes for which the endowments were established. Donor restricted endowment disbursements of the net appreciation of investments are permitted in accordance with the Uniform Prudent Management of Institutional Funds Act, Chapters 46-9A-1 to 46-9A-10, NMSA 1978, except where a donor has specified otherwise. The universities use the total-return policy for authorizing and spending investment income. The universities review the investment earnings designed to support distributions from the pool and to protect the purchasing power of the endowment principal.

## Retirement and Employee Benefit Costs

Most state employees participate in a defined benefit pension plan administered by the New Mexico Public Employees' Retirement Association and the New Mexico Educational Employees' Retirement Board. Contributions collected for the pension plans and the retirement benefits paid are accounted for in the Pension and Other Employee Benefits Trust Funds. All costs for pension, health, and federal social security contributions are reported as expenditures in the appropriate function in governmental fund types or as expenses in applicable proprietary fund

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

types. Pension and other benefits costs are recognized in the fiscal year in which the underlying payroll costs are incurred.

#### I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

#### J. New Accounting Standards

For the fiscal year ended June 30, 2019, the State implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB):

#### GASB Statement No. 83, Certain Asset Retirement Obligations

This statement addresses the accounting and financial reporting for legally enforceable liabilities resulting from the retirement of certain tangible capital assets, mainly those which are large and/or not easily disposed, such as sewage plant facilities or nuclear reactors.

GASB Statement No. 88, <u>Certain Disclosure Related to Debt, Including Direct Borrowings and Direct Placements</u>
The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

#### K. Future Accounting Standards

The following pronouncements of the Governmental Accounting Standards Board (GASB) are due to be implemented by the State in the year indicated. For all of these new standards, the State has not determined the effect on the financial statements that implementation of the standards will entail. Note: as of March 26, 2020, the GASB is considering postponing all Statement and Implementation Guide provisions with an effective date that begins on or after reporting periods beginning after June 15, 2018, due to the COVID-19 pandemic; however, a final decision on this has not been made.

## GASB Statement No. 84, Fiduciary Activities

This statement establishes criteria for identifying fiduciary activities of all state and local governments, and describes those fiduciary funds which should be reported, if applicable. The statement is due to be adopted by the State for the fiscal year ending June 30, 2020.

## GASB Statement No. 87, Leases

This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This statement is due to be adopted by the State for the fiscal year ending June 30, 2021.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

## GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period

This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. This statement is due to be adopted by the State for the fiscal year ending June 30, 2021.

#### GASB Statement No. 90, Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61

The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The statement is due to be adopted by the State for the fiscal year ending June 30, 2020.

#### GASB Statement No. 91, Conduit Debt Obligations

The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The statement is due to be adopted by the State for the fiscal year ending June 30, 2022.

#### GASB Statement No. 92, Omnibus 2020

The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The statement is due to be adopted by the State for the fiscal year ending June 30, 2021.

## L. State Auditor Rule Disclosure

The Office of the State Auditor Rule requires that audit reports contain a schedule of Joint Powers Agreements (JPA) and Memoranda of Understanding (MOU) that are significant to the State as a whole. There are none that meet this criterion.

Disclosure of these schedules may be found in the stand-alone audit reports which have been issued by the individual State agencies. These are available from the Office of the State Auditor at <a href="https://www.saonm.org">www.saonm.org</a>.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 2

NOTE 2. Cash

#### **Primary Government**

#### **New Mexico State Treasurer**

All monies, except with specific authority, must be deposited with the State Treasurer. These operating funds are commingled in the State Investment Pool, managed by the Treasurer. Every State agency reports its operating cash as "Investment in State General Fund Investment Pool", and this pool is reported in Note 3, "Investments". The issues concerning the reconciliation of the State General Fund Investment Pool and the resolution are reported in Note 17, "State General Fund Investment Pool."

Cash on deposit represents the demand deposit account with the fiscal agent bank. Current year transactions reflect all banking activity for the fiscal year as well as the activity of investments purchased and disposed of during the fiscal year. The State Treasurer invests all public monies, with the exception of the New Mexico Lottery and the university funds. The university funds are entirely under the control of the universities. These funds are held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance (BOF). The State Treasurer invests excess cash balances on behalf of certain earmarked funds of state agencies identified by State statute and local governments. Interest earnings are distributed based on average outstanding cash balances for local governments and the state agencies where interest is allowed to be earned. All other interest earnings are transferred to the State General Fund Appropriations Account.

All State agencies, unless otherwise exempted, must have specific approval from the State Treasurer in order to maintain separate bank accounts. These accounts are mainly used for agency fund purposes, either as a collection fund until final distribution, or when the funds are being held by the agency in a fiduciary capacity and the funds do not belong to the State.

Custodial Credit Risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The State Treasurer's Office collateral manager reviews and tracks all state funds held in state depository institutions. Deposits and collateral are reviewed almost daily and a statutorily required risk assessment is performed quarterly. Balances are collateralized in compliance with NMAC 2.60.4.

The State Treasurer invests all public monies held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance. The Treasurer deposits public monies with New Mexico financial institutions in denominations which generally are in excess of the \$250 thousand in federal deposit insurance. Accordingly, the State Treasurer requires that depository financial institutions provide additional collateral for such investments. The collateral generally is in the form of marketable debt securities and is required in amounts ranging from 50.0 percent to 102.0 percent of the par value of the investment, dependent on the institution's operating results and capital. Collateral for the fiscal agent account is required in amounts equal to 50.0 percent of the average investment balance.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS – NOTE 2 (CONTINUED)

As of June 30, 2019, collateral pledged to public money deposits was as follows:

## Office of the State Treasurer Statutory Collateral Compliance (Expressed in Thousands)

	Fis	Fiscal Agent		rtificates	
		Account	of Deposit		
Cash in Bank *	\$	52,056	S	23,700	
Less: FDIC Insurance Coverage		-		(1,500)	
Total Unsecured Public Funds	\$	52,056	\$	22,200	
Collateral Requirement (50.0% -					
102.0% of Uninsured Public					
Funds)	\$	26,028	\$	11,100	
Collateral Pledged:					
U.S. Government Securities	\$	117,042	\$	5,429	
Surety Bond		-		8,250	
Collateral Pledged		117,042		13,679	
Over Collateralized	\$	91,014	\$	2,579	

<sup>\*</sup> Fiscal agent bank is required to collateralize the monthly average balance.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 2 (CONTINUED)

While the balances of the Office of State Treasurer are fully collateralized per state statute, GASB Statement No. 40 requires that the State disclose balances which are not fully insured. As of June 30, 2019, the funds held by the State Treasurer in the fiscal agency account were exposed to custodial credit risk as follows:

## Office of the State Treasurer Custodial Credit Risk (Expressed in Thousands)

	Balance at		
	June 30, 2019		
Cash in Banks	\$	793,425	
Less: Deposit of Institutions Which are			
Fully Insured and Collateralized		(135,425)	
Deposits of Institutions Not Fully			
Collateralized		658,000	
Less: FDIC Insurance Coverage		(3,000)	
Uninsured Deposits		655,000	
Collateral Pledged:			
Surety Bond		215,470	
Securities		228,856	
Total Collateral Pledged		444,326	
Subject to Custodial Credit Risk	\$	210,674	

In the table above, FDIC insurance coverage and collateral pledged relate only to those institutions whose deposits are not fully insured and/or collateralized.

The cash deposits which relate to investments of the State Investment Council, the Public Employees Retirement Association, the Educational Retirement Board, the Retiree Health Care Authority, and the Education Trust Board are monitored by their individual Boards in conjunction with contracted professional investment firms. The respective Boards of these agencies have instituted policies and procedures to safeguard the public assets under their control.

UNM Investments Held by Foundation			(229,871)
Other			(110,353)
Total separately held investments		\$	63,678,668

There are six different agencies or groups which report investments for the State, each of them with separate authority and different objectives. They are: a) the Office of the State Treasurer; b) the State Investment Council; c) the Public Employee and Educational Employee Retirement Plans; d) the State universities and colleges; e) Education Trust Board; and f) State agencies with separately-held investments. In addition, the component units also report separately-held investments.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

Those agencies whose investments are held by either the State Investment Council (SIC) or the State Treasurer's Local Government Investment pool (LGIP) are not presented in the following investment disclosures, since those investments are already included.

#### State Treasurer

The State Treasurer operates four separate investment pools. They are as follows:

#### General Fund Investment Pool

The General Fund is the State of New Mexico's main operating account. All State revenues are credited to the State General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature.

#### Consolidated Investment Pool (Tax-Exempt Bond Proceeds Investment Pool #1)

The Tax-Exempt Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of tax-exempt State of New Mexico general obligation, severance tax, and supplemental severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to the true interest cost of all State of New Mexico debt outstanding and in accordance with the Investment Policy of the Office of the State Treasurer.

## Consolidated Investment Pool (Taxable Bond Proceeds Investment Pool #2)

The Taxable Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of State of New Mexico severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to a benchmark and in accordance with the State Treasurer's Investment Policy.

## Local Government Investment Pool (LGIP; Short-term Investment Pool)

Cities, counties, and other agencies invest monies in the State Treasurer external investment pool (LGIP). The LGIP investments are presented at fair value based on the valuation date in the financial statements. The individual participant balances remain at their amortized cost. As of June 30, 2019, LGIP amortized cost approximated fair value, with the difference deemed immaterial.

The LGIP is not SEC registered. Chapter 6-10-10.1, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies, and are either direct obligations of the United States or are backed by the full faith and credit of the United States government, or are agencies sponsored by the United States government. The LGIP investments are monitored by the same investment committee and adhere to the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the LGIP is voluntary. As of June 30, 2019, the WAM(R) of the LGIP was 50 days, and the WAM(F) was 100 days. The fund was rated AAAm by Standard & Poor's as of June 30, 2019.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

Investment Guidelines and Limitations

The Investment Policy is a comprehensive guide governing the investment functions of the New Mexico State Treasurer with respect to all financial assets of the State of New Mexico invested by the State Treasurer in the exercise of their authority and for which the State Treasurer acts as the investing authority. These assets include, as examples only, the State General Fund, the LGIP, bond proceeds, bond debt service funds, and those pension and permanent funds included in Note 12 and other special funds with respect to which the State Treasurer is the investing authority.

The investment policy and the public finance investment decisions of the State Treasurer must serve and satisfy several fiduciary, fiscal, and financial obligations. In making these decisions and in resolving any conflict or competing considerations that may arise from time to time among these obligations, the State Treasurer will observe the following priority:

- Preservation of Principal to ensure the performance of basic governmental functions, the first priority must be accorded to the preservation and protection of the principal of the funds to be invested;
- Maintenance of Liquidity the second level of priority must be accorded to maintaining sufficient liquidity to satisfy the reasonable anticipated, continuing operational requirements of State Government, and
- Maximum Return the third priority must be accorded to maximizing investment return, through budgetary and
  economic cycles, consistent with the higher priority accorded to the security and liquidity of principal.

#### State Investment Council

The State of New Mexico Investment Council (Council) is responsible for the investment activities of certain State trust funds. The Council is composed of eleven members, and currently manages the Land Grant, Severance Tax, and Tobacco Settlement Permanent Funds, the Water Trust Fund, and various investment pools for the benefit of state agencies and other political entities within the State of New Mexico.

In accordance with Chapter 6-8, NMSA 1978, the Council is authorized to invest in domestic and international stocks, debt obligations of the U.S. government, its agencies, or instrumentalities, debt obligations of any U.S. or foreign corporation, partnerships, or trusts with an investment-grade rating from a national rating service, real estate investments, national private equity investments, repurchase agreements secured by U.S. obligations or other securities backed by the U.S., and hedge funds.

## **Pension Benefits Funds**

The two pension benefits agencies are the Public Employees Retirement Association of New Mexico (PERA) and the Educational Retirement Board (ERB). PERA operates four separate cost-sharing multiple-employer public employee retirement systems, and ERB operates one such system for the benefit of educational employees in the State. More information on each of these agencies can be found elsewhere in these Notes. Each is governed by a separate Board, and each has specific investment policies and guidelines to which they must adhere.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

#### State Universities and Colleges

As mentioned in Note 1. B, the ten educational institutions created by the *Constitution of the State of New Mexico* are included in the State reporting entity. Eight of these institutions maintain separate investment portfolios, as permitted by statute, with some of the investments held and managed by State agencies and some managed by the institutions themselves. Each has investment policies and guidelines which are similar.

#### **Education Trust Board**

The Education Trust Board (ETB) is responsible for the management of the two higher education savings plans: Scholar's Edge, and The Education Plan (Plans). The Plans are savings vehicles for higher education expenses under Section 529 of the U.S. Internal Revenue Code. The funds are managed by a private company under contract agreement.

#### A. Fair Value

Fair Value Measurement – The State categorizes fair value measurements within the fair value hierarchy established by GASB Statement No. 72, Fair Value Measurement and Application. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Level 1 inputs are quoted prices (unadjusted) for identical assets in active markets, accessible at the measurement date. Level 1 inputs include exchange markets, dealer markets, brokered markets, and principal-to-principal markets.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset, either directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets and quoted prices for identical or similar assets in markets that are not active.

Level  ${\bf 3}$  inputs are unobservable inputs for an asset.

Investments that do not have a readily determinable fair value are recorded using net asset value (NAV). NAV is generally provided by the investment managers but the State considers the reasonableness of the NAV, based on market information, to arrive at the fair value estimates for each investment.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

#### B. Custodial Credit Risk

Custodial credit risk is the risk that the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of the State Treasurer, and are held by either the counterparty or the counterparty's trust department or agent but not in the State Treasurer's name.

The State Treasurer's investment policy for safekeeping and custody states that all investment securities purchased by the State, held as collateral on repurchase agreements or held as collateral on securities lending arrangements shall be held in third-party safekeeping at a fiduciary qualified to act in this capacity. All securities held for the State account will be held free and clear of any lien and all transactions will be conducted in compliance with Chapter 6-10-10O, NMSA 1978, which requires contemporaneous transfer and same day settlement. On a monthly basis, the custodian will provide reports, which list all transactions that occurred during the month, and all securities held for the State at month-end, including the book and market value of holdings. The fiscal agent and representatives of the custodian responsible for, or in any manner involved with, the safekeeping, and custody process of the State shall be bonded in such a fashion as to protect from losses from malfeasance and misfeasance. All investment and collateral securities were held by the State Treasurer or its Custodian in the name of the State Treasurer.

All of the PERA's and ERB's securities are held by the third party custodian, independent of any counterparty; therefore, there is minimal risk that PERA and ERB will not be able to recover the value of its investments or collateral securities held by a counterparty.

PERA's investment policy specifically defines the custodian's duties as it pertains to holding of the assets, collection of income generated from the assets, and assisting PERA for the accounting of said assets.

ERB's investment policy limits holding of securities by counterparties to those involved with securities lending. In the event of the failure of the counterparty to deliver back the borrowed securities, ERB will sell the collateral securities and offset any gains or losses with the counterparty. All of the investments of the Retiree Health Care Authority were held by the State Investment Council.

#### C. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. U.S. obligations or investments guaranteed by the U.S. Government are excluded from this requirement. The quality rating of PERA's investment policy restricts investments to specific investment ratings issued by nationally recognized statistical rating organizations.

ERB requires that noncash, interest-paying securities in the high-yield bond portfolios may not exceed 5.0 percent of the market value of the portfolio and that investments in cash may represent no more than 5.0 percent of each individual fund. Credit risk is managed through diversification and by operating within defined parameters versus a benchmark index.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

ETB invests directly in Underlying Investments. The registered Underlying Investments' prospectuses provide greater detail about the investment strategies and practices of the Underlying Investments, in compliance with federal regulations and specifically, the Form N-IA of the Investment Company Act of 1940. Form N-IA discloses information and policies about the Underlying Fund and its investment objectives, as well as information on the company structure and operations. In addition, the Program Disclosure Statement and the Participation Agreement provide greater detail about the credit risk, if any, by certain nonregistered Underlying Investments.

The quality ratings of investments in fixed income securities at June 30, 2019, were as follows:

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

#### **Custodial Credit Risk**

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the State, and are held by either the counterparty or the counterparty's trust department or agent but not in the State's name. All of the State's securities are held directly or by third party custodians, independent of any counterparty, in the name of the State.

#### D. Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. It is the policy of the State to diversify its investments portfolios. Assets shall be diversified to reduce the risk of loss resulting from an over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. At June 30, 2019, there were no holdings with a single issuer comprising five percent or more of total net investments. It should be noted that investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

#### E. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Investment managers attempt to match investments with anticipated cash requirements so as to lessen this risk.

PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager. Duration is loosely defined as the dollar weighted average time to recover all of principal and fixed-income investment. PERA's fixed-income managers are typically limited to duration of plus or minus one year or 20.0 percent of the duration of the applicable portfolio benchmark. ERB does not have a policy for interest rate risk management. However, interest rate risk is managed through duration by operating within defined risk parameters versus a benchmark index.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

#### Securities Collateral

The State's Investment Policy states that no repurchase agreement shall be entered into unless the contract is fully secured by deliverable obligations of the United States or other securities backed by the United States having a market value of at least 102.0 percent of the amount of the contract. The Office of the State Treasurer reports the credit ratings and maturities on collateral securities held by that office at June 30, 2019 as follows:

## Collateral Securities Held

		(L.Qres	sea in Indusar	us)		
						Value
		•	nterest Rate Ri			• 454.000
	U.S. Gov	ernment Mo	rtgage-backed	Securities AA+	3	2,464,000

\$ 2,464,000	\$	s -	s -	s -	\$	2,464,000

#### **Securities Lending**

The State Public Employee Retirement Association (PERA) participates in a securities lending program as authorized by State statute and its Board policies. Both the State Investment Council and the Educational Retirement Board have terminated their lending programs.

The types of securities lent are U.S. Treasury Notes and Bonds, U.S. and international equity securities, and corporate bonds and notes. Under this program, securities are transferred to an independent broker-dealer or other lending agent in exchange for collateral in the form of cash, government securities, and/or irrevocable bank letters of credit, with a simultaneous agreement to return the collateral for the same securities in the future. The collateral must equal at least 102.0 percent of the market value of the securities.

Per Board policy, PERA may invest the cash collateral in eligible securities or other investments as defined in the governing securities lending agreement. The duration of investments so made does not generally match the maturities of securities loaned. Securities received as collateral may not be pledged or sold without borrower default.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

Total securities on loan at June 30, 2019, had a carrying amount and fair value of \$554.5 million. Under the agreement, the lending agent is required to indemnify the entity if the borrower fails to return the securities, if collateral is inadequate to replace the securities lent, or if the counterparty fails to pay the entity for income distributions by the securities' issuers while the securities are on loan. There were no such losses during the year ended June 30, 2019, due to borrower default.

The fair value of investments made with cash collateral is reported as an asset; the fair value of collateral received is recorded as a liability as PERA must return the cash collateral to the borrower upon the expiration of the loan. The fair value of the securities lending collateral investments was \$341.7 million and the securities lending obligations were \$341.6 million at June 30, 2019. Total cash and noncash collateral was \$587.6 million, 105.1% of the fair value of the securities on loan.

At June 30, 2019, there had been no losses resulting from borrower defaults and PERA had no credit risk exposure to borrowers because the amounts PERA owed to borrowers did not exceed the amounts the borrowers owed to PERA. Net earnings from the securities lending program totaled \$2.9 million for the fiscal year.

#### **Derivatives**

Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. The State's retirement funds' investment policies allow certain portfolio managers to trade in certain derivatives for hedging purposes.

The notional or contractual amounts of derivatives indicate the extent of the State's involvement in the various types and uses of derivative financial instruments and do not measure the State's exposure to credit or market risks, and they do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and other terms of the derivatives.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2019, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the financial statements are as follows:

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

Risk – There are certain risks inherent in investments in derivatives. Counterparties to financial instruments expose the State to credit risk in the event of nonperformance. The fund managers that are authorized to invest in derivatives are given specific parameters as to the types of derivatives invested in and ratings of the counterparties they are allowed to enter into contracts with to ensure transactions are entered into with only high quality institutions. The State is exposed to market risk; the risk that changes in market conditions may make an investment less valuable. Exposure to market risk is managed within risk limits set by management through buying and selling of specific instruments or by entering into offsetting positions. Foreign currency risk for investments is the risk that changes in exchange rates will adversely affect the investments. Managers of these assets are given discretion to hedge this risk.

#### **Types of Derivatives Instruments**

Foreign Currency Exchange Contracts. The State's retirement funds may enter into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the State's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal as they are entered into with a limited number of highly rated counterparties.

Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. Gains and losses on foreign currency may occur to the extent that the fair value of the contracts varies from the actual contract amount, and they are recorded as incurred in the financial statements

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 3 (CONTINUED)

Futures Contracts. The State's retirement funds enter into futures contracts in the normal course of its investing activities, including equity futures, fixed income futures, and commodities futures. They are utilized in order to manage market risk associated with the equity and fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of Net Position available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges.

During 2019 and 2018, the retirement funds were a party to futures contracts held for trading purposes for U.S. Treasury bonds and 90-day Euro dollar fixed income futures. Upon entering into a futures contract, the Board is required to deposit either in cash or securities an amount ("initial margin") equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by NMERB, depending on the daily fluctuation in the value of the underlying contracts. No U.S. Treasury securities owned and included within NMERB's investments, were held by the Plan's broker as performance security on futures contracts as of June 30, 2019. There were no outstanding futures contracts as of fiscal year ending June 30, 2019.

*Options*. An option is a contract in which the writer of the option grants the buyer of the option the right to purchase from (call option), or sell to (put option), the writer a designated instrument at a specified price within a specified period. Both written and purchased options were used by the State during the fiscal year. When the State purchases or writes an option, an amount equal to the premium paid or received by the State is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. Gain or loss is recognized when the option contract expires or is closed. As of June 30, 2019, there were no open written or purchased options.

Swap Contracts. Swap contracts are executed on a number of different bases. The two types employed by the State during the fiscal year were interest rate swap contracts and credit default swap contracts. An interest rate swap contract is an agreement between two parties to exchange periodic interest payments. One party agrees to make payments to the other based on a fixed rate of interest in exchange for payments based on a variable rate. The State employs interest rate swap contracts to adjust fixed income portfolio durations. A credit default swap contract is similar to an insurance policy; with the credit risk of an individual issuer or a basket of issuers (the "reference asset") the insured factor. Under such a contract, two parties enter into an agreement whereby the first party pays the second party a fixed periodic payment for the specified life of the contract (analogous to an insurance premium). The other party makes no payment unless a credit event related to the reference asset occurs. If such an event takes place, the second party is obligated to make a payment to the first party. The size of the payment is linked to the decline in the reference asset's market value following determination of the occurrence of a credit event.

*Hedge Funds*. The use of other derivatives is allowed under the Hedge Fund Investment Policy. These investments are under the management of the Hedge Fund managers who are employed in the "Hedge Fund", "Emerging Market Debt," and "Opportunistic Credit" classifications.

Asset-Backed Securities. The State invests in various forms of asset-backed securities, which fit the previous definition of derivative securities. These securities are held for investment purposes. The credit risk, interest rate risk, and foreign currency risk for these instruments have been disclosed elsewhere in these Notes.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 4 (CONTINUED)

Accounts receivable balances are an aggregation of amounts due from the federal government, customers, and others. Receivables from customers include charges for services to local governments, fees and fines issued by the courts and corrections, employer contributions for unemployment benefits, amounts from investment brokers, interest earnings, general and selective income taxes, and receivables because of overpayments to individuals receiving state assistance.

#### **Arizona Water Settlement**

The State of New Mexico entered into the Arizona Water Settlement with the federal government. Under the terms of the agreement, the federal government will pay the State of New Mexico a total of \$66 million in 2004 dollars adjusted for inflation, in 10 annual installments. The inflation adjusted amount is estimated at \$90.4 million. The installment of \$9.04 million was received by the Agency during the fiscal year ended June 30, 2019, and the Agency recorded a receivable of \$16.5 million to account for the remaining amount due. This receivable will be reduced as payments are received from the federal government according to the settlement agreement. In addition, the actual amounts received may require adjustment relative to the receivable recorded, due to indexing.

The amounts expected by year, as of June 30, 2019, assuming imputed interest of approximately 6.17%, are as follows:

#### Arizona Water Settlement Receivable (Expressed in Thousands)

Year-End June 30	P	rincipal	I	nterest	Total
2020		8,020		1,020	9,040
2021		8,516		524	9,040
Total	\$	16,536	\$	1,544	\$ 18,080

The amounts received under this settlement agreement are restricted to costs of a New Mexico Unit that would develop all or some of the water provided to New Mexico in the Arizona Water Settlement Act, for water utilization alternatives that meet a water supply demand, planning, environmental restoration, or mitigation.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS – NOTE 4 (CONTINUED)

## **Discrete Component Units**

The following is an analysis of the allowance for loan losses as of June 30, 2019 for the two largest discretely-presented component units (in thousands):

#### NMFA & NMMFA - Loan Loss Allowance

	NN	I Finance	N	M Mortgage
	A	uthority		Fin. Auth.
Beginning Balance	\$	4,107	\$	1,391
Provision for Loan Losses		121		839
Loans Written Off, Net of Recoveries		(1,447)		1,070
Ending Balance	\$	2,781	\$	3,300

NM Finance Authority Loans have repayment terms ranging from one to 30 years. The stated interest rates are between 0.0-6.0 percent. NMMFA mortgage loans have repayment terms ranging from 10 to 40 years. The stated interest rates for these programs are as follows:

NMMFA - Loan Repayment Terms

Rental Housing Programs	2.5% -	7.0%
Other Mortgage Loans	0.0% -	8.9%
Second Mortgage Down		
Payment Assistance		
Loans	0.0% -	6.6%

MBSs have stated interest rates ranging from 2.8% and 7.5%.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS – NOTE 5

## NOTE 5. Interfund and Interagency Receivables, Payables, and Transfers

Interfund receivables and payables balances result from the time lags between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and 3) payments between funds are made.

Transfers between funds occur when one fund collects revenue and transfers the assets to another fund for expenditure or when one fund provides working capital for another fund. All transfers must be legally authorized by the Legislature through statute or an Appropriation Act. Transfers during the year were made to finance the operations of the individual departments as authorized by the Legislature and to revert (transfers out) any unspent or unencumbered balance of the authorized appropriations. Transfers between the primary government and the fiduciary funds and component units are reclassified as expenditures in the government-wide financial statements.

The composition of interfund balances as of June 30, 2019, is as follows (in thousands):

						Transfers		Transfers
	D	Due From Due To				In		Out
Governmental Activities:								
General	\$	29,027	\$	309,930	\$	1,082,250	\$	1,625,577

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 7

## **NOTE 7. Deferred Outflows of Resources**

#### A. Deferred Charge on Refunding

The State issued multiple series of refunding bonds in prior years to advance-refund certain older issues. Thus, the bonds which were advance-refunded are considered defeased in substance. The excess of the reacquisition price (funds required to refund the old debt) over the net carrying amount of the old debt resulted in a loss, reported as a deferred outflow of resources. For fiscal year ending June 30, 2019, the deferred outflow of resources for governmental activities and business-type activities were as follows (in thousands):

## **Deferred Charge on Refunding**

	Gov	ernmental	Busi	ness-type
Beginning Balance	\$	81,590	\$	5,572
Additions		-		-
Deletions		(10,689)		(780)
Ending Balance	\$	70,901	\$	4,792

#### B. Interest Rate Swaps

In the course of bond refunding transactions, the State has entered into transactions termed interest rate swaps, which are classified as hedges. This has resulted in items classified as a deferred outflow of resources. For more information on these interest rate swaps, see Notes 8 G and 8 H.

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

## NOTES TO THE FINANCIAL STATEMENTS – NOTE 8

## NOTE 8. Long-term Liabilities

Changes in long-term liabilities for the year ended June 30, 2019, are presented in the following table (in thousands). As referenced below, certain long-term liabilities are discussed in other Notes to the Financial Statements.

		Beginning								Amounts		
		Balance, Restated	A	dditions		Deletions	_	Ending Balance	_	ue Within One Year		Long term Debt
Governmental Activities:

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

## B. General Obligation Bonds

The State issues general obligation bonds to provide funds for the acquisition, construction, and renovation of major capital facilities for local governments as authorized by the Legislature of the State of New Mexico. General obligation bonds are direct obligations and pledge the full faith and credit of the State. These bonds generally are issued as 10-year serial bonds with equal amounts of principal maturing each year. Funding for the payment of the debt service of the general obligation bonds is provided through the collection of property taxes levied by the local governments receiving the funding for capital spending. General obligation bonds outstanding at year-end are as follows:

Annual debt service requirements to maturity for general obligation bonds are as follows:

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

#### C. Severance Tax Bonds

Severance tax bonds are used to fund the capital needs of state agencies, local governments, and public and higher education as authorized by the Legislature of the State of New Mexico. In addition, severance tax bonds have been issued to refund severance tax bonds. Funding for the payment of the debt service of the severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources, such as minerals, oil, and gas. The severance tax bonds are secured by the levied taxes. This is a permanent commitment of a portion of total severance tax revenues. As authorized by State statute, severance tax revenues are transferred to the Severance Tax Bonding Fund and first pay the required debt service on severance tax bonds and supplemental severance tax bonds issued by the State, with the remainder being transferred to the Severance Tax Permanent Fund. For the year ended June 30, 2019, total severance tax revenues transferred to the Severance Tax Bonding Fund were \$672.4 million. The total principal and interest requirements were \$173.7 million for long-term debt and \$256.4 million for short-term debt for all severance tax and supplemental severance tax bonds and short-term notes.

Severance tax bonds payable outstanding at year-end are as follows:

## D. Short-term Debt

Per Section 7-27-8 NMSA, the Office of State Treasurer is required to transfer any money left in the Severance Tax Bond Fund every June 30 and December 31 to the Severance Tax Permanent Fund. The State Board of Finance issues short-term Severance Tax Notes, which are of one to three days duration, in order to more fully utilize the excess cash until such time as it is transferred. During the fiscal year 2019, short-term notes were sold:

	ginning alance	Issued		Re	edeemed	Ending Balance

## F. Pledged Revenue

The following listing provides more details on the types of revenue pledged for the various revenue bonds outstanding

#### Governmental Activities

State of New Mexico - Severance Tax Bonds Agency:

Purpose of Bonds: Construction and acquisition of capital projects statewide

Total Amount of Bonds Issued: \$1.7 billion

Type of Revenues Pledged: Severance tax revenues collected from mineral-extracting companies.

Term of Commitment: Through June 30, 2029 Total Debt Service Remaining: \$ 954.8 million Revenue Stream for Current Year: \$ 672.4 million Debt Service for Current Year: \$ 166.5 million

Energy, Minerals, and Natural Resources Department Agency:

Purpose of Bonds: Acquisition and development of state parks and recreation areas.

Total Amount of Bonds Issued: \$ 7.3 million

Type of Revenues Pledged: Department's share of governmental gross receipts tax revenue

Term of Commitment: Through June 30, 2023 \$ 2.2 million Total Debt Service Remaining: \$ 1.1 million Revenue Stream for Current Year: Debt Service for Current Year: \$ 536 thousand

Department of Transportation Agency:

Purpose of Bonds: Construct and improve State highway and transportation system.

\$ 1.4 billion Total Amount of Bonds Issued:

Type of Revenues Pledged: Gasoline excise taxes, motor vehicle registration and other fees

deposited into State Road Fund, plus Federal Highway Fund revenues

Term of Commitment: Through June 30, 2030 \$ 1.2 billion Total Debt Service Remaining: \$ 838 million Revenue Stream for Current Year: Debt Service for Current Year: \$ 155 million

Agency:

Department of Cultural Affairs Purpose of Bonds & Loan: Renovate existing museum structures, develop permanent exhibits.

Total Amount of Debt Issued: \$5.8 million

Type of Revenues Pledged: Department's share of governmental gross receipts tax revenue

Total Debt Service Remaining: Term of Commitment: Through June 30, 2023 Revenue Stream for Current Year: \$ 916 thousand Debt Service for Current Year: \$ 628 thousand

Spaceport Authoriy Agency:

Purpose of Bonds Construction of the Spaceport America launch facility.

Total Amount of Debt Issued: \$76.3 million

Type of Revenues Pledged: Authority's share of governmental gross receipts tax revenue

Total Debt Service Remaining: \$ 63.8 million Term of Commitment: Through June 30, 2029 Revenue Stream for Current Year: \$ 4.2 million Debt Service for Current Year: \$ 5.6 million

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

#### Governmental Activities (Continued)

Agency: Bernalillo County Metropolitan Court

Purpose of Bonds Court parking structure
Total Amount of Debt Issued: \$ 30.7 million
Type of Revenues Pledged: Court facilities fees collected.
Total Debt Service Remaining: \$ 23.6 million
Term of Commitment: Through June 30, 2025

Revenue Stream for Current Year: \$ 3.5 million

Debt Service for Current Year: \$ 3.9 million

Agency: General Services Department

Purpose of Bonds State facilities acquisition and development.

Total Amount of Debt Issued: \$ 174 million

Type of Revenues Pledged: Government gross receipts tax

Total Debt Service Remaining: \$ 256.6 million
Term of Commitment: Through June 30, 2039
Revenue Stream for Current Year: \$ 14.2 million
Debt Service for Current Year: \$ 14.2 million

#### Business-type Activities

Agency: Miners' Colfax Medical Center

Purpose of Bonds: Improvement and expansion of medical facilities

Total Amount of Bonds Issued: \$14.6 million

Type of Revenues Pledged: Center's share of distributions from the State Land Grant and the

Charitable, Penal, and Reform Permanent Funds

Total Debt Service Remaining: \$ 10.1 million

Term of Commitment: Through June 30, 2027

Revenue Stream for Current Year: \$ 3.0 million

Debt Service for Current Year: \$ 1.3 million

Agency: Educational Institutions (UNM, NMSU, ENMU, WNMU, NMMI,

NMHU, NM Tech)

Purpose of Bonds: Construction and improvement of various capital facilities

Total Amount of Bonds Issued: \$ 1.3 billion

Type of Revenues Pledged: Substantially all unrestricted revenues, including Permanent Fund

distributions, student fees, and income from revenue-producing facilities, but excluding state appropriations and income from clinical operations.

Total Debt Service Remaining: \$ 1.2 billion
Term of Commitment: Through June 30, 2049
Revenue Stream for Current Year: \$ 1.1 billion
Debt Service for Current Year: \$ 76.4 million

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

#### Other Liabilities

#### Compensated Absences

Compensated absences of governmental activities are liquidated in the General Fund. Claims liabilities of governmental activities of the Internal Services agencies are liquidated in the Internal Service Fund. Compensated absences of business-type activities are liquidated in the respective fund of obligation.

#### Pollution Remediation Obligation

The State is responsible for environmental management to reasonably protect human health and the environment in accordance with the Environmental Improvement Act, Chapter 74-1-1, NMSA 1978 (Act). Governmental Accounting Standards Board Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations (GASB 49) provides guidance in estimating and reporting the potential costs of pollution remediation.

The following details the nature of the identified sites:

#### Leaking Petroleum Storage Tanks (LPST)

The State oversees cleanups of LPST sites and reimburses eligible parties from the PST corrective action fund, which has paid for the vast majority of LPST cleanups. However, for Priority 1 State Lead sites, in which there is an imminent danger to the public health or environment, the State has obligated itself to begin remediation clean-up activities as a result of an unwilling or unable property owner in the amount of \$1.6 million as of June 30, 2019.

#### Superfund

The Superfund Oversight Section of the State assists the United States Environmental Protection Agency (EPA) in characterization of inactive hazardous waste sites; identifies sites which warrant remedial or removal action under Superfund (CERCLA); and oversees remedial activities and provides management assistance to EPA at Superfund sites listed on the National Priorities List (NPL). There are currently 16 listed Superfund sites and 4 delisted sites in New Mexico which are in various stages of investigation and remediation. Eight of these sites (6 listed and 2 delisted) are subject to State cost-share with EPA. One of the 8 State cost-share Superfund sites was placed on the NPL in April 2016. The site is currently in the remedial investigation phase in which no financial obligation exists. The Department estimates it will take at least 2 or 3 years before a Record of Decision is issued by the EPA. As of June 30, 2019, this site is excluded from the estimated pollution remediation liability. As of June 30, 2019, this site is excluded from the estimated pollution remediation liability which for Superfund sites totals \$25.8 million.

The total pollution remediation liability for both the LPST and Superfund sites are as follows:

	Е	Balance					В	alance
	June 30, 2018		Additions		<u>Deletions</u>		June 30, 2019	
Amount Due Within One Year	\$	503	\$	207	\$	(89)	\$	621
Amount Due in More than One Year		26,976		1,619		(1,760)		26,835
Total Pollution Remediation Liabilities	\$	27,479	\$	1,826	\$	(1,849)	\$	27,456

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

#### Indian Water Rights Liability

New Mexico currently has three Indian water rights settlements pending implementation: the Navajo Nation Settlement in the San Juan River adjudication, the Settlement Agreement with the Pueblos of Nambe, Pojoaque, Tesuque, and San Ildefonso in the Aamodt adjudication, and the Taos Pueblo Settlement in the Rio Pueblo de Taos/Rio Hondo adjudication. For each of these three settlements, a settlement agreement was executed in 2005 or 2006 by the tribe or Pueblos and the State of New Mexico. The Aamodt and Taos Pueblo settlement agreements also were executed by other water right owning parties. Subsequent to the passage of federal legislation authorizing each of the settlements in 2009 and 2010, the Secretary of the US Department of Interior signed all three settlement agreements on behalf of the United States. Copies of the three full-executed settlement agreements and related documents can be found at: www.ose.state.nm.us/legal\_ose\_proposed\_settlements.html.

Each of the agreements involves a contribution from the State of New Mexico in the form of construction of infrastructure. The value of infrastructure and mutual benefits projects contemplated in the three settlements are estimated at more than \$1.6 billion as of June 30, 2019. The State will not own the infrastructure once completed; the infrastructure and projects will be owned by tribal and local governments.

The State of New Mexico will receive a credit towards its cost share of about \$3.18 million. A portion of the State's share includes \$10 million on non-mandatory expenditures for ditch rehabilitation under the Navajo Settlement. The State has met its cost share obligations under the Taos Pueblo settlement.

The State has recognized the estimated liability of \$69.7 million in the financial statements as of June 30, 2019.

A summary of the funds appropriated towards the settlements follows:

Indian Water Rights Settlement:		Total Cost Share		Appropriated Funds	Unappropriated Balances		
Aamodt	\$	75,470	\$	44,000	s	31,470	
Taos		20,050		20,150		(100)	
Navajo		34,132		32,225		1,907	
Total	\$	129,652	S	96,375	\$	33,277	

A summary of the funds disbursed and the remaining liability follows:

Indian Water Rights Settlement:		Total Cost Share		Disbursed To Date	Balance, June 30, 2019		
Aamodt	s	75,470	\$	15,000	s	60,470	
Taos		20,050		14,541		5,509	
Navajo		34,132		30,404		3,727	
Total	s	129,652	\$	59,945	S	69,706	

Due to the fact that the timing of the payments is subject to obtaining appropriations, the amount due for these settlements and any related cost indexing is based on best estimates.

## H .University of New Mexico

#### Standby Purchase Agreements

Standby Purchase Agreements provide liquidity support on variable rate bonds that are remarketed weekly. The liquidity/commitment fees are based on a percentage of the outstanding bond balance, payable semiannually. Liquidity fees for the years ended June 30, 2019 and 2018 were \$259,198 and \$249,303, respectively. An agreement with U.S. Bank was entered into on December 31, 2014 for a three year term expiring December 29, 2019. The University has entered into negotiations with U.S. Bank for a possible three year extension of the agreement.

A schedule including maturities and fees is as follows (in thousands):

			U	S Bank				
Liquidity	Series		Series		Series			Grand
Expiration		2001		2002B		2002C	_	Total
12/29/2019	\$	21,355	\$	13,405	\$	28,845	\$	63,605

## COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

#### Risks

#### Credit Risk

Each of UNM's derivative instruments is held with the same counterparty except for Derivative Instrument D. Deterioration of credit ratings could indicate a potential inability of the counterparty to make the required periodic payments. The credit ratings for each of the counterparties are as follows:

	Moody's		S &	k P	Fitch		
Entity	L/T Rating	S/T Rating	L/T Rating	S/T Rating	L/T Rating	S/T Rating	
JP Morgan	Aa2	Pl	A+	Al+	AA	F1+	
RBC Royal Bank	A2	P1	AA-	A1+	AA	F1+	

#### Interest Rate Risk

UNM is exposed to interest rate risk on its receive-variable, pay-fixed underlying interest rate swaps. As the Securities Industry and Financial Markets Association (SIFMA) swap index decreases, the University's net payment on the underlying swaps increases. Alternatively, on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, as LIBOR and the SIFMA swap index increases, the University's net payment on the overlay swaps increases.

#### Basis Risk

The variable-rate debt hedged by UNM's derivative instruments are variable-rate demand obligation (VRDO) bonds that are remarketed every seven days. The University is exposed to basis risk on its pay-variable (SIFMA), receive-variable (USD Swap Rate) overlay interest rate swaps, because the variable-rate payments received by the University on these derivative instruments are based on a rate USD Swap Rate other than the index (SIFMA) the University pays on the VRDO bonds. At June 30, 2019, the interest rate on the University's variable-rate hedged debt (SIFMA) is 1.9 %, while the 63.55% of five year USD Swap Rate + 0.31% is .93 %.

#### Termination Risk

UNM or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. In addition, UNM is exposed to termination risk on Derivative Instruments B and C because the contract provides the counterparty with a knockout option to terminate the contract if the 180-day SIFMA is equal to or greater than 7.0 percent. The 180-day SIFMA is defined as the weighted average rate taken off the USD floating SIFMA Index Rates published within the previous 180-day period. If at the time of termination, a derivative instrument were in a liability position, UNM would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

#### Rollover Risk

UNM is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the debt. When these derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, UNM will be re-exposed to the risks being hedged by the derivative instrument. Derivative Instruments B and C expose UNM to rollover risk because the counterparty has the option to terminate the contract by exercising a knockout option.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

Foreign Currency Risk

UNM has no exposure to foreign currency risk from its derivative instruments.

#### Commitments

All of UNM's derivative instruments include provisions that require UNM to post collateral in the event its credit rating falls below certain levels. UNM has entered into a two-way Credit Support Annex (CSA) with the swap counterparties, which is based on each party's long-term unsecured unsubordinated debt rating. The following matrix dictates the potential collateral postings if the swaps mark-to-market values are above the mandated thresholds (in thousands):

	S	Swap MTM							
	Th	Threshold for							
Rating	Par	Party's A & B							
AA/Aa2 and >	USD	\$	25,000						
AA-/Aa3	USD	\$	20,000						
A+/A1	USD	\$	15,000						
A/A2	USD	\$	10,000						
A-/A3	USD	\$	5,000						
BBB+/Baa1 and <	USD	\$	_						

The collateral to be posted is to be in the form of U.S. Treasury securities in the amount of the fair value of derivative instruments in liability positions net of the effect of applicable netting arrangements. If UNM or the counterparty does not post collateral, the derivative instrument may be terminated. UNM's credit rating is AA/Aa2 at June 30, 2019; therefore, no collateral has been posted.

#### Derivative Instrument Payments and Hedged Debt

As of June 30, 2019, aggregate debt service requirements of UNM's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are presented below. These amounts assume that current interest rates on variable-rate bonds and current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary. The hedging derivative instruments column reflects only net receipts/payments on derivative instruments that qualify for hedge accounting (in thousands).

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

# University of New Mexico Debt Service Requirements - Hedging Derivative Instruments

Hedge Deriv. Fiscal Year Instruments, Ending June 30, Principal Interest Net Total \$ 2020 \$ \$ \$ 8,179 6,320 356 1,503 2021 6,580 315 1,370 8,265 2022 6,855 281 1,217 8,353 2023 252 1,048 8,455 7,155 2024 7,465 220 873 8.558 2025 7,770 183 697 8,650 2026 9,900 140 521 10,561 2027 2,900 78 301 3,279 2028 3,030 60 221 3,311 2029 3,160 40 141 3,341 2030 2,470 18 61 2,549 7,953 63,605 1,943 73,501

#### Fiscal Year Changes in Swap Valuations

UNM has entered into interest rate swaps as shown in the prior schedule. The swaps were put in place starting in fiscal years 2002 and 2003. The University has recorded the swaps at their estimated fair values as of June 30, 2019. Swaps A through D are deemed cash flow hedges, and therefore, in addition to recording the liability at fair value, the University has recorded an offsetting deferred outflow of resources. Annually, the changes to the fair values are recorded as an increase or decrease to the liability and the offset to the deferred outflow of resources. The fair value change in fiscal year 2019 for the hedge instruments was a \$1.4 million increase to the liability and an equal offsetting increase to the deferred outflow of resources. Swaps E and F are not cash flow hedges, but rather are considered investment swaps, and changes in their fair value are recorded as investment gain (loss). The fair value change for swaps E and F as of June 30, 2019 was recorded to unrealized gain in the amount of \$331.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 9

#### NOTE 9. Net Position and Fund Equity

#### A. Governmental Fund Balances

Fund balances of governmental funds are classified as:

- Non-spendable amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be intact. Examples include inventories and permanent fund principal.
- Restricted amounts where legally enforceable constraints are imposed by an external party such as a grantor, by
  the State Legislature, or by the constitution at the same time the revenue is created.
- Committed amounts where constraints are imposed by formal action of the government's highest level of
  decision-making authority, the State Legislature or the Governor, which cannot be used for any other purpose
  unless the constraint is changed by similar action. These constraints are imposed separately from the creation of
  the revenue.
- Assigned amounts where constraints are imposed on the use of resources through the intent made by any level
  of decision-making authority in the government if the governing body has expressly delegated that authority to
  the official or to a committee.
- Unassigned the residual amount after all classifications have been considered. The General Fund is the only fund that reports a positive unassigned fund balance.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 10

#### NOTE 10. Leases

#### **Operating Leases**

The State leases building and office facilities and other equipment under operating leases. Although the lease terms vary, most leases are subject to annual appropriations from the State Legislature to continue the lease obligation. If an appropriation is reasonably assured, leases are considered non-cancellable for financial reporting purposes.

Operating leases contain various renewal options, as well as some purchase options; however, due to the nature of the leases, they do not qualify as capital leases and the related assets and liabilities are not recorded. Operating lease payments are recorded as expenditures or expenses when paid or incurred. Commitments under operating leases are as follows (in thousands):

	Gov	ernmental	Bus	iness-type	Fid	uciary
2020	\$	65,506	\$	11,915	\$	159
2021		63,592		7,647		72
2022		56,914		6,840		1
2023		53,225		5,384		-
2024		40,659		4,926		-
2025-2029		131,863		3,607		-
2030-2034		8,103		202		-
2035-2039		731		24		-
Thereafter		97,162		1,384		-
Total	\$	517,755	\$	41,929	\$	232

Operating lease expenditures/expenses for fiscal year 2019 for governmental activities, business-type activities, and fiduciary activities, respectively (in thousands) were \$ 81,100, \$ 14,389, and \$ 168.

# **Capital Leases**

The State is obligated under lease purchase contracts. In the opinion of counsel for the State, these lease purchase contracts comply with the State Supreme Court Montano vs. Gabaldon decision, in that payments for these will be made from Special Revenue Funds and not from general tax revenue.

Leases, that in substance are purchases, are reported as capital lease obligations. In the government-wide financial statements and proprietary fund financial statements, assets and liabilities resulting from capital leases are recorded at the inception of the lease at either the lower of fair value or the present value of future minimum lease payments. The principal portion of lease payments reduces the liability, and the interest portion is expensed. On the governmental fund financial statements, both the principal and interest portions of capital lease payments are recorded as expenditures of the applicable governmental function.

As of June 30, 2019, the State did not have any capital lease obligations.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

# NOTES TO THE FINANCIAL STATEMENTS – NOTE 10 (CONTINUED)

#### Lessor Revenue

The State is also the lessor of office space. Amounts to be received in future years are as follows (in thousands):

	Gov	ernmental	Bus	iness-type
2020	\$	3,460	\$	10,762
2021		3,345		9,614
2022		3,268		9,520
2023		3,211		7,742
2024		3,184		6,753
2025-2029		-		20,706
2030-2034		-		19,012
2035-2039		-		13,549
Thereafter		26,256		15,673
	\$	42,724	\$	113,331

The historical cost for the assets which are leased is \$129.7 million for governmental activities (mostly for use of hangar and runway facilities at the Spaceport) and \$145.0 million for business-type activities.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 11

#### NOTE 11. Risk Management

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through its Internal Service Fund (ISF). Coverage is provided for the following:

Workers' Compensation
Civil Rights and Foreign Jurisdiction
Aircraft
Money and Securities
Health/Life
General Liability
Automobile
Property
Employee Fidelity Bond
Short-term & Long-term Disability

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through Enterprise Funds within the Risk Management Division (RMD) of the General Services Department. The RMD services all claims for risk of loss to which the State is exposed, including general liability, property and casualty, workers' compensation, employee health and accident, and unemployment compensation. The Department has coverage for general liability and civil rights claims through the Public Liability Fund administered by the State of New Mexico's Risk Management Division. The dollar amount "limits" of the insurance coverage are the damages caps set forth in the Tort Claims Act, NMSA Section 41-4-19, which may be amended from time to time by the legislature. All funds, agencies, and authorities of the State participate in Risk Management. Risk Management allocates the cost of providing claims servicing and claims payment by charging a "premium" to each fund, agency or public authority based on claims history and exposure of each participant. The charge considers recent trends in actual claims experience of the State as a whole and makes provision for catastrophic losses.

ISF fund liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Total insurance claims payable at June 30, 2019, were \$166.6 million. The amounts of the liabilities are determined by independent actuarial consultants to the ISF. The total liability is shown in the accompanying financial statements at the present value of the payments, computed at 2.0 percent annual rate, except for long-term disability liability, which is computed at 2.0 percent annual rate, between June 30, 2019 and the date the claims are ultimately expected to be paid.

Insurance claims payable presented are actuarial computed estimates of the costs of administering, defending, and settling claims for events that had occurred as of the year-end. Since these estimates are based on historical information and various statistical measures, actual amounts paid may vary significantly from the amount estimated by the fund

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS – NOTE 12

#### NOTE 12. Pension Plans

#### A. Plan Descriptions

The State maintains five public employees' retirement systems (Systems): Four separate systems are administered by the New Mexico Public Employees' Retirement Association (PERA) and one system is administered by the New Mexico Educational Employees' Retirement Board (ERB). The State elected to use June 30, 2018 as its measurement date for both its PERA and ERB pension plans.

PERA is the administrator of the Public Employees Retirement System (PERS), the Judicial Retirement System (JRS), the Magistrate Retirement System (MRS), and the Volunteer Firefighter Retirement System (VFRS). ERB is the administrator of the Educational Employees Retirement System (EERS). Collectively, the Systems offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of the Systems are set forth in Chapter 10, NMSA 1978, and applicable Replacement Pamphlets.

PERA is directed by the Public Employees Retirement Board (Board), which consists of twelve members. Ten of the Board members are elected by PERA active and retired members under state and municipal coverage plans. Two Board members, the Secretary of State and the State Treasurer, are ex-officio members.

PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, 33 Plaza la Prensa, Santa Fe, NM 87507.

ERB is directed by the Educational Retirement Board, composed of seven members. Board members include:

Secretary of Public Education, who is appointed by the Governor;

State Treasurer:

One member elected by the membership of the NM Association of Educational Retirees;

One member elected by the membership of the National Education Association of New Mexico;

One member elected by the membership of the American Association of University Professors;

Two members appointed by the Governor

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

The ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to ERB, PO Box 26129, Santa Fe, New Mexico 87502.

The number of participating government employers, and the number of members for each system for the year ended June 30, 2019, were (not in thousands):

#### B. Funding and Benefit Policies

Public Employees Retirement System (PERS) – This plan is a cost sharing, multiple - employer defined benefit pension plan with six divisions of members: State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10-11-3, NMSA 1978.) Except as provided for in the Volunteer Firefighter Retirement Act (Chapters 10-11A-1 to 10-11A-7, NMSA 1978), the Judicial retirement Act (Chapters 10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (Chapters 10-12C-1 to 10-12C-18, NMSA 1978), the Educational Retirement Act (Chapter 22-11, NMSA 1978), and the provisions of Chapters 29-4-1 through 29-4-11, NMSA 1978, governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for Tier I members (as defined later in these notes). Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of normal retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2.0 percent to 3.5 percent of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60.0 percent to 90.0 percent of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

For Tier II, the retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (applicable to those hired after July 1, 2013 – Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credits equals at least 85, or at 67 with eight or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4, and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers, and municipal juvenile detention officers will remain in 25-year retirement plans; however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II, pension factors were reduced by 0.5 %. The computation of final average salary increased as the average of salary for 60 consecutive months.

Contribution rates for members vary depending on the plan under PERS. Employee contribution rates range from 4.78 % to 18.15% of annual salary, and employer rates range from 7.0% to 26.12%, Generally, Tier I regular state members contribute 7.42% to 8.92%, while employers contribute 16.99%.

State Legislative Fund – This plan is a defined benefit pension plan which is accounted for in PERS. State Legislators and lieutenant governors must elect to be a member no later than 180 days after first taking office to be covered under this plan. Member contributions are \$500 for each year of service credit prior to the 2012 legislative session and \$600 for each year beginning with the 2012 legislative session. The State is required to contribute sufficient amounts to finance the membership of members under state legislator coverage plan 2 on an actuarial reserve basis. The total actuarially determined amount for the State Legislative Fund for the fiscal year ended June 30, 2018 was \$0.00. Regarding the source of funding, Section 7 -1-6.43 of the Tax Administration Act states "A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars (\$200,000) a month or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year." During the State of New Mexico (53<sup>rd</sup> Legislature) in 2018, House Bill 2 was passed that reduced the State's distribution to the legislative retirement fund from \$75,000 a month to \$0.00 a month.

Age and service requirements for retirement are age 65 or older with 5 or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect on the first day of the calendar year that the

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

member retires multiplied by 60 and further multiplied by credited service. The per diem rate starting January 1, 2018 is \$165.

Judicial Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in Chapter 10-12B-4, NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded.

For individuals that became a member prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75.0 percent of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became members subsequent to July 1, 2005, the annual pension amount is determined as 75.0 percent of salary received during the last year in office prior to retirement multiplied by 5.0 percent of the number of years in service, not exceeding 15 years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of 3.75 percent times the sum of the number of years of service; provided that a pension calculated shall not exceed 75.0 percent of one-twelfth of the salary received during the last year in office.

The retirement age and service credit requirements for normal retirement for judicial members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 33 Substitute in the 2014 Legislative Session. Under the new requirements, judicial members are eligible to retire at age 65 with 8 or more years of service or at age 60 with 15 or more years of service credit.

Effective July 1, 2014, judicial membership is mandatory, all judicial pension factors were reduced, employee and employer contributions increased 3 percent and the computation of final average salary increased as the average of salary for the 60 consecutive months. In addition, cost-of-living increases were suspended for two consecutive fiscal years and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Members contribute at a rate of 10.5 percent of their salaries and the member's court contributes at a rate of 15.0 percent of the member's salary. Additionally, the district court contributes \$38 for each civil case docket fee paid in the district court, \$25 from each civil docket fee paid in metropolitan court and \$10 (not in thousands) for each jury fee paid in metropolitan court. Contribution rates are established by State statute. Various other changes took place under House Bill 33 which amended the Judicial Retirement Act.

Magistrate Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Magistrate Retirement Fund is set forth in Chapter 10-12C-4, NMSA 1978. Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

served as a magistrate for a minimum of five years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75.0% of the salary received during the last year in office prior to retirement by 5.0% of the number of years of service, not exceeding 15 years, plus five years.

Effective July 1, 2014, membership is mandatory, all magistrate pension factors were reduced, employee contributions increased 3 percent, and the computation of final average salary increased as the average of salary for the 60 consecutive months prior to retirement. Employer contributions increased by 4% effective July 1, 2015. In addition, cost-of-living increases were suspended for two consecutive fiscal years, and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Member contributions are based on 10.5 percent of salaries and the State, through the administrative office of the courts, contributes at a rate of 11.0 percent of the member's salary. Beginning July 1, 2015, the employer contributions increased to 15 percent of the member's salary. Additionally, the magistrate or metropolitan courts contribute \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute. Certain other changes took place under House Bill 216 and amended the Magistrate Retirement Act.

Volunteer Firefighters Retirement Fund – This plan is a single employer defined benefit pension plan with a special funding situation. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in Chapter 10-11A-2, NMSA 1978. Any volunteer non-salaried firefighter who is listed as an active member on the rolls of a fire department and who meets certain age and service credit requirements set forth in the statute is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer fire fighter for a minimum of 10 years. Benefits are \$125 per month, as of July 1, 2013, with at least 10 but less than 25 years of service or \$250 per month with 25 or more years of service. Benefits for post-retirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make individual contributions to the plan. State statutes require that the State Treasurer transfer \$750,000 during the fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund.

Educational Employees' Retirement System (EERS) - The New Mexico Educational Retirement Board (ERB) was created by the Educational Retirement Act, Chapters 22-11-1 to 22-11-52, NMSA 1978, as amended, to administer and have the responsibility for operating the Educational Employees' Retirement Plan. ERB is an agency of the State. The plan administrated by ERB is considered part of the State financial reporting entity and is a pension trust fund of the state.

This plan is a cost-sharing multiple employer pension plan established by statute and administered by ERB to provide retirement, disability, and death benefits for all certified teachers and other employees of the State's elementary, secondary, and higher educational institutions, junior colleges, and technical-vocational institutions. Employees who are employed more than 25% of a full-time equivalency, are required to be members of the Plan, unless specifically excluded.

Plan members whose annual salary is \$20,000 or less are required by statute to contribute 7.9% of their gross salary. For plan members whose annual salary is over \$20,000, they are required to contribute 10.7% of their gross salary to

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

the plan in fiscal year 2018 and thereafter. Employers are required to contribute 13.9% of gross covered salaries in fiscal year 2018 and thereafter. The statutory contribution requirements can be changed by the State Legislature.

For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more,
- The member is at least sixty-five years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member contributions and then becomes reemployed after July 1, 2010 is as follows:

- The member's age and earned service credit add up to the sum of 80 or more,
- The member is at least 67 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements:

- The member's minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.
- The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire
  under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement
  benefits
- The member's age is 67, and has earned 5 or more years of service credit.

Forms of Payment - The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary.

Benefit Options - There are three benefit options available:

Option A – Straight Life Benefit. The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.

Option B – Joint 100% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

Option C – Joint 50% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Cost of Living Adjustment (COLA) – All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3):

- Tier 1 membership is comprised of employees who became members prior to July 1, 2010
- Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013
- Tier 3 membership is comprised of employees who became members on or after July 1, 2013

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

#### Disability Benefit:

Eligibility - A member is eligible for a disability benefit provided (a) he or she has credit for at least 10 years of service, and (b) the disability is approved by the Board.

Monthly Benefit - The monthly benefit is equal to 2.0 percent of FAS times years of service, but not less than the smaller of (a) one-third of FAS or (b) 2.0 percent of FAS times years of service projected to age 60.

Form of Payment - The disability benefit commences immediately upon the member's retirement. Disability benefits are payable as a monthly life annuity, with a guarantee that, if the payments made do not exceed the member's accumulated contributions, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. If the disabled member survives to age 60, the regular optional forms of payment are available.

Refund of Contributions - Members may withdraw their contributions only when they terminate covered employment in the State and certification of termination has been provided by their former employers. Interest paid to members when they withdraw their contributions following termination of employment is at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or contributions held for less than one year.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

Alternative Retirement Plan - Effective October, 1991, the New Mexico legislature established an Alternative Retirement Plan (ARP) through the enactment of ERA Sections 22-11-47 through 52 NMSA 1978 to provide eligible employees an election to establish an alternative retirement investment plan. In contrast to the defined benefit plan administered by NMERB, the ARP is a defined contribution plan. NMERB is the trustee of the ARP which is administered by two third party contractors for NMERB. The administrators approved to offer ARP plans to eligible participants are Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA-CREF), and Fidelity Investments.

These administrators have the authority to perform record keeping, enrollment education services, and other administrative duties for the ARP. The administrators are delegated any and all powers as may be necessary or advisable to discharge their duties under the ARP, and have certain discretionary authority to decide matters under the ARP. As the ARP trustee NMERB is responsible for selecting investment options that provide a prudent rate of return, and to ensure that all investments, amounts, property, and rights under the executed Plan-Trust are held for the exclusive benefit of Plan participants and their beneficiaries, as defined in the Plan Document.

#### C. Net Pension Liability

The total pension liability, net pension liability, and certain sensitivity information presented on the next page are based on an actuarial valuation performed as of June 30, 2018. The total pension liability was rolled forward from the valuation date to the plan year ending June 30, 2019. The net pension liability of each plan as of June 30, 2019, is as follows (in thousands):

# Public Employees Retirement Association and Education Retirement Board Net Pension Liability, By Fund (Expressed in Thousands)

#### NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

The following presents the net pension liability of the various plans, calculated using the discount rate, as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Net Pension Liability		1% Decrease (6.25%)		Current Discount Rate (7.25%)		1% Increase (8.25%)
State-Funded Divisions	\$	9,231,607	\$	6,481,678	\$	4,209,584
Single-Employer Funds:		/4 100/D		(F.108/)		/c 100/)
Judicial	\$	(4.12%)	S	(5.12%)	\$	93,914
Volunteer Firefighters	\$	(4.12%)	\$	(5.12%) (19,276)	\$	(6.12%)
Magistrate	S	(4.21%) 55,091	\$	(5.21%) 45,634	S	(6.21%)
ERB	\$	(6.25%) 10,288,778	\$	(7.25%) 7,577,302	\$	(8.25%) 5,384,280

**PERA Asset Allocations** – The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

#### Public Employees Retirement Association All Systems

		Long-term Expected
	Target	Rate of
Asset Class	Allocation	Return
Global Equity	42.33 %	7.48 %
Risk Reduction & Mitigation	21.37	2.37
Credit Oriented Fixed Income	15.00	5.47
Real Assets	20.00	6.50
Multi-Risk Allocation	1.30	
Total	100.00 %	

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

*ERB Asset Allocations* – ERB's investment allocation policy is periodically reviewed and amended by the Board of Trustees, as needed. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan. The following schedule shows the current asset allocations as well as the policy adopted on August 26, 2016:

#### Schedule of Asset Allocation Versus Policy Targets

		Policy
	Allocation	Target1
Equities		
Domestic Equities		
Large cap	15%	16%

Cash	1%	1%
Total	100%	100%

1. Long-Term Policy Target approved by the Board on August, 26 2016.

**Rate of Return** – Disclosure of the annual money-weighted return is a requirement of GASB 67. It incorporates both the size and timing of cash flows to determine an internal rate of return, and expresses investment performance adjusted for the changing amounts actually invested. The requirements of the calculation are listed below.

- The rate is computed net of investment expenses, but not net of administrative expenses.
- External cash flows used as inputs should be determined on at least a monthly basis.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

- Cash flows should be determined on an accrual basis of accounting.
- Cash-flow weighting should be representative of the Plan's actual external cash flow timing.

For the year ended June 30, 2019, the annual money-weighted rate of return on the PERA pension plan investments net of investment expense was 5.60%. For the ERB pension plan, it was 7.29%.

#### D. Employer Reporting - Public Employees Retirement Association of New Mexico (PERA)

# State - Funded Divisions of PERA

For the fiscal year ended June 30, 2019, the State Funded Divisions of PERA were composed of State General, State Police and Legislative. The measurement date used by State was June 30, 2018.

**Contributions** – As stated earlier in this note, the contribution requirements of the plan members and the State are established in the state statute. Statutorily required contributions from the State to the State funded divisions of the pension plan were \$182 million for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The State-Funded Divisions of PERA reported net pension liabilities as follows (in thousands):

Division	Net I	Net Pension Liability				
State General	\$	(3,525,986)				
State Police		255,463				
Legislative		15,103				
Total	\$	(3,255,420)				

The net pension liability is further segregated in the following amounts in Governmental and Business-Types (in thousands):

Governmental Activities	
(including Internal Service Funds)	\$ 3,186,065
Business-type Activites (including Nonmajor enterprise	
funds and two educational institutions)	69.355
Total	\$ 3,255,420

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

At June 30, 2019, the State's total proportion of the PERA State Funded Divisions net pension liability was 52.74% percent and at June 30, 2018, the State's total proportion of the PERA net pension liability was 52.52%. Total contributions for State Funded Divisions were \$158.8 million, \$22.8 million, and \$0 for the three divisions respectively. Pension expense was \$419.4 million, \$(20.7) million and \$(.95) million respectively.

#### Single-Employer Funds

The State contributes 100 percent of the contributions to three single-employer funds in the PERA System. They are the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds. The measurement date used by State was June 30, 2018 (in thousands).

	Judicial		Magistrate		Volunteer Firefighters	
Net Pension Liability (Asset)	\$	84,480	\$	36,998	\$	(18,485)

*Contributions* – Contributions from the State to the PERA Judicial, Magistrate Retirement and Volunteer Firefighter funds were \$4.7 million, \$1.2 million, and \$.750 million, respectively, for the year ended June 30, 2019.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The State reported liabilities of \$84.5 million and \$37 million for the net pension liabilities of the Judicial and Magistrate Retirement Funds, respectively, which were 100 percent of the proportionate share. For the year ended June 30, 2019, the State recognized \$14.6 million as pension expense for the Judicial Retirement Funds. Also, for the year ended June 30, 2019, the State recognized (\$.47) million as pension expense for the Magistrate Retirement Fund, respectively.

The Volunteer Firefighters Retirement Fund reported a plan net position of \$69.3 million and a total pension liability of \$50.8 million for a positive net position asset of \$18.5 million. Therefore, in accordance with accounting guidance, the positive net position is reported as a net pension asset in the financial statements. Pension expense was \$.78 million.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

# NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

At June 30, 2019, these plans reported deferred outflow of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

	Governmental					Business-type			
PERA - State-Funded and Single- Employer Funds (Judicial and Magistrates Funds)		Deferred Outflows of Resources		Deferred Inflows of Resources		Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experiences	\$	87,700	\$	(127,939)	\$	1,794	\$	(2,334)	
Changes of assumptions		265,973		(25,712)		5,306		(319)	
Net difference between projected and actual earnings on pension plan investments		174,127		-		3,416		-	
Changes in proportion and differences between State contributions and proportionate share of contributions		-		-		-		-	
State contributions subsequent to measurement date		183,916		-		3,725		-	
Totals	\$	711,716	\$	(153,651)	\$	14,241	\$	(2,653)	

The amounts of \$183,916 for governmental activities and \$3,725 for business-type activities, reported as deferred outflows of resources related to pensions resulting from the State's contributions subsequent to the measurement date June 30, 2018, will be recognized as a reduction of the respective net pension liability in the following fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

Governmental			Busin	ness-type	
Year ended June 30	):		Year ended June 30	):	
2020	\$	234,992	2020	\$	4,939
2021	\$	84,020	2021	\$	1,766
2022	\$	46,076	2022	\$	968
2023	\$	9,061	2023	\$	190
2024	\$	-	2024	\$	_
Thereafter	\$	_	Thereafter	\$	_

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

The deferred outflows and inflows of resources are presented separately for the Volunteer Firefighter's Fund because this fund reports a positive net position (in thousands).

	Governmental					
Volunteer Firefighter's Fund	Deferred Outflows of Resources	Deferred Inflows of Resources				
Differences between expected and actual experiences	s -	\$ (5,278)				
Changes of assumptions	2,244	(156)				
Net difference between projected and actual earnings on pension plan investments	1,628	-				
Changes in proportion and differences between State contributions and proportionate share of contributions	-	-				
State contributions subsequent to measurement date	750	-				
Totals	\$ 4,622	\$ (5,434)				

The amount of \$750, reported as deferred outflows of resources related to pensions resulting from the State's contributions subsequent to the measurement date June 30, 2018, will be recognized as a reduction of the respective net pension liability in the following fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

Governmenta	1	
Year ended June 30		
2020	\$	719
2021	\$	(15)
2022	\$	(946)
2023	\$	(584)
2024	\$	(637)
Thereafter	\$	(99)

#### E. Employer Reporting - Educational Retirement Board (ERB)

**Contributions** – As stated earlier in this note, the contribution requirements of ERB plan members and the State are established in state statute. Contributions for the fiscal year ended June 30, 2019, from the State to the ERB were \$1.2 million for governmental activities and \$ 113.2 million from the twelve educational institutions reported as business-type activities.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The total ERB pension liability, net pension liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2017. Therefore, the employer's portion was established as of the measurement date June 30, 2018. At June 30, 2019, the State reported a liability of \$ 34.0 million for its proportionate share of the net pension liability covering state employees in governmental activities, and \$ 3.4 billion for the collective proportionate share of the twelve educational institutions reported as business-type activities. At June 30, 2018, the proportion was .29 percent for governmental activities and 28.73 percent for business-type activities. The State's proportion of the net pension liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2018. The contribution amounts were defined by Section 22-11-21, NMSA 1978.

For the year ended June 30, 2019, the State recognized pension expense of \$4.9 million in governmental activities and \$567.0 million in business-type activities. At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

	Governm	nental	Business-type		
ERB Fund Differences between expected and actual experiences	Deferred Outflows of Resources \$ 25	Deferred Inflows of Resources \$ (648)	Deferred Outflows of Resources \$ 2,493	Deferred Inflows of Resources \$ (65,019)	
Changes of assumptions	7,013	-	704,096	-	
Net difference between projected and actual earnings on pension plan investments	75	-	7,563	-	
Changes in proportion and differences between State contributions and proportionate share of contributions	682	(1,292)	24,751	(26,817)	
State contributions subsequent to measurement date	1,180	-	113,215	-	
Totals	\$ 8,975	\$ (1,940)	\$ 852,118	\$ (91,836)	

Contributions made subsequent to the measurement date will reduce the net pension liability for the next fiscal year.

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

# F. Discount Rates and Sensitivity Analysis

#### Discount Rate -

**PERA** - The discount rate used to measure the total pension liability was 7.25 percent for the State-Funded Divisions and the Volunteer Firefighters Fund. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefits payments of current plan members as determined in accordance with GASB 67. Therefore, the 7.25 percent assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The discount rate used to measure the total pension liability of the Magistrate fund was 5.21 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are not sufficient to provide all projected future benefit payments of current plan members as determined in accordance

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

with GASB Statement No. 67. Therefore, a 5.21% discount rate was applied to all periods of projected benefit payments to determine the total pension liability. This rate is a blend of the expected rate of return on assets of 7.25% and the 20 year tax-exempt municipal bond rate 3.50% as of the measurement date for both the Judicial and Magistrate funds. The discount rate for the Judicial fund was 6.08%

Sensitivity of the State's Porportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table provides the sensitivity of the State's Porportionate Share of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

#### Public Employees Retirement Association Employer Reporting Sensitivity of the Net Pension Liability to Changes in the Discount Rate (Expressed in Thousands)

Net Pension Liability	1% Decrease Liability (6.25%)			Current Discount Rate (7.25%)	1% Increase (8.25%)		
State-Funded Divisions	\$	4,518,115	\$	3,255,419	\$	2,213,263	
Single-Employer Funds:	,	5.08%)		(6.08%)		(7.08%)	
Judicial	\$	103,346	<u>\$</u>	84,479	<u>\$</u>	68,498	
Volunteer Firefighters	\$	6.25%) (12,456)	\$	(7.25%) (18,485)	\$	(8.25%) (23,491)	
Magistrate	\$	4.21%) 45,081	\$	(5.21%)	\$	(6.21%)	

**ERB** - A single discount rate of 5.69% was used to measure the total ERB pension liability as of June 30, 2019. This single discount rate was based on the expected rate of return on pension plan investments of 5.69%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current pension plan members. Therefore the long term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projection of cash flows used this single rate assuming that Plan contributions will be made at the current statutory levels. Additionally, contributions received through NMERB's Alternative Retirement Plan (ARP) are included in the projection of cash flows. ARP contributions are assumed to remain at a level percentage of ERB plan payroll, where the percentage of payroll is based on the most recent five-year contribution history.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13

#### NOTE 13. Post - Employment Benefits Other Than Pensions

#### A. Plan Description

In addition to pension benefits as described in Note 12, the State provides other post-employment benefits (OPEB). The following is in accordance with the provisions of *GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

The New Mexico Retiree Health Care Authority (RHCA) was formed February 13, 1990 under the New Mexico Retiree Health Care Act (Act), Chapters 10-7C-1 to 10-7C-19, NMSA 1978, to administer the retiree health care fund which was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents, and surviving spouses) who have retired or will retire from public service in New Mexico. The Retiree Health Care Act established a cost-sharing multi-employer defined benefit postemployment health care plan (Plan) that provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The Retiree Health Care Act created a governing board composed of 11 members (a twelfth member was added through an amendment). RHCA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to RHCA, 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

The legislation establishing RHCA specifically did not intend to create formal trust relationships among the participating employees, retirees, employers and RHCA administering the Act. However, the substantive plan created by the Act contains all requisite elements to be considered as the equivalent of a trust arrangement. These elements include irrevocable contributions to the Plan, plan assets are dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the Plan, and plan assets are legally protected from creditors of employers or the Plan administrator. Additionally, there is no provision for a participating government entity to withdraw membership, and all risks and costs including benefit costs are shared and are not attributed individually to employers, and a single contribution rate applies to employers. RHCA received a legal opinion that the manner of legal organization of RHCA is substantially equivalent to a trust. As such, RHCA was required to apply GASB Statement No. 74 (GASB 74) Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans which was implemented by the State effective for fiscal year ending June 30, 2018. The Net Position of the RHCA is reported as restricted per GASB Statement No. 46 and Chapter 10-7-C-14, NMSA 1978.

Eligible employers are institutions of higher education, school districts, or other entities participating in the public school insurance authority, and state agencies, state courts, magistrate courts, municipalities, or counties, which are affiliated under or covered by the Educational Retirement Act, or the Magistrate Retirement Act, or the Public Employees Retirement Act.

#### B. Single Employer Post-Employment Plans

#### Plan Description for UNM

Plan description: The University of New Mexico Retiree Welfare Benefit Trust (VEBA Trust) administers the University of New Mexico Retiree Welfare Benefit Plan (VEBA Plan) — a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for all eligible employees of the University. The University is the fiduciary of the VEBA Trust, and the VEBA Trust's financial statements and required supplementary information are included in the University's financial report. Management of the VEBA Plan is vested in the VEBA Trust's VEBA Committee, which consists of nine members:

- UNM Controller or Designee
- UNM Vice President of Human Resources or Designee
- Two Faculty Appointees (appointed by the UNM President)
- Two Staff Appointees (appointed by the UNM President)
- Member of the Debt Investment Advisory Committee (ex-officio, appointed by the UNM President)
- Two UNM Presidential Appointees

Plan membership: In order for a retiree of the University to be eligible for OPEB other than basic life insurance, the employee must have been hired prior to July 1, 2015 and contribute to the VEBA Trust for at least five continuous years immediately prior to retirement. If hired prior to July 1, 2013 and retiring prior to July 1, 2018, employees must continually contribute to the VEBA Trust. Employees were automatically enrolled into the VEBA Trust upon its establishment unless they requested to opt out. Opportunities to opt out will occur annually during the benefits open enrollment period. Employees hired on or after July 1, 2015 are not eligible for OPEB other than basic life insurance. Contributions to the VEBA Trust are not required for the basic life insurance benefit since these benefits are not funded through the VEBA Trust.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

At the valuation date of January 1, 2017, the VEBA Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefit payments 3,207, active plan members 7,275 and total plan members 10,482

Total active plan members include 1,136 members hired on or after July 1, 2015 who are not eligible to receive postretirement health benefits but may be eligible to receive postretirement life insurance benefits.

#### Plan Description for New Mexico State University

Plan Description. New Mexico State University is a single employer that offers employees and their eligible dependents retiree benefits. This is an unfunded OPEB plan operating on a pay as you go basis. The authority to establish and amend the benefit provisions rests with the Board of Regents. Retirees, who have had 10 consecutive years of health insurance coverage with the University at the time of retirement, are offered the opportunity to participate in a fully-insured PPO medical plan, including prescription drugs. Medicare retirees (for retirees 65 years of age and over) are offered the opportunity to participate in a Medicare carve-out medical plan, including prescription drugs. Eligible retired employees may select a Life Insurance benefit up to \$10,000. All premiums for life insurance are paid by the retiree. The University currently pays 60% of the monthly medical and prescription premium for retirees and their eligible dependents until the retiree reaches age 70, at which time the University reduces their contribution to 30%. As of June 30, 2019, 1,376 retirees met the eligibility requirements for health insurance. Employees hired after June 30, 2016 are not offered this benefit.

Plan Participation Percentage. The participation percentage is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. It is assumed that 87% of all pre Medicare employees and their dependents who are eligible for early retirement will participate in the retiree medical plan. It is also assumed that 80% of those enrolled in the pre Medicare plans will continue on the plan once Medicare eligible. Lastly, it is assumed that 87% of all pre Medicare employees who are eligible for the retiree life insurance benefit will participate, and 90% of those enrolled will continue on the plan once Medicare eligible. This assumes that a one-time irrevocable election to participate is made at retirement. Employees covered by benefit terms - At June 30, 2019, the following employees were covered by the benefit terms: Current retirees receiving benefits – 1,740 and current active members – 2,366.

#### Plan Description for NM Institute of Mining and Technology

Plan Description: The Board of Regents authorized the creation of the New Mexico Tech Employee Benefit Trust (Trust or Plan), a contributory benefit plan, to operate, control and maintain a program to provide certain health and life insurance benefits to the employees of the Institute and their families. Retired employees may participate in the Plan. The Plan is considered a postemployment benefit plan as defined by GASB 74, Financial Reporting for Postemployment Benefit Other than Pension Plans which was implemented for June 30, 2019. The Trust is recorded as a fiduciary fund in the accompanying financial statements and as a blended component unit. The Board of Regents serves as trustee and has delegated the day-to-day operations of the Trust to the executive staff of the Institute.

Effective January 1, 2019, the Institute is no longer using the Trust, a contributory benefit plan, to operate, control and maintain a program to provide the health insurance benefits to the employees of the Institute and their families. The Board of Regents made a resolution approving an agreement for participating with New Mexico Public School Insurance Authority (NMPSIA), for employee health benefits for its employees, retirees and their families. The Trust will continue to operate, control and maintain the life insurance and flexible benefits to the employees of the Institute and their families. The Trust issues standalone audited financial statements that can be obtained by request or via the Office of the State Auditor's website at www.saonm.org.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

Eligibility – The Trust offers employees of New Mexico Institute of Mining and Technology and their eligible dependents retiree benefits. Employees of New Mexico Tech expect to continue health benefit coverage at retirement by electing to pay the full active participant premium charged to New Mexico Tech's health coverage plan, a single employer plan. The differential between the active participant premium and that charged for an older retiree on a stand-alone basis qualifies as a postemployment benefit. The authority to establish and amend the benefit provisions and contribution requirements rests with the Board of Regents.

All regular, regular limited-term, and full-time temporary employees of the Institute and their eligible dependents are eligible to participate in the Plan. An employee is eligible for coverage on the first day of the month following attainment of status as a full-time employee. In order for a retiree of the Institute to be eligible for other postemployment benefits, the employee must be enrolled in the benefit prior to retirement and choose to continue the benefit or opt out. If the retiree chooses to opt out at retirement, the retiree will no longer be offered the benefit. Retirees may opt out at any time or may change plan options during the benefits open enrollment period.

As of June 30, 2019, all active participants and retirees were moved to NMPSIA.

#### C. Funding and Benefit Policies

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Plan on the person's behalf, unless that person retires before the employer's effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years. Employees of RHCA are allowed to participate in the Plan.

The New Mexico Retiree Health Care Act (Chapter 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service-based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars (not in thousands) if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100.0 percent of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from NMRHCA or viewed on their website at www.nmrhca.state.nm.us.

Contributions - The New Mexico Retiree Health Care Act (Chapter 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The contributions are set by legislation and are not based on an actuarial calculation. The Legislature periodically reviews the contribution rates pursuant to Chapter 10-7C-15, NMSA 1978.

For the fiscal year ended June 30, 2019, for regular state employees, the statute required each participating employer to contribute 2.0 percent of each participating employee's annual salary; each participating employee was required to contribute 1.0 percent of their salary.

For employees who were members of an enhanced retirement plan (state police, adult correctional officers, fire fighters and judges) during the fiscal year ended June 30, 2019, the statute required each participating employer to contribute

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

2.5 percent of each participating employee's annual salary, and each participating employee was required to contribute 1.25 percent of their salary.

Current retirees are required to make monthly contributions for individual basic medical coverage. Retiree premium contribution increases are no longer limited by the Act, which the RHCA's health care trend will be the basis for any rate increases for the New Mexico basic plan of benefits. The Board may designate other plans as "optional coverages." Optional and/or voluntary coverages are not subject to the 9.0 percent cap, which expired in fiscal year 2008 per Chapter 10-7C-13, NMSA 1978.

Contributions from participating employers and participating employees become the property of the Retiree Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operations or participation in the Plan. The employer, employee and retiree contributions are required to be remitted to NMRHCA on a monthly basis.

### D. Funding and Benefit Policies for Single Employer Plans

#### UNM

Benefits provided: The VEBA Plan provides health, dental, and life insurance coverage to eligible retirees and their covered dependents. Eligible retirees of the University receive healthcare coverage through a self-insured medical plan, including prescription drugs, available through UNM Health, Presbyterian Health Plan, BCBS of New Mexico, and Express Scripts. Eligible Medicare retirees (for retirees 65 years of age and over) receive healthcare coverage through one of six fully insured medical/prescription plans: Blue Cross Blue Shield HMO I (Enhanced), Blue Cross Blue Shield HMO II (Standard), Blue Cross Blue Shield PPO, Presbyterian PPO UNM Select, Presbyterian PPO UNM Premier, and UHC AARP Indemnity. Eligible retirees are also offered one of two dental insurance benefit options: Premier High Option and PPO Low Option. Basic life insurance benefits are available to retirees of the University without the requirement to opt in to the VEBA Trust. The authority to establish and amend the benefit provisions rests with the Board of Regents.

Contributions: The contribution requirements of VEBA Plan members and the University are established and may be amended by the Board of Regents. Retiree contributions for medical and dental insurance are required for both retiree and dependent coverage. Retirees are required to pay the full premiums less a subsidy provided by the University. Retirees 65 years of age and over are required to contribute 70% towards the cost of premiums, with the University contributing 30%. Retirees under the age of 65 are required to contribute a percentage of the premiums based on their preretirement annual salary. Benefits-eligible employees, who do not opt-out of the VEBA Trust, contribute 0.75% of their salary to the VEBA Trust in order to ensure that the health benefits continue into retirement. The University matches the 0.75% contribution made by the employee.

#### NMSU

Funding Policy: The University does not use a trust fund to administer the financing and payment of benefits. The retired employees that elect to participate in post-employment benefits are required to make contributions in the form of monthly premiums based on current rates established under the medical and life plans. The University funds the plan on a pay-as-you-go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits, and includes all expected claims and related expenses and is offset by retiree contributions. The pay-as-you-go expense for fiscal years 2019 and 2018 were \$5.8 million and \$5.5 million, respectively, net of retiree contributions.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

#### **NMIMT**

Benefits Provided – Eligible retirees of the Institute receive healthcare coverage through one self-funded medical plan, including prescription drugs, administered by the Plan's third-party administrator. Eligible Medicare retirees (for retirees 65 years of age and over) continue to receive healthcare coverage through Meritain Health as the Supplement Plan including vision, dental, and prescription drugs. Retirees are also offered \$10,000 of retiree basic life insurance. In addition, the Trust is used to pay premiums for life insurance coverage on eligible participants and to administer the Flexible Benefits Plan (the Flex Plan). The Flex Plan, which is fully funded by employees, provides reimbursement of certain employee health and dependent care expenses.

Contributions – The Trust is funded by contributions from both the Institute and employees of the Institute. Flex Plan contributions consist of employee-only contributions and are based on amounts elected by the employees up to specified limits, and are withheld from employee pay. All other contributions, including employee and employer contributions, are based on amounts determined by the Trust Committee as necessary to cover the expenses of the Trust. Contributions are funded on a monthly basis. Effective January 1, 2019, the Institute will remit monthly premiums for eligible employees and retirees to NMPSIA. Retiree contributions for medical, dental, vision, and prescriptions are required for both retiree and dependent coverage. Retirees are required to pay the full premiums less a subsidy provided by the Institute. Retirees are required to contribute a percentage of the premium based on their preretirement annual salary.

#### E. Funded Status

Investments and Fair Value Measurements: The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used as of June 30, 2019.

The RHCA invested in a number of investment pools offered by New Mexico State Investment Council (NMSIC). Each pool is comprised of units of participation of unlimited quantity. The pools are held in NMSIC's name. No unit in the pool has priority or preference over any other unit and represents an equal beneficial interest in the pool. The valuation of the RHCA's units in the investment pool is provided by the NMSIC on a monthly basis and represents the fair market value as of that date. Therefore, RHCA has determined that all the investments are measured at Net Asset Value as a practical expedient (NAV practical expedient).

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The table below summarizes the investments valued at NAV practical expedient and other pertinent liquidity information:

Investments Measured at NAV Practical Expendient	Fair Value e 30, 2018	Redemption Frequency	Redemption Notice Period
U.S. Large Cap Index Pool	\$ 99,581	Daily	5 business days
Non U.S. Emerging Markets Index Pool	69,360	Daily	5 business days
Non U.S. Developed Markets Index Pool	96,263	Daily	5 business days
Private Equity Pool	81,386	Twice per year	9 months
Credit and Structured Finance Pool	105,999	4 times per year	3 months
Real Estate Pool	73,121	Twice per year	6 months
Small/Mid Cap Active Pool	12,926	Daily	5 business days
Real Asset Pool	34,680	Twice per year	6 months
Core Bond Pool	 149,338	Daily	5 business days
	\$ 722,654		

There are requirements for frequency and timing of actuarial valuations, as well as actuarial methods and assumptions that are acceptable for financial reporting. The Authority obtains actuarial valuations at least biannually and a single actuarial valuation covers all plan members.

RHCA Asset Allocations – RHCA's investment allocation policy is periodically reviewed and amended by the Board of Trustees, as needed. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

Further detail of the individual Investment Pools and their management can be obtained from a publicly available financial report that includes financial statements and required supplementary information for the post-employment healthcare plan at RHCA website <a href="https://www.nmrhca.state.nm.us">https://www.nmrhca.state.nm.us</a>.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

The actuarial methods and assumptions for the Plan at June 30, 2019, were as follows:

Valuation Date June 30, 2019

Actuarial cost method Entry age normal, level of percent of pay,

calculated on individual employee basis

Asset valuation method Market value of assets

Actuarial Assumptions:

Inflation 2.50% for ERB: 2.50% for PERA

Projected payroll increases: 3.25% to 13.50% based on years of service, including inflation

Investment rate of return 7.25%, net of OPEB plan investment expense

and margin for adverse deviation including inflation

Health care cost trend rate: 8% graded down to 4.5% over 14 years for Non-

Medicare medical plan costs and 7.5% graded down to 4.5% over 12 years for Medicare medical plan costs

Schedule of Annual Money-Weighted Rate of Return

	Annual Money-
Year Ended	Weighted Rate
June 30,	Of Return
2010	6.530/
2019	6.53%

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions. The following schedule summarizes the current investment allocation policy as of June 30, 2019:

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

# NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

	Target
Asset Class	Allocations
U.S. core fixed income	20%
Credit and structured finance	10%
U.S. equity - large cap	20%
Non U.S developed equities	12%
Non U.S emerging markets	15%
Private equity	10%
Real estate	5%
Real return	5%
U.S. equity - small/mid cap	3%
	100%

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The best estimates for the long-term expected rate of return is summarized as follows:

	Long-Term
Asset Class	Rate of Return
U.S. core fixed income	2.1%
U.S. equity - large cap	7.1%
Non U.S emerging markets	10.2%
Non U.S developed equities	7.8%
Private equity	11.8%
Credit and structured finance	5.3%
Real estate	4.9%
Absolute return	4.1%
U.S. equity - small/mid cap	7.1%

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

### F. Net OPEB Liability

**Net OPEB liability** - The net OPEB liability and the plan's actuarial valuation were calculated by the Authority's independent actuary as of June 30, 2019. The plan's valuation and measurement of the total OPEB liability and related net OPEB liability were performed in accordance with GASB 74 requirements at the request of the Authority.

The discount rate used to measure the total OPEB liability is 4.16% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates.

For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members are not included. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2039. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2039. Beyond 2039, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Thus 4.16% is the blended discount rate.

The following presents the net OPEB liability, calculated using the discount rate of 4.16%, as well as what the Fund's net OPEB liability would be if it were calculated using a discount rate that is 1-percent lower or 1-percent higher than the current rate (in thousands):

1% Decrease		Cu	rrent Discount Rate	1% Increase		
(3.16%)			(4.16%)	(5.16%)		
\$	3.966.223		\$ 3,242,389		2,673,387	

The following presents the net OPEB liability calculated using the current healthcare cost trend rates as well as what Fund's net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (in thousands):

1% Decrease		Current Trend	1% Increase		
	\$	2,699,498	\$ 3,242,389	\$	3,677,050

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

# NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The total OPEB liability, net OPEB liability, and certain sensitivity information presented are based on an actuarial valuation performed as of June 30, 2018. The total OPEB liability was rolled forward from the valuation date to the plan year ending June 30, 2019. The change in net OPEB liability as of June 30, 2019, is as follows:

# Schedule of Changes in the Net OPEB Liability

(In Thousands)

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

#### G. Employer Reporting Net OPEB Liability - RHCA

**Contributions** – As stated earlier in this note, the contribution requirements of RHCA plan members and the State are established in state statute. Statutorily required contributions for the fiscal year ended June 30, 2019, from the State to the RHCA were \$ 21.1 million for governmental activities and \$ 2.8 million for business-type activities.

**OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** - The total RHCA OPEB liability, net OPEB liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2018. Therefore, the employer's portion was established as of the measurement date June 30, 2018. At June 30, 2019, the State reported a liability of \$1.0 billion for its proportionate share of the net OPEB liability covering state employees in governmental activities, and \$138 million for its proportionate share of the net OPEB liability covering state employees business-type activities. At June 30, 2018, the proportion was 22.78 percent for governmental activities and 4.21 percent for business-type activities. The State's proportion of the net OPEB liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2018.

For the year ended June 30, 2019, the State recognized OPEB expense of \$1.4 million in governmental activities and a net OPEB expense of \$.18 million in business-type activities.

At June 30, 2019, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

	Governm	mental	Business-type			
RHCA	Deferred  Deferred Outflows Inflows of of Resources Resources		Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experiences	\$ -	\$ (61,283)	\$ -	\$ (8,211)		
Changes of assumptions	-	(193,243)	-	(25,892)		
Net difference between projected and actual earnings on pension plan investments	-	(12,917)	-	(1,731)		
Changes in proportion and differences between State contributions and proportionate share of contributions	365	-	1,609	(2,805)		
State contributions subsequent to measurement date	21,104	-	2,782	=		
Totals	\$ 21,469	\$ (267,442)	\$ 4,392	\$ (38,638)		

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

Contributions made subsequent to the measurement date will reduce the net OPEB liability for the next fiscal year. Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

Governm	nental		Business-type		
Year ended June 30:			Year ended June 30:		
2020	\$	(67,874)	2020	\$	(9,358)
2021	\$	(67,874)	2021	\$	(9,358)
2022	\$	(67,874)	2022	\$	(9,358)
2023	\$	(52,398)	2023	\$	(7,289)
2024	\$	(11,057)	2024	\$	(1,671)
Thereafter	\$	-	Thereafter	\$	-

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates. The following presents the net State's Proportionate Share of the OPEB liability of the State, as well as what the State's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.81 percent) or 1-percentage-point higher (4.81 percent) than the current discount rate:

		1%	1%			
Net OPEB Liability	Decrease (3.08%)			Rate (4.08%)		(5.08%)
Governmental Activities	\$	1,252,676	\$	1,035,068	\$	863,544
Business-type Activities	\$	167,839	<u>\$</u>	138,683	<u>\$</u>	115,702
Total Primary Government- RHCA	\$	1,420,515	\$	1,173,751	\$	979,246

The following presents the net OPEB liability of the State, as well as what the State's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

Net OPEB Liability	1% Decrease		Current Rate		1% Increase	
Governmental Activities	\$	874,995	\$	1,035,068	\$	1,160,568

Total Primary Government- RHCA	\$	992,231	\$	1,173,751	\$	1,316,066

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

# H. Single Employer Plans - OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

#### UNM

The University's net OPEB liability was measured as of July 1, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2017, but adjusted for a change in the discount rate. The components of the net OPEB liability of the University at June 30, 2019 was as follows:

	2019		
	In thousands		
Total OPEB Liability	\$	156,289	
Plan fiduciary net position	\$	30,805	
University's net OPEB liability	\$	125,483	

Plan fiduciary net pension as a percentage of the total OPEB liability

19.71%

Actuarial assumptions: The total OPEB liability was determined by an actuarial valuation as of January 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation 3.0%
Salary increases 2.0%

Investment rate of return 8.0%, net of OPEB plan investment expense, including inflation

Healthcare cost trend rates Pre-Medicare: 6.5% initially, reduced by decrements to a rate of 5.0% after six years

Post-Medicare: 8.5% initially, reduced by decrements to a rate of 5.0% after seven years

Dental: 4.0%

Mortality rates were based on the RP-2014 Headcount-Weighted Mortality Table with Fully Generational Mortality Improvement Projections from the Central Year using Scale MP-2016.

Discount rate: The discount rate used to measure the total OPEB liability was 6.78%, which is a blended rate of the University's 8.0% long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index, which was 3.87% on the last Friday prior to the measurement date of June 30, 2018. A blended discount rate was calculated based on separating the projected future payments between those paid from the VEBA Trust and those paid from general assets. The VEBA Trust assets were projected using the expected employer and employee payroll contributions and the expected long-term rate of return. Payments from the VEBA Trust were assumed to begin when the projected asset amount is fully-funded and all future projected benefit payments will be paid from the VEBA Trust. The discount rate used in the prior year was 6.42%, which is a blended rate of the University's 8.0% long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index, which was 3.58% on the last Friday prior to the measurement date of June 30, 2017

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

#### Sensitivity of the net OPEB liability to changes in the discount rate:

The following presents the University's net OPEB liability at June 30, 2019, which was measured using the discount rate of 6.78%, as well as what the net OPEB liability would have been if it were calculated using a discount rate that was one percentage point lower (5.78%) or one percentage point higher (7.78%) than the current discount rate.

_	Year Ended June 30, 2019 (in thousands)			
	1% Decrease (5.78%)	Current Discount Rate (6.78%)	1% Increase (7.78%)

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

#### OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the years ended June 30, 2019, the University recognized OPEB expense of \$8.0 million and \$7.8 million, respectively. At June 30, 2019 and 2018, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Y	Year Ended June 30, 2019 (in thousands)			
	De	ferred Outflows of	Deferred Inflows of		
		Resources	Resources		
Changes of assumptions	\$	-	\$	10,579	
Net difference between projected and actual earnings on OPEB plan investments		-		10	
Net difference between projected and actual					
earnings on OPEB plan investments		7,513		-	
Tot	al \$	7,513	\$	10,589	

The \$7.5 million reported as deferred outflows of resources related to OPEB resulting from University contributions subsequent to the measurement date of July 1, 2018 will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020. The \$7.3 million reported as deferred outflows of resources related to OPEB resulting from University contributions subsequent to the measurement date of July 1, 2017 was recognized as a reduction of the net OPEB liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

Year ending Jun	ne 30:

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

#### NMSU

The University's annual other postemployment benefit (OPEB) Service/Interest cost (expense) is the portion of the Actuarial Present Value of plan benefits and expenses for active employees which is allocated to a valuation year by the Actuarial Cost Method. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's net OPEB obligation related for fiscal year 2019:

	Increases (Decreases) in thousands			
	Total OPEB	Plan Fiduciary	Net OPEB	
	Liability (a)	Net Position (b)	Liability (a)-(b)	
Total OPEB Liability - Start of Year (July 1, 2018)	\$ 133,899		\$ 133,899	
Changes for the year				
Service cost	5,12	7 -	5,127	
Interest cost	5,26	8 -	5,268	
Changes in assumptions or other inputs	7,13	5 -	7,135	
Benefit payments	(5,758	-	(5,758)	
Net change in total OPEB liability	11,772	-	11,772	
Net OPEB Liability - End of Year (June 30,2019)	\$ 145,671	\$ -	\$ 145,671	

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The Entry Age Normal Actuarial Cost Method was used based on level percentage of projected salary. The OPEB liability is based on an actuarial valuation performed as of June 30, 2019, conducted in accordance with generally accepted actuarial principles.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

The actuarial methods and assumptions used to determine the total OPEB liability included in the measurement are as follows:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Discount Rate 3.50% per annum (EOY)

Source: Bond Buyer 20-Bond GO Index

Salary Increase Rate 2.5% per annum Inflation Rate 3.0% per annum

Medicare Eligibility All current and future retirees are assumed to be

eligible for Medicare at age 65

care cost trend on a select and ultimate basis. Medical and prescription benefits on a select basis at 6.0% for retirees 65 years of age and under and 5.0% for retirees over 65 years of age and on an ultimate basis at 4.5%. The select trend rates are reduced .5% each year until reaching the ultimate

trend

Per Capita Health Claim Cost Expected pre Medicare retiree claim costs were

developed using 24 months of historical claim

experience through May 2018. The annual age 60 claim

costs for retirees and their spouses is \$8,200. The age 70 costs for retirees is \$4,040.

Mortality Rate RP-2014 generational table scaled using

MP17 and applied on a gender-specific basis

*Discount Rate.* A single discount rate of 3.50% was used to measure the total OPEB liability as of June 30, 2019, respectively.

Other Information. The discount rate is the only applicable change in the actuarial valuation. There were no other modifications to the postemployment health plan provisions, census and other assumptions reflected in the actuarial valuation as of June 30, 2018. Experience/Assumptions gains and losses are amortized over a closed period of 5.2 years starting on July 1, 2017, equal to the average remaining service of active and inactive plan members (who have no future service). Currently, the plans are considered to be unfunded as there are no assets and retiree benefits are expected to be paid annually on a cash basis.

**Health Care Trend Sensitivity Analysis.** The following schedules measures the Net OPEB Liability if the health care cost trend rate used was 1% higher than the assumed health care cost trend rate and 1% lower than the assumed health care cost trend rate for June 30, 2019, respectively.

Year Ended June 30, 2019 (in thousands)

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

#### **NMIMT**

The Institute's net OPEB liability was measured as of July 1, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2019.

The components of the Institute's net OPEB liability at June 30, were as follows:

Components of the Institute's net OPEB liability	(Amounts in thousands) June 30, 2019
Total OPEB Liability Plan Fiduciary Net Position	32,523 4,304
The Institute's net OPEB liability	28,219
Plan fiduciary net position as a percentage of total OPEB liability	13%

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The total OPEB liability was determined by an actuarial valuation as of January 1, 2018, using the following actuarial assumptions, applied to all prior periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	3.0%
Investment rate of return	6.0%

Healthcare cost trend rates Medical Pre-Medicare: 6% initially, reduced by decrements to a

rate of 5.0% after six years

Medical Post-Medicare: 5% consistent for next six years Pharmacy: 8.5% initially, reduced by decrement to a rate of 5%

after six years Dental and Vision: 3.0%

Mortality rate were based on the RP-2006 Headcount-Weighted Mortality Table with Fully Generational Mortality Improvement Projections from the Central Year using Scale MP-2017.

Discount Rate. The discount rate used to measure the total OPEB liability was 4.40%, which is a blended rate of the Institute's 6.0% long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index, which was 3.87% on the last Friday prior to the measurement date of June 30, 2018. A blended discount rate was calculated based on separating the projected future payments between those paid from the Trust and those paid from general assets. The Trust assets were projected using the expected long-term rate of return. Payments from the Trust were assumed to begin when the projected assets value is fully-funded and all future projected benefit payments will be paid from the Trust.

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 14

### NOTE 14. Deferred Compensation Plan

The State of New Mexico offers state, local government, and school district employees a deferred compensation plan (Deferred Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," in accordance with Internal Revenue Code Section 457. The Deferred Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available until termination, retirement, death, or unforeseeable emergency.

PERA is the trustee of the Deferred Plan; however, the Deferred Plan uses a third party administrator, acting under contract with PERA. All costs of administration and funding are borne by the Deferred Plan participants. The Administrator has authority to control and manage the operation of the Deferred Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Deferred Plan, and has certain discretionary authority to decide all matters under the Deferred Plan. As Deferred Plan trustee, PERA's primary responsibility is to select investment options that are safe and provide a reasonable rate of return and to ensure that all investments, amounts, property, and rights under the executed Deferred Plan-Trust are held for the exclusive benefit of Deferred Plan participants and their beneficiaries, as defined in the Deferred Plan. The assets of the Deferred Plan are not assets of the State, but are held in trust for the exclusive benefit of Deferred Plan participants and their beneficiaries. The State has no liability for losses under the Deferred Plan but does have the duty of due care that would be required of a fiduciary agent.

The Deferred Plan issues a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza la Prensa, Santa Fe, NM 87507. This report is also available online at: <a href="http://www.nmpera.org/deferred-compensation">http://www.nmpera.org/deferred-compensation</a>.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS – NOTE 15

#### NOTE 15. Arbitrage on Tax-Exempt Bonds

Arbitrage is the excess interest earned by a state or local government on proceeds from the sale of its bonds over interest paid to bondholders. The Tax Reform Act of 1986 TRA required rebate of such arbitrage to the U.S. Treasury Department on governmental bonds issued after August 31, 1986, and on private activity bonds issued after December 31, 1984, when the proceeds were held for six months or longer. These rebates must be calculated annually and paid at the end of every fifth year until the bonds are retired.

The Revenue Reconciliation Act of 1989 amended the six-month rule. For bonds issued after December 19, 1989, the rebate requirement does not apply if, both, all of the gross proceeds of the issue, other than the reserve fund, are spent within the six-month period following the date of issue, and the rebate requirement is satisfied for the reserve fund after the six-month period. The term gross proceeds for purposes of the rule includes both the sale proceeds received from the bonds purchaser on the issue date and investment earnings on such proceeds during the six month period. Gross proceeds deposited in a reserve fund or bona fide debt service fund, however, are not subject to the expenditure requirement.

The Office of the State Treasurer compile this information and files all required reports in compliance with regulations issued by the United States Internal Revenue Service.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 17

#### NOTE 17. State General Fund Investment Pool

The Financial Control Division (FCD), within the Department of Finance and Administration (DFA), in collaboration with the New Mexico State Treasurer's Office (STO), implemented a comprehensive reconciliation model that compared aggregated agency claims on the State General Fund Investment Pool (SGFIP) to the associated resources held by STO. This process has been in place for nearly five years and applied across four fiscal years with stable results. There have been many reviews of the process and each review has deemed it to be adequate and in compliance with established procedures. Successfully addressing this issue in fiscal year 2015 allowed the DFA to reinstate \$100 million that had been reserved as a loss contingency.

For fiscal year 2019, the following assertions are provided:

- The calculated difference between resources maintained by the STO and the agency claims has remained stable and with a very narrow and acceptable range over the twelve months of fiscal year 2019.
- 2) Resources are equivalent to and can cover the face value of all agency claims against the pool.
- 3) All claims honored at face value.

For cash management and investment purposes, funds of various state agencies are deposited in the SGFIP, which is managed by STO. The SGFIP is reported as a fiduciary fund in the financial statements of STO. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the DFA is responsible for reconciling the SGFIP balances. As of June 30, 2019, the Component Appropriations Funds report an aggregate investment of \$1.148 billion in the SGFIP.

# COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 18 (CONTINUED)

#### **NOTE 18. Tax Abatements:**

In fiscal year 2017, the State adopted Statement No. 77 of the Government Accounting Standards Board, entitled, Tax Abatement Disclosures. Statement No. 77 requires the governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients.
- The gross dollar amount of taxes abated during the period.
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

Governments should also recognize those disclosures by major tax abatement program and may disclose information for individual tax abatement agreements within those programs.

Tax abatement agreements of other governments should be organized by the government that entered into the tax abatement agreement and the specific tax being abated. Governments may disclose information for individual tax abatement agreements of other governments within the specific tax being abated. For those tax abatement agreements, a reporting government should disclose:

- The names of the governments that entered into the agreements.
- The specific taxes being abated.
- The gross dollar amount of taxes abated during the period.

The State has provided the following disclosure of tax abatements affecting the State of New Mexico. Tax receipts processed by the Department of Taxation and Revenue are recognized as revenue in various departments of the State. Abatements affecting local governments are disclosed in the financial statements of each local governmental entity, and can be obtained from the accounting department of each local government.

The State provides for a film production tax credit, which requires a film production company to be eligible to submit to the State, information required to demonstrate conformity with the requirements of the Film Production Tax Credit Act, including detailed information on each direct production expenditure and each postproduction expenditure. A film production company shall make reasonable efforts, as determined by the division, to contract with a specialized vendor that provides goods and services, inventory or services directly related to that vendor's ordinary course of business. A film production company shall provide to the Department a projection of the film production tax credit claim the film production company plans to submit in the fiscal year.

During fiscal year 2019, the Department estimates the State's revenues were reduced by approximately \$150.0 million as a result of these tax credits authorized under Section 7-2F-6 NMSA 1978. Included were approved unpaid film credits prior to July 1, 2019; legislation enacted authorized \$100.0 million to pay these credits.

In addition, as allowed by state statute, the various local governments in the State participate in various Industrial Revenue Bond Programs/Industrial Development Projects (IRBs/IDPs) which result in reduced revenues for all participating governments. Various local governments have identified the State of New Mexico as a governmental entity which has been impacted by reduced revenues. The specific amount of loss revenues of the State as a result of these various programs has not been determined; however, it is deemed to be insignificant to the State of New Mexico as a whole

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 19

#### NOTE 19. Commitments

#### A. Construction Commitments

The State has active construction projects as of June 30, 2019. The projects include highway construction, university infrastructure, and facilities construction and renovation. At year-end, the State's commitments for construction were \$8.1 million for governmental activities and \$136.5 million for business-type activities.

#### B. Loan Commitments

New Mexico Environment Department

The New Mexico Environment Department had loan commitments at June 30, 2019 of the following:

Wastewater Loan Construction Fund – the agency has executed binding commitments to disburse \$21.6 million for future loans.

Rural Infrastructure Loan Fund – the agency has executed binding commitments to disburse \$2.3 million for loans and grants.

### C. Capital Commitments

State of New Mexico Investment Council

The State of New Mexico Investment Council has commitments for capital contributions to various private equity partnerships and real estate/real asset investments. As of June 30, 2019, unfunded commitments to private equity partnerships were approximately \$1.46 billion, and unfunded commitments to real estate and real asset investments were approximately \$2.21 billion. Unfunded commitments to the Credit and Structured Finance Pool were \$668 million. Subsequent to June 30, 2019, the Council approved an additional \$805 million of commitments to private equity, real estate, and real assets partnerships and \$100 million to a fixed income investment.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 20

### NOTE 20. Contingencies

### A. Contingent Liabilities

### Public Education Department

The State did not meet its required level of financial support for the Special Education Cluster of programs for fiscal years 2011 and 2012. As a result, the Department may have a one-time reduction of future federal funding. Management's estimate of the potential one-time reduction in federal funding ranges from \$0 to \$63.49 million.

#### Northern New Mexico College

The College is involved in litigation related to a Whistleblower Protection Act claim. The College has recorded a total amount of \$250 thousand as a loss contingency related to this claim.

#### Office of the State Engineer

A state district judge ruled that the Interstate Stream Commission violated the Open Meetings Act when approving two contracts involving a diversion project in southern part of the state. As a result of the ruling, the Office of the State Engineer is exposed to a liability of \$115,779 (previously reported as \$268,000 in their FY2015 audit report) as the plaintiff is seeking reimbursement of legal costs. Because the liability has a high probability of being awarded and is estimable, a short-term contingent liability for \$115,779 was accrued in the New Mexico Unit Fund (30810) and the Government-Wide statement of net position.

# Department of Cultural Affairs

During 2009 Cultural Affairs entered into an agreement with the New Mexico Finance Authority for the issuance of \$ 369 thousand in Energy Efficiency Renewable Energy Bonds for energy efficiency improvements at three museums. As authorized by the Energy Efficiency and Renewable Energy Bonding Act (Chapter 6, Article 21D, NMSA 1978), debt service on the bonds is covered by gross receipt revenue transferred to the Energy Efficiency and Renewable Energy Bonding fund. However, after certification of energy efficiency savings from these projects by the Energy, Minerals, and Natural Resources Department in 2014, a provision was triggered requiring annual repayments to the State General Fund from Culture Affairs until the debt including interest is extinguished. The source of the repayment was intended to be the savings from the energy efficiency improvements, but Cultural Affairs contends that those savings were swept by reductions in their general fund operating budget since 2009. No provision has been made in these financial statements for separate repayment of the bonds due to circumstances surrounding the transaction to this point including uncertainty in timing of the repayment, source of repayment and possible need for special appropriation funding to provide for the bond liability.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 20 (CONTINUED)

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority (NMMFA) entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development (HUD) under Section 542(c) of the Housing and Community Development Act of 1992, whereby HUD and the NMMFA provide credit enhancements for third party multifamily housing project loans. HUD has assumed 90% of the risk and the NMMFA guarantees the remaining 10% risk of loss in the event of default on specific loans. As of September 30, 2019 and 2018, NMMFA is committed to assume a risk of approximately \$8,397 million and \$10.13 million for the 42 and 45 loans closed, respectively. These loans are considered in the NMMFA's assessment for the allowance for mortgage loan losses. As of September 30, 2019, of the 42 loans closed, 4 of the loans are not included in the Authority's financial statements because they are 100% participations with Fannie Mae. Of the \$8.97 million risk assumed as of September 30, 2019, the Authority's assumed risk approximated \$218 thousand for these off balance sheet loans. The end dates for the guarantees range from 2027-2058. In situations where the Authority is called upon to honor its guarantee, the Authority will take possession of and sell the loan collateral. HUD and the NMMFA will make up any shortfall resulting from the sale of the collateral on a 90%/10% pro rata basis.

The NMMFA also entered into a risk-sharing agreement with the U.S. Department of Agriculture under Section 538 Rural Rental Housing Guaranteed Loan Program. The Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority as of September 30, 2019. The NMMFA assumes 10% of the risk of loss and as of September 30, 2019 and 2018, is committed to assume risk of \$110 thousand and \$112 thousand respectively for the one loan closed, respectively.

On June 27, 2007, the Board of Directors approved the write-off of two HOME Loans: Mesa Grande Apartments, LTD., for \$209 thousand and Sunrise Homes Apartments, LTD. For \$229 thousand. Management has determined that it is probable that the NMMFA has incurred a contingent liability of \$438 thousand for the balance of the loans, which may be payable to HUD for non-compliance with the affordability requirement.

On September 30, 2014, management approved a reserve for contingent liability for Home for Women and Children for \$19 thousand. Management has determined that it is probable that the NMMFA has incurred a contingent liability under the 2012 Emergency Solutions Grant, which may be payable to HUD for unsupported expenditures. The reserve for contingent liability is included in Net Position as of September 30, 2019.

### B. Other Matters

#### Federal Funds

The State received funding from federal sources for specific purposes. The funds are subject to audit, which may result in expenses that are disallowed, or other noncompliance findings under the terms of the funding source's guidelines. The State believes that such disallowances or other noncompliance findings, if any, would not be material to the State's financial position.

# Taxation and Revenue Department

There is pending or threatened litigation in the form of various protests and lawsuits by taxpayers or other parties claiming abatements, refunds and the recovery of unclaimed property arising from various tax programs administered by the Taxation and Revenue Department. The total dollar amount representing the claims in protest or pending in state courts is \$269.1 million.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### NOTES TO THE FINANCIAL STATEMENTS - NOTE 21

### NOTE 21. Subsequent Events

#### A. Bond Issues

On July 9, 2019, The State issued Series 2019 General Obligation Bonds in the amount of \$139.985 million. The Net proceeds of the Bonds are being used to make capital expenditures for senior citizen facility improvements and acquisitions, for library acquisitions, for the purchase of school buses and for capital improvements and acquisitions at institutions of higher education, state special schools and tribal schools.

#### **B.** Other Events

State of New Mexico

Subsequent to year end, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the State of New Mexico, COVID-19 may impact various parts of its 2020 operations and financial results including, but not limited to, reduction in investments, reduction in lodging tax, reduction in gas prices, costs for emergency preparedness and shortages of personnel. Management believes the State of New Mexico is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events occurred subsequent to year end and are still developing.

During the period January 1, 2020 through March 30, 2020, both domestic and international equity markets have experienced large declines. These investment loses are not included in the financial statements for the year ended June 30, 2019.

Concurrent with the spread of the Coronavirus, the oil-producing nations of the world engaged in a price war, which precipitated a substantial decrease in the price of oil. The State of New Mexico is very dependent on oil and gas extraction industries for a substantial portion of its revenues. As a result of the oil price decrease, the State may need to revise the budget which was recently adopted to adjust spending in light of predicted decrease in State revenues.

Due to COVID-19, the State implemented numerous policies in early March to help fight the virus. Public schools were to be closed from March 16, 2020 through the end of the school year. These policies included a teleworking policy for State of New Mexico employees, and restaurants are not allowed to have dine in customers through April 10, 2020. These restrictions are subject to change. The Department of Workforce Solutions had policy changes to accommodate all the individuals that are temporarily laid off due to the emergency. The Department of Economic Development had been instructed to assist small businesses with loans to ensure businesses can survive the crisis. Governor Michelle Lujan Grisham has set aside \$3.25 million in the budget to for emergency spending regarding the coronavirus.

Effective from March 19, 2020 to April 10, 2020, the Governor of New Mexico made a public health order regarding the virus. Restaurants, eateries, breweries and bars are to be closed except for either delivery or take out services. Spas, gyms, casinos, movie theaters and shopping centers are closed. Hotels and lodging establishments must be at fifty percent capacity. Due to hoarding of products, the Governor has mandated that certain toiletries and medical items can only be purchased at 3 per individual.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 21 (CONTINUED)

#### State of New Mexico

The 2019 New Mexico Legislature granted a 4% salary increase to all State Employees in good standing. This increase was effective for the first full pay period in fiscal year 2020.

### Public Employees Retirement Association

The passage of Senate Bill 72 PERA Solvency was signed by the governor on March 2, 2020.

### Educational Retirement Board

Investment markets are down significantly. Global asset prices have been negatively impacted by the economic effects of the coronavirus to a significant degree. In December 2019, the Educational Retirement Board (ERB) fund hit an all-time high of \$13.8 billion (https://www.nmerb.org/pdfs/Q4%202019%20NMERB%20IPA.pdf).

Preliminary estimates for March 2020 indicate the fund could be as low as \$12.1 billion ERB's portfolio consist of 50% alternative investments, which can have up to a three-month reporting lag, so the overall impact to the ERB fund is not yet known.

During the 2020 Legislative Session, SB111 was passed. The changes in this bill include the following:

- Removing the requirement for employers and retired ERB members to make non-refundable contributions for those retired ERB members who work 0.25 FTE or less
- Allowing certain retirees to return to work without suspending their retirement benefits
- Exempting short term substitutes from the requirements of the Educational Retirement Act
- Exempting PERA retirees who work for an ERB employer from contribution requirements if they have not suspended their retirement benefits.

The impact to NM ERB from these changes is that it will extend the funding period by an estimated two years. The funding period is the number of years it will take to eliminate the unfunded actuarial accrued liability (UAAL). NMERB's funding policy has a goal to eliminate the UAAL within thirty years. As of June 30, 2019, NMERB's UAAL was \$7.9 billion and the funding period was 47 years.

#### Office of Superintendent of Insurance and Taxation and Revenue Department

Per legislative mandate (2019 Regular Session, Chapter 47, HB162), the administration of insurance premium tax transferred from the Office of Superintendent of Insurance to the Taxation and Revenue Department effective January 1, 2020. The Taxation and Revenue Department is in the process of programing its Gentax software to accommodate the management of this program. Insurance premium tax claims are being processed manually for the tax periods through December 31, 2019.

### Department of Finance and Administration

During fiscal year 2019, the State Board of Finance authorized the sale of General Obligation Bonds (GOB). The Series 2019 GOB were sold on July 9, 2019 and the sale closed on July 31, 2019 in the amount of \$139.99 million.

#### Office of State Engineer

The Bureau of Reclamation's cost estimate for construction of the regional water system was \$406.0 million at the end of calendar year 2018. During the 2019 legislative session the NM Legislature authorized up to \$100M for the Aamodt Settlement in order to help fund the project shortfall. In September 2019, the settlement parties entered into the 611g agreement which will require the settlement parties to provide additional funding for the project as follows: \$276.8 million by the United States, \$100.0 million by the State, and \$38.4 million by Santa Fe County. In addition,

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 21 (CONTINUED)

the settlement parties will need to enter into a revised cost-sharing and system integration agreement and the State will need to enter into a revised project funding agreement with Bureau of Reclamation.

#### Department of Health and Department of Veterans' Services

Effective July 1, 2019, the New Mexico Veteran's Home is under Department of Health's operations. The home was transferred from Veterans' Services Department.

#### Department of Health and Children Youth and Families Department

The Early Childhood Services Divisions within Department of Health and Children Youth and Families Department will be transferring to a new business unit on July 1, 2020. The new state agency is to be called the Early Childhood Education and Care Department and was established through the 54th Legislature.

#### Public Regulation Commission

On March 10, 2020, Public Regulation Commission (PRC) received a notice of eviction of its office from General Services Department (GSD). The eviction is effective June 30, 2020. PRC is currently searching for other office space options. At this time, it appears that GSD does not have available office space options. PRC has estimated the cost to provide office space for its employees in the private office market in Santa Fe between \$420 thousand and \$500 thousand on an annual basis. Projected moving expenditures are \$50 thousand. PRC did not account for a lease or moving expenditures as part of its fiscal year 20 or fiscal year 21 budget request because it relied on remaining with the status quo office space leased thru GSD with a lease agreement entered into in 2018 that extends through 2022. PRC is currently in negotiations with GSD regarding the need to move.

#### Department of Transportation

Capital Outlay Appropriations

Below are the amounts appropriated from Department of Finance and Administration's General Fund to the Department of Transportation's GF Capital Outlay Fund (SHARE 93100): (Amounts in thousands)

Laws	Chapter Section		Amount	Law Description
House Bill 2	271	5/34	\$ 11,000	Contingent of DFA FY19 Feneral Fund revenues
House Bill 2	271	9/1	50,000	For acquisition of ROW, planning, design and construction
House Bill 2	271	9/2	89,000	Statewide transportation improvement plan
House Bill 2	271	9/3	50,000	Local government transportation project fund
House Bill 548	279	24	25	Carrot Express Milan

#### Gaming Control Board

An employee filed a lawsuit and a settlement is currently being finalized, as approved by all parties and Risk Management. The amount of the settlement is \$65,000, of which \$32,000 will be paid by the Gaming Control Board in wages and \$32,500 in attorney fees and other damages to be paid by Risk Management. The wages and attorney fees will come out of the 2020 fiscal year.

### Board of Nursing

There is a case with a former employee where we are going to have to pay out \$10,000.

### Department of Cultural Affairs

State Museums and Historic Sites were closed by Executive Order as of Monday, March 20, 2020 in order to limit the spread of COVID-19. If this closure extends to the end of FY20, it is expected to cost the department \$500,000 to \$1,000,000 in lost admissions and rental income.

### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

### NOTES TO THE FINANCIAL STATEMENTS - NOTE 21 (CONTINUED)

### Developmental Disabilities Planning Commission

Developmental Disabilities Planning Commission (DDPC) had a lawsuit which was settled; Risk Management Division has informed DDPC that there will be no additional cost to DDPC for the settlement; however, premiums will increase for DDPC coverage for FY21.

### New Mexico Spaceport Authority

In January 2020, an independent accounting firm published an "Economic & Fiscal Impact Analyses" on the NM Spaceport Authority. This Study was performed by a separate from the annual financial audit. The positive results of the study show the estimate of Spaceport America's cumulative economic impact through FY24 reaches nearly \$1 billion. The full study can be downloaded at www.spaceportamerica.com/impact. A significant driver of Spaceport America's success is continued operations of Virgin Galactic, the anchor tenant at Spaceport America. In May of 2019, Virgin Galactic increased the workforce in New Mexico by 100 people. On Oct 28, 2019, Virgin Galactic started publicly trading stock under the ticker SPCE. On February 14, 2020, Virgin Galactic moved the spaceship "VSS Unity" to New Mexico from the manufacturing facility in Mohave, CA. On March 1, 2020, a new customer, AeroVironment, started paying rent at Spaceport America and started construction on new facilities and a second runway to perform aircraft testing.

### Cumbres & Toltec Scenic Railroad Commission

Information for the fiscal year ended June 30, 2019 was not available for this entity, so the fiscal year 2018 balances for the Statement of Net Position have been included in the report.

### REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY REPORTING

For the Year Ended June 30, 2019 (In Thousands)

#### **Budget Process**

The State Legislature makes annual appropriations, which lapse at fiscal year-end. Legal compliance is monitored through the establishment of a budget (Modified Accrual Budgetary Basis) and a financial control system, which permits a budget to actual expenditures comparison. Expenditures may not legally exceed appropriations for each budget at the program appropriation unit level. Program appropriation unit is identified in the State's accounting records and in the budgetary schedules as P-Codes, such as "P523 Child Support Enforcement." Budgeted program appropriation unit amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration within the limitations as specified in the General Appropriations Act. The budget amounts shown in the financial statements represent the final authorized amounts. Administrative line item expenditures (personnel, contractual, and other) may legally exceed amounts budgeted; however, the total budget category expenditures may not legally exceed the approved budget for the program appropriation. Chapter 6-3, NMSA 1978, sets forth the process used to develop the budget for the State of New Mexico. The process is as follows:

- 1. No later than September 1, the appropriation request is submitted to the Legislative Finance Committee (LFC), and the Budget Division of the Department of Finance and Administration (DFA), for the fiscal year commencing the following July 1. The appropriation request includes proposed expenditures and the means of financing them.
- 2. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcomes of those hearings are incorporated in the State's General Appropriations Act (Act).
- 3. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit, at which time the approved budget becomes a legally binding document.
- 4. Not later than May 1, an annual operating budget is submitted to DFA by appropriation unit and object code based upon the appropriation authorized by the Legislature. DFA reviews and approves the operating budget, which becomes effective on July 1.
- 5. Formal budgetary integration is employed as a management control device during the fiscal year for the General and Special Revenue Funds.

#### **Budgetary Basis of Accounting**

The budget is adopted on the modified accrual basis of accounting, per statute; however; accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, they must be paid out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

### REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY REPORTING

For the Year Ended June 30, 2019 (In Thousands)

#### Multiple Year Appropriation - Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for, the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These non-operating budgets primarily serve as a management control purpose, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

#### **Budget to GAAP Reconciliation**

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

In the accompanying budgetary schedules, budget and actual expenditures are reported only for appropriated activities for the operating budgets. Expenditures are classified in the financial control system based on whether the appropriation is from the operating or multiple year budgets (special or capital). Expenditures funded by the operating budget appropriations are reported as current expenditures classified by the function of the agency receiving the appropriation.

However, in the governmental operating statements, all governmental funds are included and expenditures are classified according to what was actually purchased. Capital outlays are fixed asset acquisitions such as land, buildings, and equipment. Debt service expenditures are principal and interest payments. Current expenditures are all other governmental fund expenditures classified based on the function of the agency making the expenditures. Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated.

Because of perspective differences between this budgetary comparison and the general fund statement of revenues, expenditures, and changes in fund balance, this schedule is presented as required supplementary information (RSI.)

The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as non-appropriated (not budgeted) by the Legislature are the Severance Tax Fund, the Land Grant Fund., and the following Enterprise Funds: State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

#### **Excess of Expenses/Expenditures Over Budget**

For the fiscal year ended June 30, 2019, the Gaming Control Board exceeded Pcode/program budget authority.

STATE OF NEW MEXICO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2019

# FINANCIAL SECTION

## OTHER SUPPLEMENTARY INFORMATION

CARLSBAD CAVERNS SOURCE - SANTAFE.COM

## OTHER SUPPLEMENTARY INFORMATION NONMAJOR PROPRIETARY FUNDS COMBINING FINANCIAL STATEMENTS

#### **Enterprise Funds**

Enterprise funds report the activities for which fees are charged to external users for goods and services. Enterprise Funds are presented beginning on page 270.

#### **Internal Service Funds**

Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Internal Service Funds are presented beginning on page 282.

### OTHER SUPPLEMENTARY INFORMATION NONMAJOR ENTERPRISE FUNDS COMBINING FINANCIAL STATEMENTS

Industries for the Blind – The New Mexico Commission for the Blind's mission is to encourage and enable the State's blind citizens to achieve vocational, economic, and social equality. This proprietary fund is used to provide career training and other assistance for New Mexico's blind citizens and entails the operations of the Albuquerque Training Center.

Corrections Industries Revolving Fund – This fund is used to account for certain activities of the Corrections Industries Division of the Department of Corrections. These activities include the manufacture of furniture and textiles, production of agricultural crops, and data entry services.

Environment Department – This fund is used to account for revolving loans for wastewater and drinking water facilities

New Mexico Magazine – New Mexico Magazine is a program of the Department of Tourism. The fund accounts for the publishing and distribution of the monthly New Mexico Magazine.

New Mexico Public Schools Insurance Authority (NMPSIA) – NMPSIA is a self-insurance pool that provides various benefits and risk coverage to participating public schools, school board members and public school employees, plus retired board members and employees. Coverage provided includes property, casualty, workers' compensation, health. life, and disability.

State Infrastructure Bank – The State Infrastructure Bank is a proprietary fund administered by the Department of Transportation. The fund is used to account for loans made for road projects.

Miners' Colfax Medical Center – Miners' Colfax Medical Center is a State owned medical facility in Raton, New Mexico. The current organization is a result of a merger between the Miners' Hospital and Northern Colfax County Hospital. Miners' Colfax operates a 25-bed acute care hospital; a 37 bed extended care facility and various outpatient clinics in Raton, New Mexico. Miners' Colfax has programs that serve both miners and non-miners.

**Unemployment Insurance Fund** – The Unemployment Insurance Fund accounts for funds used for unemployment compensation. This fund does not account for other than unemployment compensation (i.e., workers' compensation, employment security labor market statistics, administration of the employment compensation program, etc.)

State Fair Commission – This fund administers the operations of the annual New Mexico State Fair and the use of the Fairgrounds facilities during the year

**Department of Cultural Affairs** – This fund administers the enterprise operations of the Department of Cultural Affairs.

**Education Trust Board** – The Education Trust Board of New Mexico operates as a self-sustaining entity which is administratively connected to the NM Department of Higher Education. This fund administers New Mexico's Section 529 College Savings Plans under rules promulgated by the Board. The financial statements of the two savings plans are presented as a private purpose fiduciary trust fund.

# OTHER SUPPLEMENTARY INFORMATION NONMAJOR INTERNAL SERVICE FUNDS COMBINING FINANCIAL STATEMENTS

June 30, 2019

Fleet Operations – This fund accounts for the operations of the Transportation Motor Pool and the State Aircraft Pool, which provide ground and air transportation services to all state agencies on a fee basis.

**Risk Management** – This fund provides insurance coverage for all state agencies. Areas covered include public liability, workers compensation, group health and life, unemployment compensation, surety bond, and property insurance. Agencies are charged a premium based on several factors, including history and number of employees.

**Printing and Records** – This fund accounts for the provision of printing services of all kinds to state agencies according to an approved fee schedule. The fund also includes services for the retention and storage of public records for all state agencies, which pay an assessment based on size and usage.

**Communications Services** – This fund provides voice and data telecommunications services to all state agencies, which are assessed an annual fee based on size and prior usage.

**Information Processing** – This fund provides automated data processing services for all state agencies, which are assessed an annual fee based on size and prior usage.

#### OTHER SUPPLEMENTARY INFORMATION FIDUCIARY FUNDS PENSION AND OTHER EMPLOYEE BENEFITS TRUST FUNDS FINANCIAL STATEMENTS

**Public Employees Retirement Association - (PERA)** – PERA is a qualified, defined benefit, government retirement plan established by the State of New Mexico to provide pension benefits for all State, County, and Municipal employees, police, firefighters, judges, magistrates and legislators. PERA is comprised of four separate systems which offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators.

**Educational Employees' Retirement System (EERS)** – EERS is a qualified, defined benefit, governmental retirement plan established and administered by the State of New Mexico to provide pension benefits for all state certified employees, teachers and other employees of the State educational institutions, junior colleges, and technical vocational institutes.

**New Mexico Retiree Health Care Authority (RHCA)** – RHCA is a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that provides comprehensive core group health insurance for persons who have retired from public service with entities in the State of New Mexico.

**Deferred Compensation Plan (IRC 457)** – The State of New Mexico offers its employees a deferred compensation plan (Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," is in accordance with Internal Revenue Code Section 457. The Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Public Employee's Retiree Association is the trustee of the Plan; however, the Plan is administered by a third party administrator acting under contract with PERA.

# OTHER SUPPLEMENTARY INFORMATION FIDUCIARY FUNDS EXTERNAL INVESTMENT TRUST FUNDS FINANCIAL STATEMENTS

State Investment Council – The State Investment Council (Council) is responsible for the investment activities of certain State of New Mexico Trust Funds. Pursuant to New Mexico law, the Council created the following investment pools: Large Capitalization Active, Large Capitalization Index, Core Bonds, Structured Credit, Mid\Small Capitalization, Non-U.S. Equity Securities, Non-U.S. Emerging Markets, and Absolute Bonds. The investment pools provide long-term investment opportunities for state agencies and designated institutions that have funds available for a long-term investment program that will extend for more than one year. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by State entities are presented in both the Governmental Funds and Proprietary Funds as assets of those respective entities.

State Treasurer – The Office of the State Treasurer holds and invests monies for other state agencies and local governments through the Local Governmental Investment Pool. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by the State are presented in both the Governmental Funds and Proprietary Funds as assets of those respective entities.

STATE OF NEW MEXICO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2019

# STATISTICAL SECTION

TAOS SKI VALLEY SOURCE - WWW.NEWMEXICO.ORG

#### COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2019

#### INDEX TO STATISTICAL SECTION

The Statistical Section provides additional historical context and detail to aid in using the information in the financial statements, notes to the financial statements and required supplementary information for the primary government of the State of New Mexico in understanding and assessing the State's overall financial health.

#### **Financial Trends Information**

Schedule E-3

These schedules present trend information to help the reader understand how the State's financial performance and fiscal health have changed over time

nscai nearm na	ve changed over time.	
Schedule A-1	Net Position by Component	312
Schedule A-2	Changes in Net Position	314
Schedule A-3	Fund Balances, Governmental Funds	320
Schedule A-4	Changes in Fund Balances, Governmental Funds	322
Revenue Capa	city Information	
These schedule	s contain information to help the reader understand the State's capacity to raise reve	nues and the
sources of those		
Schedule B-1	Schedule of Revenues, State General Fund	324
Schedule B-2	Revenue Base	
Schedule B-3	Revenue Payers by Industry - Taxable Sales, Services, and Use Tax Purchases	332
Schedule B-4	Revenue Payers – Personal Income Tax	333
Schedule B-5	Personal Income Tax Rates	
<b>Debt Capacity</b>		
	s present information to help the reader understand and assess the State's levels of outs	standing debt
and the State's	ability to issue additional debt in the future.	
Schedule C-1	Ratios of Outstanding Debt by Type	
Schedule C-2	Long-Term Liabilities	
Schedule C-3	Legal Debt Margin	
Schedule C-4	Statutory Debt Limit – Severance Tax Bonds	
Schedule C-5	Pledged Revenue Bond Coverage	
	and Economic Information	
	s contain demographic and economic indicators to help the reader to understand the enviro	nment within
which the State	's financial activities take place.	
Schedule D-1	Demographic and Economic Indicators	346
Schedule D-2	Principal Employers	
Schedule D-3	Composition of Labor Force	
Schedule D-4	Public Higher Education Enrollment	
Operating Info		
	s offer operating data to help the reader understand how the information in the State's fir	nancial report
relates to the se	rvices it provides and the activities it performs.	
Schedule E-1	Full-Time Equivalent State Employees by Function	
Schedule E-2	Operating Indicators by Function

<sup>#</sup> In fiscal year 2011, the New Mexico Lottery Authority was determined to be a discrete component unit. Prior to fiscal year 2011, the New Mexico

Lottery Authority was considered to be a blended component unit and was presented as a nonmajor proprietary fund.

+In 2010, the President of the United States signed into law the American Recovery and Reinvestment Act (ARRA) of 2010. The State accounts for all ARRA revenue and expenditures under fund 89000, which is classified as a special revenue fund. Under ARRA, the State received federal unemployment monies that were accounted for in fund 89000. The Unemployment expenditures reported in the governmental activities represent

<sup>\*</sup>In fiscal year 2006, the Unemployment fund was determined to be a nonmajor propriety fund.

Source State of New Mexico Comprehensive Annual Financial Report for outstanding bonded and non-bonded debt.

See Schedule for Demographics and Economic Statistics for personal income and population data. Ratios are calculated based upon personal income and population which are reported for the prior calendar year.

Note: In the past, total debt was used to calculate the above ratios. Beginning with fiscal year 2009, outstanding debt is used in the ratio calculation; therefore, all prior year balances were restated to reflect the change.

Total General Debt Outstanding	350,925		260,760		326,755		389,270		311,270			
Legal Debt Margin	\$ 318,267	\$	346,229	\$	247,763	\$	176,982	\$	272,860			
Legal Debt Margin as a Percentage of the Debt Limit	47.6%		57.0%		43.1%		31.3%		46.7%			

Note: The Constitution of the State of New Mexico, Article IX, Section 8, limits the State's outstanding general debt to a maximum of one percent of the net taxable value of all property subject to taxation within the State.

The legal debt margin is the remaining borrowing authority available and is calculated by subtracting the bonded debt outstanding from the legal debt limit as calculated per Constitutional requirements.

Source: Note information regarding general bonded debt outstanding can be located within the State of New

Mexico's comprehensive annual financial report per fiscal year. Property value data was provided by the Department of Finance and Administration, Local Government Division, Financial and Property Tax Data by County and Municipality. Per capita information is based upon population data located

in the Demographics and Economic Statistics schedule.

- Note: The State of New Mexico passed the Accountability in Government Act, NMSA 6-3A, in 1999. Efforts have been made in identifying and determining performance measurements since that time. Agencies began tracking and calculating these performance measurements beginning in fiscal year 2004. These operating indicators will continue to be tracked in the future in order to reach a ten year historical comparison.
- N/A 1 Measure deleted in FY09 or a latter Fiscal Year and replaced by different criteria.

## OTHER REPORTS

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico Ms. Olivia Padilla-Jackson, Secretary of the New Mexico Department of Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón, New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the State's basic financial statements, and have issued our report thereon dated March 31, 2020. Our report includes reference to other auditors who audited the financial statements of certain agencies and component units, as described in our report on the State's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. Our report includes a qualified opinion on the governmental activities opinion unit because of the matters described in the "Basis for Qualified Opinion on Governmental Activities" paragraph in our report starting on page 2.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico Ms. Olivia Padilla-Jackson, Secretary of the New Mexico Department of Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón, New Mexico State Auditor

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2019-001, 2019-002, and 2019-003 that we consider to be material weaknesses.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the State's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2019-004.

#### The State's Responses to Findings

The State's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The State's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Noncompliance material to financial statements noted?	Yes	No X			

#### **Financial Statement Findings**

#### 2019-001 (Original Finding # 2018-002) - Component Financial Reporting (Material Weakness)

**Condition:** The financial statements of the State are considered "group financial statements" under *AU-C 600, Special Considerations – Audits of Group Financial Statements*. Whereas, "group financial statements are defined as financial statements that include the financial information of more than one component. The "component" is defined as an entity or business activity for which group or component management prepares financial information that is required by the applicable financial reporting framework to be included in the group financial statements.

The State's financial statements consist of more than 200 components, these components consist of state agencies/entities under each of the three branches of the government (Executive, Judicial, Legislative), various boards and commissions of the State, various higher educational institutions as established by the State's constitution, and various other entities that are legally separate from the State that meet the criteria of a component unit of the State under GASB codification. Examples of component units included in the State's financial statement include the finance authorities, the lottery, foundations of aforementioned higher educational institutions, and numerous state authorized charter schools and their related foundations. All components of the State are separately audited and issue separate stand-alone financial statements. The following represent some of the more significant issues identified at the component level that have an impact on state-wide reporting:

- During FY19, the State established a loan with NMFA, a component unit of the State in the amount of \$11,500,000 related to GSD project. State accounting policy requires certain state agencies to report the various components of debt with NMFA in their stand-alone financial statements, however, it was identified by the State CAFR unit and recorded only in the CAFR.
- The State was unable to provide a final trial balance reconciliation to audited financial statements for the Public Schools Facilities Authority, a significant component of the State's financial statements, until March 5, 2020
- As reported in the separate audit of the Office of Superintendent of Insurance, a non-significant component
  of the State, management of the agency recognizes plan participant surcharges on the cash basis of accounting
  in the Patient's Compensation Fund (a component of the private-purpose trust fund of the State).
- As reported in the separate audit of the General Services Department, a significant component of the State,
  management of the agency has identified the records of land owned by the State are incomplete and don't
  agree with the reported amounts in the financial statements. In addition, management of the agency is
  uncertain as to the accuracy of the dates in service for CIP projects determined to have been completed in
  prior years.
- The Educational Institutions Fund is reported as a proprietary fund in the State's financial statements and is comprised of 10 educational institutions. Various state agencies transfer more than \$840 million to these various institutions, which primarily consist of state appropriations (including capital related appropriations), land grant permanent fund distributions, and lottery fund distributions. The reporting of these various sources lacks consistency among the various stand-alone reports for the educational institutions. In some instances the specific amounts are either obscure or aggregated with other streams of non-operating revenue, which causes difficulties in reconciling the activity among these institutions and other components of the State.

#### Financial Statement Findings (Continued)

#### 2019-001 (Original Finding # 2018-002) - Component Financial Reporting (Material Weakness) (Continued)

#### Condition (Continued):

• Educational Institutions, which are part of the primary government and are reported as within the State's Proprietary fund, interact with other agencies of the State on a regular basis. Educational Institutions accounting activity is supported by ERP software other than SHARE. While the Financial Control Division of the State did create accounts for "SHARE" agencies to report the balances and activities between "SHARE" agencies and entities outside SHARE, there are inconsistencies among agencies in using the accounts designated for component units of the State versus the educational institutions. In addition, there is inconsistent use of the established accounts that relate to reciprocal vs non-reciprocal transactions.

Across the various state agencies (SHARE entities), we identified approximately \$73M (excluding appropriations from the General Fund and Board of Finance) was disbursed to Educational Institutions using the following accounts:

- o 547400-Grants to Local Governments
- o 547410-Grants to Public Schools University
- o 547420-Higher Ed Institutions
- 547430-Grants to Native American Indians
- 547440-Grants to Other Entities
- o 555200-Other Financing Uses Higher Ed Institutions

The inconsistent and inaccurate use of the accounts as noted above doesn't allow the State to properly account and report on activity among the Educational Institutions.

Management's Progress for Repeat Finding: The State has made many modifications to its system of accounting of information related to this finding. These improvements include creating new account numbers and issuing guidance regarding the use of the accounts. Ongoing communication and monitoring occurs.

Criteria: Per Section 6-5-2 NMSA 1978, the Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

Cause: These issues can be attributed to the complexity of the State's reporting entity combined with the quantity of separate components and their related control environments/processes that comprise the State's financial statements. Additionally, there is a lack of adequate resources within the State's CAFR unit to focus on addressing these issues throughout the year and during the financial reporting process. Overall, the State lacks an effective control environment over the financial reporting of the State as a whole to facilitate the production of timely and accurate financial statements of the State.

#### Financial Statement Findings (Continued)

#### 2019-001 (Original Finding # 2018-002) - Component Financial Reporting (Material Weakness) (Continued)

Effect: The State of New Mexico is unable to properly prepare financial statements in accordance with generally accepted accounting principles in a timely manner. Furthermore, these issues led to the opinion modifications on the State's financial statements.

**Recommendation:** To improve statewide reporting impacted by component level reporting, we recommend the following:

- 1) For issues caused by inconsistent reporting among the educational institutions, we recommend the CAFR Unit identify those specific issues and provide specific guidance to these entities and their Independent Public Accountants (IPAs) on the required reporting format and related disclosures to facilitate efficiencies and consistencies in statewide reporting. The State should also consider a standardized form/template to be completed by these entities to further facilitate the efficiency and consistency of the financial reporting information derived from these reporting entities outside of SHARE.
- 2) For those significant components that are identified by the State as being at risk of an untimely submission of the audited financial statements, the state should evaluate a process/program to facilitate providing assistance to the component to avoid untimely audits. In addition, the State should also evaluate any necessary assistance that can be provided to those significant components that have received modified opinions to avoid future impacts on the State's financial statements.
- 3) For those components that report under SHARE, the State should provide additional training to those entities that are not properly using the established accounts for activity among component units and educational institutions, as necessary. The State should evaluate the established accounts and ensure all agencies know which accounts to utilize, depending on the nature of the transaction.

#### Management's Response:

Management is in agreement with the finding. Given the number of agencies and external components of the State that are reported in the CAFR, there may be situations whereby effects of reporting are not in the direct control of the Department of Finance and Administration (Department). Efforts are ongoing to address these concerns.

Specifically, the State has issued policy in regard to the ongoing issue of recording loans that occur between the state and the New Mexico Finance Authority, a major component unit. Department accounting policy states that the agency that holds the related assets will also record the associated debt. A new loan that occurred during 2019 was inadvertently omitted in the financial statements of the General Services Department; it was recognized at the CAFR level. In the future, the Department of Finance and Administration will work with the New Mexico Finance Authority to ensure that the state controller is apprised of all loan activity related to the primary government as it occurs.

The state recognizes that there are instances whereby an agency may not have the personnel required to prepare financial statements for a timely audit. The Department of Finance and Administration has included, in its budget for fiscal year 2021, funds to implement a CFO loan program. This program will provide agencies with assistance when needed onsite and will also review processes, reconciliations, and reports for the agencies deemed high risk while assisting these agencies in implementing processes to become in compliance with GAAP accounting bases.

In regard to inter fund activity, the state created and implemented the use of account numbers for activity specific to components of the CAFR that do not use SHARE, the statewide ERP. Significant progress was made in identifying activities for the purpose of preparing appropriate elimination activity for the CAFR. Improved communication, guidance, and monitoring, will be performed so that use of the accounts is correct and consistent.

The State Controller will be responsible for implementing this corrective action, which is an ongoing process.

#### **Financial Statement Findings (Continued)**

# 2019-002 (Original Finding # 2013-002) - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated

**Condition:** During our audit of the State's financial statements, we noted significant issues surrounding the reporting and recording of interfund/internal/intra-entity balances and transactions. The most significant issues regarding interfund/internal/intra-entity transactions and balances are summarized below:

- The State prepared an analysis of capital appropriations reported by the Educational Institutions to the capital appropriations per State agency records. However, the State only considered appropriations from the Board of Finance, but neglected to include in its analysis appropriations from the General Fund. Because the State's analysis only considered those from the Board of Finance, its analysis inaccurately revealed an approximate \$53M variance, which the State incorrectly reclassified \$53M in capital appropriations (interfund transfers) to "Endowment Contributions", which required an adjustment to remove this entry.
- The State incorrectly classified \$44M in transfers of lottery funds to the Educational Institutions as expenditures instead of transfers (other financing uses), which required a reclassification entry.
- During the preparation of the State's financial statements, numerous funds are consolidated into single funds of the State. During the consolidation process numerous balances should be reclassified or eliminated to avoid the error of counting a transaction more than once which would affect assets and liabilities within the consolidated fund. Additionally, transfers should also be eliminated when they are among funds that are consolidated. The State doesn't have a reliable process to eliminate or reclassify all balances and activities of funds that are consolidated into a common fund on the State's financial statements. Proposed audit adjustments were necessary to eliminate grossed up activity as a result of the consolidations.
- The statement of net position reports governmental activities due from higher educational institutions of \$200K and due to higher educational institutions of \$14.4M. These balances should be classified as internal balances if they are balances among those institutions that comprise the primary government of the State, however, the business type activities lack any offsetting balances.
- Amounts reported as due from/to primary government/component units at the government wide statements should net to \$0, however, they don't net to \$0.

Management's Progress for Repeat Finding: The State has made many modifications to its system of accounting of information related to this finding. These improvements include creating new account numbers and issuing guidance regarding the use of the accounts. Ongoing communication and monitoring occurs.

Criteria: Per Section 6-5-2 NMSA 1978, the (Financial Control) Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

#### Financial Statement Findings (Continued)

# 2019-002 (Original Finding # 2013-002) - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated (Continued)

#### Criteria (Continued):

Per NCGAS 1 Governmental Accounting and Financial Reporting Principles

Transfers should be recognized in the accounting period in which the interfund receivable and payable arise
and requires that a government accrue a governmental fund liability and expenditure for most expenditures
and transfers in the period in which the government incurs the liability. Furthermore, transfers of financial
resources among funds should be recognized in all funds affected in the period in which the interfund
receivable(s) and payable(s) arise.

#### Per GASB 34 Para 112

• Nonreciprocal interfund activity is the internal counterpart to nonexchange transactions. It includes: (1) Interfund transfers—flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. This category includes payments in lieu of taxes that are not payments for, and are not reasonably equivalent in value to, services provided. In governmental funds, transfers should be reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers should be reported after non-operating revenues and expenses.

#### Per GASB 34 Para 58

Amounts of receivables and payables between the primary government and fiduciary funds are reported as
receivable from and payable to external parties.

#### Per GASB 34 Para 57

Paragraph 57 States "In the process of aggregating data for the statement of net position and the statement of
activities, some amounts reported as interfund activity and balances in the funds should be eliminated or
reclassified." This same approach should be applied at the fund financial statement level.

#### Per GASB 34 Para 61

Resource flows (except those that affect the balance sheet only, such as loans and repayments) between a
primary government and its discretely presented component units should be reported as if they were external
transactions—that is, as revenues and expenses. However, amounts payable and receivable between the
primary government and its discretely presented component units or between those components should be
reported on a separate line.

#### Per GASB 34 Para 69

• Fiduciary fund reporting focuses on net assets and changes in net assets. Fiduciary funds should be used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The fiduciary fund category includes pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and agency funds. The three types of trust funds should be used to report resources held and administered by the reporting government when it is acting in a fiduciary capacity for individuals, private organizations, or other governments. These funds are distinguished from agency funds generally by the existence of a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

#### Financial Statement Findings (Continued)

# 2019-002 (Original Finding # 2013-002) - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated (Continued)

#### Criteria (Continued):

Per GASB 34 Para 128

 In addition to the financial statement information required by paragraph 126, the notes to the financial statements should disclose, for each major component unit, the nature and amount of significant transactions with the primary government and other component units.

Cause: These issues can be attributed to the complexity of the State's reporting entity and the quantity of separate components and their related control environments/processes that comprise the State's financial statements. Additionally, there is a lack of adequate resources within the State's CAFR unit to focus on addressing these issues throughout the year and during the financial reporting process. Overall, the State lacks an effective control environment over the financial reporting of the State as a whole to facilitate the production of timely and accurate financial statements of the State.

Effect: The State is unable to properly reconcile this activity to assist with the preparation of timely financial statements in accordance with generally accepted accounting principles.

**Auditors' Recommendation:** We recommend the CAFR Unit continue to evaluate the nature of all significant transactions among the various components of the State that comprise the interfund/internal/intra-entity activity and balances within the State's financial statements and:

- 1) determine the proper accounting treatment for the various types of transactions;
- 2) develop policies and procedures for these related transactions, which include proper recording in SHARE and yearend reporting packages from the non-SHARE entities;
- 3) communicate these procedures to all components of the State; and
- 4) establish procedures to monitor this activity monthly, which will allow the CAFR Unit and the components to identify and address differences in these transactions among the components in a timely manner. In addition, the CAFR Unit shall establish procedures for properly consolidating and eliminating these transactions in the State's financial statements to properly report interfund/internal/intra-entity balances and activity for the State as a whole. This would include establishing procedures for identifying valid timing differences which may exist between components, which would be reconciling items between the State's financial statements and the component level financial statements.

#### Management's Response:

As noted, these issues can be attributed to the complexity of the State's reporting entity and the quantity of separate components and their related control environments/processes that comprise the State's financial statements. To mitigate this, beginning in fiscal year 2021, the Department was allocated funds for two additional CAFR staff. The Department will utilize these positions to increase ongoing monitoring especially for agencies that are deemed high risk. In addition monthly reconciliation of all inter-fund activity will be performed. The inter-fund activity processes have improved since implementation of required use of fund affiliate in the state's accounting system. Processes will be further implemented to include monthly reconciliation of the interfund activity for those entities utilizing SHARE.

# SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2019

#### Financial Statement Findings (Continued)

# 2019-002 (Original Finding # 2013-002) - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated (Continued)

#### Management's Response (Continued):

For those entities that are not in SHARE, guidance will be issued to require identification and reporting for all activity that occurs with the primary government. Transactions include appropriations, grants, contracts, and other transactions which may be reciprocal or nonreciprocal. Efforts will be made to identify each type of activity and determine the correct treatment. This information will be used to issue guidance that applies to all entities so that recording is accurate and consistent. In addition, the Department was granted Information Technology funds for a project to create an online form to obtain intercompany activity related to the higher education institutions. Once completed, the form will require certain reconciled data to be entered online in a form that will feed into the Department's financial statement preparation system.

In addition, the higher education entities are using accounting guidance that is outdated and misaligned with state policy. Efforts will be made to coordinate with the Department of Higher Education to update accounting and reporting policies for the higher education entities. During this process, the Department of Finance and Administration will identify activity that must be addressed and create policy to ensure that those items are correctly eliminated in the CAFR preparation process.

Given the magnitude of embedded processes, interdepartmental activities and legacy supporting systems, the development and implementation of a streamlined model has been a significant undertaking, and each cycle has shown continuous improvement. The State Controller will be responsible for implementing this corrective action, which is an ongoing process.

# 2019-003 (Original Finding #2013-005) Internal Control over Financial Reporting (Material Weakness) – Repeated

Condition: During the audit we evaluated the State's internal controls over financial reporting, which revealed that the State's internal controls over financial reporting were not adequate to ensure preparation of financial statements for the State in accordance with generally accepted accounting principles. The following detail some of the issues encountered during the audit, which illustrate the need for enhanced controls over financial reporting for the State in preparing financial statements in accordance with generally accepted accounting principles and the New Mexico State Audit Rule.

As a result of our audit procedures we identified the following errors and misstatements reflected in the initial draft of the financial statements of the State as prepared by management. All of these errors were subsequently corrected by management in the final version of the financial statements.

- The State requires the STB/GO bond debt to be recorded on the separate financial statements of Department of Finance and Administration (DFA), however, the debt service fund in which the severance taxes and property tax levies are recognized and accumulated for debt service are reported in the separate financial statements of the State Treasurer's Office (STO). Because of the separate reporting and the State lacking a process to identify and recognize the necessary consolidation/reclassification entries required, an approximate \$483M reclassification between restricted and unrestricted net position was required.
- The State reported all non-major enterprise fund balances under the "Restricted-Other" fund balance classification instead of classifying under the specific restricted purpose for those significant balances (i.e. Unemployment, Loans, etc.), which required a reclassification.
- The combining statement of changes in fiduciary net position for the private purpose funds incorrectly
  classified investment earnings of \$142M as member contributions, which required a reclassification.
- The State incorrectly classified approximately \$85M of investments as cash, which required a reclassification.
- The State incorrectly classified \$29M of expendable assets as nonexpendable for the non-major component units, which required a reclassification.
- The State lacks a process to distinguish between operating grants and capital grants for purpose of the proper
  classification of these program revenues on the statement of activities, which required a reclassification of
  \$377M from operating grants to capital grants for governmental activities.
- During our review of the initial draft, we noted reported unassigned fund balances (deficits) as follows: Debt Service Fund \$237M, Capital Projects Fund (\$713M), Severance Tax Permanent Fund (\$14M), and the Land Grant Permanent fund \$711M. These were unexpected for these funds, which were caused by inappropriate journal entries created by the State in an effort to eliminate grossed up interfund balances/activity. The fund balances were subsequently corrected/revised to properly report these balances.
- As of June 30, 2018, the State accrued a contingent liability that approximated \$179M related to estimated
  film tax credits. As of June 30, 2019, the remaining liability was \$29M, however, the State eliminated the
  entire liability, which required an adjustment to properly reflect the estimated unpaid amount.
- The State lacks an effective process to properly identify the necessary adjustments on the statement of
  activities related to the elimination of the internal service funds activity among state agencies. Total expenses
  eliminated were understated by approximately \$31M and the entire amount was only eliminated from the
  "General Control" function. In addition, the charges for services elimination of \$232M was incorrectly
  eliminated from miscellaneous revenue under general revenues.
- The effect of changes in the net OPEB liability and related deferred amounts totaling approximately \$21M were incorrectly classified as miscellaneous revenues in the statement of activities.
- The effect of changes in the net pension liability and related deferred amounts totaling approximately \$226M was classified in the General Control function instead of being allocating among the various functions.

# SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2019

#### Financial Statement Findings (Continued)

# 2019-003 (Original Finding #2013-005) Internal Control over Financial Reporting (Material Weakness) – Repeated (Continued)

#### **Condition (Continued):**

As a result of our audit procedures we identified the following errors and misstatements reflected in the initial draft of the financial statements of the State as prepared by management. Management opted **not to correct** these items and are reflected as uncorrected errors in the State's financial statements. These errors and misstatements are not considered material individually or in the aggregate.

- The net activity related to capital asset activity as reported on the reconciliation of the statement of revenues, expenditures, and changes in fund balances governmental funds to the statement of activities reflects an approximate \$28M variance when compared to the capital asset note disclosure. In addition, the notes report an approximate \$44M loss on the disposal of capital assets of which the State is uncertain as to how separate agencies reported in SHARE and the accuracy.
- The financial statements reflect a restatement in the amount of \$79M to the beginning net position of the governmental activities, which is identified as an adjustment related to the correction of errors. However, management is unable substantiate the actual errors that relate to this correction, and the entry was necessary to roll the net position from prior year. Overall, the State lacks an effective process around the assessment and identification of appropriate restatements at the State level and those that are a result of component level financial statements which may not be necessary to report as restatements at the State level.
- The reconciliations between the fund statements and the government-wide statements contain unreconciled variances in the amounts of \$4.4M and \$1.4M. Additionally, the reconciliations between the fund and the government-wide statements does not accurate capture activity related to capital gains resulting from a terminated capital lease, resulting in a \$1.8M unreconciled variance. The State lacks a comprehensive process to accurately track and reconcile activity from the fund level financial statements and footnotes to the government-wide financial statements
- The budgetary schedule of the general fund in the initial draft provided to us contained several variances
  when compared to the separately issued stand-alone reports. These were subsequently corrected by
  management, however, the budgeted operating transfers in compared to budget has a variance of \$4.7B.
   From a budgetary perspective it is apparent that either the budgeted amount or the actual amount is inaccurate.
- During our review of the State's financial statements, various inconsistencies and/or misclassifications, and rounding issues were identified and remain uncorrected.

Management's Progress for Repeat Finding: The State has made many modifications to its system of accounting of information related to this finding. These improvements include creating new account numbers and issuing guidance regarding the use of the accounts. Ongoing communication and monitoring, and improvement will occur.

Criteria: Per Section 6-5-2 NMSA 1978, the Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

#### Financial Statement Findings (Continued)

# 2019-003 (Original Finding #2013-005) Internal Control over Financial Reporting (Material Weakness) — Repeated (Continued)

Cause: These issues can be attributed to the complexity of the State's reporting entity and the quantity of separate components and their related control environments/processes that comprise the State's financial statements. Additionally, there is a lack of adequate resources within the State's CAFR unit to focus on addressing these issues throughout the year and during the financial reporting process. Overall, the State lacks an effective control environment over the financial reporting of the State as a whole to facilitate the production of timely and accurate financial statements of the State.

Effect: The State of New Mexico is unable to properly prepare financial statements in accordance with generally accepted accounting principles in a timely manner.

**Recommendation:** We recommend the State evaluate the entire approach of producing the State's financial statements and the related processes and methodology to determine which processes could be improved upon to facilitate the State's ability to produce a more timely and accurate report. Specifically, the State should evaluate each of the identified errors and issues outlined in the condition of this finding to determine the root of the issue to facilitate an appropriate corrective action. The State should evaluate whether the previous implementation of "Hyperion", the software utilized to prepare the State's financial statements, is a contributing factor to the State's ability to produce a more timely and accurate report. Furthermore, the State should evaluate if additional resources within the CAFR unit would improve the timeliness of the CAFR preparation.

#### Management's Response:

Management is in agreement with this finding. To strengthen internal control over financial reporting, the State has initiated numerous accounting policy and procedural changes. As noted above issues can be attributed to the complexity of the State's reporting entity and the quantity of separate components and their related control environments/processes that comprise the State's financial statements as well as the lack of resources within the State's CAFR unit to focus on addressing these issues throughout the year and during the financial reporting process.

The Department of Finance and Administration was awarded funding in its 2021 budget for two additional CAFR accountants. This funding will provide capacity to more closely monitor the activity and policies of agencies, particularly the agencies deemed high risk. The additional staff will also add capacity during the actual preparation of the CAFR at year end. Having additional staff will allow for a more thorough review of the draft report prior to sending to the auditors.

During FY18, the Department of Finance and Administration issued additional statewide clarifying accounting policies taking policy control back from the agencies. Recent enterprise system upgrades have included enhancements to automated transaction validation. All of this has improved the quality of the CAFR, however there remains a number of misaligned transactions at the agency level. Additional process reengineering, documentation, training and oversight is planned to fully address this issue. The State Controller will be responsible for implementing this corrective action, which is an ongoing process.

#### **Compliance and Other Matters**

#### 2019-004 (Original Finding # 2015-001) Late Submission of Audit Report (Compliance and Other Matters)

Condition: The audit report for the CAFR for the year ended June 30, 2019 was not submitted by Regulatory due date of December 31, 2019.

Management's Progress for Repeat Finding: The State has made many modifications to its system of accounting of information related to this finding. These improvements include creating new account numbers and issuing guidance regarding the use of the accounts. Ongoing communication and monitoring, and improvement is occurring.

Criteria: Audit reports not received on or before the due date are considered to be in non-compliance with the requirements of Section 2.2.2.9.A of the State Audit Rule.

Cause: The State lacks an adequate financial reporting process and adequate resources to achieve the established deadline of December 31.

Effect: Non-compliance with the State Audit Rule; and the users of the State's financial statements did not receive the financial information in a timely manner.

**Recommendation:** We recommend the State evaluate the entire approach of producing the State's financial statements and the related processes and methodology to determine which processes could be improved to facilitate the State's ability produce a more timely and accurate report. Furthermore, the State should evaluate if additional resources within the CAFR unit would improve the timeliness of the CAFR preparation.

Management's Response: Management is in agreement that timely issuance of the CAFR is fundamental to statement users. Due to the group audit concept to the CAFR, the requirement that each agency have an individual audit delays the start of the CAFR until all agencies financial statements deemed material to the State CAFR have been completed. It is widely recognized by State officials that the Department of Finance and Administration will not be able to produce a timely CAFR under current conditions.

Historically the CAFR has been prepared by aggregating the financial statements of 125 primary government agencies, 10 educational institutions designated under the constitution and numerous discrete component units of the State upon conclusion of their independent audits. The CAFR audit applies the group audit concept and is dependent on the results and timeliness of the underlying agency audits. As a result, CAFR production cannot commence until all the individual audits have been complete and all identified agency audit adjustments are made.

The Department of Finance and Administration (DFA) remains committed to the production of a timely CAFR. Ongoing discussions are taking place within the Department of Finance and Administration (DFA) and the State Auditor's Office (SAO) to look for ways to streamline and shorten the overall process. The State Controller will be responsible for implementing this corrective action, which is an ongoing process.

## STATUS OF PRIOR YEAR AUDIT FINDINGS YEAR ENDED JUNE 30, 2019

## Financial Statement Findings

2018-001 - Financial Accounting and Reporting of the Internal Service Funds Activity in the Government-Wide Financial Statements (Material Weakness) - Resolved

2018-002 - Component Financial Reporting (Material Weakness) - Repeated as finding #2019-001

2018-003 (Original Finding #2013-002) Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) Repeated as finding #2019-002

2018-004 (2018-004 (Original Finding #2013-005) Internal Control over Financial Reporting (Material Weakness) – Repeated as finding # 2019-003

2018-005 (Original Finding # 2015-001) Late Submission of Audit Report (Compliance and Other Matters) - Repeated as finding #2019-004

#### EXIT CONFERENCE YEAR ENDED JUNE 30, 2019

An exit conference was held with the State on March 31, 2020. The conference was held at the offices of the State of New Mexico Department of Finance and Administration in Santa Fe, New Mexico. The conference was held in a closed meeting to preserve the confidentiality of the audit information prior to the official release of the financial statements by the State Auditor. In attendance were:

## STATE OF NEW MEXICO

Olivia Padilla-Jackson, Cabinet Secretary Donna Trujillo, State Controller Renae Herndon-Lopez, CAFR Unit Supervisor Andrew Baranowski, DFA General Counsel

## CLIFTONLARSONALLEN LLP

Matt Bone, CPA, CGFM, CGMA Laura Beltran-Schmitz, CPA, CGFM, CFE, CICA

#### OFFICE OF THE STATE AUDITOR

Brian Colón, State Auditor Natalie Cordova, Deputy State Auditor Kusum Adhikari, Audit Supervisor

#### PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements presented in this report have been prepared by management and they are the responsibility of management, as addressed in the Independent Auditors' Report.
