STATE OF NEW MEXICO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2015

INTRODUCTORY SECTION

PUEBLO BONITO INN, SANTA FE, NEW MEXICO SOURCE - WWW.PUEBLOBONITOINN.COM

DEPARTMENT OF FINANCE AND ADMINISTRATION FINANCIAL CONTROL DIVISION

407 GALISTEO STREET
BATAAN MEMORIAL BUILDING, ROOM 166
SANTA FE, NEW MEXICO 87501
(505) 827-3681 FAX (505) 827-3692

Susana Martinez Governor Dorothy E. Rodriguez
Acting Cabinet Secretary

Ronald C. Spilman State Controller

July 11, 2016

To the Citizens, Governor and Members of the Legislature of the State of New Mexico:

In accordance with Chapter 6-5-4.1 of the New Mexico Statutes Annotated 1978 (NMSA 1978), the Financial Control Division of the Department of Finance and Administration transmits the State of New Mexico's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2015.

The CAFR presents the financial position and operating results of the State, compliant with generally accepted accounting principles (GAAP) applicable to state and local governments, as established by the Governmental Accounting Standards Board (GASB). The objective of the GASB reporting model is to provide a single, unified, transparent picture of the State's fiscal health. The basic financial statements and required supplemental information include a required narrative introduction, referred to as Management's Discussion and Analysis (MD&A). This transmittal letter complements the MD&A, which is located immediately following the independent auditors' report, and should be read in conjunction with it.

The basic financial statements have been audited by CliftonLarsonAllen LLP, an independent accounting firm. The audit was conducted in accordance with the standards applicable to financial audits contained in Governmental Auditing Standards issued by the Comptroller General of the United States. The goal of an independent audit is to provide reasonable assurance that the State of New Mexico's basic financial statements for the fiscal year ended June 30, 2015 are free of material misstatement. Independent audit procedures include examining, on a test basis, supporting amounts and disclosures, assessing the accounting principles used, review of any significant estimates made by management, and evaluating the overall basic financial statement presentation. An audit also includes consideration of internal controls over financial reporting as a basis for designing audit procedures that are appropriate under the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State's internal controls over financial reporting. Accordingly, the independent auditor expressed no opinion with respect to internal controls over financial reporting.

Under statute (12.6.3 NMSA 1978), every state agency must be audited annually; the CAFR, which consolidates these entities, was initially audited in fiscal year 2013. Over the last four years, significant progress has been made to strengthen statewide controls. This year, the state was able to resolve the long-standing Book-to-Bank Cash Reconciliation issue and eliminated the need for the \$100 million loss contingency. In January, the Department implemented specialized software to automate the development of the CAFR, which will enable faster report production and facilitate greater accounting and financial reporting oversight in future cycles. In addition, continuing improvements to the State's enterprise system, SHARE, will provide enhanced validation ensuring more consistent and complete financial data. These efforts have contributed to improved financial reporting; in the third year of producing audited financial statements, more CAFR opinion units received unmodified opinions than in any previous year. However, the auditor was still unable to express an opinion on the general fund and related government-wide statements primarily due lack of assurance that all transactions between state entities had been identified and eliminated, if required. As presented in the management response to the Financial Statement findings, the State is progressing numerous accounting and control initiatives, including the hiring of additional staff, and updating and modifying agency financial reporting requirements. These changes, which affect over one-hundred state reporting entities, will take time to implement fully; however, the State is well positioned to capture additional improvements during the next couple of reporting cycles.

PROFILE OF STATE OF NEW MEXICO

New Mexico became the forty-seventh state of the United States of America when it was admitted to the union on January 6, 1912. Its borders encompass 121,589 square miles of the Great Plains, Rocky Mountains, and the Rio Grande River with elevations ranging from 2,842 to 13,161 feet above sea level. Geographically, New Mexico is divided into 33 counties. The State's major economic sectors include agriculture, energy production and mining, federal technology laboratories, tourism, and customer services. Considerable economic activity is generated in support of these sectors by government, wholesale and retail trade, transportation, communications, public utilities, finance, insurance, real estate, and other services. The State of New Mexico's estimated population was 2,085,109 as of July 2015.

Structure – The State Constitution divides the powers of government among three equal and independent branches: Legislative, Executive, and Judicial, shown in the organizational chart on page xiii. The powers and duties of each branch of government are outlined in the Constitution of the State of New Mexico, which can be amended only by a majority vote of the State's citizens. In accordance with the requirements of GASB Statement No. 14, *The Financial Reporting Entity*, this CAFR for the fiscal year ended June 30, 2015, includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the executive branch, various offices relating to the judicial branch, the education institutions created by the *Constitution of the State of New Mexico, Article XII, Section 11*, and discrete component units of the State of New Mexico).

Internal Controls – In accordance with the provisions of Chapter 6-5-2.C, NMSA 1978, the Financial Control Division of the Department of Finance and Administration is responsible for ensuring government agencies fulfill their responsibility for implementing and sustaining effective internal controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and reliability of financial records used for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its use, and the evaluation of costs and benefits requires managerial estimates and judgments. All internal control evaluations occur within this framework. Consideration as to the adequacy of internal controls is paramount in developing and maintaining the State's accounting system, and the effectiveness and adequacy of internal controls are evaluated during internal reviews performed by the Department of Finance and Administration and annual external audits.

Types and levels of services provided – The State of New Mexico provides its citizens with the following governmental types of services: educational, environmental, health and human services, highway and transportation services, public safety, legislative, judicial, as well as cultural, recreational and natural resource services. The State of New Mexico also administers two cost-sharing multiple-employer public employee retirement systems and three single-employer public employee retirement systems.

Brief summary of budget process – The Governor is required to submit a balanced budget by agency, program, activity and category to the Legislature annually. The Legislature authorizes expenditures in the annual *General Appropriations Act* by source, which is then signed into law by the Governor. Unless otherwise indicated, annual appropriations lapse at fiscal year-end. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order budget reductions or call a special session of the Legislature to address any budget shortfalls. Adjustments to the budget may also be made throughout the year for changes in departmental or fund revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation level. The budget is administered using the modified accrual basis of accounting; however, the budgetary basis is not consistent with GAAP.

PENSION AND OTHER POST-EMPLOYMENT BENEFITS (OPEB) OBLIGATIONS

The State implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, in Fiscal Year 2015. The purpose of the new statement is to improve the accounting and financial reporting of public employee pensions by state and local governments and enhance the usefulness of pension information. Although intended to improve comparability between public pension plans by standardizing the way certain financial data relating to plans are disclosed, it does not require any changes to the way actual employer plan contributions are determined. Employer contributions to the pension plans continue to be calculated per the requirements of the governing State statutes. GASB Statement No. 68 requires participating employers to recognize their proportionate share of the collective net pension liability. Under the new statement, the calculation of the pension liability was changed to a more conservative methodology and each employer was allocated their proportional share of the pension plans' net pension liability. The State's share of the net pension liability, based on a measurement date of June 30, 2014, which is required to be recorded on the financial statements, is \$1.8 billion for governmental activities and \$1.7 billion for business-type activities.

ECONOMIC CONDITIONS AND OUTLOOK

New Mexico's economy continued to recover in Fiscal Year 2015 (FY15) as real gross state product increased 2.5 percent, a rate stronger than achieved in Fiscal Year 2014 (FY14). Total General Fund revenues rose 3.2 percent in FY15 after expanding 5.8 percent in the prior fiscal year as falling oil and natural gas prices began to reduce revenues in the latter part of the fiscal year.

General sales tax revenue, which includes gross receipts tax and compensating tax, rose 4.7 percent in FY15, reflecting gains in the professional services, construction, retail, health, and food and accommodation services sectors. Taxable gross receipts, a broadbased measure of economic activity and the source for one-third of New Mexico's general Fund revenue, grew 6.8 percent in FY15. Gross receipts tax revenues only captured a portion of the increase in the underlying tax base in FY15 due to increasing business incentive tax credit claims.

Income tax revenues rose 9.8 percent in FY15. Corporate income tax receipts swelled 29.3 percent impacted in part by the ending of incentive depreciation included in Economic Stimulus Act of 2008, which resulted in larger allowable deductions in FY14 versus FY15. Personal income tax, which is the more significant and stable revenue source for the state, comprising about one-fifth of General Fund revenue, grew by 6.8 percent in FY15.

Employment growth slowed in the first half of FY16, reflecting the impact of lower realizations on the mining and energy sectors. Energy related job levels began to stabilize towards the end of Fiscal Year 2016 and growth in other private sectors continued. FY16 gains are expected to be fractional however; employment growth is anticipated to return to the 2% level in subsequent years. Wage growth has improved both nationally and in New Mexico as the job market tightens.

General Fund recurring revenue in FY16 is forecast to remain flat although revenue-tracking models indicate a potential decrease. This downward variance is driven by oil and gas related revenues, which suffered from weaker prices early in the fiscal year, and lower broad-based income and sales receipts in energy producing regions of the state. Total taxable gross receipts have decreased by 6.7 percent in the first half of FY16.

Oil prices, which bottomed in February, have begun to strengthen. With lower global oil production, growing global demand and New Mexico oil production up 24 percent from the prior year, there is reason to be optimistic. Additionally, the General Fund ended FY15 with aggregate reserves of 10 percent of recurring current year appropriations which should provide an adequate buffer to ensure the budget is sustainable despite revenue volatility. A more detailed review of New Mexico economic conditions and outlook is located in the Management's Discussion and Analysis section.

LONG-TERM FINANCING PLANNING

The State of New Mexico's Constitution and laws authorize the State to issue general obligation bonds, severance tax bonds and revenue bonds to finance or refinance the cost of State capital projects. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues (collection of property taxes levied by local governments receiving the funding for capital projects). Payment of severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources. The State pledges income derived from the related acquired or constructed asset to pay debt service for revenue bonds. The State continues to maintain a strong creditworthiness rating from Moody's Investors Services and Standard and Poor's Corporation.

ACKNOWLEDGMENTS

This report could not have been prepared without the cooperation of all State agencies, the Legislature, and the Judiciary. Executive Management of the Department of Finance and Administration would also like to express our gratitude to the dedicated professionals in the State Financial Reporting and Accountability Bureau, whose work made possible the preparation of this report. The coordinated and collaborative effort have produced a report that will provide a means for government, the financial community, decision makers, and concerned citizens to better understand and evaluate the State's financial condition.

Sincerely,

Dorothy E. Rodriguez

Acting Cabinet Secretary

Ronald C. Spilman State Controller

STATE OF NEW MEXICO
COMPREHENSIVE ANNUAL FINANCIAL REPORT
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

FINANCIAL SECTION

ALBUQUERQUE INTERNATIONAL BALLOON FIESTA, ALBUQUERQUE, NEW MEXICO SOURCE - WWW.THEWORLDFESTIVAL.NET/

INDEPENDENT AUDITORS' REPORT

The Honorable Susana Martinez, Governor of the State of New Mexico Ms. Duffy Rodriguez, Acting Secretary of the New Mexico Department of Finance and Administration,

Mr. Ronald C. Spilman, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Timothy Keller, New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the State's non-major enterprise funds, internal service funds, and each fiduciary fund type presented as supplementary information, as defined by the Government Accounting Standards Board, in the accompanying combining and individual fund financial statements as of and for the year ended June 30, 2015, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain agencies and component units of the State, which represent the indicated percent of total assets and total revenues as presented in the table below. Those financial statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinion, insofar as it related to the amounts included for those agencies and component units, is based solely on the reports of the other auditors.

Percentage Audited by Other Auditors

Government-Wide	Total <u>Assets</u>	Total <u>Revenues</u>
Governmental activities	10%	44%
Business-type activities	88%	90%
Discretely presented component units	100%	100%
Fund Statements		
Major governmental fund - General Fund	53%	51%
Major governmental fund - Debt Service Fund	<1%	<1%
Major governmental fund - Capital Project Fund	97%	99%
Major enterprise fund - Educational Institutions	100%	100%
Aggregate Remaining Fund Information	92%	83%
Nonmajor enterprise fund - Industries for the Blind	100%	100%
Nonmajor enterprise fund - Corrections Industries Revolving Fund	100%	100%
Nonmajor enterprise fund - NM Public Schools Insurance Authority	100%	100%
Nonmajor enterprise fund - State Fair Commission	100%	100%
Nonmajor enterprise fund - Department of Cultural Affairs	100%	100%
Internal Service Fund - Communications Services	100%	100%
Internal Service Fund - Information Processing	100%	100%
Pension and Other Employee Benefits Trust Funds	100%	100%
Private Purpose Trust Funds	98%	99%
Agency Funds	37%	n/a

Except as explained in the bases for disclaimer of opinions paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Bases for Disclaimer of Opinions

The following issues were encountered during our engagement to audit the financial statements of the State which detail the bases for disclaimer of opinions on certain opinion units as identified in the "Modified Opinion Section" of the previous table:

- **D1.**The State is unable to provide sufficient appropriate audit evidence to support the accuracy, classification, completeness, existence and occurrence of all the State's interfund, internal, intraentity activity and balances. The State lacks adequate controls and processes to properly consolidate all of the financial information of the various agencies and component units of the State. The State has not considered or posted all necessary consolidation/elimination entries in the State's financial statements. Various inconsistencies/inaccuracies were identified in the classifications of certain balances/activities within the various opinion units of the State. (see findings 2013-002 and 2013-005 in the schedule of findings and responses for additional details)
- **D2.** The financial statements of certain agencies have not been audited, and we were not engaged to audit these certain agencies as part of our audit of the State. In addition, for the agency financial statements that include the charter schools, the auditor's report does not express an opinion on the aggregate discretely presented component units, the opinion unit that contains such charter schools. Furthermore, the nonmajor enterprise fund Miners' Colfax Medical Center financial statements report the activities and balances as of and for the year ended June 30, 2014.

As a result of these matters, we were unable to determine the extent of additional adjustments and reclassifications, which would be necessary to the financial statements.

Disclaimer of Opinions

Because of the significance of the matters described in the "Bases for Disclaimer of Opinions" paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for audit opinions. Accordingly, we do not express opinions on the financial statements identified with a disclaimer of opinion in the "Modified Opinion Section" schedule in the "Summary of Opinions" paragraph.

Basis for Qualifications

Major governmental fund - Land Grant Fund

The State lacks adequate controls and processes to properly consolidate all of the financial information of the various components of the State. Incorrectly included in the Agency funds are approximately \$262M in assets held by the State Land Office, which are to be distributed to the beneficiaries of the Land Grant Fund. It would be expected that the majority of this balance would be reported as an asset in the Major governmental fund – Land Grant Fund. As a result we were unable to obtain sufficient audit evidence regarding the extent of this balance that should be reported as an asset in the Major governmental fund – Land Grant Fund of the State.

Major enterprise fund - Educational Institutions Fund

The State lacks adequate controls and processes to properly consolidate all of the financial information of the various components of the State. The extent of balances and activity between the various educational institutions and other funds and component units that is not separately reported or disclosed is unknown. As a result we were unable to obtain sufficient audit evidence regarding the proper classification or disclosure of all related interfund balances and activity.

Each Internal Service Fund

The State lacks adequate controls and processes to properly consolidate all of the financial information of the various components of the State. The extent of balances between each internal service fund and other funds of the State that is not separately reported or disclosed is unknown. As a result we were unable to obtain sufficient audit evidence regarding the proper classification or disclosure of all related interfund balances. In addition, the State has not identified all elimination entries for the internal service fund transfers during the consolidation process. As a result we were unable to obtain audit evidence to determine the extent of transfers reported within the internal service funds that could be grossed up.

Qualified Opinion

In our opinion, based on our audits and the reports of the other auditors, except for the matters described in the "Basis for Qualifications" paragraphs above, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Major enterprise fund - Educational Institutions Fund, Major governmental fund - Land Grant Fund, and Each Internal Service Fund of the State, as of June 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audits and the reports of the other auditors, the financial statements referred to above, present fairly, in all material respects, the respective financial position of the opinion units identified in the "Unmodified Opinion Section" schedule in the "Summary of Opinions" of the State, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principles

As discussed in Note 9 to the financial statements the State restated beginning balances resulting from the implementation of GASB Statement No. 68, *Financial Reporting for Pension Plans and* GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date.* Our opinion is not modified with respect to that matter.

Correction of Errors

As described in Note 9 to the financial statements, the State restated beginning balances resulting from the correction of accounting errors that occurred in the prior period. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (pages 10-27), Budgetary Comparison Schedule - General Fund and Notes to Budgetary Reporting (pages 190-198), Schedules of Changes in Net Pension Liability (pages 200-204), Schedules of Net Pension Liability (pages 205-209), Schedules of Employer Contributions (pages 210-218), Schedules of Investment Returns (pages 220-221), Schedule of Actuarial Methods and Assumptions - All Retirement Systems (page 222), Schedule of Funding Progress - Retiree Health Care Authority (page 223), Schedule of the State of New Mexico's Proportionate Share of The Net Pension Liability (pages 225-228), and Schedule of the State's Contributions (pages 229-232), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the Schedules of Changes in Net Pension Liability, Schedules of Net Pension Liability, Schedules of Employer Contributions, Schedules of Investment Returns, Schedule of Actuarial Methods and Assumptions – All Retirement Systems, and Schedule of Funding Progress – Retiree Health Care Authority, Schedule of the State of New Mexico's Proportionate Share of The Net Pension Liability, and Schedule of the State's Contributions in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

We were unable to apply certain limited procedures to the Management's Discussion and Analysis, Budgetary Comparison Schedule – General Fund and Notes to Budgetary Reporting in accordance with auditing standards generally accepted in the United States of America because of the matters described in the "Bases for Disclaimer of Opinions" paragraph. We do not express an opinion or provide any assurance on the information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming and expressing opinions on the State's financial statements and the combining and individual fund statements. The introductory, other supplementary and statistical sections are presented for purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matters discussed above, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated July 11, 2016 on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the State's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

INTRODUCTION

Management's discussion and analysis (MD&A) provides a discussion and analysis of the State of New Mexico's financial performance and position, and also provides an overview of the State's activities for the fiscal year ended June 30, 2015. Please read it in conjunction with the transmittal letter in the Introductory Section of this report and with the State's financial statements that follow this section. The subsequent information is highly summarized, and in order to gain a comprehensive understanding of the State's financial condition it should be reviewed in its entirety. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

Government-wide

Net Position of the Primary Government

- The assets and deferred outflows of resources of the State of New Mexico exceeded its liabilities and deferred inflows of resources by \$26.9 billion as of June 30, 2015, an increase of \$8.8 billion, or 48.6 percent, from the previous year. The majority of the increase is primarily due to the reclassification of the Land Grant Private Purpose Trust Fund to the Governmental Land Grant. Due to this reclassification, the restricted fund balance of the governmental increased by over \$12.1 billion.
- The net position is comprised of \$6.9 billion in capital assets, net of related debt, \$13.7 billion in restricted, and \$6.3 billion in unrestricted, excluding component units.
- As a result of operations, the primary government's total net position increased by \$798.2 million, or 3.1 percent, in fiscal year 2015 when compared to the previous year's ending net position, as restated. The net position of governmental activities increased \$531.3 million, or 2.2 percent, from previous year's ending net position, as restated. There was an increase in program revenues of \$1.6 billion, or 22.9 percent. Expenses increased by \$1.7 billion, with the majority of the increase being in Health and Human Services and Education functions. The net position of the business-type activities increased by \$266.8 million, or 18.0 percent, from the previous year's ending net position, as restated. The business-type activities from the prior fiscal year saw a decrease in program revenue and an increase in expenses. Transfers increased by \$109.6 million with the other remaining increase being in general revenues.

Long-term Debt

The State's long-term bonded debt decreased a net of \$216 million for both governmental and business-type activities, the payment on the prior year bonds exceeded the issuance of new bonds. New bond issuance was \$221 million for governmental activities, \$141.6 for general obligation bonds and \$79.4 for revenue bonds. New bond issuance for business type activities was \$244 million in revenue bonds. See Note 8 for more detailed information on long-term liabilities. More detailed information regarding the government-wide, fund level, and long-term debt activities can be found in the capital asset and debt administration section of this management's discussion and analysis (MD&A).

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Fund Level

Governmental Funds

As of June 30, 2015, the State's governmental funds reported a combined ending fund balance of \$22.9 billion, an increase of \$595.5 million, or 2.7 percent, from fiscal year 2014 year's ending net position, as restated (see the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances). On an unadjusted basis, Governmental Fund Balance increased \$13.9 billion, the majority of the increase is primarily due to the reclassification of the Land Grant Private Purpose Trust Fund to the Governmental Land Grant. Due to this reclassification, the restricted fund balance of the governmental increased by over \$12.1 billion. There was an increase in revenue of \$1.4 billion and an increase in expenditures of \$1.5 billion. The State of New Mexico also added an additional \$100 million to the General Fund due to the Executive Management decision to relieve the liability for the Reduction of Loss Contingency due to cash reconciliation, as the State determined there was not a shortfall of available resources in the State General Fund Investment Pool compared to the claims against the pool. The State reported a positive unassigned fund balance of \$189.9 million in fiscal year 2015.

Proprietary Funds

The proprietary funds reported net position of \$1.7 billion as of June 30, 2015, an increase of \$266.8 million, or 18 percent, from fiscal year 2014 ending net position restated. The majority of the increase is due to a slight increase in operating revenues, primarily in Patient Services/Clinical Operations (\$230.2 million) and Other Operating Revenues (\$142.6 million).

OVERVIEW OF THE FINANCIAL STATEMENTS

The focus of this annual report is on reporting for the state as a whole and on the major individual funds. The report presents a more comprehensive view of the state's financial activities. The Financial Section of this Comprehensive Annual Financial Report (CAFR) presents the State's financial position and activities in four parts:

- Management's Discussion and Analysis (this part)
- Basic Financial Statements
 - Government-wide Financial Statements
 - Fund Financial Statements
 - Notes to the Financial Statements
- Required Supplementary Information other than MD&A
- Other Supplementary Information presenting combining statements and schedules

This report also includes statistical data.

Reporting on the State as a Whole

Government-wide Statements

The government-wide financial statements are designed to present an overall picture of the financial position of the state. These statements consist of the statement of net position and the statement of activities, which are prepared using the economic resources measurement focus and the accrual basis of accounting. This means that all revenues

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

earned and expenses incurred during the year are included, regardless of when cash is received or paid, producing a view of financial position similar to that presented by most private sector companies.

The statement of net position combines and consolidates the government's current financial resources with capital assets and long-term obligations. This statement includes all of the government's assets, deferred outflows, liabilities, and deferred inflows. Net position represents one measure of the state's financial health. Other indicators of the state's financial health include the condition of its roads and highways (infrastructure) and economic trends affecting the state's future tax revenues.

The statement of activities focuses on both the gross and net cost of various activities (governmental, business-type and component units). These costs are paid by the state's tax revenues, charges for services and other revenues. This statement summarizes the cost of providing (or the subsidy provided by) specific government services and includes all current year revenues and expenses.

The government-wide statement of net position and the statement of activities divide the state's activities into the following three types:

Governmental Activities

The state's basic services are reported here, including general government, education, transportation, health and human services, public safety and corrections, judicial, natural resources and recreation, legislative, and regulatory services. Taxes, fees and federal grants finance most of these activities.

Business-type Activities

Activities for which the state charges a fee to customers to pay most or all of the costs of certain services it provides are reported as business-type activities. The state's institutions of higher education are included as business-type activities, as well as unemployment insurance, public schools insurance, medical centers, magazine publication, state fair, state infrastructure bank, environment department, corrections industries, and industries for the blind.

Component Units

Component units are legally separate organizations for which the state is either financially accountable or the nature and significance of their relationship with the state is such that exclusion would cause the state's financial statements to be misleading or incomplete. The state has approximately seventy-five (75) discretely presented component units. Financial information for these entities is presented separately in the supplemental statements and in the notes.

Reporting on the State's Most Significant Funds

Fund Financial Statements

Fund financial statements provide additional detail about the state's financial position and activities. Some information presented in the fund financial statements differs from the government-wide financial statements due to the perspective and basis of accounting used. Funds are presented in the fund-level statements based on criteria set by the Governmental Accounting Standards Board (GASB). A fund is a separate accounting entity with a self-balancing set of accounts. The state uses funds to keep track of sources of funding and spending related to specific activities. Some funds are required by law to exist, while others are established internally to maintain control over a particular activity.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

All of the State's funds are divided into the following types, each of which uses a different accounting approach:

Governmental Funds

A majority of the state's activity is reported in the governmental funds. Reporting of these funds focuses on the flow of money into and out of the funds and amounts remaining at fiscal year-end for future spending. Governmental funds are accounted for using the modified accrual basis of accounting, which measures cash and other assets that can be readily converted to cash. The governmental fund financial statements provide a detailed short-term view of the state's general governmental operations and the basic services it provides. This information helps determine the level of resources available for the state's programs. The reconciliations following the fund financial statements explain the differences between the governmental activities column reported on the government-wide statement of net position and the government-wide statement of activities, and the governmental funds reported on the fund financial statements. The general fund, debt service fund, appropriated bond proceeds capital outlay fund, severance tax fund and land grant fund are reported as major governmental funds.

Proprietary Funds

When the state charges customers for services it provides, these activities are generally reported in proprietary funds. Services provided to outside (non-governmental) customers are reported in enterprise funds, a component of proprietary funds, and are accounted for using the economic resources measurement focus and the accrual basis of accounting. These are the same business-type activities reported in the government-wide financial statements, but are reported here to provide information at the fund level. Activities whose customers are primarily other state agencies (e.g., motor pool) are accounted for in internal service funds. The internal service fund activities are consolidated with the governmental activities in the government-wide statements because those services predominantly benefit governmental rather than business-type activities.

Fiduciary Funds

Fiduciary funds account for assets held in a trustee or agency capacity for others. All state fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. The activities are reported separately from other financial activities because the state cannot use the assets to finance its operations. The state's fiduciary responsibilities include ensuring that the assets reported in these funds are used for their intended purpose. Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis accounting.

Reconciliation between Government-wide and Fund Statements

The financial statements include schedules that reconcile and explain the differences between the amounts reported for governmental activities on the government-wide statements (accrual accounting, long-term focus) with amounts reported on the governmental fund statements (modified accrual accounting, short-term focus).

The following are some of the major differences between the two statements:

- Capital assets and long-term debt are included on the government-wide statements, but are not reported on the governmental fund statements.
- Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond proceeds result in liabilities on the government-wide statements, but are other financing sources on the governmental fund statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Certain tax revenues that are earned but not yet available are reported as revenue on the government-wide statements, but are deferred inflow of resources on the governmental fund statements.

Notes to the Financial Statements

The notes provide additional schedules and information that are essential to a complete understanding of the financial statements. The notes apply to both the government-wide financial statements and the fund financial statements.

Required Supplementary Information (RSI)

Following the Basic Financial Statements are budgetary comparison schedules for major funds with legally adopted budgets. In addition, the RSI includes schedules on the funded status and employer contributions for the State's Defined Benefit Pension Plans and Other Postemployment Benefits Plan. RSI further supports the information in the basic financial statements.

Other Supplementary Information

Supplementary Information includes combining statements for the State's nonmajor proprietary and fiduciary funds. This section also includes schedules which compare budgeted expenditures to actual results at the legal level of control, which is generally the program level of the General Appropriation Acts.

ADJUSTMENTS TO BEGINNING NET POSITION AND FUND BALANCES

As discussed in Note 9.C the State has restated certain July 1, 2014 Net Position and fund balances. Governmental activities net position and governmental fund balances were increased by \$11.1B and \$13.3B, respectively, to reflect changes in certain previously reported revenue and expenditure accruals.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Position

- → Total assets of the State as of June 30, 2015, were \$37.7 billion, an increase of 54 percent from prior fiscal year. The majority of the increase is due to the reclassification of the Private Purpose Land Grant assets to the Governmental Land Grant Fund. These assets totaled \$12.2 billion.
 - o For governmental activities, total assets were \$32.7 billion, an increase of \$14.3 billion, or 77.5 percent.
 - o For business-type activities, total assets were \$5.0 billion, a decrease of \$1.1 billion or 17.9 percent.
- Total liabilities as of June 30, 2015 were \$10.5 billion, an increase of \$4.0 billion, or 62.2 percent. The majority of this increase is due to the implementation of GASB 68 for the pension liability.
 - o Total liabilities for governmental activities were \$7.4 billion, up \$2.3 billion, or 46.7 percent.
 - o For business-type activities, total liabilities were \$3.2 billion, an increase of \$1.7 billion or 115 percent.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

- Net position was affected by a number of factors. Including the reclassification of the Land Grant Private Purpose Trust Fund to the Governmental Land Grant, the implementation of GASB 68 and the recording of the net pension liability and the Executive Management decision to relieve the \$100 million liability for the Reduction of Loss Contingency due to cash reconciliation as previously discussed.
- The State's total net position increased \$798.2 million, or 3.1 percent, in fiscal year 2015 in comparison to the prior year, as restated (table below does not have fiscal year 2014 restated numbers). Of the State's net position, \$6.9 billion was invested in capital assets, net of related debt, while \$13.7 billion was restricted by state statute or other legal requirements and was not available to finance day-to-day operations of the state. Unrestricted net position was \$6.3 billion. The majority of the net position increase is primarily due to an increase of \$3.9 billion in restricted funds and \$4.7 billion in unrestricted funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Changes in Net Position

The State's net position as of June 30, 2015, was \$26.9 billion which was an increase by \$798.2 million, with 2014 net position restated. The State earned program revenues of \$11.2 billion, taxes of \$6.3 billion and general revenues of \$1.6 billion, for total revenues of \$19.1 billion, an increase of \$1.6 billion, or 9.1 percent, from fiscal year 2014. The major components of the increase were tax revenues increased by \$639.7 million and operating grants and contributions increased by \$1.3 billion. The expenses of the State were \$18.3 billion, an increase of \$1.9 billion from fiscal year 2014. Further analysis of results of changes in the State's financial condition follows in the analysis of the State's funds. Net program expenses exceeded net program revenues by \$7.1 billion. The tax collections of the State provided additional funding, which when added to program revenues, supported payment for governmental services.

The following schedule and charts summarize the State's total revenues, expenses, and changes in net position for fiscal year 2015:

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Governmental Activities

Governmental activities program revenue was \$8.6 billion, including charges for services of \$2.2 billion, operating grants and contributions of \$6.4 billion. The largest changes were a \$1.4 billion increase in operating grants and contributions and \$0.5 billion increase in charges for services. There was sn increase of \$1.8 billion in Governmental activities expenses making the total \$14.6 billion. All functions of governmental activities in the government-wide statement of activities have a net cost. The health and human services function and education function account for 78 percent of governmental activities expenses and net cost. The operating grants and contributions increased due to additional federal funding for the health and human services function and education function.

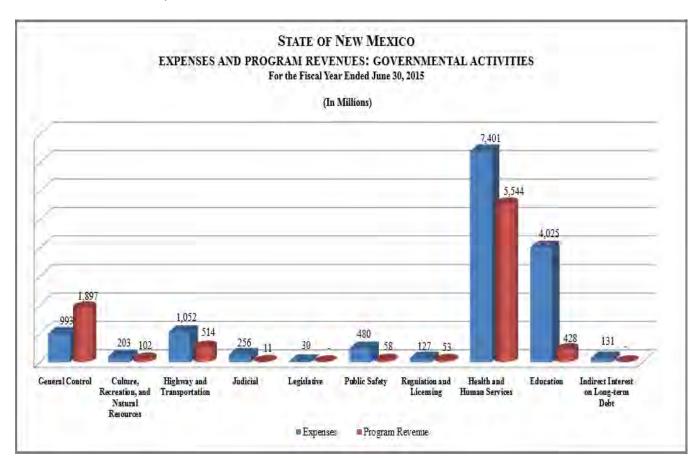

The following table shows to what extent the State's governmental activities relied on taxes and other general revenues to cover all of their costs. For fiscal year 2015, state taxes and other general revenues covered 49.8 percent of expenses. The remaining \$8.6 billion, or 58.3 percent of the total expenses, was covered by charges for services and grants and contributions.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Business-type Activities

Business-type activities generated program revenues of \$2.6 billion, including charges for services of \$2.0 billion, operating grants and contributions of \$627.1 million, and capital grants and contributions of \$12.5 million. The total expenses for business-type activities were \$3.7 billion. The largest changes occurred in the education function with a \$139.8 million increase in expenses for colleges and universities, and there was a decrease in expenses of \$68.3 million in unemployment benefit payments as a result of the state revising its benefit calculations. There was an increase (net expenses exceeded program revenues) from the government's business—type activities of \$1.1 billion in comparison to the prior year's loss of \$0.8 billion.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

FINANCIAL ANALYSIS OF THE STATE'S GOVERNMENTAL FUNDS

Fund Balances

At June 30, 2015, the State's governmental funds reported combined ending fund balances of \$22.9 billion. The State reported \$10.1 billion, or 44 percent, as non-spendable, including \$10 billion related to the Land Grant funds. The remaining non-spendable balance consisted of prepaid expenditures and inventories. The amount classified as restricted, committed and assigned, \$12.6 billion, or 55 percent, was for specific programs established by state law or by external constraints. Unspent bond proceeds, balances of restricted accounts, and agencies' non-lapsing balances are also included in either restricted or committed, depending on the legality of the restriction. Note 1.G.14 contains more details about the fund balance classifications at June 30, 2015. The remaining \$189.9 million, or 0.8 percent, of fund balance was available for appropriation for the general purpose of the funds.

Governmental Funds

General Fund

General Fund balance at June 30, 2015 totaled \$1.9 billion. Net change in General Fund balance, on a restated basis, was a positive \$232.6 million. The General Fund ended the fiscal year 2015 with unassigned fund balance of \$189.9 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Budgetary Highlights – General Fund

The initial fiscal year 2015 budget was adopted by the Legislature during the 2014 Regular Session. The General Fund original budgeted revenues for fiscal year 2015 were 5 percent less than the fiscal year 2015 final budget basis revenues. During the year, federal revenue was \$127 million less than the final approved budget. After budget amendments, the actual expenditures in the General Fund were \$789 million below the final budgeted amounts. This was mainly the result of agency-mandated measures to reduce expenditures. Refer to the budgetary comparison schedule for the General Fund in the Other Required Supplementary Information section of the CAFR.

Severance Tax Fund

Fund balance at June 30, 2015, totaled \$4.7 billion, a decrease of \$37.9 million, or 0.8 percent, related to transfers out to beneficiaries.

Land Grant Fund

Fund balance at June 30, 2015, totaled \$14.9 billion, an increase of \$14 billion when comparing with 2014 financial statements. The majority of the increase is primarily due to the reclassification of the Land Grant Private Purpose Trust Fund to the Governmental Land Grant. Reflective of this reclassification, both non-spendable and the restricted governmental funds increased compared to the prior year.

FINANCIAL ANALYSIS OF THE STATE'S PROPRIETARY FUNDS

Exclusive of Internal Service Funds, the State's proprietary funds reported Net Position of \$1.7 billion, an increase of \$266.8 million from the prior year fund balance restated.

Educational Institutions

Net Position at June 30, 2015, totaled \$1.1 billion. Current period activity increased the Restated Net Position of the State's educational institutions by \$167 million, or 18.2 percent. For the fiscal year 2015, the State transferred \$794.9 million to the State's educational institutions, an increase of \$107.9 million, or 15.7 percent, from fiscal year 2014.

DISCRETE COMPONENT UNITS

These are operations for which the State has financial accountability or the nature and significance of their relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. For the most part, these entities operate similar to private-sector businesses and the business-type activities described above. All of the State's discrete component units are presented in the financial statements.

The State's discretely presented major component units are:

- ♣ New Mexico Finance Authority
- ♣ New Mexico Mortgage Finance Authority
- ♣ New Mexico Lottery Authority

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

- ♣ University of New Mexico Foundation, Inc.
- ♣ University of New Mexico Medical Group
- ♣ New Mexico State University Foundation, Inc.
- **♣** Charter Schools and Charter School Foundations

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the State's component units are presented in the notes to the financial statements.

CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

Capital Asset Activity

At June 30, 2015, the State reported \$7.6 billion in capital assets net of accumulated depreciation for governmental activities and \$2.4 billion in capital assets net of accumulated depreciation for business-type activities. This investment in capital assets includes land, buildings, improvements, machinery and equipment, mineral rights, roads, highways and bridges. The change in the State's investment in capital assets for the current fiscal year was a decrease of 4 percent for governmental activities and approximately no change for business-type activities.

As provided by GASB standards, the State elected to use the depreciation method to account for infrastructure assets (roads and bridges). This method requires the State to allocate the cost of infrastructure assets over their estimated useful lives as depreciation expense. Another allowable methodology is to use the modified approach to record infrastructure. The State elected to use the depreciation method.

Refer to Note 6 of the financial statements for additional information on capital assets.

Long-term Debt Activity

The State Constitution and Law authorizes the State to issue general obligation bonds, severance tax bonds, and revenue bonds to finance or refinance the cost of State capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues. During the past year, the State continued to maintain a high bond rating from Moody's Investors Services (Moody's) and Standard & Poor's Corporation (S&P) on all State bonds.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

The State had the following bond ratings at June 30, 2015:

State of New Mexico Bond Ratings at June 30, 2015

Bonds	Moody's	Standard & Poor's
General Obligation Bonds	Aaa	AA+
Severance Tax Bonds	Aal	AA
Supplemental Serverance Tax Bonds	Aa2	AA-
State Transportation Revenue Bonds Senior Lien	Aa2	AAA
State Transportation Revenue Bonds Subordinate Lien	AA	Aa1

The State issued no Severance Tax Bonds during 2015. The State issued General Obligation Bonds of \$141.6 million for fiscal year 2015. The State issued \$323.8 million Revenue Bonds during 2015.

Refer to Note 8 to the financial statements for additional information on the State's long-term debt and other liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

ECONOMIC CONDITIONS AND OUTLOOK

Fiscal Year 2015: Broad Based Economic Recovery Amidst Lower Energy Prices

New Mexico's economy continued to recover in Fiscal Year 2015, experiencing stronger growth than seen in Fiscal Year 2014. Although total Fiscal Year 2015 remained positive versus 2014, the downturn in oil and natural gas prices began to reduce revenues in the latter part of the fiscal year.

Real gross state product increased 2.5 percent in Fiscal Year 2015, after growing 1.9 percent in Fiscal Year 2014. Total General Fund revenues rose 3.2 percent after expanding 5.8 percent in the prior fiscal year.

New Mexico's general sales tax revenue, which includes gross receipts tax and compensating tax, increased 4.7 percent in Fiscal Year 2015, propelled by growth in the professional services, construction, retail, health, and accommodation and food services sectors. Taxable gross receipts, a broad-based measure of economic activity and the base for one-third of New Mexico's general Fund revenue, grew 6.8 percent in Fiscal Year 2015. Gross receipts tax revenues rose slower than the underlying tax base in Fiscal Year 2015 reflecting an increase in business incentive tax credit claims.

Selective sales taxes, which include insurance premiums tax and motor vehicle excise tax, soared 10.0 percent as the effects of the Affordable Care Act and Medicaid expansion increased health insurance coverage and annual premiums. Low interest rates and gasoline prices, and growing consumer confidence encouraged vehicle purchases which boosted motor vehicle excise tax revenues.

Oil and natural gas related revenues declined by 10.4 percent in Fiscal Year 2015, driven by falling energy prices. In spite of lower prices, New Mexico natural gas production volumes remained steady and oil production surged 24 percent, to a level roughly double what the state produced just four years.

Income tax revenues rose 9.8 percent in Fiscal Year 2015. Corporate income tax receipts swelled 29.3 percent impacted in part by the ending of incentive depreciation included in Economic Stimulus Act of 2008, which resulted in larger allowable deductions in Fiscal

Year 2014 versus Fiscal Year 2015. Personal income tax, which is the more significant and stable revenue source for the state, comprising about one-fifth of General Fund revenue, grew by 6.8 percent in Fiscal Year 2015.

The federal Economic Stimulus Act of 2008 allows taxpayers to claim 50 percent of an asset's basis as "bonus depreciation" in the year the asset is placed in service. Taxpayers may then claim the regular depreciation amount on the remaining 50 percent of the asset's basis. This provision applies to assets placed in service after Dec. 31, 2007, and before Jan. 1, 2015, for most property, and before Jan. 1, 2016, for certain property with longer production periods.

Fiscal Year 2016: Sharp Energy Sector Declines, Offset by Growth in the Remainder of New Mexico's Economy

Employment expansion moderated in the first half of Fiscal Year 2016 compared to Fiscal Year 2015, nonetheless growth remained positive. Employment losses in mining and energy related sectors that began at the end of Fiscal Year 2015 intensified in Fiscal Year 2016, however they were offset by employment gains in the health and leisure and hospitality sectors. Energy related job levels began to stabilize towards the end of Fiscal Year 2016 and growth in other private sectors continued.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2015

Commodity price declines have been a drag on the New Mexico economy at the start of Fiscal Year 2016. In January and February of 2016, crude oil prices dipped below \$27 per barrel reaching their lowest level in over a decade and were \$33 below where they stood when Fiscal Year 2016 began; this after falling by \$46 during Fiscal Year 2015. Natural gas prices were also weak and established a new inflation-adjusted low, their lowest nominal price in 17 years. As a consequence, severance tax revenue declined severely along with income tax and gross receipts tax receipts reduction in the oil and gas drilling industry. Oil prices bottomed out mid-first quarter and have generally strengthened since then.

Reflective of flagging energy prices, taxable gross receipts declined 6.7 percent in the first half of Fiscal Year 2016, as lower energy development activities more than offset continued moderate recovery in New Mexico's larger metro areas around Albuquerque, Las Cruces, and Santa Fe and strong growth in Los Alamos and Taos counties.

Construction sector taxable gross receipts grew by 0.7% in the first half of Fiscal Year 2016. Residential construction and building permits remain far below normal levels for New Mexico as households continuing to pay down debt setting the stage for future growth.

New Mexico home prices declined significantly when the national housing bubble burst as did housing values of the all surrounding states, however New Mexico home prices remained flat into Fiscal Year 2014. Throughout Fiscal Year 2015 and the first half of Fiscal Year 2016 home price have experienced moderate growth. This growth is a prerequisite for residential home construction to return to historically normal levels.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

General Fund

This fund is the principal operating fund of the State. It accounts for financial resources of the general government except those required to be accounted for in another fund.

Debt Service Fund

This fund accumulates resources in order to pay the debt service on the State's long-term debt.

Capital Projects Fund

This fund accounts for all resources used to fund the capital improvement projects in the State.

Severance Tax Fund

This special revenue fund accounts for the annual portion of severance taxes generated from the production of minerals and other natural resources and distributes the monies to the State General Fund.

Land Grant Fund

This special revenue fund accounts for all of the resources of the State's Land Grant Fund.

RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

June 30, 2015 (In Thousands)

Total Fund Balances - Governmental Funds			\$	22,868,573
Amounts reported for governmental activities in the Statement of Net Position are different because:				
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds:				
Land and Other Nondepreciable Assets Buildings, Equipment, Infrastructure and Other Depreciable Assets (not including \$40,745 in Internal Service Fund balance) Accumulated Depreciation	\$	1,013,477 17,427,472 (10,870,972)		7,569,977
Assets (receivables) not available to provide current resources are offset with deferred inflows of resources in the fund statements. The reduction of the liability and recognition of revenue increases net position in the Statement of Net Position.				103,775
Deferred inflow of resources - Water Projects				(44,215)
Deferred outflow of resources - Interest rate swaps				61,107
The deferred loss on bond refunding issues is not recognized in the governmental funds, but is recognized in the government-wide statements.				59,107
The net pension asset for the pension fund which has a positive net position is not reported in the funds statements				21,042
The pension-related deferred outflows of resources are not recognized in the (Excludes internal service portion)				
The pension-related deferred inflows of resources are not recognized in the governmental fund financial statements. (excludes internal service portion)				(500,613)
Internal service funds (ISF) are used by management to charge for certain activities, such as insurance, information technology, fleet operations, printing, and telecommunications. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.				(35,554)
Accrued interest payable is not recognized in the govenrmental funds statements				(23,060)
Unlocated difference between fund statements and government wide statements related to other obligations. (refer to finding 2013-005)				(10,320)
Rounding				(3)
Long-term liabilities, are not due and payable in the current period and therefore are not reported in the fund financial statements: Net pension liability Bond payable, including bond premium (excludes due to component units) Loans payable to component unit, capital leases, compensated absences, and other liabilities	\$	(1,813,896) (2,639,210) (825,708)		
Less: Amounts already included in Internal Service Funds balances	_	201,953	_	(5,076,861)
Total Net Position - Governmental Activities			\$	25,173,210

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2015 (In Thousands)

Net Change in Fund Balances - Total Governmental Funds		\$ 595,500
The change in Net Position reported for governmental activities in the Statement of Activities is different because:		
Governmental funds report capital outlays as expenditures; however, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay Depreciation expense Excess of capital outlay over depreciation expense	\$ 474,096 (745,736)	(271,640)
Loss on disposal of capital assets is not reported in the funds statements		(20,943)
Net effect of revenues reported on the accrual basis in the Statement of Activities that do not provide current financial resources and thus are not reported as revenues in the funds until available.		33,267
Internal service funds are used by management to charge for certain activities, such as fleet operations, risk management, printing and records, communications services, and information processing. The net revenue (expense) of the internal service funds is reported with governmental activities.		41,238
Bond proceeds, notes, and capital leases provide current financial resources to governmental activities by issuing debt, which increases long-term liabilities in the Statement of Net Position. Repayments of the bond, notes, and capital lease principal are expenditures in the governmental funds, but reduce liabilities in the Statement of Net Position:		
Payment of Bond, Note, and Capital Lease Principal Bond and Note Proceeds, Net	284,765 (178,922)	105,843
Governmental funds report the effect of bond premium and discount items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences.		34,215
The deferred loss on refunding bond issues is capitalized and the amortization is reported in the Statement of Activities.		(23,139)
Pension expense of governmental funds is recognized in the Statement of Activities, but not in the funds statements.		(47,379)
Expenditures are recognized in the governmental funds when paid or due for items normally paid with available financial resources; however, the Statement of Activities is presented on the accrual basis and expenses and liabilities are reported when incurred, regardless of when financial resources are available or expenditures are paid or due. This adjustment combines the net change of the following balances:		
Compensated Absences Expense Pollution Remediation Obligation Accrued Interest on Bonds Payable Native American Water Rights Liability Contingent Liability Claims and Judgements Change in Ineffective Swaps - Derivatives	\$ 4,574 (1,869) 1,129 23,195 (268) 403 304	
Other Liabilities	56,911	 84,379
Change in Net Position of Governmental Activities		\$ 531,341

PROPRIETARY FUND FINANCIAL STATEMENTS

Educational Institutions Fund

This fund accounts for the resources used to operate the seven institutions of higher education and three other schools, which were created by the *Constitution of the State of New Mexico*. These institutions are the University of New Mexico, New Mexico State University, New Mexico Highlands University, New Mexico Institute of Mining and Technology, Western New Mexico University, Eastern New Mexico University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Visually Handicapped, and the New Mexico School for the Deaf.

Nonmajor Enterprise Funds

Nonmajor enterprise funds are presented in the Financial Section - Required and Supplemental Information.

Internal Service Fund

Nonmajor internal service funds are presented in the Financial Section - Required and Supplemental Information.

FIDUCIARY FUNDS FINANCIAL STATEMENTS

Pension and Other Employee Benefits Trust Funds

These funds account for the resources accumulated and held for the payment of retirement and other benefits under plans operated by the Public Employees Retirement Association, the Educational Retirement Board, and the Retiree Health Care Authority. Individual pension trust funds are presented in the Financial Section - Required and Other Supplementary Information.

External Investment Trust Funds

These funds account for assets held by the State in a trustee capacity. The funds are held in custody for participants in the New Mexico State Treasurer's Investment Trust Funds and the State Investment Council External Investment Trust Funds. Individual external trust funds are presented in the Financial Section - Required and Other Supplementary Information.

Private Purpose Trust Funds

These funds account for resources held under trust arrangements and which benefit individuals, organizations, and other governmental units. These funds include the Scholarship Fund, the Trust Fund, the Water Trust Fund, the Bartlett Trust Fund, the Children's Trust Fund, and the Children's Next Generation Trust Fund. Individual private purpose trust funds are presented in the Financial Section - Required and Other Supplementary Information.

Agency Funds

These funds are used to report resources held by various State agencies in a purely custodial capacity for distribution to other parties. Individual agency funds are presented in the Financial Section - Required and Other Supplementary Information.

DISCRETELY PRESENTED COMPONENT UNIT FINANCIAL STATEMENTS

New Mexico Finance Authority

The New Mexico Finance Authority coordinates the planning and financing of state and local public projects, provides for long-term planning and assessment of state and local capital needs, and improves cooperation among the executive and legislative branches of state government and local governments in financing public projects.

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority assists in the financing of housing for persons of low and moderate income in the State.

New Mexico Lottery Authority

The Lottery Authority was created and organized for establishing and conducting the lottery to provide revenues for the public purposes designated in the Lottery Act, which benefits the educational institutions created by the State Constitution.

University of New Mexico - Sandoval Regional Medical Center

Established by the Regents of the University of New Mexico, this medical center serves the City of Rio Rancho, NM.

University of New Mexico Foundation

The foundation is a nonprofit corporation organized to solicit, receive, hold, invest, and transfer funds for the benefit of the University of New Mexico.

University of New Mexico Medical Group

The Medical Group is a nonprofit corporation organized to advance and support the educational and charitable purposes of the University of New Mexico School of Medicine and the University Health Sciences Center.

New Mexico State University Foundation

The foundation is a nonprofit corporation organized to solicit, receive, hold, invest, and transfer funds for the benefit of the New Mexico State University.

Charter Schools

There were fifty-nine state-authorized Charter Schools at June 30, 2015, financially accountable to the State Public Education Department.

Nonmajor Component Units

There were twenty nonmajor component units at June 30, 2015. Their financial information is presented in total.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of New Mexico (the State) and its component units have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The State's significant accounting policies are described below. All dollar amounts are in thousands, except when stated.

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Primary government activities are distinguished between governmental and business-type activities. Governmental activities are generally financed through taxes, intergovernmental revenues, and other non-exchange revenues. The governmental activities column incorporates data from the internal service funds as well as the governmental funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

B. Reporting Entity

For financial reporting purposes, the State's financial reporting entity includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the Executive Branch, various offices relating to the Judicial Branch, and the educational institutions created by the *Constitution of the State of New Mexico*, Article XII, Section 11). The annual financial report does not include the financial statements of the community colleges or public schools.

The GASB has set forth criteria to be considered in determining financial accountability as defined in GASB Statement No. 14, *The Financial Reporting Entity* (as amended by GASB No. 39 and No. 61). These criteria include appointing a voting majority of an organization's governing body and 1) the ability of the State to impose its will on that organization or 2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. Where a State does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the reporting entity if an organization is fiscally dependent on the State, its resources are held for the direct benefit of the State or can be accessed by the State, or the relationship is such that it would be misleading to exclude it.

Discrete Component Units

In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the State. These component units are entities that are legally separate from the State, but are financially accountable to the State. Complete financial statements are available at the address given.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

Major Component Units

New Mexico Finance Authority (NMFA)

The Laws of 1992, Chapter 61, as amended, created the NMFA. The purpose of the New Mexico Authority Act is to create a governmental instrumentality to coordinate the planning and financing of state and local public projects, to provide for long-term planning and assessment of state and local capital needs and to improve cooperation among the executive and legislative branches of state government and local governments in financing public projects. The NMFA is considered a component unit of the State as the Governor appoints a majority of its Board. The NMFA is composed of eleven members, at which a majority of those members serve at the pleasure of the Governor. New Mexico Finance Authority, 207 Shelby Street, Santa Fe, NM 87505.

New Mexico Mortgage Finance Authority (NMMFA)

The Laws of 1975, Chapter 303, as amended, created the NMMFA. The purpose of the NMMFA act is to create a separate public body apart from the State to facilitate programs to assist in the financing of housing for persons of low and moderate income within the State. The NMMFA is considered a component unit of the State because the Governor appoints a majority of its Board. The NMMFA is composed of seven members, at which a majority of those members serve at the pleasure of the Governor. NMMFA fiscal year-end is September 30. This year-end differs for all other state entities, which have a June 30 fiscal year-end. New Mexico Mortgage Finance Authority, 344 Fourth Street SW, Albuquerque, NM 87102.

New Mexico Lottery Authority (Lottery Authority)

The Laws of 1995, Chapter 155, as amended, created the Lottery Authority Act. The purpose of the Lottery Authority Act is to create a separate public body apart from the State, to conduct the New Mexico state lottery and provide revenues for public purposes of providing revenues for public purposes of providing tuition assistance to resident undergraduates at New Mexico post-secondary educational institutions. The Lottery Authority is considered a component unit of the State because the Governor appoints members of its Board. The Board is composed of seven members, at which those members serve at the pleasure of the Governor. New Mexico Lottery Authority, 4511 Osuna Rd NE, Albuquerque, NM 87109.

The following component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority.

UNM - Sandoval Regional Medical Center (SRMC)

The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). SRMC is a not-for-profit corporation that was organized under the Act. The creation of SRMC resulted from collaborations between the University of New Mexico Medical Group and University of New Mexico Hospital and hold representation on the SRMC board of directors. SRMC purpose is to serve as a community based academic healthcare facility. The administrative offices are located at 3001 Broadmoor Blvd. NE, Rio Rancho, NM 87144.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

University of New Mexico Foundation, Inc. (UNM Foundation)

UNM Foundation is a nonprofit corporation, organized to solicit, receive, hold, invest, and transfer funds for the benefit of the University of New Mexico. The majority of the Foundation's investments are managed by the University. The University of New Mexico Foundation, Inc., Two Woodward Center, 700 Lomas NE, Suite 108, Albuquerque, NM 87131.

University of New Mexico Medical Group (UNMMG)

The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). UNMMG is a not-for-profit corporation that was organized under the Act. UNMMG's purpose is to promote, advance and support the clinical, educational, research and charitable purposes of the School of Medicine and the University of New Mexico Health Sciences Center. UNMMG is responsible for the delivery of patient clinical services, practice oversight, and management of the professional medical practice of UNM. The UNMMG operates 11 clinics in addition to attending at the 76 clinics of the UNM Hospital. University of New Mexico Medical Group, 933 Bradbury Street, Suite 2222, Albuquerque, NM 87106.

New Mexico State University Foundation, Inc. (NMS Foundation)

NMS Foundation is a nonprofit corporation formed for the purpose of obtaining and disbursing funds for the sole benefit of New Mexico State University. The Foundation reports on the FASB basis of accounting. New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003.

Charter Schools

The Laws of 1999, Chapter 281, as amended created the Charter School Act (Charter School). Charter Schools provide elementary and secondary educational services to encourage the use of different and innovative teaching methods. The Charter Schools are approved by the Public Education Department. The State is financially accountable for these schools. At June 30, 2015, there were 60 state chartered schools. The division of Charter Schools can be located at the New Mexico Public Education Department, Office of the Secretary, 300 Don Gaspar, Santa Fe, NM 87501.

Non-major Component Units

The State's non-major component units have been determined to be financially accountable to the State. Non-major component units are: New Mexico Military Institute (NMMI) Foundation, Inc., University of New Mexico Alumni Assoc., Inc., University of New Mexico Lobo Club, University of New Mexico – Anderson Schools of Management Foundation, Inc., STC.UNM, Lobo Development Corporation, Lobo Energy, Inc., New Mexico Institute of Mining and Technology Foundation, Inc., New Mexico Institute of Mining and Technology – Research Park Corporation, New Mexico Highlands Univ. Foundation, Inc., New Mexico Highlands University – Stable Isotopes Corporation, Western New Mexico University Foundation, Inc., Eastern New Mexico University Foundation, Inc., Eastern New Mexico University – Roswell Foundation, Inc., Eastern NM Univ. – Ruidoso – Fund Inc., Northern New Mexico College Foundation, Inc., Cumbres & Toltec Scenic Railroad, Inc., New Mexico Renewable Transmission Authority, and the New Mexico Small Business Investment Corporation.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporates data from the State's Enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the State has eight discretely presented component units and nineteen non-major component units. Component units are shown in total in the government-wide financial statements with a combining statement to show the details. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the State's funds, including its fiduciary funds. Separate statements are presented for each fund category – governmental, proprietary, and fiduciary. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining enterprise funds are aggregated and reported as non-major funds. The internal service fund is reported in a separate column on the proprietary funds financial statements. The accounts of the State are organized based on funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures.

The State reports the following governmental funds:

Major funds:

- **General Fund** This fund accounts for the financial resources of the State, except those required to be accounted for in another fund. This is the State's primary operating fund.
- **Debt Service Fund** Debt Service Fund accounts are used to account for the accumulation of resources for and the payment of principal and interest on general long-term obligations and other contractual obligations.
- Capital Projects Fund The Capital Projects Fund accounts for funds appropriated by the State Legislature for
 capital outlay, including severance tax and general obligation bond proceeds and State General Appropriation
 capital outlay funds.
- Severance Tax Fund The Severance Tax Fund is a special revenue fund and accounts for the proceeds of severance taxes, which are levied by the State on certain natural resources extracted from State lands. Severance tax revenues are first applied to pay the required debt service on Severance Tax Bonds issued by the State. Remaining severance tax revenues are then transferred to the Severance Tax Fund, administered by the State Investment Council. Distributions from this fund are stipulated by the State Constitution.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

■ Land Grant Fund – The Land Grant Fund is a special revenue fund and receives royalties and income from trust lands distributed to various entities assigned by the Ferguson Act of 1898.

The State reports the following enterprise funds:

Major fund:

Educational Institutions Fund – The Educational Institutions Fund accounts for the activities of the State's ten educational institutions created by the Constitution of the State of New Mexico in Article XII, Section 11: University of New Mexico, New Mexico State University, Eastern New Mexico University, New Mexico Institute of Mining and Technology, Western New Mexico University, New Mexico Highlands University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Blind and Visually Impaired, and New Mexico School for the Deaf.

Non-major funds:

The State's non-major enterprise funds include Unemployment Insurance, Public School Insurance, Miners' Colfax Medical Center, New Mexico Magazine, State Fair, Environment Department Clean Water, Corrections Industries, Industries for the Blind, State Infrastructure Bank and Department of Cultural Affairs.

The State reports the following internal service fund:

■ Internal Service Fund — The State reports the internal service fund type in the proprietary funds statements. The activities accounted for in the internal service fund include fleet operations, risk management, printing and records, communications services, and information processing. In the government-wide financial statements, the Internal Service Fund is included with governmental activities.

Additionally, the State reports the following fiduciary fund types:

- Pension and Other Employee Benefits Trust Funds These funds are used to report resources that are required to be held in trust for the members and beneficiaries of pension plans and other employee benefit plans. These funds account for the activities of the Public Employees Retirement Association (PERA), Educational Retirement Board (ERB), the Retiree Health Care Authority (RHCA), and the Deferred Compensation Plan.
- External Investment Trust Funds These funds account for assets held by the government in a trustee capacity. These funds are used to account for cash, securities, and other investments held in custody for participants in the New Mexico State Treasurer's Investment Pools and the State Investment Council's Investment Pools.
- **Private Purpose Trust Funds** These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments. These funds include the Scholarship

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Fund, the Trust Fund, the Water Trust Fund, the Bartlett Trust Fund, the Children's Trust Fund, and the Children's Next Generation Trust Fund.

• Agency Funds – These funds are used to report resources held by the State in a purely custodial capacity. Agency funds account for receipt of various taxes, refundable deposits, and other monies collected or recovered to be held until the State has the right or obligation to distribute them to state operating funds or to various entities or individuals; and for deposit to various institutional accounts and other receipts held by the State until there is proper authorization to disburse them directly to others.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The State generally considers revenues available if they are collected within 60 days of the end of the current fiscal period. All other revenues are recognized when they are received if they are not susceptible to accrual. Expenditures are generally recorded when a liability is incurred, as under accrual accounting; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature and do not involve measurement of results of operations.

Proprietary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described previously. Proprietary funds include both enterprise and internal service fund types. Enterprise funds report the activities for which fees are charged to external users for goods and services. Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Proprietary funds distinguish

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are student tuition and fees, net of scholarship discounts and allowances, patient services, sales and services, interest on loans, and most federal, state, and local contracts and grants. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The component units' financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The information is presented in order to be consistent with the government-wide statements, and is less detailed than the presentation in each component unit's separately issued financial statements.

F. Budgetary Information

1. Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute, in accordance with procedures prescribed by the Financial Control Division (FCD), Department of Finance and Administration. Per these procedures, accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, permission must be obtained from FCD to pay the obligation out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated. The General Fund presented herein includes the general funds of all state agencies. The largest of these general funds are the component appropriation accounts. These appropriation accounts are part of the Department of Finance and Administration. The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as non-appropriated (not budgeted) by the Legislature are the Severance Tax Fund, the Land Grant Fund, and the following Enterprise Funds: the Educational Institutions, State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

2. Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

3. Multiple Year Appropriation – Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These non-operating budgets primarily serve as a management control tool, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

4. Excess of Expenses/Expenditures Over Budget

For the fiscal year ended June 30, 2015, the State is reporting expenses/expenditures exceeding the approved budget in one P-code budgeted category. There is one P-code budget category that reports expenses/expenditures exceeding the approved budget due to rounding. More information can be found in the Budgetary Comparison Schedule in the Financial Section.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand, cash on deposit with banks, investment in the State General Fund Investment Pool, Local Government Investment Pool, and cash invested in short-term securities. Cash equivalents include investments in short-term, highly liquid securities having an initial maturity of three months or less. Cash balances not held by the New Mexico State Treasurer (State Treasurer) and controlled by various State officials are generally deposited in interest-bearing accounts or other legally stipulated investments.

2. Investments

Investments are under the control of the State Treasurer, the State Investment Council, and other administrative bodies as determined by law. In certain instances, investments are restricted by law or other legal instruments. Investments are valued at fair value. The fair value of investments is based on published prices and quotations from major investment brokers at current exchange rates as available. For investments where no readily ascertainable fair value exists, management in consultation with their investment advisors, have determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The change in fair value is recognized as a component of investment income in the current year.

The Education Trust Board calculates the net asset value of its units as of the close of The New York Stock Exchange (the Exchange), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. The net asset values of the investments are determined as of the close of the Exchange on each day the Exchange is open for trading. Short-term money market-type debt securities with remaining maturities of sixty days or less are valued at amortized cost (which approximates market value).

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

3. Investment Pools

State Treasurer - The State is required by statute to deposit any money received with the State Treasurer. Balances maintained at the end of the day are pooled and invested by the State Treasurer in overnight repurchase agreements. All repurchase agreements are collateralized by U.S Treasury Securities held by the State Treasurer's custodian bank. These pooled balances are collectively called the State General Fund Investment Pool (SGFIP), which also includes the deposits in the Tax-Exempt Bonds Proceeds Investment Pool and Taxable Bond Proceeds Investment Pool. The State General Fund is the State of New Mexico's main operating account. All State revenues are credited to the General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature. The Bond Proceeds Pools consist of pooled assets received through the issuance of taxable and tax-exempt bonds. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the SGFIP are reported as a cash equivalent.

All interest revenue is allocated to the General Fund unless state statute or trust agreements require allocations of interest to other funds. Interest is allocated based on the average daily balance and average monthly interest rates.

In addition to the SGFIP pooled cash account, the State Treasurer maintains the Local Government Investment Pool (LGIP). The LGIP also includes the deposits in the Reserve Contingency Fund. Cities, counties, other non-state agencies, and state agencies invest monies with the State Treasurer in the LGIP. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the LGIP are reported as a cash equivalent.

The LGIP, an external investment pool, is not registered with the Security and Exchange Commission (SEC) as an investment company. The investments are recorded at fair value based on quoted market price; however, individual participant balances remain at their carrying cost. The LGIP does not have unit shares. Per Chapter 6-10-10.1F, New Mexico Statutes Annotated (NMSA) 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in the amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. At June 30, 2015, the LGIP carrying cost approximated the fair value. Participation in the LGIP is voluntary. The external portion of LGIP is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the New Mexico State Treasurer's audited financial statements can be obtained by writing the New Mexico State Treasurer, P.O. Box 5135, Santa Fe, NM 87505 or online at http://www.saonm.org/audit_reports/detail/9836.

Public Employees Retirement Association - The Public Employees Retirement Association created a short-term investment pool (Pool) to maximize the benefits of the investment diversification and investment earnings. The Judicial, Magistrate, Volunteer Firefighters, and Public Employees Retirement Systems (Systems) participate in the Pool. The fair value of the investments in the Pool is the same as the value of the pool shares. All investments in the Pool are either SEC registered or are exempt from SEC registration under exemption 3(a)(3) or 4(2) of SEC

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

regulations. Each System's equity percentage in the Pool is based on that System's investment in the pool and will only increase or decrease by additional deposits or withdrawals.

State Investment Council - The State Investment Council (Council) is responsible for the investment activities of certain state trust funds. The Council's investments are reported in the following categories: governmental activities, business-type activities, private-purpose trust funds, and external investment trust funds. Each of the fund types are participants in the Council's pools. Each pool is composed of units of participation of unlimited quantity. Each unit of participation represents an equal beneficial interest in the respective pool and no unit has priority over any other. Each purchase or sale of units requires written authorization as defined in the joint powers agreements executed between the Council and each participant. All units are purchased by cash payment. Each unit of participation is recorded in book entry form by the Council.

The external portion of the Council's investment pools are reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the Council's report can be obtained by writing the New Mexico State Investment Council, 41 Plaza la Prensa, Santa Fe, NM 87507.

4. Inventories

The governmental funds use both the purchases method and the consumption method of accounting for inventories. Each state agency determines which method is more appropriate for its circumstances. Under the purchase method, inventories are recorded as expenditures when purchased. For the consumption method, costs are recorded as expenditures when consumed rather than when purchased.

Inventories of the proprietary funds are valued at cost using the average cost, retail inventory, and first-in-first-out (FIFO) methods.

5. Receivables and Loan Receivables

Receivables, net of allowance, in the governmental, business-type activities and fiduciary activities consist mainly of amounts due from the federal government, local governments, customers, patients and applicable insurance companies, taxpayers, students, and others.

Various reimbursement procedures are used for federal awards received by the State. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year-end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Determining the amount of expenditures reimbursable by the federal government, in some cases, requires management to estimate allowable costs to be charged to the federal government. As a result of this and other issues, management provides an allowance for potential contractual allowances for federal revenue. Any changes in these estimates are recorded in the period that the estimate is changed.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Loans are stated at their principal amount. Interest on loans is accrued based on the daily principal balance outstanding, except when a loan has been past due for 90 days. Certain loans are to governmental entities and secured by certain pledged revenues. The loans are being repaid in accordance with their loan agreements.

6. Capital Assets

Capital assets, which include automobiles, buildings and improvements, furniture and fixtures, software, library books, infrastructure (e.g., roads, bridges, sidewalks, and similar items), machinery and equipment, and portable buildings are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The State defines capital assets as costing at least five thousand dollars or more when acquired and having an estimated useful life greater than one year.

Capital assets purchased by governmental funds are recorded as expenditures in the governmental fund financial statements. Interest expense for capital asset construction related to governmental activities is not capitalized. Interest expense incurred during construction of capital facilities related to business-type activities and component units is immaterial and is not capitalized in all cases. There is no depreciation recorded for land and infrastructure (right-of-way land). Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In accordance with the practices followed by many museums and libraries, museum and library collections are not reported as assets in the accompanying financial statements. Purchases of the items are reported as expenditures. Certain library books, however, are capitalized.

There is no depreciation recorded for land, construction in progress, infrastructure. Buildings, equipment, and other depreciable assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Years
Infrastructure	10-40
Land Improvements	15-30
Furniture and Equipment	3-25
Vehicles	3-12
Buildings and Improvements	5-75

As provided by GASB standards, the State elected to use the depreciation method to account for infrastructure assets (roads and bridges). This method requires the State to allocate the cost of infrastructure assets over their estimated useful lives as depreciation expense.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

7. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

8. Accrued Liabilities

Accrued liabilities include accrued current payroll and fringe benefits payable at year end. These benefits consist of the employee and employer portions of taxes, insurance, retirement, and other compensation-related withholdings.

9. Compensated Absences

Qualified employees' vacation leave is accrued at a graduated schedule of 80 to 160 hours per year, depending upon the length of service and employees' hire date. Employees are paid for the accumulated annual leave upon retirement or other termination up to 240 hours. A maximum of thirty days of annual leave (240 hours) may be carried forward into the beginning of the calendar year, with any excess forfeited. Qualified employees sick leave accrued at the rate of 3.7 hours per bi-weekly pay period. There is no limit to the amount of sick leave, which an employee may accumulate. Employees are paid for accumulated sick leave annually, or upon retirement or other termination, but only for accumulated sick leave in excess of 600 hours. Annually, employees may be paid 50.0 percent of the excess over 600 hours, up to a maximum of 120 hours. Upon retirement or other termination, employees are paid 50.0 percent of the excess over 600 hours, up to maximum of 400 hours. The total liability of the governmental activities for compensated absences is recorded in the government-wide Statement of Net Position as part of long-term liabilities. However, in accordance with GAAP, the liability is not recorded in the Governmental funds financial statements. See additional disclosure in the detailed notes.

10. Unearned Revenue

In the government-wide statements, proprietary fund statements, and fiduciary fund statements, unearned revenue is recorded when cash or other assets are received prior to being earned. *GASB Statement No. 65* requires resources received from another government under voluntary or government-mandated non-exchange transactions before time restrictions are met, but after all other eligibility requirements are met, should be classified as deferred inflows of resources.

11. Bonds Payable

Bond premiums and discounts and deferred amounts on refunding are deferred and amortized over the life of the bonds using the bonds outstanding method or straight-line method, which approximates the effective interest method. Bonds payable are reported at face amount, with the applicable bond premium or discount and deferred amount on refunding reported separately. In accordance with GASB Statement 65, bond issuance costs are expensed.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

In the governmental fund financial statements, total bond premium or discount is recognized when the bonds are first issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

12. Insurance Losses and Loss Adjustment Expense

Public Schools Insurance Authority – The New Mexico Public Schools Insurance Authority (PSIA) insurance losses and related adjustment expenses are charged to operations as incurred. The reserves for losses and loss adjustment expenses are determined based upon case-basis evaluations and actuarial projections, and include a provision for claims incurred but not reported. The actuarial projections of ultimate losses on reported claims and the estimate of claims incurred but not reported are based on a composite of PSIA's experience and benefits, property, casualty, and workers' compensation insurance industry data, which supplements PSIA's historical experience and includes the effects of inflation and other factors. Losses are reported net of estimated amounts recoverable from excess insurance, salvage and subrogation, and the deductible portion of claims. Adjustments to the probable ultimate liability for losses and loss adjustment expenses are made continually, based on subsequent developments and experience, and are included in operations as made.

Retiree Health Care Authority - The amount shown for the Retiree Health Care Authority as reserve for losses and loss adjustment expenses is an actuarially calculated estimate of the ultimate costs of settling all incurred but not reported claims as of the fiscal year-end, while the amount shown on the accompanying fiduciary statement of changes in fiduciary Net Position as losses and loss adjustment expenses represents the change in this estimate during the fiscal year. These reserves represent, in management's opinion, the best estimate of the ultimate cost of settling all reported and unreported claims. There exists a range of variability around the best estimate of the ultimate cost of settling all unpaid claims. Accordingly, the amount reflected in the accompanying financial statements may not ultimately be the actual cost of settling all unpaid claims and the difference may be significant.

13. Interfund Transactions

Government-wide Financial Statements

Interfund Activity – In general, eliminations have been made to minimize the double counting of internal activity, including internal service fund type activity. However, interfund services, provided and used between different functional categories, have not been eliminated in order to avoid distorting the direct costs and program revenues of the applicable functions. Operating transfers between governmental and business-type activities are reported at the net amount.

Interfund Balances – Interfund receivables and payables have been eliminated from the government-wide Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Governmental Fund Financial Statements

Interfund Activity – Interfund transactions for goods sold or services rendered for a price approximating the external exchange value and employee benefit contributions are accounted for as revenues and expenditures/expenses in the funds involved.

Transfers are used to report flows of cash (or other assets) between funds without equivalent flows of assets in return or a requirement for repayment. The State's transfers are based on legislative appropriations or other legal authority.

14. Net Position and Fund Balance

Net Investment in Capital Assets consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of bonds, mortgages, notes, or other debt attributable to the acquisition, construction, or improvement of such assets. Significant unspent related debt proceeds are not included in the calculation of Net Investment in Capital Assets. The unspent portion of the debt is included in restricted for capital projects. The State issues General Obligation bonds and Severance Tax bonds to finance projects for the State and local governments. The Legislature appropriates the bond proceeds from each bond issue to projects throughout the State. Only bonds issued for projects appropriated to State agencies and recognized as a State asset are included in this calculation.

The State reports Net Position as restricted when constraints placed on Net Position are a) externally imposed by creditors, grantors, contributors or laws, or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Restricted Net Position is designated as either expendable or nonexpendable. Expendable Restricted Net Position includes those funds that may be expended either for a stated purpose or for a general purpose subject to externally imposed stipulations. Nonexpendable Restricted Net Position includes those funds that are required to be retained in perpetuity. Restricted Net Position includes the State's permanent endowment funds subject to externally imposed restrictions governing their use.

Unrestricted Net Position consists of net position that does not meet the definition of Net Investment in Capital Assets or Restricted Net Position.

When both restricted and unrestricted net position are available for use, it is the State's policy to use restricted resources first and then unrestricted resources, as they are needed.

In the governmental fund financial statements, fund balances are classified as non-spendable, restricted, committed, assigned, or unassigned. Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed by outside parties or internally imposed by law through constitutional provision or enabling legislation.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislature, such as an appropriation or legislation. The State Legislature is the highest level of decision-making authority that can, by passage of legislation, commit fund balance that is not already restricted. Once adopted, the limitation remains in place until similar action takes place, usually in the form of a new budget bill or other legislation.

Assigned fund balance is constrained by the Legislature's intent to be used for specific purposes by directive of the Legislative Finance Committee of the Legislature or in some cases by legislation. Legislative directives dictate that all fund balances remaining at the end of the fiscal year shall be reverted back to the State General Fund unless the fund is stipulated as non-reverting by the Legislature or by laws or regulations imposed by grantors. If the fund is non-reverting, the agency governing board or department head has the authority to assign a fund balance for a specific use.

The State has not adopted a formal flow assumption policy and therefore uses the GASB recommendations; that is, it is the State's policy to use restricted fund balance before using components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance, and lastly, unassigned fund balance.

H. Revenues and Expenditures/Expenses

In the government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g. general control, education, health and human services, etc.).

Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted." General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g. federal grants), available only for specific purposes. Unused restricted revenues at year-end are recorded as restrictions of fund balance. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first.

In the governmental fund financial statements, expenditures are reported by character: Current, Capital Outlay, or Debt Service. Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Revenues and expenses of proprietary funds are classified as operating or non-operating and are sub-classified by object (e.g. depreciation, benefits, claims and premiums, and game expense). Operating revenues consist of sales of goods or services, interfund services provided/used, grant revenues for specific activities that are considered

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified as operating. An example of this would include interest income on loans. All other revenues that do not meet the above criteria should be classified as non-operating.

Grants

Federal grants and assistance awards made based on entitlement periods are recorded as revenues when entitlement occurs. All federal reimbursement-type grants are recorded as revenues when the related allowable expenditures are incurred and all applicable eligibility requirements are met.

Investment Income

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses (which includes investment management and custodial fees, securities lending expense, and all other significant investment related costs). Negative investment income is reported where the decrease in fair value of investments due to market conditions exceeded the other components of investment income.

Endowments

Net appreciation on the Educational Institutions' investments of donor-restricted endowments of \$18 million are available for authorization for expenditure by the governing boards of the universities with endowments, which are reported in Net Position as restricted for purposes for which the endowments were established. Donor restricted endowment disbursements of the net appreciation of investments are permitted in accordance with the Uniform Management of Institutional Funds Act, Chapters 46-9-1 to 46-9-12, NMSA 1978, except where a donor has specified otherwise. Distributions shall not exceed 6.0 percent nor be less than 4.0 percent of the average market value of the endowment. The universities use the total-return policy for authorizing and spending investment income. The universities review the investment earnings designed to support distributions from the pool and to protect the purchasing power of the endowment principal.

Retirement and Employee Benefit Costs

Most state employees participate in a defined benefit pension plan administered by the New Mexico Public Employees' Retirement Association and the New Mexico Educational Retirement Board. Contributions collected for the pension plans and the retirement benefits paid are accounted for in the Pension and Other Employee Benefits Trust Funds. All costs for pension, health, and federal social security contributions are reported as expenditures in the appropriate function in governmental fund types or as expenses in applicable proprietary fund types. Pension costs are recognized in accordance with the GASB 68/71, whereas other benefits costs are recognized in the fiscal year in which the underlying payroll costs are incurred.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

J. New Accounting Standards

For the fiscal year ended June 30, 2015, the State implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB) that relate to pension activity. They are GASB Statement No. 68 (GASB 68) and GASB Statement No. 71 (GASB 71).

GASB Statement No. 68, Accounting and Financial Reporting for Pensions

GASB Statement No. 68 establishes standards of accounting and financial reporting, but not funding or budgetary standards, for the State's participation in the Public Employee Retirement Association of New Mexico's (PERA) and the New Mexico Educational Retirement Board's (ERB) defined benefit pension plans. This statement replaces the requirements of prior GASB statements impacting accounting and financial disclosure of pensions.

The significant impact to the State of implementing GASB 68 is the reporting of the State's proportionate share of PERA's and ERB's unfunded pension liability on the State's accrual basis financial statements, the government-wide and proprietary funds financial statements. There are also new note disclosure retirements and supplementary schedules required by the statement.

The measurement date for the PERA and ERB pension liabilities is as of June 30, 2014. This date reflects a one-year lag and was used so these financial statements could be issued using the most recent, audited financial information available. Activity (i.e., contributions made by the State) occurring during fiscal year 2015 are reported as deferred outflows of resources in accordance with GASB 71.

A prior period restatement is shown on the face of the financial statements which reflects the cumulative effect on beginning net position.

GASB Statement No. 69, Government Combinations and Disposals of Government Operations

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. This statement was effective for the State for fiscal year-ended June 30, 2015, but did not have an impact on these financial statements.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

GASB Statement No. 71, <u>Pension Transition for Contributions Made Subsequent to the Measurement Date – an</u> Amendment of GASB Statement No. 68

GASB Statement No. 71 addresses an issue regarding application of the transition provisions of GASB Statement No. 68 with respect to contributions.

K. Future Accounting Standards

The following pronouncements of the Governmental Accounting Standards Board (GASB) are due to be implemented by the State in the year indicated. For all of these new standards, the State has not determined the effect on the financial statements that implementation of the standards will entail.

GASB Statement No. 72, Fair Value Measurement and Application

This statement addresses accounting and financial reporting issues related to fair value measurements, and provides guidance for determining fair value measurement for financial reporting purposes. This statement is due to be adopted by the State for the fiscal year ending June 30, 2016.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68

This statement establishes requirements for defined benefit pensions than are not within the scope of Statement No. 68. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68, as well as amending certain provisions of Statements No. 67 and No. 68. This statement is due to be adopted by the State for the fiscal year ending June 30, 2016.

GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans

This statement provides new guidance on reporting for benefit plans other than pensions. The statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

This statement establishes new standards for accounting and financial reporting for governments whose employees are provided with postemployment benefits other than pensions. Statements No. 74 and No. 75 will have a significant impact on the financial statements of most governments, including the State of New Mexico. This statement is due to be adopted by the State for the fiscal year ending June 30, 2018.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

GASB Statement No. 76, <u>The Hierarchy of Generally Accepted Accounting Principles for State and Local</u> Governments

This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP, and is of interest mainly to those involved in accounting and financial reporting for governments. This statement is due to be adopted by the State for the fiscal year ending June 30, 2016.

GASB Statement No. 77, Tax Abatement Disclosures

This statement provides disclosure guidance for governments that enter into tax abatement agreements with individuals or businesses. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 78, Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans

This statement establishes accounting and reporting requirements for certain governments and pension plans that fit the definitions enumerated in the statement. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants

This statement applies to those external investment pools which make an election regarding the measurement of its investments at amortized cost for financial reporting purposes. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 80, <u>Blending Requirements for Certain Component Units – An Amendment of GASB Statement</u> No. 14

This statement applies to certain specific component units as defined in the statement. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 81, Irrevocable Split-Interest Agreements

This statement provides accounting guidance to those governments which receive resources pursuant to an irrevocable split-interest agreement (a donor agreement used to provide resources to two or more beneficiaries). This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

GASB Statement No. 82, Pension Issues - An Amendment of GASB Statements No. 67, No. 68, and No. 73

This statement addresses certain specific financial reporting issues which have arisen due to the implementation of GASB Statements No. 67, No. 68, and No. 73. This statement is due to be adopted by the State for the fiscal year ending June 30, 2017.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

L. State Auditor Rule Disclosure

The Office of the State Auditor Rule requires that audit reports contain a schedule of Joint Powers Agreements (JPA) and Memoranda of Understanding (MOU) that are significant to the State as a whole. There are none that meet this criterion.

Disclosure of these schedules may be found in the stand-alone audit reports which have been issued by the individual State agencies. These are available from the Office of the State Auditor at www.saonm.org.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2

NOTE 2. Cash

Primary Government

New Mexico State Treasurer

All monies, except with specific authority, must be deposited with the State Treasurer. These operating funds are commingled in the State Investment Pool, managed by the Treasurer. Every State agency reports their operating cash as "Investment in State General Fund Investment Pool", and this pool is reported in Note 3, "Investments". The issues concerning the reconciliation of the State General Fund Investment Pool and their resolution are reported in Note 16, "Reduction in the Allowance for Potential Loss – State General Fund Investment Pool".

Cash on deposit represents the demand deposit account with the fiscal agent bank. Current year transactions reflect all banking activity for the fiscal year as well as the activity of investments purchased and disposed of during the fiscal year. The State Treasurer invests all public monies, with the exception of the New Mexico Lottery and the university funds. The university funds are entirely under the control of the universities. These funds are held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance (BOF). The State Treasurer invests excess cash balances on behalf of certain earmarked funds of state agencies identified by State statute and local governments. Interest earnings are distributed based on average outstanding cash balances for local governments and the state agencies where interest is allowed to be earned. All other interest earnings are transferred to the State General Fund Appropriations Account.

All State agencies, unless otherwise excepted, must have specific approval from the State Treasurer in order to maintain separate bank accounts. These accounts are mainly used for agency fund purposes, either as a collection fund until final distribution, or when the funds are being held by the agency in a fiduciary capacity and the funds do not belong to the State.

Custodial Credit Risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The State Treasurer's Office collateral manager reviews and tracks all state funds held in state depository institutions. Deposits and collateral are reviewed almost daily and a statutorily required risk assessment is performed quarterly. Balances are collateralized in compliance with NMAC 2.60.4.

The State Treasurer invests all public monies held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance. The Treasurer deposits public monies with New Mexico financial institutions in denominations which generally are in excess of the \$250 thousand in federal deposit insurance. Accordingly, the State Treasurer requires that depository financial institutions provide additional collateral for such investments. The collateral generally is in the form of marketable debt securities and is required in amounts ranging from 50.0 percent to 102.0 percent of the par value of the investment, dependent on the institution's operating results and capital. Collateral for the fiscal agent account is required in amounts equal to 50.0 percent of the average investment balance.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2 (CONTINUED)

As of June 30, 2015, the funds held by the State Treasurer in the fiscal agency account were exposed to custodial credit risk as follows:

Office of the State Treasurer Custodial Credit Risk (Expressed in Thousands)

	Balance at	
	Jur	ne 30, 2015
Cash in Banks	\$	687,957
Less: Deposit of Institutions Which are Fully Insured and Collateralized		308,884
Deposits of Institutions Not Fully		
Collateralized		379,073
Less: Total FDIC Insurance Coverage		2,500
Collateral Pledged:		
Surety Bond		300
Securities		265,092
Subject to Custodial Credit Risk	\$	111,181

In the table above, FDIC insurance coverage and collateral pledged relate only to those institutions whose deposits are not fully insured and/or collateralized.

As of June 30, 2015, collateral pledged to public money deposits was as follows:

Office of the State Treasurer Statutory Collateral Compliance (Expressed in Thousands)

	Fiscal Agent Account		Certificates of Deposit	
Cash in Bank * Less: FDIC Insurance Coverage	\$	38,006	\$	65,950 1,540
Total Unsecured Public Funds	\$	38,006	\$	64,410
Collateral Requirement (50.0% - 102.0% of Uninsured Public Funds)	\$	19,003	\$	49,427
Collateral Pledged: U.S. Government Securities		44,489		78,290
(Over) Under Collateralized	\$	(25,486)	\$	(28,863)

^{*} Fiscal agent bank is required to collateralize the monthly average balance.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2 (CONTINUED)

The cash deposits of the State Investment Council, the Public Employees Retirement Association, the Educational Retirement Board, the Retiree Health Care Authority, and the Education Trust Board are monitored by their individual Boards in conjunction with contracted professional investment firms. The respective Boards of these agencies have instituted policies and procedures to safeguard the public assets under their control.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 3

NOTE 3. Investments

The following schedule lists the total investments reported in the financial statements:

	Balance at June 30, 2015	
Primary Government:		<u> </u>
Current:		
Investment in State General Fund Investment Pool	\$	2,522,355
Investment in Local Government Investment Pool		79,235
Investments		370,690
Noncurrent:		
Investments		19,864,467
Fiduciary Funds:		
Investment in State General Fund Investment Pool		1,083,712
Investment in Local Government Investment Pool		4,884
Investments		29,553,214
External Trust Funds -		
Excess of Net Position Over Amounts Reported		
as Investments		442,316
Subtotal		53,920,873
Less Investments Reported Separately:		
Deferred Compensation Plan Investments		491,987
Fiduciary Short-term Investments		1,343,422
Total Investments	\$	52,085,464

There are six different agencies or groups which report investments for the State, each of them with separate authority and different objectives. They are: a) the Office of the State Treasurer; b) the State Investment Council; c) the Public Employee and Educational Employee Retirement Plans; d) the State universities and colleges; e) Education Trust Board; and f) State agencies with separately-held investments. In addition, the component units also report separately-held investments.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

State Treasurer

The State Treasurer operates four separate investment pools. They are as follows:

General Fund Investment Pool

The General Fund is the State of New Mexico's main operating account. All State revenues are credited to the State General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund is comprised of the various State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature. Consolidated Investment Pool (Tax-Exempt Bond Proceeds Investment Pool #1)

The Tax-Exempt Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of tax-exempt State of New Mexico general obligation, severance tax, and supplemental severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to the true interest cost of all State of New Mexico debt outstanding and in accordance with the Investment Policy of the Office of the State Treasurer.

Consolidated Investment Pool (Taxable Bond Proceeds Investment Pool #2)

The Taxable Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of State of New Mexico severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to a benchmark and in accordance with the State Treasurer's Investment Policy.

Local Government Investment Pool

Cities, counties, and other non-state agencies may invest monies in the State Treasurer external Local Government Investment Pool (LGIP). The investments are recorded at fair value based on quoted market prices as of the valuation date in the financial statements; however, the individual participant balances remain at their carrying cost. At June 30, 2015, the Local Government Investment Pool carrying cost approximated the fair value.

The LGIP is not SEC-registered. Chapter 6-10-10.1, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies, and are either direct obligations of the United States or are backed by the full faith and credit of the United States government, or are agencies sponsored by the United States government. The LGIP investments are monitored by the same investment committee and adhere to the same policies and procedures that apply to all other state investments. The LGIP does not have unit shares. Per Chapter 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the LGIP is voluntary. As of June 30, 2015, the WAM(R) of the LGIP was 54.6 days, and the WAM(F) was 77.7 days. The fund was rated AAA by Standard & Poor's as of June 30, 2015.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Investment Guidelines and Limitations

The Investment Policy is a comprehensive guide governing the investment functions of the New Mexico State Treasurer with respect to all financial assets of the State of New Mexico invested by the State Treasurer in the exercise of their authority and for which the State Treasurer acts as the investing authority. These assets include, as examples only, the State General Fund, the LGIP, bond proceeds, bond debt service funds, and those pension and permanent Note 12 funds and other special funds with respect to which the State Treasurer is the investing authority. The investment policy and the public finance investment decisions of the State Treasurer must serve and satisfy several fiduciary, fiscal, and financial obligations. In making these decisions and in resolving any conflict or competing considerations that may arise from time to time among these obligations, the State Treasurer will observe the following priority:

- Preservation of Principal
- Maintenance of Liquidity
- Maximum Return

State Investment Council

The State of New Mexico Investment Council (Council) is responsible for the investment activities of certain State trust funds. The Council is composed of eleven members, and currently manages the Land Grant, Severance Tax, and Tobacco Settlement Permanent Funds, the Water Trust Fund, and various investment pools for the benefit of state agencies and other political entities within the State of New Mexico.

In accordance with Chapter 6-8, NMSA 1978, the Council is authorized to invest in domestic and international stocks, debt obligations of the U.S. government, its agencies, or instrumentalities, debt obligations of any U.S. or foreign corporation, partnerships, or trusts with an investment-grade rating from a national rating service, real estate investments, national private equity investments, repurchase agreements secured by U.S. obligations or other securities backed by the U.S., and hedge funds.

Pension Benefits Funds

The two pension benefits agencies are the Public Employees Retirement Association of New Mexico (PERA) and the Educational Retirement Board (ERB). PERA operates four separate cost-sharing multiple-employer public employee retirement systems, and ERB operates one such system for the benefit of educational employees in the State. More information on each of these agencies can be found elsewhere in these Notes. Each is governed by a separate Board, and each has specific investment policies and guidelines to which they must adhere.

State Universities and Colleges

As mentioned in Note 1. B, the ten educational institutions created by the *Constitution of the State of New Mexico* are included in the State reporting entity. Eight of these institutions maintain separate investment portfolios, as permitted by statute, with some of the investments held and managed by State agencies and some managed by the institutions themselves. Each has investment policies and guidelines which are similar.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Education Trust Board

The Education Trust Board (ETB) is responsible for the management of the two higher education savings plans: Scholar's Edge, and The Education Plan (Plans). The Plans are savings vehicles for higher education expenses under Section 529 of the U.S. Internal Revenue Code. The funds are managed by a private company under contract agreement. A copy of the Education Trust Board's audited financial statements can be obtained by writing the Education Trust Board's at 1516 Paseo de Peralta, Santa Fe, NM 87501.

A. Custodial Credit Risk

Custodial credit risk is the risk that the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of the State Treasurer, and are held by either the counterparty or the counterparty's trust department or agent but not in the State Treasurer's name.

The State Treasurer's investment policy for safekeeping and custody states that all investment securities purchased by the State, held as collateral on repurchase agreements or held as collateral on securities lending arrangements shall be held in third-party safekeeping at a fiduciary qualified to act in this capacity. All securities held for the State account will be held free and clear of any lien and all transactions will be conducted in compliance with Chapter 6-10-10O, NMSA 1978, which requires contemporaneous transfer and same day settlement. On a monthly basis, the custodian will provide reports, which list all transactions that occurred during the month, and all securities held for the State at month-end, including the book and market value of holdings. The fiscal agent and representatives of the custodian responsible for, or in any manner involved with, the safekeeping, and custody process of the State shall be bonded in such a fashion as to protect from losses from malfeasance and misfeasance. All investment and collateral securities were held by the State Treasurer or its Custodian in the name of the State Treasurer.

All of the PERA's and ERB's securities are held by the third party custodian, independent of any counterparty; therefore, there is minimal risk that PERA and ERB will not be able to recover the value of its investments or collateral securities held by a counterparty.

PERA's investment policy specifically defines the custodian's duties as it pertains to holding of the assets, collection of income generated from the assets, and assisting PERA for the accounting of said assets.

ERB's investment policy limits holding of securities by counterparties to those involved with securities lending. In the event of the failure of the counterparty to deliver back the borrowed securities, ERB will sell the collateral securities and offset any gains or losses with the counterparty. All of the investments of the Retiree Health Care Authority were held by the State Investment Council.

B. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. U.S. obligations or investments guaranteed by the U.S. Government are excluded from this requirement. The quality

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

rating of PERA's investment policy restricts investments to specific investment ratings issued by nationally recognized statistical rating organizations.

ERB requires that noncash, interest-paying securities in the high-yield bond portfolios may not exceed 5.0 percent of the market value of the portfolio and that investments in cash may represent no more than 5.0 percent of each individual fund. Credit risk is managed through diversification and by operating within defined parameters versus a benchmark index.

ETB invests directly in Underlying Investments. The registered Underlying Investments' prospectuses provide greater detail about the investment strategies and practices of the Underlying Investments, in compliance with federal regulations and specifically, the Form N-IA of the Investment Company Act of 1940. Form N-IA discloses information and policies about the Underlying Fund and its investment objectives, as well as information on the company structure and operations. In addition, the Program Disclosure Statement and the Participation Agreement provide greater detail about the credit risk, if any, by certain nonregistered Underlying Investments.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

C. Custodial Credit Risk

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the State, and are held by either the counterparty or the counterparty's trust department or agent but not in the State's name. All of the State's securities are held directly or by third party custodians, independent of any counterparty, in the name of the State.

D. Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. It is the policy of the State to diversify its investments portfolios. Assets shall be diversified to reduce the risk of loss resulting from an over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. At June 30, 2015, there were no holdings with a single issuer comprising five percent or more of total net investments. It should be noted that investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

E. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Investment managers attempt to match investments with anticipated cash requirements so as to lessen this risk.

PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager. Duration is loosely defined as the dollar weighted average time to recover all of principal and fixed-income investment. PERA's fixed-income managers are typically limited to duration of plus or minus one year or 20.0 percent of the duration of the applicable portfolio benchmark. ERB does not have a policy for interest rate risk management. However, interest rate risk is managed through duration by operating within defined risk parameters versus a benchmark index.

Maturities on investment at June 30, 2015, were as follows:

Securities Collateral

The State's Investment Policy states that no repurchase agreement shall be entered into unless the contract is fully secured by deliverable obligations of the United States or other securities backed by the United States having a market value of at least 102.0 percent of the amount of the contract. The Office of the State Treasurer reports the credit ratings and maturities on collateral securities held by that office at June 30, 2015 as follows:

Securities Lending

The State Public Employee Retirement Association (PERA) participates in a securities lending program as authorized by State statute and its Board policies. Both the State Investment Council and the Educational Retirement Board have terminated their lending programs.

The types of securities lent are U.S. Treasury Notes and Bonds, U.S. and international equity securities, and corporate bonds and notes. Under this program, securities are transferred to an independent broker-dealer or other lending agent in exchange for collateral in the form of cash, government securities, and/or irrevocable bank letters of credit, with a simultaneous agreement to return the collateral for the same securities in the future. The collateral must equal at least 102.0 percent of the market value of the securities.

Per Board policy, PERA may invest the cash collateral in eligible securities or other investments as defined in the governing securities lending agreement. The duration of investments so made does not generally match the maturities of securities loaned. Securities received as collateral may not be pledged or sold without borrower default.

Total securities on loan at June 30, 2015, had a carrying amount and fair value of \$619.9 million. Under the agreement, the lending agent is required to indemnify the entity if the borrower fails to return the securities, if collateral is inadequate to replace the securities lent, or if the counterparty fails to pay the entity for income

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

distributions by the securities' issuers while the securities are on loan. There were no such losses during the year ended June 30, 2015, due to borrower default.

The associated cash collateral has been reinvested in other instruments. During FY 2015, the average securities loaned balance was \$408,331,197, on a base of average lendable assets of \$8,590,130,605. The average utilization rate over the fiscal year was 4.8%, with net earnings of \$3,773,402. As of June 30, 2015, PERA's participation in the Securities Lending program was terminated, in preparation of an upcoming custodial bank transfer. As a result of this termination, cash collateral had a principal balance and market value of \$4,325, with no unrealized losses.

Derivatives

Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. The State's retirement funds' investment policies allow certain portfolio managers to trade in certain derivatives for hedging purposes.

The notional or contractual amounts of derivatives indicate the extent of the State's involvement in the various types and uses of derivative financial instruments and do not measure the State's exposure to credit or market risks, and they do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and other terms of the derivatives.

The fair value balances and notional amounts of derivative instruments outstanding at June 30, 2015, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the financial statements are as follows:

Derivative Financial Instruments (Expressed in Thousands)

	Change in Fa	'alue	Fair V	Fair Value			Notional	Unit of	
Derivative Type	Classification	Amount		Classification	I	Amount	Amount		Value

Swaps: Fixed Income	Investment Income		(325)	Investments		(325)		138,289	-

Risk – There are certain risks inherent in investments in derivatives. Counterparties to financial instruments expose the State to credit risk in the event of nonperformance. The fund managers that are authorized to invest in derivatives are given specific parameters as to the types of derivatives invested in and ratings of the counterparties they are allowed to enter into contracts with to ensure transactions are entered into with only high quality institutions. The State is exposed to market risk; the risk that changes in market conditions may make an investment less valuable. Exposure to market risk is managed within risk limits set by management through buying and selling of specific instruments or by entering into offsetting positions. Foreign currency risk for investments is the risk that changes in exchange rates will adversely affect the investments. Managers of these assets are given discretion to hedge this risk.

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Types of Derivatives Instruments

Foreign Currency Exchange Contracts. The State's retirement funds may enter into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the State's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal as they are entered into with a limited number of highly rated counterparties.

Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. Gains and losses on foreign currency may occur to the extent that the fair value of the contracts varies from the actual contract amount, and they are recorded as incurred in the financial statements.

The following tables summarize the foreign exchange contracts by currency by the agencies involved as of June 30, 2015:

Futures Contracts. The State's retirement funds enter into futures contracts in the normal course of its investing activities, including equity futures, fixed income futures, and commodities futures. They are utilized in order to manage market risk associated with the equity and fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of Net Position available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges.

There were no outstanding futures contracts as of fiscal year ending June 30, 2015.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Options. An option is a contract in which the writer of the option grants the buyer of the option the right to purchase from (call option), or sell to (put option), the writer a designated instrument at a specified price within a specified period. Both written and purchased options were used by the State during the fiscal year. When the State purchases or writes an option, an amount equal to the premium paid or received by the State is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. Gain or loss is recognized when the option contract expires or is closed. As of June 30, 2015, there were no open written or purchased options.

Swap Contracts. Swap contracts are executed on a number of different bases. The two types employed by the State during the fiscal year were interest rate swap contracts and credit default swap contracts. An interest rate swap contract is an agreement between two parties to exchange periodic interest payments. One party agrees to make payments to the other based on a fixed rate of interest in exchange for payments based on a variable rate. The State employs interest rate swap contracts to adjust fixed income portfolio durations. A credit default swap contract is similar to an insurance policy; with the credit risk of an individual issuer or a basket of issuers (the "reference asset") the insured factor. Under such a contract, two parties enter into an agreement whereby the first party pays the second party a fixed periodic payment for the specified life of the contract (analogous to an insurance premium). The other party makes no payment unless a credit event related to the reference asset occurs. If such an event takes place, the second party is obligated to make a payment to the first party. The size of the payment is linked to the decline in the reference asset's market value following determination of the occurrence of a credit event.

Hedge Fund. The use of other derivatives is allowed under the Hedge Fund Investment Policy. These investments are under the management of the Hedge Fund managers who are employed in the "Hedge Fund", "Emerging Market Debt," and "Opportunistic Credit" classifications.

Asset-backed Securities. The State invests in various forms of asset-backed securities, which fit the previous definition of derivative securities. These securities are held for investment purposes. The credit risk, interest rate risk, and foreign currency risk for these instruments have been disclosed elsewhere in these Notes.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 4 (CONTINUED)

Accounts receivable balances are an aggregation of amounts due from the federal government, customers, and others. Receivables from customers include charges for services to local governments, fees and fines issued by the courts and corrections, employer contributions for unemployment benefits, amounts from investment brokers, interest earnings, general and selective income taxes, and receivables because of overpayments to individuals receiving state assistance.

Arizona Water Settlement

The State of New Mexico entered into the Arizona Water Settlement with the federal government. Under the terms of the agreement, the federal government will pay the State of New Mexico a total of \$66 million in 2004 dollars adjusted for inflation, in 10 annual installments. The inflation adjusted amount is estimated at \$90,400,000. The installment of \$9.04 million was received by the Agency during the fiscal year ended June 30, 2015, and the Agency recorded a receivable of \$44,215,478 to account for the remaining amount due. This receivable will be reduced as payments are received from the federal government according to the settlement agreement. In addition, the actual amounts received may require adjustment relative to the receivable recorded, due to indexing.

The amounts expected by year, as of June 30, 2015, assuming imputed interest of approximately 6.17%, are as follows:

Year-End June 30	P	rincipal	1	Interest	Total		
2016	\$	6,311	\$	2,729	\$ 9,040		
2017		6,701		2,339	9,040		
2018		7,114		1,926	9,040		
2019		7,553		1,487	9,040		
2020		8,020		1,020	9,040		
2021		8,516		525	9,041		
Total	\$	44,215	\$	10,026	\$ 54,241		

Discrete Component Units

The following is an analysis of the allowance for loan losses as of June 30, 2015 for the two largest discretely-presented component units (in thousands):

NMFA & NMMFA - Loan Loss Allowance

	N.	M Finance	N	IM Mortgage
		Authority		Fin. Auth.
Beginning Balance	\$	5,482	\$	2,513
Provision for Loan Losses		-		681
Loans Written Off, Net of Recoveries		(2,370)		(513)
Ending Balance	\$	3,112	\$	2,681

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 4 (CONTINUED)

NM Finance Authority Loans have repayment terms ranging from one to 30 years. The stated interest rates are between 0.0-6.4 percent. NMMFA mortgage loans have repayment terms ranging from 10 to 40 years. The stated interest rates for these programs are as follows:

Rental Housing Programs	0.0% -	7.0%
Other Mortgage Loans	0.0% -	10.0%
Second Mortgage Down		
Payment Assistance		
Loans	0.0% -	7.5%

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 5

NOTE 5. Interfund and Interagency Receivables, Payables, and Transfers

Interfund receivables and payables balances result from the time lags between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and 3) payments between funds are made.

Transfers between funds occur when one fund collects revenue and transfers the assets to another fund for expenditure or when one fund provides working capital for another fund. All transfers must be legally authorized by the Legislature through statute or an Appropriation Act. Transfers during the year were made to finance the operations of the individual departments as authorized by the Legislature and to revert (transfers out) any unspent or unencumbered balance of the authorized appropriations. Transfers between the primary government and the fiduciary funds and component units are reclassified as expenses in the government-wide financial statements.

The composition of interfund balances as of June 30, 2015, is as follows (in thousands):

	Due From Due To		Due To	Transfers In			Transfers Out	
Governmental Activities:								
General	\$	143,390	\$	164,789	\$	6,493,383	\$	6,643,151

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 7

NOTE 7. Deferred Inflows/Outflows of Resources

A. Deferred Charge on Refunding

The State issued multiple series of refunding bonds in prior years to advance-refund certain older issues. Thus, the bonds which were advance-refunded are considered defeased in substance. The excess of the reacquisition price (funds required to refund the old debt) over the net carrying amount of the old debt resulted in a loss, which had been reported previously as an asset. When *GASB Statement No. 65* was implemented in 2012, this item's classification was changed to deferred outflow of resources. For fiscal year ending June 30, 2015, the deferred outflow of resources for governmental activities and business-type activities were as follows:

	Go	vernme nt	Busi	iness-type
Beginning Balance	\$	78,274	\$	2,521
Amortization		(19,167)		(418)
Ending Balance	\$	59,107	\$	2,103

B. Interest Rate Swaps

In the course of bond refunding transactions, the State has entered into transactions termed interest rate swaps, which are classified as hedges. This has resulted in items classified as a deferred outflow of resources. For more information on these interest rate swaps, see Notes 8 E and 8 F.

C. Pension

Refer to Note 12 for deferred inflows/outflows of resources related to the net pension liability.

NOTE 8. Long-term Liabilities

Changes in long-term liabilities for the year ended June 30, 2015, are presented in the following table. As referenced below, certain long-term liabilities are discussed in other Notes to the Financial Statements.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

General Obligation Bonds

The State issues general obligation bonds to provide funds for the acquisition, construction, and renovation of major capital facilities for local governments as authorized by the Legislature of the State of New Mexico. General obligation bonds are direct obligations and pledge the full faith and credit of the State. These bonds generally are issued as 10-year serial bonds with equal amounts of principal maturing each year. Funding for the payment of the debt service of the general obligation bonds is provided through the collection of property taxes levied by the local governments receiving the funding for capital spending. General obligation bonds outstanding at year-end are as follows:

General Obligation Bonds Payable (Expressed in Thousands)

Bond Issue	Date Issued	Maturity Date	Interest Rate	 Original Issue	Balance June 30, 2015

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

A. Severance Tax Bonds

Severance tax bonds are used to fund the capital needs of state agencies, local governments, and public and higher education as authorized by the Legislature of the State of New Mexico. In addition, severance tax bonds have been issued to refund severance tax bonds. Funding for the payment of the debt service of the severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources, such as minerals, oil, and gas. The severance tax bonds are secured by the levied taxes. This is a permanent commitment of a portion of total severance tax revenues. As authorized by State statute, severance tax revenues are transferred to the Severance Tax Bonding Fund and first pay the required debt service on severance tax bonds and supplemental severance tax bonds issued by the State, with the remainder being transferred to the Severance Tax Fund. For the year ended June 30, 2015, total severance tax revenues transferred to the Severance Tax Bonding Fund were \$426.3 million. The total principal and interest requirements were \$155.1 million for long-term debt and \$342.7 million for short-term debt for all severance tax and supplemental severance tax bonds.

Severance tax bonds payable at June 30, 2015 were as follows:

B. Revenue Bonds

The State also issues bonds where the government pledges income derived from the related acquired or constructed assets to pay debt service.

Governmental Activities

The State issued \$79,405,000 in NMFA State Transportation Refunding Revenue Bonds (Subordinate and Senior Lien) Series 2014B in December 2014. The gross proceeds were \$95,763,847 including an original issuance premium of \$17,026,113. The cost of issuance, including the underwriters' discount, was \$523,811.

Principal of the Bonds is payable as follows on June 15. Interest, with a rate of 5.00% per annum, is payable semi-annually on June 15 and December 15 through the year 2027. Proceeds from the sale of the Series 2014B Bonds were used to refund (i) a portion of the Authority State Transportation Revenue Bonds totaling \$68,250,000 of the currently outstanding in the aggregate amount of \$83,270,000 (The "Series 2006A GRIP Bonds"), and (ii) a portion of the Authority State Transportation Revenue Bonds totaling \$19,775,000 of the currently outstanding in the aggregate amount of \$24,085,000 (The "Series 2006B GRIP Bonds"). Proceeds from the Series 2014B Bonds were also used to pay costs of issuing the Series 2014B Bonds.

Business-type Activities

Revenue bonds with a face value of \$244,350 were issued by two of the State's educational institutions during the year ended June 30, 2015. These bonds are secured by a pledge of the revenue stream consisting of most unrestricted funds. Details of pledged revenues are included in a later note.

C. Pledged Revenue

The following listing provides more details on the types of revenue pledged for the various revenue bonds outstanding:

Governmental Activities

 Agency:
 State of New Mexico - Severance Tax Bonds

 Purpose of Bonds:
 Construction and acquisition of capital projects.

Total Amount of Bonds Issued: \$1.1 billion

Type of Revenues Pledged: Severance tax revenues
Term of Commitment: Through June 30, 2025

Total Debt Service Remaining: \$755.5 million
Revenue Stream for Current Year: \$427.5 million
Debt Service for Current Year: \$138.9 million

Agency: Energy, Minerals, and Natural Resources Department

Purpose of Bonds: Acquisition and development of state parks and recreation areas

Total Amount of Bonds Issued: \$28.4 million

Type of Revenues Pledged: Department's share of governmental gross receipts tax revenue

Term of Commitment: Through June 30, 2023

Total Debt Service Remaining: \$7.6 million Revenue Stream for Current Year: \$8.8 million Debt Service for Current Year: \$2.4 million

Agency: Department of Transportation

Purpose of Bonds: Construct and improve State highway and transportation system

Total Amount of Bonds Issued: \$1.7 billion

Type of Revenues Pledged: Gasoline excise taxes, motor vehicle registration and other fees

 $deposited \ into \ State \ Road \ Fund, \ plus \ Federal \ Highway \ Fund \ revenues.$

Term of Commitment: Through June 30, 2032

Total Debt Service Remaining: \$1.8 billion
Revenue Stream for Current Year: \$810 million
Debt Service for Current Year: \$153 million

Agency: Department of Cultural Affairs

Purpose of Bonds & Loan: Renovate existing museum structures, develop permanent exhibits

Total Amount of Debt Issued: \$8.5 million (\$5.8 million, bonds; \$2.7 million, loans)

Type of Revenues Pledged: Department's share of governmental gross receipts tax revenue

Total Debt Service Remaining: \$5.4 million

Term of Commitment: Through June 30, 2024
Revenue Stream for Current Year: \$835 thousand
Debt Service for Current Year: \$676 thousand

Agency: Spaceport Authoriy

Purpose of Bonds Construction of the Spaceport America launch facility

Total Amount of Debt Issued: \$76.4 million

Type of Revenues Pledged: Authority's share of governmental gross receipts tax revenue

Total Debt Service Remaining: \$86.7 million

Term of Commitment: Through June 30, 2029

Revenue Stream for Current Year: \$6.2 million
Debt Service for Current Year: \$5.6 million

Governmental Activities (Continued)

Agency: Administrative Office of the Courts and General Services Division

Purpose of Bonds Court equipment, state facilities

Total Amount of Debt Issued: \$83.1 million

Type of Revenues Pledged: Court facilities fee, government gross receipts tax

Total Debt Service Remaining: \$110.1 million
Term of Commitment: Through June 30, 2036

Revenue Stream for Current Year: \$7.0 million
Debt Service for Current Year: \$3.8 million

Business-type Activities

Agency: Miners' Colfax Medical Center

Purpose of Bonds: Improvement and expansion of medical facilities

Total Amount of Bonds Issued: \$14.6 million

Type of Revenues Pledged: Center's share of distributions from the State Land Grant and the

Charitable, Penal, and Reform Permanent Funds

Total Debt Service Remaining: \$15.0 million

Term of Commitment: Through June 30, 2027

Revenue Stream for Current Year: \$6.8 million Debt Service for Current Year: \$1.3 million

Agency: State Fair Commission
Purpose of Bonds: Improvement of capital facilities

Total Amount of Bonds Issued: \$5.6 million

Type of Revenues Pledged: State Fair Commission's share of parimutuel tax collected

Total Debt Service Remaining: \$689 thousand
Term of Commitment: Through June 30, 2015
Revenue Stream for Current Year: \$880 thousand
Debt Service for Current Year: \$687 thousand

Agency: Educational Institutions (UNM, NMSU, ENMU, WNMU, NMMI,

NMHU, NM Tech)

Purpose of Bonds: Construction and improvement of various capital facilities

Total Amount of Bonds Issued: \$989 million

Type of Revenues Pledged: Substantially all unrestricted revenues, including Permanent Fund

distributions, student fees, and income from revenue-producing facilities, but excluding state appropriations and income from clinical operations.

Total Debt Service Remaining: \$617.6 million

Term of Commitment: Through June 30, 2038

Revenue Stream for Current Year: \$700.3 million
Debt Service for Current Year: \$50.7 million

Agency: University of New Mexico
Purpose of Bonds Health Sciences Center

Total Amount of Debt Issued: \$62.7 million
Type of Revenues Pledged: Cigarette excise tax
Total Debt Service Remaining: \$42.2 million

Term of Commitment: Through June 15, 2025

Revenue Stream for Current Year: \$5.5 million
Debt Service for Current Year: \$4.9 million

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

D. New Mexico Department of Transportation – Refunding of Variable Rate Bonds

Derivative Instruments

At the time of the 2004 bond issuance, NMFA, on behalf of the Department, entered into interest rate exchange agreements (swaps) with respect to both the adjustable rate bonds then issued and the adjustable rate bonds anticipated to be issued in 2006. All of the 2004 adjustable rate bonds were hedged at issuance with immediately starting swaps and approximately one-half of the anticipated total 2006 issuance was hedged with forward-starting swaps that became effective in 2006.

In all of the swaps, NMFA receives a variable-interest rate payment based on an index, and makes a fixed-rate interest payment. This arrangement has the effect of converting the variable rate bonds to "synthetic fixed-rate issues."

NMFA has entered into the swaps as an agent for the Department and the State, and no amounts with respect to the swap transactions appear in NMFA's financial statements. These swap agreements remained in effect following the 2008 refunding and reissuance of the 2004 and 2006 adjustable rate bonds as Variable Rate Demand Notes (the Series 2008 A through D).

Objectives of the Swaps

The objective in entering into the swap agreements was to obtain a lower interest cost for the 2004 bonds than could have been obtained at the time had they been issued as fixed-rate bonds. With respect to the planned 2006 issuance, NMFA believed in 2004 that it would be desirable to "lock in" a synthetic fixed rate of 5.0 percent or less for a portion of the bonds anticipated to be issued in 2006.

Significant terms of the swaps follow. No cash was paid or received at the initiation of any of the swaps.

Fair Value

The estimated fair value of the swaps at June 30, 2015, was as follows (in thousands):

0.34%

	ľ	Notional Value	E	air Value*
	value		- 1	air value"
Goldman Sachs	\$	50,000	\$	(9,765)
Deutsche		50,000		(9,765)
Royal Bank of Canada		100,000		(19,530)
JPMorgan Chase Bank		110,000		(30,553)
UBS AG		110,000		(30,553)
	\$	420,000	\$	(100,167)

^{*}The Fair Value is the estimated amount that would have been received by or paid by the Department if the agreements had been terminated at June 30, 2015, under the terms of the agreement. This value is the net present value of the receipts and payments anticipated to be made pursuant to the agreements. The net present values are calculated based on discount rates indicated by actual swap transactions that occurred on or around June 30, 2015. Negative amounts indicate payments that would have been made by the Department to the counterparties.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

The SWAPs Fair Value are disclosed as a liability for the year ended June 30, 2015 in the amount of \$100.2 million. Management evaluated the effectiveness of the SWAP agreements and found Goldman Sachs, Deutsche and Royal Bank of Canada to be ineffective in the prior year. As a result, the change in Fair Value of the ineffective SWAPs are reported as income in the amount of \$303,785. The remaining effective SWAPs are deemed a hedge and reported as a deferred outflow of resources in the amount of \$61.1 million which consists of the JP Morgan Chase Bank and UBS AG SWAP agreements.

Associated Debt (in thousands)

				2015 I)ebt	Service	N	et Swap		Total	Effective	
						Fixed	Pa	nyments	Ne	t Interest	Interest	
Variable Rate Debt*	Ori	ginal Issue	P	rincipal		Interest	Mad	e (Rec'd.)		Paid	Rate	
Series 2008 A and C	\$	200,000	\$	-	\$	7,846	\$	1,065	\$	8,911	4.456%	
Series 2008 B		220,000		-		11,127		118		11,245	5.112%	

^{*}The interest and swap payments for these bonds include the payments for the Series 2004 and 2006 Bonds that the Series 2008 Bonds replaced.

The interest includes amounts paid with the fiscal year without regard to the costs associated with the swap collateral (Taxable) Line of Credit.

Risks

Credit Risk

Credit risk is the possibility that a counterparty will not fulfill its obligations.

The credit ratings of the counterparties, at June 30, 2015, were:

Counterparty	Moody's	S&P	Fitch	
Goldman Sachs	Aa2	AAA	N/A	
Deutsche	A3	BBB+	A	
Royal Bank of Canada	Aa3	AA-	AA	
JP Morgan Chase Bank	Aa3	A+	AA-	
UBS AG	A2	A	A	

Presently, the Department of Transportation has no exposure to loss with respect to the counterparties, as the termination values of the swaps are negative. That is, no amounts would be owed to the Department if any swaps were terminated at present. Each swap agreement contains provisions requiring the posting of collateral in the event that termination values exceed certain amounts. Termination values currently exceeded these limits, and, accordingly, collateral was posted for \$7.4 million at UBS, \$7.3 million at JPM, and \$4.5 million at RBC as of June 30, 2015. The swap agreements permit the netting of amounts owed between the Department and a counterparty, mitigating, to some extent, the level of credit risk. The Department believes it has an adequate degree of diversification with regard to counterparties.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Swap Collateral Requirement – Taxable Line of Credit

Negative balances at the end of the fiscal year were such that collateral needed to be posted. For that purpose, a short-term Taxable Line of Credit was established. There was \$10.5 million outstanding on the line of credit at the end of the fiscal year, with no beginning balance, \$10.5 million borrowed and no amounts repaid during the year.

Interest Rate Risk

The knockout option in the 2006 swaps leaves the State open to interest rate risk. If the Securities Industry and Financial Markets Association (SIFMA) municipal swap index averages above 7.0 percent for 180 consecutive days, then, as provided by the terms of the knockout option, swap agreements could be cancelled by the counterparties and the State would have outstanding unhedged variable rate debt in a 7.0 percent interest rate environment.

Basis Risk

Basis risk is the possibility that the variable rate paid on the bonds may not be adequately offset by the variable index payment received under the swap agreement. The Department has little or no such risk with respect to the 2006 bonds as the 2006 swaps pay a variable rate equal to the SIFMA Municipal Swap index which has very closely approximated, historically, to the rates paid on variable rate municipal debt. The Department has basis risk, however, with respect to the 2004 swaps. The variable rate the Department receives with respect to the 2004 swaps is 68% of one-month LIBOR. While this rate has closely tracked the SIFMA Municipal Swap Index for a long period of time, there has recently been some divergence between the two indices. There is no guarantee that the two indices will remain as closely correlated in the future as they were in the past. There is a possibility, therefore, of a mismatch between actual variable rate bond debt service payments and the variable rate receipts under the 2004 swap agreements, resulting in a failure to achieve the synthetic fixed rate expected when the swaps initiated.

One event that would cause a divergence between the indices would be a significant change in U.S. income tax rates. This might result in 68% of LIBOR no longer approximating the tax-exempt rate set by the market for the Department's variable rate debt.

Termination Risk

The unplanned termination of one or more of the swaps exposes the Department to the possibility that the synthetic fixed rate expected to be obtained on the variable rate debt will not, in fact, be achieved. The swap agreements contain the standard ISDA provisions for termination, including events such as bankruptcy, ratings downgrades, and failure to post collateral when required. In addition, the Department, but not the counterparties, can terminate the swaps at any time with 30-day notice.

E. University of New Mexico

Standby Purchase Agreements

Standby Purchase Agreements provide liquidity support on variable rate bonds that are remarketed weekly. The liquidity/commitment fees are based on a percentage of the outstanding bond balance, payable semiannually. The provider is US Bank. Liquidity fees for the year ended June 30, 2015, were \$454,750.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Risks

Credit Risk

Each of UNM's derivative instruments is held with the same counterparty except for Derivative Instrument D. Deterioration of credit ratings could indicate a potential inability of the counterparty to make the required periodic payments. The credit ratings for each of the counterparties are as follows:

	Mod	dy's	S&	& P	Fitch			
Entity	L/T Rating	S/T Rating	L/T Rating	S/T Rating	I /T Rating	S/T Rating		
JP Morgan	Aa3	P-1	A+	Al	AA-	F1+		
PBC Royal Bank	Aa3	P-1	AA-	A1+	AA	F1+		

Interest Rate Risk

UNM is exposed to interest rate risk on its receive-variable, pay-fixed underlying interest rate swaps. As the Securities Industry and Financial Markets Association (SIFMA) swap index decreases, the University's net payment on the underlying swaps increases. Alternatively, on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, as LIBOR and the SIFMA swap index increases, the University's net payment on the overlay swaps increases.

Basis Risk

The variable-rate debt hedged by UNM's derivative instruments are variable-rate demand obligation (VRDO) bonds that are remarketed every seven days. The University is exposed to basis risk on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, because the variable-rate payments received by the University on these derivative instruments are based on a rate (LIBOR) other than the index (SIFMA) the University pays on the VRDO bonds. At June 30, 2015, the interest rate on the University's variable-rate hedged debt (SIFMA) is 0.07%, while the 63.55% of five year LIBOR + 0.31% is 1.44%.

Termination Risk

UNM or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. In addition, UNM is exposed to termination risk on Derivative Instruments B and C because the contract provides the counterparty with a knockout option to terminate the contract if the 180-day SIFMA is equal to or greater than 7.0 percent. The 180-day SIFMA is defined as the weighted average rate taken off the USD floating SIFMA Index Rates published within the previous 180-day period. If at the time of termination, a derivative instrument were in a liability position, UNM would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

Rollover Risk

UNM is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the debt. When these derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, UNM will be re-exposed to the risks being hedged by the derivative instrument. Derivative Instruments B and C expose UNM to rollover risk because the counterparty has the option to terminate the contract by exercising a knockout option.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Foreign Currency Risk

UNM has no exposure to foreign currency risk from its derivative instruments.

Commitments

All of UNM's derivative instruments include provisions that require UNM to post collateral in the event its credit rating falls below certain levels. UNM has entered into a two-way Credit Support Annex (CSA) with the swap counter-parties, which is based on each party's long-term unsecured unsubordinated debt rating. The following matrix dictates the potential collateral postings if the swaps mark-to-market values are above the mandated thresholds (in thousands):

	Sv	vap	MTM
	Th	resh	old for
Rating	Pai	rty's	A & B
AA/Aa2 and >	USD	\$	25,000
AA-/Aa3	USD	\$	20,000
A+/A1	USD	\$	15,000

The collateral to be posted is to be in the form of U.S. Treasury securities in the amount of the fair value of derivative instruments in liability positions net of the effect of applicable netting arrangements. If UNM or the counterparty does not post collateral, the derivative instrument may be terminated. UNM's credit rating is AA/Aa2 at June 30, 2015; therefore, no collateral has been posted.

Derivative Instrument Payments and Hedged Debt

As of June 30, 2015, aggregate debt service requirements of UNM's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are presented below. These amounts assume that current interest rates on variable-rate bonds and current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary. The hedging derivative instruments column reflects only net receipts/payments on derivative instruments that qualify for hedge accounting (in thousands).

Fiscal Year Changes in Swap Valuations

UNM has entered into interest rate swaps as shown in the prior schedule. The swaps were put in place starting in fiscal years 2002 and 2003. The University has recorded the swaps at their estimated fair values as of June 30, 2015. Swaps A through D are deemed cash flow hedges, and therefore, in addition to recording the liability at fair value, the University has recorded an offsetting deferred outflow of resources. Annually, the changes to the fair values are recorded as an increase or decrease to the liability and the offset to the deferred outflow of resources. The fair value change in fiscal year 2015 for the hedge instruments was a \$569,471 increase to the liability and an equal offsetting increase to the deferred outflow of resources. For fiscal year 2014, the change was a \$507,495 decrease to the liability and an equal offsetting decrease to the deferred outflow of resources. Swaps E and F are not cash flow hedges, but rather are considered investment swaps, and changes in their fair value are recorded as investment gain (loss). The fair value change for swaps E and F as of June 30, 2015 was recorded to unrealized gains in the amount of \$209,643. As of June 30, 2014, the fair value change for swaps E and F was recorded to unrealized losses in the amount of \$244,894.

Other Liabilities

Loans Payable

The State determined that a number of Loans Payable had not been properly recorded in the State's FY14 financial report. These loans were made by the New Mexico Finance Authority (NMFA), a component unit of the State, to different State agencies for the purpose of constructing or acquiring capital facilities and equipment.

Several agencies have pledged revenue to secure these loans. Details of the loans are as follows:

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Compensated Absences

Compensated absences of governmental activities are liquidated in the General Fund. Claims liabilities of governmental activities are liquidated in the Internal Service Fund. Compensated absences of business-type activities are liquidated in the respective fund of obligation.

Pollution Remediation Obligation

The State is responsible for environmental management to reasonably protect human health and the environment in accordance with the Environmental Improvement Act, Chapter 74-1-1, NMSA 1978 (Act). Among other things, one of the functions of the Act is to create a department accountable to manage environmental issues in the State. The Environment Department has been designated as the responsible government unit. The Environment Department is to "serve as agent of the state in matters of environmental management and consumer protection not expressly delegated by law to another department, commission or political subdivision in which the United States is a party" through the enforcement of rules, regulations, and orders promulgated by the Environment Department and consumer protection laws.

GASB No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations, provides guidance in estimating and reporting the potential costs of pollution remediation. The standard excludes pollution prevention or control obligations with respect to current operations, and future pollution remediation activities that are required upon retirement of an asset, such as landfill closure and post closure care. While GASB 49 does not require the State to search for pollution, it does require the State to reasonably estimate and report a remediation liability when any obligating events specified in Statement No. 49 has occurred.

Leaking Petroleum Storage Tanks (LPST) - The State oversees cleanups of LPST sites and reimburses eligible parties from the petroleum storage tank corrective action fund, which has paid for the vast majority of LPST cleanups. For priority 1 State Lead sites, in which there is an imminent danger to the public health or environment, and the State has obligated itself to begin remediation clean-up activities as a result of an unwilling or unable property owner or operation the State has recorded a remediation liability in the amount of \$688 as of June 30, 2015.

Superfund - The Superfund Oversight Section of the State assists the United States Environmental Protection Agency (EPA) in characterization of inactive hazardous waste sites; identifies sites which warrant remedial or removal action under Superfund (CERCLA); and oversees remedial activities and provides management assistance to EPA at Superfund sites listed on the National Priorities List. There are currently 15 listed Superfund sites and five deleted sites in New Mexico, which are in various stages of investigation and remediation. Site estimates were based on budget projections to cover necessary activities for the upcoming fiscal year, along with estimated costs for future years and phases, plus direct salaries and benefits. For sites or phases without budget projections, Superfund Program and Project Managers estimated costs for the Superfund phases of investigation and cleanup, based on experience with similar sites. Sites estimates may change drastically from one year to another as the investigations continue or remediation progresses. The estimate is subject to change due to price changes, technology changes, changes in applicable laws and regulations, or other unforeseen conditions. The state does not expect any recoveries from other responsible parties that would reduce this liability. As of June 30, 2015, the estimated pollution remediation liability for Superfund sites is \$48,310.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Indian Water Rights Liability

New Mexico currently has three Indian water rights settlements pending implementation: the Navajo Nation Settlement in the San Juan River adjudication, the Settlement Agreement with the Pueblos of Nambe, Pojoaque, Tesuque, and San Ildefonso in the Aamodt adjudication, and the Taos Pueblo Settlement in the Rio Pueblo de Taos/Rio Hondo adjudication. For each of these three settlements, a settlement agreement was executed in 2005 or 2006 by the tribe or Pueblos and the State of New Mexico. The Aamodt and Taos Pueblo settlement agreements also were executed by other water right owning parties. Subsequent to the passage of federal legislation authorizing each of the settlements in 2009 and 2010, the Secretary of the US Department of Interior signed all three settlement agreements on behalf of the United States.

Each of the agreements involves a contribution from the State of New Mexico in the form of construction of infrastructure. The value of infrastructure and mutual benefits projects contemplated in the three settlements are estimated at more than \$1.7 billion as of June 30, 2015. The State will not own the infrastructure once completed; the infrastructure and projects will be owned by tribal and local governments. Costs are expected to be borne as follows (in thousands):

Federal government	\$ 1,519,564	State Portion as Indicated	\$ \$1,519,564
Local governments	83,428	Estimated State Credit	83,428
State of New Mexico	149,850	Ditch Repair Credit	83,428
Total estimated costs	\$ \$1,752,842	Expended to Date	149,850
			\$ \$316,706

The State estimates that the State of New Mexico will receive a credit towards its cost share of about \$30.4 million. A portion of the State's share includes \$10 million on non-mandatory expenditures for ditch rehabilitation under the Navajo Settlement. Net of these items, the State's obligation under the three settlements will require total expenditures of close to \$108.5 million.

As of the fiscal year ended June 30, 2015, the State expended \$29.4 million of the total of \$35 million in state funding received to-date restricted for the Indian Water Rights Settlement agreements, with \$5.6 million unexpended as of June 30, 2015. The State was appropriated an additional \$12.7 million during the fiscal year, but the funds had not been received prior to the end of the fiscal year.

Actual amounts recorded may require future adjustments that could increase or decrease the liability due to the ongoing nature of the settlement negotiations and the credit provisions in the settlements. Due to the fact that negotiations related to the timing of the payments are still continuing among the affected parties, the State is unable to estimate the amount due for these settlements during the next five, as well as subsequent, years. Likewise, interest expense related to these settlements cannot be imputed at this time.

NOTES TO THE FINANCIAL STATEMENTS - NOTE 9

NOTE 9. Net Position and Fund Equity

A. Governmental Fund Balances

Fund balances of governmental funds are classified as:

- Non-spendable amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be intact. Examples include inventories and statutory minimum fund balance requirements.
- Restricted amounts where legally enforceable constraints are imposed by an external party such as a grantor, by the State Legislature, or by the constitution at the same time the revenue is created.
- Committed amounts where constraints are imposed by formal action of the government's highest level of
 decision-making authority, the State Legislature or the Governor, which cannot be used for any other purpose
 unless the constraint is changed by similar action. These constraints are imposed separately from the creation of
 the revenue.
- Assigned amounts where constraints are imposed on the use of resources through the intent made by any level
 of decision-making authority in the government if the governing body has expressly delegated that authority to
 the official or to a committee.
- Unassigned the residual amount after all classifications have been considered. The General Fund is the only fund that reports a positive unassigned fund balance.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 9 (CONTINUED)

B. Deficit Net Position/ Fund Equity

Governmental Activities

The net position of the Risk Management Internal Service Fund reported a deficit as a result of actuarially-recognized claims. This deficit put the entire Internal Service Fund into a deficit net position.

C. Net Position/Fund Balance Restatements -

1. Correction of Errors

During the fiscal year ended June 30, 2015, the State determined that several errors in accounting and reporting had been made in the prior fiscal year. The effect of the correction of those errors together with the adoption of the new accounting principle on beginning net position and governmental fund balances follows (in thousands):

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 10

NOTE 10. Leases

Operating Leases

The State leases building and office facilities and other equipment under operating leases. Although the lease terms vary, most leases are subject to annual appropriations from the State Legislature to continue the lease obligation. If an appropriation is reasonably assured, leases are considered non-cancellable for financial reporting purposes.

Operating leases contain various renewal options, as well as some purchase options; however, due to the nature of the leases, they do not qualify as capital leases and the related assets and liabilities are not recorded. Operating lease payments are recorded as expenditures or expenses when paid or incurred. Commitments under operating leases are as follows:

	Gov	ernmental	Bus	iness-type	Fid	uciary
2016	\$	56,757	\$	13,282	\$	168
2017		51,049		11,836		123
2018		46,046		7,643		124
2019		33,463		6,559		123
2020		23,956		4,310		115
2021 - 2025		71,045		9,905		28
2026 - 2030		1,879		6,260		-
2031 & Thereafter				4,876		
	\$	284,195	\$	64,671	\$	681

Operating lease expenditures/expenses for fiscal year 2015 for governmental activities, business-type activities, and fiduciary activities, respectively were \$71,533, \$23,811, and \$202.

Capital Leases

The State is obligated under lease purchase contracts. In the opinion of counsel for the State, these lease purchase contracts comply with the State Supreme Court Montano vs. Gabaldon decision, in that payments for these will be made from Special Revenue Funds and not from general tax revenue.

Leases, that in substance are purchases, are reported as capital lease obligations. In the government-wide financial statements and proprietary fund financial statements, assets and liabilities resulting from capital leases are recorded at the inception of the lease at either the lower of fair value or the present value of future minimum lease payments. The principal portion of lease payments reduces the liability, and the interest portion is expensed. On the governmental fund financial statements, both the principal and interest portions of capital lease payments are recorded as expenditures of the applicable governmental function.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 10 (CONTINUED)

The future minimum lease payments for the capital leases are as follows (in thousands):

	Gov	ernmental_	Busin	ess-type
2016	\$	4,051	\$	553
2017		4,047		500
2018		4,049		389
2019		4,047		173
2020		4,047		1
2021-2025		20,246		-
2026-2030		20,250		-
2031-2035		20,247		-
2036-2040		12,140		-
Total Lease Payments		93,125		1,616
Less: Amounts				
Representing Interest		(38,795)		(81)
Present Value of				
Future Minimum				
Lease Payments	\$	54,330	\$	1,535

As of June 30, 2015, the historical cost of the primary government's assets acquired through capital leases was \$51,482 for governmental activities, a building, and \$5,881 for business-type activities, consisting of equipment.

Lessor Revenue

The State is also the lessor of office space. Amounts to be received in future years are as follows:

	Governmental		Bus	iness-type
2016	\$ 1,183	2016	\$	6,594
2017	1,115	2017		4,889
2018	3,151	2018		3,794
2019	3,154	2019		3,607
2020	3,127	2020		3,603

		2036 - 2040		1,109
		2041 & Thereafter		618
			\$	25,804

The historical cost for the assets which are leased is \$129.7 million for governmental activities (mostly for use of hangar and runway facilities at the Spaceport) and \$145 million for business-type activities.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 11

NOTE 11. Risk Management

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through its Internal Service Fund (ISF). Coverage is provided for the following:

Workers' Compensation
Civil Rights and Foreign Jurisdiction
Aircraft
Money and Securities
Health/Life
General Liability
Automobile
Property
Employee Fidelity Bond
Short-term & Long-term Disability

Coverage includes all entities of the State, including the educational institutions reported in the enterprise fund. The Internal Service Fund services all claims for risk of loss to which the State is exposed, including general liability, property and casualty, workers' compensation, employee health and accident, and unemployment compensation. ISF has reinsurance for liability and civil rights claims in the amounts of \$1,050,000 each. The ISF has a tort claim cap of \$1,050,000. Civil rights claims may exceed this amount and the ISF has reinsurance from \$5,000,000 to \$10,000,000. The ISF would then be liable for the amount remaining above \$10,000,000. All funds, agencies, and authorities of the State participate in ISF. ISF allocates the cost of providing claims servicing and claims payment by charging a premium to each fund, agency, or public authority based on claims history and exposure of each participant. The charge considers recent trends in actual claims experience of the State as a whole and makes provision for catastrophe losses.

ISF fund liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Total insurance claims payable at June 30, 2015, were \$201,507,120. The amounts of the liabilities are determined by independent actuarial consultants to the ISF. The total liability is shown in the accompanying financial statements at the present value of the payments, computed at 2.0 percent annual rate, except for long-term disability liability, which is computed at 5.0 percent annual rate, between June 30, 2015 and the date the claims are ultimately expected to be paid.

Insurance claims payable presented are actuarial computed estimates of the costs of administering, defending, and settling claims for events that had occurred as of the year-end. Since these estimates are based on historical information and various statistical measures, actual amounts paid may vary significantly from the amount estimated

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 11 (CONTINUED)

by the fund actuaries and reported herein. The basis of estimating the liabilities for unpaid claims is found in the independent actuarial report.

The following shows the reconciliation of changes in the unpaid claims in the ISF, which are stated at present value (in thousands):

	Balance June 30, 2014		Incurred (Net of Actuarial Provision)		Payments		Balance June 30, 2015

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2013

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12

NOTE 12. Pension Plans

A. New Accounting Standard

As stated in Note 1, para. 19, the State adopted *GASB Statement No. 68, Financial Reporting for Pension Plans* effective July 1, 2014. This statement revises existing guidance for the financial reporting of pension plans. Among other things, the statement requires that pension plans report in the Notes to the Financial Statements the total pension liability, the plan's fiduciary net position, the net pension liability, and the percentage of fiduciary net position to total pension liability. Plans must disclose the significant assumptions used to measure the total pension liability, must use a more standardized discount rate, and must present the net pension liability using a discount rate one percentage point higher and lower than that used. These requirements, and others contained in the statement, should enable readers of the financial statements to better understand the costs and benefits of the retirement plans.

B. Plan Descriptions

The State maintains five public employees' retirement systems (Systems): Four separate systems are administered by the New Mexico Public Employees' Retirement Association (PERA) and one system is administered by the New Mexico Educational Employees' Retirement Board (ERB).

PERA is the administrator of the Public Employees Retirement System (PERS), the Judicial Retirement System (JRS), the Magistrate Retirement System (MRS), and the Volunteer Firefighter Retirement System (VFRS). ERB is the administrator of the Educational Employees Retirement System (EERS). Collectively, the Systems offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of the Systems are set forth in Chapter 10, NMSA 1978, and applicable Replacement Pamphlets.

PERA is directed by the Public Employees Retirement Board (Board), which consists of twelve members. Ten of the Board members are elected by PERA active and retired members under state and municipal coverage plans. Two Board members, the Secretary of State and the State Treasurer, are ex-officio members.

ERB is directed by the Educational Retirement Board, composed of seven members. Board members include:

Secretary of Public Education, who is appointed by the Governor;

State Treasurer;

One member elected by the membership of the NM Association of Educational Retirees;

One member elected by the membership of the National Education Association of New Mexico;

One member elected by the membership of the American Association of University Professors;

Two members appointed by the Governor.

PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, 33 Plaza La Prensa, Santa Fe, NM 87507. ERB issues a separate, publicly available financial report that includes financial statements and required

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

supplementary information. That report may be obtained by writing to ERB, PO Box 26129, Santa Fe, New Mexico 87502. In addition, both reports may obtained from the New Mexico State Auditor's website at www.osanm.org.

The number of participating government employers, and the number of members for each system for the year ended June 30, 2015, were (not in thousands):

C. Funding and Benefit Policies

Public Employees Retirement System (PERS) – This plan is a cost sharing, multiple - employer defined benefit pension plan with six divisions of members: State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10-11-3, NMSA 1978.) Except as provided for in the Volunteer Firefighter Retirement Act (Chapters 10-11A-1 to 10-11A-7, NMSA 1978), the Judicial retirement Act (Chapters 10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (Chapters 10-12C-1 to 10-12C-18, NMSA 1978), the Educational Retirement Act (Chapter 22-11, NMSA 1978), and the provisions of Chapters 29-4-1 through 29-4-11, NMSA 1978, governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

^{*} Note: PERA Retirement Fund includes the Legislative Fund

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for Tier I members (as defined later in these notes). Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of normal retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2.0 percent to 3.5 percent of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60.0 percent to 90.0 percent of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

For Tier II, the retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (applicable to those hired after July 1, 2013 – Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credits equals at least 85, or at 67 with eight or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4, and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers, and municipal juvenile detention officers will remain in 25-year retirement plans; however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II, pension factors were reduced by 0.5 %, employee contributions increased 1.5%, and effective July 1, 2014, employer contributions were raised 0.05%. The computation of final average salary increased as the average of salary for 60 consecutive months.

Contribution rates for members vary depending on the plan under PERS. Employee contribution rates range from 4.78 % to 18.15% of annual salary, and employer rates range from 7.0% to 25.72%, Generally, Tier I regular state members contribute 7.42% to 8.92%, while employers contribute 16.59%.

State Legislative Fund – This plan is a defined benefit pension plan which is accounted for in PERS. State Legislators and lieutenant governors must elect to be a member no later than 180 days after first taking office to be covered under this plan. Member contributions are \$500 for each year of service credit prior to the 2012 legislative session and \$600 for each year beginning with that session. The State is required to contribute sufficient amounts to finance the membership of members under state legislator coverage plan 2 on an actuarial reserve basis. The total actuarially determined amount for the State Legislative Fund for the fiscal year ended June 30, 2015 was \$0.

Age and service requirements for retirement are age 65 or older with 5 or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect on the first day of the calendar year that the member retires multiplied by 60 and further multiplied by credited service. The per diem rate for January 1, 2014 was \$159. The per diem rate starting January 1, 2015 increased to \$165.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Judicial Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in Chapter 10-12B-4, NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded.

For individuals that became a member prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75.0 percent of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became members subsequent to July 1, 2005, the annual pension amount is determined as 75.0 percent of salary received during the last year in office prior to retirement multiplied by 5.0 percent of the number of years in service, not exceeding 15 years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of 3.75 percent times the sum of the number of years of service; provided that a pension calculated shall not exceed 75.0 percent of one-twelfth of the salary received during the last year in office.

The retirement age and service credit requirements for normal retirement for judicial members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 33 Substitute in the 2014 Legislative Session. Under the new requirements, judicial members are eligible to retire at age 65 with 8 or more years of service or at age 60 with 15 or more years of service credit.

Members contribute at a rate of 10.5 percent of their salaries and the member's court contributes at a rate of 15.0 percent of the member's salary. Additionally, the district court contributes \$38 for each civil case docket fee paid in the district court, \$25 from each civil docket fee paid in metropolitan court and \$10 (not in thousands) for each jury fee paid in metropolitan court. Contribution rates are established by State statute. Various other changes took place under House Bill 33 which amended the Judicial Retirement Act.

Magistrate Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Magistrate Retirement Fund is set forth in Chapter 10-12C-4, NMSA 1978. Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having served as a magistrate for a minimum of five years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75.0% of the salary received during the last year in office prior to retirement by 5.0% of the number of years of service, not exceeding 15 years, plus five years.

Effective July 1, 2014, membership is mandatory, all magistrate pension factors were reduced, employee contributions increased 3 percent, and the computation of final average salary increased as the average of salary for the 60 consecutive months prior to retirement. Employer contributions increased by 4% effective July 1, 2015.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

In addition, cost-of-living increases were suspended for two consecutive fiscal years, and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Member contributions are based on 10.5 percent of salaries and the State, through the administrative office of the courts, contributes at a rate of 11.0 percent of the member's salary. Additionally, the magistrate or metropolitan courts contribute \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute. Certain other changes took place under House Bill 216 and amended the Magistrate Retirement Act.

Volunteer Firefighters Retirement Fund – This plan is a single employer defined benefit pension plan with a special funding situation. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in Chapter 10-11A-2, NMSA 1978. Any volunteer non-salaried firefighter who is listed as an active member on the rolls of a fire department and who meets certain age and service credit requirements set forth in the statute is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer fire fighter for a minimum of 10 years. Benefits are \$125 per month, as of July 1, 2013, with at least 10 but less than 25 years of service or \$250 per month with 25 or more years of service. Benefits for post-retirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make individual contributions to the plan. State statutes require that the State Treasurer transfer \$750,000 during the fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund.

Educational Employees' Retirement System - The New Mexico Educational Retirement Board (ERB) was created by the Educational Retirement Act, Chapters 22-11-1 to 22-11-52, NMSA 1978, as amended, to administer and have the responsibility for operating the Educational Employees' Retirement Plan. ERB is an agency of the State. The plan administrated by ERB is considered part of the State financial reporting entity and is a pension trust fund of the state.

This plan is a cost-sharing multiple employer pension plan established by statute and administered by ERB to provide retirement, disability, and death benefits for all certified teachers and other employees of the State's elementary, secondary, and higher educational institutions, junior colleges, and technical-vocational institutions.

Plan members whose annual salary is \$20,000 or less are required by statute to contribute 7.9% of their gross salary. Plan members whose annual salary is over \$20,000 are required to make the following contributions to the plan: 9.4% of gross salary in fiscal year 2013; 10.1% of gross salary in fiscal year 2014; and 10.7% of gross salary in fiscal year 2015 and thereafter. Employers are required to contribute 13.15% of gross covered salaries in fiscal year 2014 and 13.9% of gross covered salaries in fiscal year 2015 and thereafter. The statutory contribution requirements can be changed by the State Legislature.

For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more;
- The member is at least sixty-five years of age and has five or more years of earned service credit;
- The member has service credit totaling 25 years or more.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on or after July 1, 2010. The eligibility for a member who either becomes a new member on or after July 1, 2010, or at any time prior to that date refunded all member contributions and then becomes reemployed after that date is as follows:

- The member's age and earned service credit add up to the sum of 80 or more.
- The member is at least 67 years of age and has five or more years of earned service credit.
- The member has service credit totaling 30 years or more.
- 1) To retire, a member must have at least one year of employment after July 1, 1957, and at least five years of contributory employment. Eligible members who have one year of employment after July 1, 1957, but less than the required five years of contributory employment, may contribute to the fund for each year needed.
- 2) Forms of Payment The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary.
- 3) Benefit Options There are three benefit options available:

Option A – Single Life annuity. There are no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of contributions plus interest less benefits paid.

Option B - The single life annuity monthly benefit is reduced to provide for a 100.0 percent survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. The named beneficiary may not be changed after the effective date of retirement. If the beneficiary predeceases the member, the member's benefit is adjusted by adding back the amount by which the benefit was reduced at retirement due to the election of Option B retroactively to the time of retirement.

Option C – The single life annuity monthly benefit is reduced to provide for a 50.0 percent survivor's benefit. The reduced benefit is payable during the life of the member, with provision that, upon death, the reduced 50.0 percent benefit is paid to the beneficiary for his or her lifetime. The named beneficiary may not be changed after the effective date of retirement. If the beneficiary predeceases the member, the member's benefit is adjusted by adding the amount by which the benefit was reduced at retirement due to the election of Option C retroactively to the time of retirement.

4) Cost of Living Adjustment - Retired members and surviving beneficiaries receiving benefits receive an automatic cost of living adjustment (COLA) to their benefit each July 1, beginning in the year the member attains or would have attained age 65 or on July 1 of the year following the member's retirement date, whichever is later. As of July 1, 2013, for current and future retirees, the COLA is immediately reduced until the plan is 100% funded.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

5) Disability Benefit:

Eligibility - A member is eligible for a disability benefit provided (a) he or she has credit for at least 10 years of service, and (b) the disability is approved by the Board.

Monthly Benefit - The monthly benefit is equal to 2.0 percent of FAS times years of service, but not less than the smaller of (a) one-third of FAS or (b) 2.0 percent of FAS times years of service projected to age 60.

Form of Payment - The disability benefit commences immediately upon the member's retirement. Disability benefits are payable as a monthly life annuity, with a guarantee that, if the payments made do not exceed the member's accumulated contributions, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. If the disabled member survives to age 60, the regular optional forms of payment are available.

- 6) *Disability Retirement* A member with five or more years of earned service credit on deferred status may retire when eligible under the Rule of 75 or when the member attains age 65.
- 7) The Educational Retirement Act, Chapters 22-11-1 to 22-11-53, NMSA 1978, assigns the authority to establish and amend benefit provisions to the Board.

The retirement benefit is determined by a formula. The formula includes three component parts: the member's final average salary, the number of years of service credit, and the 0.02 constant factor. The final average salary (FAS) is the average of the member's salaries for the last five years of service or any other consecutive five-year period, whichever is greater.

Refund of Contributions - Members may withdraw their contributions only when they terminate covered employment in the State and certification of termination has been provided by their former employers. Interest paid to members when they withdraw their contributions following termination of employment is at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or those on deposit for less than one year.

Alternative Retirement Plan - The New Mexico legislature established the Alternative Retirement Plan (ARP) through the enactment of NMSA 1978, Chapters 22-11-47 through 52. In contrast to the regular defined benefit plan administered by the Educational Retirement Board (ERB), the ARP is a defined contribution plan. Beginning on July 1, 1991 at the State's six institutions of higher education, and July 1, 1999 at the State's eight community colleges (the colleges and universities are referred to as the "qualifying state educational institutions"), certain faculty and professional employees in eligible positions have the option of electing to participate in the ARP in lieu of participating in the regular defined benefit plan.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 12 (CONTINUED)

D. Net Pension Liability

The total pension liability, net pension liability, and certain sensitivity information presented on the next page are based on an actuarial valuation performed as of June 30, 2014. The total pension liability was rolled forward from the valuation date to the plan year ending June 30, 2015. The net pension liability of each plan as of June 30, 2015, is as follows (in thousands):

Public Employees Retirement Association and Education Retirement Board Net Pension Liability, By Fund (Expressed in Thousands)

	PERA-Public Employees Retirement System		PERA-Judicial Retirement Fund		PERA-Magistrate Retirement Fund		PERA-Volunteer Firefighters Retirement Fund		ERB-Educational Employees Retirement System	
Total Pension Liability Plan's Fiduciary Net Position	\$	18,516,055 14,255,529	\$	137,038 88,988	\$	63,536 33,187	\$	44,478 62,104	\$	17,974,989 11,497,723

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

PERA Asset Allocations – The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Public Employees Retirement Association All Systems

		Long-term Expected
	Target	Rate of
Asset Class	Allocation	Return
U. S. Equity	21.1 %	5.0 %
International Equity	24.8	5.2
Private Equity	7.0	8.2
Core and Global Fixed Income	26.1	1.9
Fixed Income Plus Sectors	5.0	4.8
Real Estate	5.0	5.3
Real Assets	7.0	5.7
Absolute Return	4.0	4.2
Total	100.0 %	

ERB Asset Allocations – ERB's investment allocation policy was reviewed and amended by the Board of Trustees on June 14, 2014. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

Rate of Return – Disclosure of the annual money-weighted return is a requirement of GASB 67. It incorporates both the size and timing of cash flows to determine an internal rate of return, and expresses investment performance adjusted for the changing amounts actually invested. The requirements of the calculation are listed below.

- The rate is computed net of investment expenses, but not net of administrative expenses.
- External cash flows used as inputs should be determined on at least a monthly basis.
- Cash flows should be determined on an accrual basis of accounting.
- Cash-flow weighting should be representative of the Plan's actual external cash flow timing.

For the years ended June 30, 2015 and 2014, the annual money-weighted rates of return on pension plan investments were 4.06% and 14.71%, respectively.

The target long-term expected rate of return on pension plan investments is determined annually using a building-block approach that includes the following:

- Rate of return projections are the sum of current yield plus projected changes in price (valuation, defaults, etc.)
- Application of key economic projections (inflation, real growth, dividends, etc.)
- Structural themes (supply and demand imbalances, capital flows, etc.) developed for each major asset class

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

PERA Sensitivity

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - Sensitivity of the net pension liability is demonstrated by computation of the liability with a discount rate one percentage point lower and one percentage point higher than the current rate used. The following presents the net pension liability of PERA, Judicial and Volunteer Firefighter's funds, calculated using the discount rate of 7.75 percent, as well as what PERA's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent) or one percentage point higher (8.75 percent) than the current rate (in thousands):

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Net Pension Liability	· ·	1% Decrease (6.75%)	Current Discount Rate (7.75%)			1% Increase (8.75%)		
Public Employees RS	\$	6,534,376	\$	4,260,526	\$	2,371,407		
Judicial RS	\$	61,188	\$	48,050	\$	36,745		
Volunteer Firefighters RS	\$	(12,504)	<u>\$</u>	(17,626)	<u>\$</u>	(21,894)		
		1% Decrease		Current Discount Rate		1% Increase		
Net Pension Liability		(4.61%)		(5.61%)		(6.61%)		
Magistrate RS	\$	37,548	\$	30,349	\$	24,310		

Discount Rate – The discount rate used to measure the total pension liability of the Magistrate fund was 5.61 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are not sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASB Statement No. 67. Therefore, a 5.61% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. This rate is a blend of the expected rate of return on assets of 7.75% and the 20-year tax-exempt municipal bond rate 3.82% as of the measurement date.

ERB Sensitivity

Discount Rate – A single discount rate of 7.75 percent was used to measure the total pension liability as of June 30, 2015 and 2014. This single discount rate was based on the expected rate of return on pension plan investments of 7.75 percent.

Education Retirement Board Plan Totals - Sensitivity of the Net Pension Liability to Changes in the Discount Rate (Expressed in Thousands)

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

E. Employer Reporting – Public Employees Retirement Association of New Mexico (PERA)

State – Funded Divisions of PERA

For the fiscal year ended June 30, 2015, the State Funded Divisions of PERA were composed of State General, State Police and Legislative.

Contributions – As stated earlier in this note, the contribution requirements of the plan members and the State are established in the state statute. Statutorily required contributions from the State to the State funded divisions of the pension plan were \$175,750 for the fiscal year ended June 30, 2015.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions –

The State-Funded Divisions of PERA reported net pension liabilities as follows:

Division	Net Pe	nsion Liability
State General	\$	2,036,030
State Police		(230,760)
Legislative		(9,372)
Total	\$	1,795,898

This liability is reported in the financial statements as follows:

Governmental Activities

(including Internal Service Funds) \$1,761,814

Business-type Activites

(including Nonmajor enterprise

funds and two educational institutions) $\frac{34,084}{\$1,795,898}$

At June 30, 2014, the measurement date, the State's total proportion was 54.10 percent, which was unchanged from the proportion measured as of June 30, 2013, due to the insignificance of the difference. Pension expense was \$153,964, (\$11,255), and (\$485), respectively.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Single-Employer Funds

The State contributes 100 percent of the contributions to three single-employer funds in the PERA System. They are the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds.

Contributions – Statutorily required contributions from the State to the PERA Judicial, Magistrate, and Volunteer Firefighter Retirement Funds were \$4,196, \$937, and \$750, respectively, for the year ended June 30, 2015.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The State reported liabilities of \$41,310 and \$21,216 for the net pension liabilities of the Judicial and Magistrate Retirement Funds, respectively, which were 100 percent of the proportionate share. The Volunteer Firefighters Retirement Fund reported a plan net position of \$61,923 and a total pension liability of \$40,881 for a positive net position of \$21,042 and is 100 percent of the proportionate share. Therefore, in accordance with accounting guidance, the positive net position is reported as a net pension asset in the financial statements. For the year ended June 30, 2015, the State recognized (\$10,842), (\$10,449), and (\$1,195) as pension expense for the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds, respectively.

At June 30, 2015, these plans reported deferred outflow of resources and deferred inflows of resources related to pensions from the following sources:

	Gove	rnmental	Business-type			
PERA - State-Funded and Single-Employer Funds (Judicial and Magistrates Funds)	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experiences	\$ -	\$ -	\$ -	\$ -		
Changes of assumptions	-	(62,897)	-	(1,901)

F. Employer Reporting - Educational Retirement Board (ERB)

Contributions – As stated earlier in this note, the contribution requirements of ERB plan members and the State are established in state statute. Statutorily required contributions for the fiscal year ended June 30, 2015, from the State to the ERB were \$1,275 for governmental activities and \$115,530 from the ten educational institutions reported as business-type activities.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The total ERB pension liability, net pension liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2013. The total ERB pension liability was rolled forward from the valuation date to the Plan year ending June 30, 2014, using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date June 30, 2014. At June 30, 2015, the State reported a liability of \$19,127 for its proportionate share of the net pension liability covering state employees in governmental activities, and \$1,665,276 for the collective proportionate share of the ten educational institutions reported as business-type activities. The State's proportion of the net pension liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2014. The contribution amounts were defined by Section 22-11-21, NMSA 1978. At June 30, 2014, the proportion was 0.3352 percent for governmental activities and 29.18 percent for business-type activities. At June 30, 2013, the proportion was 0.4295 percent for governmental activities and 28.88 percent for business-type activities.

For the year ended June 30, 2015, the State recognized pension expense of \$1,475 in governmental activities and \$117,828 in business-type activities. At June 30, 2015, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Component Unit - State Charter Schools

The sixty State-chartered schools, presented as a single component unit, are participants in The Educational Retirement Board (ERB) retirement plan.

Contributions – Total statutorily required contributions for the fiscal year ended June 30, 2015, from the State-chartered schools to the ERB were \$7,913.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2015, the schools reported a liability of \$109,022 for its proportionate share of the net pension liability. The schools proportion of the net pension liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2014. The contribution amounts were defined by Section 22-11-21, NMSA 1978. At June 30, 2014, the proportion was 1.91 percent and at June 30, 2013 it was 1.69 percent.

For the year ended June 30, 2015, the schools recognized pension expense of \$11,666. At June 30, 2015, the schools reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

G. Discount Rates and Sensitivity Analysis

Discount Rate -

PERA - The discount rate used to measure the total pension liability was 7.75 percent for all PERA plans, except the Magsitrate, which used 5.61 percent. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefits payments of current plan members as determined in accordance with GASB 67. Therefore, the 7.75 and 5.61

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

percentages assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

ERB - A single discount rate of 7.75% was used to measure the total ERB pension liability as of June 30, 2014 and June 30, 2013. This single discount rate was based on the expected rate of return on pension plan investments of 7.75%. Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current pension plan members. Therefore the long term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The projection of cash flows used to determine this single discount rate assumed that Plan contributions will be made at the current statutory levels. Additionally, contributions received through the Alternative Retirement Plan (ARP), ERB's defined contribution plan, are included in the projection of cash flows. ARP contributions are assumed to remain at a level percentage of ERB payroll, where the percentage of payroll is based on the most recent five year contribution history.

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following tables show the sensitivity of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

Public Employees Retirement Association Employer Reporting Sensitivity of the Net Pension Liability to Changes in the Discount Rate (Expressed in Thousands)

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13

NOTE 13. Post - Employment Benefits Other Than Pensions

In addition to pension benefits as described in Note 11, the State provides other post-employment benefits (OPEB).

A. Plan Description

The New Mexico Retiree Health Care Authority (RHCA) was formed February 13, 1990 under the New Mexico Retiree Health Care Act (Act), Chapters 10-7C-1 to 10-7C-19, NMSA 1978, to administer the retiree health care fund which was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents, and surviving spouses) who have retired or will retire from public service in New Mexico. The Retiree Health Care Act (Chapters 10-7C-1 to 10-7C-19, NMSA 1978) established a cost-sharing multi-employer defined benefit postemployment health care plan (Plan) that provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The Retiree Health Care Act created a governing board composed of 11 members (a twelfth member was added through an amendment). RHCA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to RHCA, 4308 Carlisle NE, Suite 104, Albuquerque, NM 87107.

The legislation establishing RHCA specifically did not intend to create formal trust relationships among the participating employees, retirees, employers and RHCA administering the Act. However, the substantive plan created by the Act contains all requisite elements to be considered as the equivalent of a trust arrangement. These elements include irrevocable contributions to the Plan, plan assets are dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the Plan, and plan assets are legally protected from creditors of employers or the Plan administrator. Additionally, there is no provision for a participating government entity to withdraw membership and all risks and costs including benefit costs are shared and are not attributed individually to employers, and a single contribution rate applies to employers. RHCA received a legal opinion that the manner of legal organization of RHCA is substantially equivalent to a trust. As such, RHCA was required to apply GASB Statement No. 43 (GASB 43), Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans, as a multi-employer cost-sharing plan. The Net Position of the RHCA is reported as restricted per GASB Statement No. 46 and Chapter 10-7-C-14, NMSA 1978.

B. Funding and Benefit Policies

Eligible employers are institutions of higher education, school districts, or other entities participating in the public school insurance authority, and state agencies, state courts, magistrate courts, municipalities, or counties, which are affiliated under or covered by the Educational Retirement Act, or the Magistrate Retirement Act, or the Public Employees Retirement Act.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

Plan Membership as of June 30, 2014	(Not in Thousands):
Current Retirees and Surviving Spouses	36,021
Inactive and Eligible for Deferred Benefit	11,710
Current Active Members	96,069
Total	143,800
Active Membership:	
State General	19,046
State Police and Corrections	1,784
Municipal General	19,810
Municipal Police	3,492
Municipal FTRE	1,959
ERB	49,978
Total	96,069

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Plan on the person's behalf, unless that person retires before the employer's effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years. Employees of RHCA are allowed to participate in the Plan.

The New Mexico Retiree Health Care Act (Chapter 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service-based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars (not in thousands) if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100.0 percent of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from NMRHCA or viewed on their website at www.nmrhca.state.nm.us.

Contributions - The New Mexico Retiree Health Care Act (Chapter 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The contributions are set by legislation and are not based on an actuarial calculation. The Legislature periodically reviews the contribution rates pursuant to Chapter 10-7C-15, NMSA 1978.

For the fiscal year ended June 30, 2015, for regular state employees, the statute required each participating employer to contribute 2.0 percent of each participating employee's annual salary; each participating employee was required to contribute 1.0 percent of their salary.

For employees who were members of an enhanced retirement plan (state police, adult correctional officers, fire fighters and judges) during the fiscal year ended June 30, 2015, the statute required each participating employer to

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

contribute 2.5 percent of each participating employee's annual salary, and each participating employee was required to contribute 1.25 percent of their salary.

Current retirees are required to make monthly contributions for individual basic medical coverage. Retiree premium contribution increases are no longer limited by the Act, which the RHCA's health care trend will be the basis for any rate increases for the New Mexico basic plan of benefits. The Board may designate other plans as "optional coverages." Optional and/or voluntary coverages are not subject to the 9.0 percent cap, which expired in fiscal year 2008 per Chapter 10-7C-13, NMSA 1978.

Contributions from participating employers and participating employees become the property of the Retiree Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operations or participation in the Plan. The employer, employee and retiree contributions are required to be remitted to RHCA on a monthly basis.

The required and actual contributions of employers in accordance with the funding policy and the percentage of current-year covered payroll for the three preceding fiscal years are as follows:

Schedule of Required Contributions (In Thousands)

(=== ==================================											
Fiscal		Annual		Actual

2012		340,075		142,054	41.8 %						
2011		326,995		120,873	37.0 %						
2010		298,000		114,847	38.5 %						
2009		286,538		96,817	33.8 %						
2008 275,518			94,060	34.1 %							

The above schedule presents trend information about the amounts contributed to the plan by employers in comparison to the Annual Required Contribution (ARC), an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years using an open-ended amortization.

There are requirements for frequency and timing of actuarial valuations, as well as actuarial methods and assumptions that are acceptable for financial reporting. The Authority obtains actuarial valuations at least biannually and a single actuarial valuation covers all plan members.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 13 (CONTINUED)

C. Funded Status

The funded status as of June 30, 2015, the most recent valuation date, was as follows (dollar amount in thousands):

Actuarial Valuation Date	,	Actuarial Value of sets (AVA)	Actuarial Accrued bility (AAL)	Unf	inded Actuarial Accrued Liability (UAAL)	Funded Ratio	Annual Covered Payroll	UAAL as a Percentage of Covered Payroll
June 30, 2014	\$	377,087	\$ 3,740,368	\$	3,363,280	10.08 %	\$ 3,941,588	85 %
June 30, 2012		227,488	3,915,114		3,687,626	5.81 %	3,877,827	95 %
June 30, 2010		176,923	3,523,665		3,346,742	5.02 %	4,001,802	84 %
June 30, 2008		170,626	3,116,916		2,946,290	5.47 %	4,020,509	73 %
June 30, 2006		154,539	4,264,181		4,109,643	3.62 %	4,073,732	101 %

The actuarial methods and assumptions for the Plan at June 30, 2015, were as follows:

Valuation date June 30, 2014

Actuarial cost method Entry Age Normal, Level Percent of Pay

Amortization method 30 Year Open-Ended Amortization, with the initial payment de-

termined as if future payments would theoretically increase each year

on a level percent of pay basis.

Amortization period 30 Years Asset valuation method Market Value

Actuarial assumptions:

Discount rate 5.00% Projected payroll increases 3.50%

Health care cost trend rate:
Prescription Drug & Medical

(Under Age 65, Age 65, and Over) 8.0% from July 1, 2009 to July 1, 2018, decreasing by 0.5% for each

year until it reaches an unlimited rate of 5.0%

Note: Schedule of funding progress is based on healthcare laws and regulations existing at June 30, 2014.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 14

NOTE 14. Deferred Compensation Plan

The State of New Mexico offers state, local government, and school district employees a deferred compensation plan (Deferred Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," in accordance with Internal Revenue Code Section 457. The Deferred Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available until termination, retirement, death, or unforeseeable emergency.

PERA is the trustee of the Deferred Plan; however, the Deferred Plan uses a third party administrator, acting under contract with PERA. All costs of administration and funding are borne by the Deferred Plan participants. The Administrator has authority to control and manage the operation of the Deferred Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Deferred Plan, and has certain discretionary authority to decide all matters under the Deferred Plan. As Deferred Plan trustee, PERA's primary responsibility is to select investment options that are safe and provide a reasonable rate of return and to ensure that all investments, amounts, property, and rights under the executed Deferred Plan-Trust are held for the exclusive benefit of Deferred Plan participants and their beneficiaries, as defined in the Deferred Plan. The assets of the Deferred Plan are not assets of the State, but are held in trust for the exclusive benefit of Deferred Plan participants and their beneficiaries. The State has no liability for losses under the Deferred Plan but does have the duty of due care that would be required of a fiduciary agent.

The Deferred Plan issues a publically available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza La Prensa, Santa Fe, NM 87507.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 15

NOTE 15. Arbitrage on Tax-Exempt Bonds

Arbitrage is the excess interest earned by a state or local government on proceeds from the sale of its bonds over interest paid to bondholders. The Tax Reform Act of 1986 TRA required rebate of such arbitrage to the U.S. Treasury Department on governmental bonds issued after August 31, 1986, and on private activity bonds issued after December 31, 1984, when the proceeds were held for six months or longer. These rebates must be calculated annually and paid at the end of every fifth year until the bonds are retired.

The Revenue Reconciliation Act of 1989 amended the six-month rule. For bonds issued after December 19, 1989, the rebate requirement does not apply if, both, all of the gross proceeds of the issue, other than the reserve fund, are spent within the six-month period following the date of issue, and the rebate requirement is satisfied for the reserve fund after the six-month period. The term gross proceeds for purposes of the rule includes both the sale proceeds received from the bonds purchaser on the issue date and investment earnings on such proceeds during the six month period. Gross proceeds deposited in a reserve fund or bona fide debt service fund, however, are not subject to the expenditure requirement.

The following is a schedule of bond issues, along with the year-ends and arbitrage rebate due dates. The State Treasurer has completed the first arbitrage computation for the bonds as indicated:

	First Computation	First Payment	Computation of Arbitrage	Next Payment
	Date	Due to IRS	Completed	Due to IRS
General Obligation Bonds Series 2007	3/1/2012	4/30/2012	X	3/1/2017
General Obligation Bonds Series 2009	5/28/2014	7/28/2014	X	3/1/2019

NOTE 17. Reduction of Allowance for Potential Loss - State General Fund Investment Pool

Compliant with statute 6-10-3 (NMSA 1978), and to optimize state cash management and investment practices, funds of various state agencies are deposited in the State General Fund Investment Pool (SGFIP). This pool is managed by the New Mexico State Treasurer's Office (STO). Claims on the SGFIP are reported as financial assets by the various agencies investing in the SGFIP.

Agency claims against the SGFIP and fiduciary resources held at STO to fulfill those claims were not reconciled from the inception of SHARE (the State's centralized accounting system), in July 2006, through January 2013, which caused uncertainty as to the validity of the claims and the ability of fiduciary resources to fulfill those claims. As a result of business process and systems configuration changes made during the Cash Management Remediation Project Phase I the Department of Finance and Administration's Financial Control division began reconciling transactional activity reported by the State's fiscal agent bank to the SHARE general ledger on a point-forward basis beginning February 1, 2013. In March 2015, the Financial Control Division implemented a reconciliation process that compares statewide agency claims against the resources held in the SGFIP at STO. This process is known as the claims to resources reconciliation. The claims to resources reconciliation process has been successfully applied to fiscal year-end 2014 and the months from January 2015 through June 2015. While work remains, the results are encouraging and the following assertions can be made:

- 1) The difference between statewide agency claims against the SGFIP and fiduciary resources held at STO to fulfill those claims has remained within a relatively narrow range over the periods in which the reconciliation process has been used;
- 2) Agency claims on the SGFIP will be honored in their entirety. Any adjustment necessary to the claims balance will be applied against the General Operating Reserve Fund. No portion of the adjustment shall be allocated to any specific agency that participates in the SGFIP.

Due to the improvements in the cash reconciliation process, the State is reducing to zero the Allowance for Potential Loss previously reported at \$100 million.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 18

NOTE 18. Commitments and Contingencies

A. Federal Funds

The State received funding from federal sources for specific purposes. The funds are subject to audit, which may result in expenses that are disallowed, or other noncompliance findings under the terms of the funding source's guidelines. The State believes that such disallowances or other noncompliance findings, if any, would not be material to the State's financial position.

Environment Department

In January of 2012, the Office of the Inspector General (OIG) of the Environmental Protection Agency performed an audit of the New Mexico Environment Department's (Department) Labor Charging Practices to federal programs and determined that the Air Quality Bureau (AQB) and Drinking Water Bureau (DWB) of the Department did not always charge labor and related costs according to two Code of Federal Regulation (CFR) requirements. These bureaus charged labor, fringe benefit and indirect costs to federal grants based on budget, rather than actual activities performed. The OIG issued a draft report in June 2013, with an estimated amount of \$3.8 million in unsupported charges identified. The Department had until May 31, 2014 to submit additional documentation in support of the costs which were charged. The amount of the original determination may be reduced, but by how much is not known at this time. Therefore, the amount of \$3.8 million is reported as a liability.

Human Services Department

As of June 30, 2014, the Department was aware of three related federal audits issued by U. S. Dept. of Health and Human Services, Office of Inspector General (DHHS OIG) covering personal care services (PCO) in which the likelihood of an unfavorable outcome is probable. As of December 14, 2014, any amount due and owing to the federal government related to two (2) of these audits is undetermined. In the third appeal, DHHS has disallowed federal financial participation totaling \$19,771,608. At the request of the Department, however, the DHHS Appeals Board has agreed to hold the Department's appeal of that matter in abeyance pending the outcome of a similar appeal by the Georgia Department of Community Health in the Washington D.C. District Court.

B. Litigation

The State has been named as defendant in several lawsuits or complaints. Neither the final outcome nor the amount of potential loss from these cases is presently determinable. However, management estimates that the potential loss to the State, if any, is not likely to be material to the State's financial statements. See below for additional information.

Office of the State Engineer

A state district judge ruled that the Interstate Stream Commission violated the Open Meetings Act when approving two contracts involving a diversion project in southern part of the state. As a result of the ruling, the Office of the State Engineer became exposed to a liability of \$268,000 as the plaintiff is seeking reimbursement of legal costs.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 18 (CONTINUED)

Because the liability has a high probability of being awarded and is estimable, an expense, classified as a 'special item', was recorded for the fiscal year ended June 30, 2015.

Children, Youth, and Families Department

A judgment in a legal matter was rendered against the Children, Youth, and Families Department in the amount of \$3.6 million. The Department is currently appealing the judgment. This amount would not be covered by Risk Management Division. A liability has been recorded.

New Mexico Corrections Department

The potential risk of loss to the New Mexico Corrections Department in pending legal cases is estimated to be \$329,000 and is deemed to be "slight to moderate."

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority (NMMFA) entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development (HUD) under Section 542(c) of the Housing and Community Development Act of 1992, whereby HUD and the NMMFA provide credit enhancements for third party multifamily housing project loans. HUD has assumed 90% of the risk and the NMMFA guarantees the remaining 10% risk of loss in the event of default on specific loans. As of September 30, 2015, the NMMFA's assumed risk approximated \$2.1 million for these loans.

Education Trust Board

Since 2009, a number of class action, derivative, and individual lawsuits have been pending in federal and state courts against Oppenheimer Funds, Inc. (OFI), Oppenheimer Funds Distributor, Inc. (OFDI), and certain mutual funds (Defendant Funds) advised by OFI and distributed by the OFDI. Several of these lawsuits also name as defendants certain officers, trustees and former trustees of the respective Defendant Funds. The lawsuits raise claims under federal and state securities laws and state common law and allege, among other things, that disclosure documents of the respective Defendant Funds contained misrepresentations and omissions and that the respective Defendant Fund's investment policies were not followed. The plaintiffs in these actions seek unspecified damages, equitable relief and an award of attorneys' fees and litigation expenses.

The State and the Plan management believe that these suits should not impair the ability of OFI or OFDI to perform their respective duties to the plans of the fiduciary funds, and that the outcome of all of the suits together should not have any material effect on the operations of any of the Oppenheimer mutual funds.

New Mexico State University

The University has received a letter from the United States Department of Education requesting payment for self-reported findings of misstatement of eligibility participants in the Student Support Services Program. The University believes an overcharge payment of \$476,932 is possible and is awaiting final determination.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 18 (CONTINUED)

In December 2014, the University received a determination in the amount of \$946,995 from the United States Department of Education for misstatement of eligibility for non-degree programs. The University appealed \$248,000 of the amount and has paid the remainder in full. The University is awaiting a decision on the appealed amount.

New Mexico Department of Transportation (DOT) issued a report on an ongoing audit on January 13, 2009. The report was issued to the University in July 2009, with a letter assessing an amount due to the agency. The total amount of the audit assessment as of July 2010, was \$1,229,825; the University agreed with \$54,944. Until the conclusion of the University's negotiations with the DOT, the University is unable to reasonably estimate a liability amount.

A lawsuit filed in May 2013 asserts claims arising out of the loss of nursing accreditation at the Doña Ana Community College (DACC) on behalf of eight former DACC nursing students. Plaintiffs were students in the DACC nursing program at the point in time continued accreditation of the nursing program was denied by the National League of Nursing Accrediting Commission. The plaintiffs allege claims based upon breach of contract but also request emotional distress damages suggesting a tort type claim. The court recently certified this case as a class action, to include 86 students enrolled in the DACC nursing program at the time of the denial who did not elect to complete their degree. Risk Management has agreed to provide the cost of defense and is expected to provide coverage for any non-contract damages. An adverse outcome is reasonably possible but an estimate of the loss or range of potential loss cannot be determined at this point of litigation.

A class action complaint for damages for Family Medical Leave Act (FMLA) violations was filed against the University in May 2014. The parties have been engaged in court ordered mediation and have reached a settlement agreement with documentation of the detailed terms and court approval of the settlement still in progress. Under its terms, in addition to various changes in policies and other compliance requirements, various amounts will be paid totaling \$735,731. Of this amount, the University expects to pay \$367,866.

New Mexico Highlands University

In February 2012, the University terminated its contract with Makwa Builders LLC and several subcontractors for construction of the Student Union Building. Negotiations between parties is ongoing and as of June 30, 2015, a settlement agreement had not yet been reached. No amounts have been recorded in the June 30, 2015, financial statements for this potential contingency.

Second Judicial District Attorney

During fiscal year 2013, the Second Judicial District Attorney's Office entered into phone services with a private vendor and discontinued using phone services provided by the Department of Information Technology (DolT). However, the District Attorney was still charged for phone services from DolT after services with the private vendor had begun. The District Attorney has been disputing these fees and there has been no resolution as of June 30, 2015. A liability in the amount of \$93,709 has been recorded as a contingent liability on the government-wide financial statements to account for the amount claimed by DolT.

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS - NOTE 19

NOTE 19. Subsequent Events

A. Bond Issues

The State issued Series 2015A Severance Tax Bonds in the principal amount of \$129,195 and Series 2015B Supplemental Severance Tax Bonds in the principal amount of \$69,745 on August 12, 2015. The bonds were issued to provide funds for capital improvements for schools and for general purposes. Both bonds carry a coupon rate of 5.0 percent. Both Series 2015A and 2015B Bonds have a final maturity date of July 1, 2025.

In November 2015, the State Board of Finance approved Severance Tax Note 2015S-C for a maximum principal amount of \$15 million to fund various capital improvement projects throughout the state as approved by the voters.

In December 2015, the New Mexico Mortgage Finance Authority issued Single Family Mortgage Program 2015 Series E Bonds in the amount of \$21,230 million. On April 27, 2016 the NMMFA issued \$62,790 million of Single Family Mortgage Program 2016 Series A Bonds.

The University of New Mexico (UNM) issued \$168.5 million in a refunding and new money Series 2016A&B. The Board of Regents approved the Sale Resolution on February 11, 2016. UNM successfully completed an Advanced Refunding for Series 2007 A & B bond issues, which are combined to form Series 2016 A & B bonds. The 2016A tax-exempt bonds totaling \$160.3 million include refunding of the 2007A bonds and new money components as referenced above. The 2016B taxable bonds totaling \$8.2 million refund the taxable portion of the 2007B bonds.

B. Other Events

Back-Pay Decision – Union Employees

The New Mexico Supreme Court affirmed an earlier decision by an arbitrator that positions covered under collective bargaining agreements should have received a pay increase in fiscal year 2014. The distribution of the back-pay recoveries began in fiscal year 2014; however, the processing of these claims has taken more time than was originally planned. An estimated total of \$29.9 million was accrued in the financial statements for the year ended June 30, 2014. The amount of \$19.1 million has been paid through June 2015, leaving a balance of approximately \$10.7 million still to be paid. The total amount accrued is an estimate based on the best available information available at the time. As the processing of claims continues, the total amount actually paid may vary from this estimate.

Developmental Disabilities Planning Council

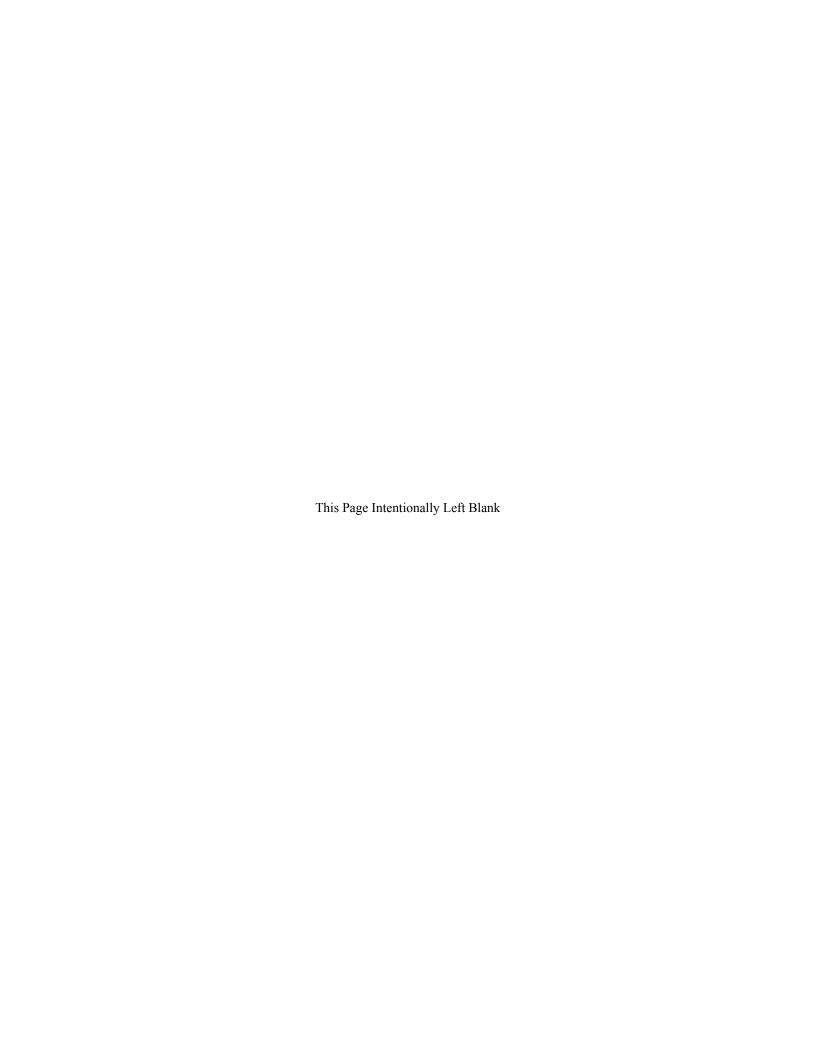

The Developmental Disabilities Planning Council currently has an on-going investigation of fraud/embezzlement. The Agency is working with the Office of the State Auditor on the financial investigation.

COMPREHENSIVE ANNUAL FINANCIAL REPORT For the Year Ended June 30, 2015

NOTES TO THE FINANCIAL STATEMENTS – NOTE 19 (CONTINUED)

New Mexico Mortgage Finance Authority

Based on information available as of September 30, 2014, management of the New Mexico Mortgage Finance Authority (NMMFA) has determined that it is probable that the Authority has incurred a contingent liability for the balance of two loans which the Board of Directors had previously approved for write-off. The balance of \$438,000 may be payable to the U.S. Department of Housing and Urban Development (HUD) for noncompliance with the affordability requirement.

REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY REPORTING

For the Year Ended June 30, 2015 (In Thousands)

Budget Process

The State Legislature makes annual appropriations, which lapse at fiscal year-end. Legal compliance is monitored through the establishment of a budget (Modified Accrual Budgetary Basis) and a financial control system, which permits a budget to actual expenditures comparison. Expenditures may not legally exceed appropriations for each budget at the program appropriation unit level. Program appropriation unit is identified in the State's accounting records and in the budgetary schedules as P-Codes, such as "P523 Child Support Enforcement." Budgeted program appropriation unit amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration within the limitations as specified in the General Appropriations Act. The budget amounts shown in the financial statements represent the final authorized amounts. Administrative line item expenditures (personnel, contractual, and other) may legally exceed amounts budgeted; however, the total budget category expenditures may not legally exceed the approved budget for the program appropriation. Chapter 6-3, NMSA 1978, sets forth the process used to develop the budget for the State of New Mexico. The process is as follows:

- 1. No later than September 1, the appropriation request is submitted to the Legislative Finance Committee (LFC), and the Budget Division of the Department of Finance and Administration (DFA), for the fiscal year commencing the following July 1. The appropriation request includes proposed expenditures and the means of financing them.
- 2. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcomes of those hearings are incorporated in the State's General Appropriations Act (Act).
- 3. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit, at which time the approved budget becomes a legally binding document.
- 4. Not later than May 1, an annual operating budget is submitted to DFA by appropriation unit and object code based upon the appropriation authorized by the Legislature. DFA reviews and approves the operating budget, which becomes effective on July 1.
- 5. Formal budgetary integration is employed as a management control device during the fiscal year for the General and Special Revenue Funds.

Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute; however, accounts payable that are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, they must be paid out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY REPORTING (CONTINUED)

For the Year Ended June 30, 2015 (In Thousands)

Multiple Year Appropriation - Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for, the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These nonoperating budgets primarily serve as a management control purpose, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

In the accompanying budgetary schedules, budget and actual expenditures are reported only for appropriated activities for the operating budgets. Expenditures are classified in the financial control system based on whether the appropriation is from the operating or multiple year budgets (special or capital). Expenditures funded by the operating budget appropriations are reported as current expenditures classified by the function of the agency receiving the appropriation.

However, in the governmental operating statements, all governmental funds are included and expenditures are classified according to what was actually purchased. Capital outlays are fixed asset acquisitions such as land, buildings, and equipment. Debt service expenditures are principal and interest payments. Current expenditures are all other governmental fund expenditures classified based on the function of the agency making the expenditures. Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated.

The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as nonappropriated (not budgeted) by the Legislature are the Severance Tax Fund, the Land Grant Fund., and the following Enterprise Funds: State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

Excess of Expenses/Expenditures Over Budget

Expenses/expenditures in excess of budget were reported in the following P Code:

Health & Human Services Program Area 6 - Facilities

STATE OF NEW MEXICO COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2015

FINANCIAL SECTION

OTHER SUPPLEMENTARY INFORMATION

OTHER SUPPLEMENTARY INFORMATION NONMAJOR PROPRIETARY FUNDS COMBINING FINANCIAL STATEMENTS

Enterprise Funds

Enterprise funds report the activities for which fees are charged to external users for goods and services.

Internal Service Funds

Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public.

This Page Intentionally Left Blank

OTHER SUPPLEMENTARY INFORMATION NONMAJOR ENTERPRISE FUNDS COMBINING FINANCIAL STATEMENTS

Industries for the Blind – The New Mexico Commission for the Blind's mission is to encourage and enable the State's blind citizens to achieve vocational, economic, and social equality. This proprietary fund is used to provide career training and other assistance for New Mexico's blind citizens and entails the operations of the Albuquerque Training Center.

Corrections Industries Revolving Fund – This fund is used to account for certain activities of the Corrections Industries Division of the Department of Corrections. These activities include the manufacture of furniture and textiles, production of agricultural crops, and data entry services.

Environment Department – This fund is used to account for revolving loans for wastewater and drinking water facilities.

New Mexico Magazine – New Mexico Magazine is a program of the Department of Tourism. The fund accounts for the publishing and distribution of the monthly New Mexico Magazine.

New Mexico Public Schools Insurance Authority (NMPSIA) – NMPSIA is a self-insurance pool that provides various benefits and risk coverage to participating public schools, school board members and public school employees, plus retired board members and employees. Coverage provided includes property, casualty, workers' compensation, health, life, and disability.

State Infrastructure Bank – The State Infrastructure Bank is a proprietary fund administered by the Department of Transportation. The fund is used to account for loans made for road projects.

Miners' Colfax Medical Center – Miners' Colfax Medical Center is a State owned medical facility in Raton, New Mexico. The current organization is a result of a merger between the Miners' Hospital and Northern Colfax County Hospital. Miners' Colfax operates a 33-bed acute care hospital; a 49 bed extended care facility and various outpatient clinics in Raton, New Mexico. Miners' Colfax has programs that serve both miners and non-miners. Information for the fiscal year ended June 30, 2015 was not available for this entity, so FY14 information has been provided.

Unemployment Insurance Fund – The Unemployment Insurance Fund accounts for funds used for unemployment compensation. This fund does not account for other than unemployment compensation (i.e., workers' compensation, employment security labor market statistics, administration of the employment compensation program, etc.)

State Fair Commission – This fund administers the operations of the annual New Mexico State Fair and the use of the Fairgrounds facilities during the year

Department of Cultural Affairs – This fund administers the enterprise operations of the Department of Cultural Affairs.

OTHER SUPPLEMENTARY INFORMATION NONMAJOR INTERNAL SERVICE FUNDS COMBINING FINANCIAL STATEMENTS

Fleet Operations – This fund accounts for the operations of the Transportation Motor Pool and the State Aircraft Pool, which provide ground and air transportation services to all state agencies on a fee basis.

Risk Management – This fund provides insurance coverage for all state agencies. Areas covered include public liability, workers compensation, group health and life, unemployment compensation, surety bond, and property insurance. Agencies are charged a premium based on several factors, including history and number of employees.

Printing and Records – This fund accounts for the provision of printing services of all kinds to state agencies according to an approved fee schedule. The fund also includes services for the retention and storage of public records for all state agencies, which pay an assessment based on size and usage.

Communications Services – This fund provides voice and data telecommunications services to all state agencies, which are assessed an annual fee based on size and prior usage.

Information Processing – This fund provides automated data processing services for all state agencies, which are assessed an annual fee based on size and prior usage.

OTHER SUPPLEMENTARY INFORMATION FIDUCIARY FUNDS PENSION AND OTHER EMPLOYEE BENEFITS TRUST FUNDS FINANCIAL STATEMENTS

Public Employees Retirement Association - (PERA) – PERA is comprised of four separate systems, which offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators.

Educational Employees' Retirement System (EERS) – EERS is a qualified, defined benefit, governmental retirement plan established and administered by the State of New Mexico to provide pension benefits for all state certified employees, teachers and other employees of the State educational institutions, junior colleges, and technical vocational institutes.

New Mexico Retiree Health Care Authority (RHCA) – RHCA is a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that provides comprehensive core group health insurance for persons who have retired from public service with entities in the State of New Mexico.

Deferred Compensation Plan (IRC 457) – The State of New Mexico offers its employees a deferred compensation plan (Plan) under Chapters 10-7-A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," is in accordance with Internal Revenue Code Section 457. The Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Public Employee's Retiree Association is the trustee of the Plan; however, the Plan is administered by a third party administrator acting under contract with PERA.

OTHER SUPPLEMENTARY INFORMATION FIDUCIARY FUNDS EXTERNAL INVESTMENT TRUST FUNDS FINANCIAL STATEMENTS

State Investment Council – The State Investment Council (Council) is responsible for the investment activities of certain State of New Mexico Trust Funds. Pursuant to New Mexico law, the Council created the following investment pools: Large Capitalization Active, Large Capitalization Index, Core Bonds, Structured Credit, Mid\Small Capitalization, Non-U.S. Equity Securities, Non-U.S. Emerging Markets, and Absolute Bonds. The investment pools provide long-term investment opportunities for state agencies and designated institutions that have funds available for a long-term investment program that will extend for more than one year. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by State are presented in both the Governmental Funds and Proprietary Funds.

State Treasurer – The Office of the State Treasurer holds and invests monies for other state agencies and local governments through the Local Governmental Investment Pool. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by the State are presented in both the Governmental Funds and Proprietary Funds.

OTHER SUPPLEMENTARY INFORMATION FIDUCIARY FUNDS PRIVATE PURPOSE TRUST FUNDS FINANCIAL STATEMENTS

Scholarship Fund – This grouping includes scholarship trust funds administered by the Higher Education Department and the Public Education Department.

Trust Fund – The 529 Higher Education Savings Plan is a variable return college savings program that enables individuals to save and invest in order to fund future higher education expenses of a child or beneficiary. The program is designed to be a qualified tuition program under Section 529 of the Internal Revenue Code of 1986, as amended, and is maintained by the Education Trust Board.

Water Trust Fund – The Water Trust Fund accounts for monies appropriated, donated, or otherwise accrued in the fund for the water project fund, which is administered by the State Investment Council.

Bartlett Trust Fund – The Cultural Affairs Department is the administrator of a trust fund that was privately endowed for the benefit of the Museum of International Folk Art.

Children's Trust Fund - This fund accounts for a part of marriage license fees as well as private donations for the purpose of advocacy of children and prevention of child abuse and neglect.

Children's Trust Fund Next Generation – This fund accumulates resources for programs that provide positive child and youth development activities.

[#] In fiscal year 2011, the New Mexico Lottery Authority was determined to be a discrete component unit. Prior to fiscal year 2011, the New Mexico Lottery Authority was considered to be a blended component unit and was presented as a nonmajor proprietary fund.

⁺In 2010, the President of the United States signed into law the American Recovery and Reinvestment Act (ARRA) of 2010. The State accounts for all ARRA revenue and expenditures under fund 89000, which is classified as a special revenue fund. Under ARRA, the State received federal unemployment monies that were accounted for in fund 89000. The Unemployment expenditures reported in the governmental activities represent funds from ARRA.

^{*}In fiscal year 2006, the Unemployment fund was determined to be a nonmajor propriety fund.

Legal Debt Margin as a Percentage of the Debt Limit	 44.1%		45.1%		31.3%		45.2%		30.4%	

Note: The Constitution of the State of New Mexico, Article IX, Section 8, limits the State's outstanding general debt to a maximum of one percent of the net taxable value of all property subject to taxation within the State.

The legal debt margin is the remaining borrowing authority available and is calculated by subtracting the bonded debt outstanding from the legal debt limit as calculated per Constitutional requirements.

Source: Note information regarding general bonded debt outstanding can be located within the State of New Mexico's comprehensive annual financial report per fiscal year. Property value data was provided by the Department of Finance and Administration, Local Government Division, Financial and Property Tax Data by County and Municipality. Per capita information is based upon population data located in the Demographics and Economic Statistics schedule.

- The Legislative Finance Committee Report for FY15 had not be released as of 5/25/2016, used FY14 information.

Note: The State of New Mexico passed the Accountability in Government Act, NMSA 6-3A, in 1999. Efforts have been made in identifying and determining performance measurements since that time. Agencies began tracking and calculating these performance measurements beginning in fiscal year 2004; therefore, we are only able to provide five fiscal years of operating indicators at this time. These operating indicators will continue to be tracked in the future in order to reach a ten year historical comparison.

N/A 1 Measure deleted in FY09 and replaced by different criteria.

Information not available.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Susana Martinez, Governor of the State of New Mexico

Ms. Duffy Rodriguez, Acting Secretary of the New Mexico Department of Finance and Administration,

Mr. Ronald C. Spilman, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Timothy Keller, New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the State's basic financial statements, and each of the State's non-major enterprise funds, internal service funds, and each fiduciary fund type presented as supplementary information, and have issued our report thereon dated July 11, 2016. Our report includes reference to other auditors who audited the financial statements of certain agencies and component units, as described in our report on the State's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. Our report disclaims opinions on certain financial statements because of the matters described in the "Bases for Disclaimer of Opinions" paragraph in our report starting on page 6.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of the State, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and responses to be material weaknesses. 2013-002 and 2013-005.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2015-001.

The State's Responses to Findings

Clifton Larson Allen LLP

The State's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The State's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated

Condition: During the FY13 audit of the State's financial statements, significant issues surrounding the reporting and recording of interfund/intra-entity balances and transactions were identified. While improvement related to the reporting and recording of interfund/internal/intra-entity balances and transactions was observed during the FY14 and FY15 audits, accounting for interfund/internal/intra-entity balances and transactions remain problematic. The most significant issues regarding interfund/internal/intra-entity transactions and balances are summarized below:

• Interfund/Internal Activity and Balances

- The State was unable to reconcile all interfund transfers among entities that report within SHARE with supporting documentation for the period in which the transfers were recorded. In addition, there is uncertainty as to the completeness of transfer activity among all components of the State.
- Educational Institutions which are part of the primary government and are reported as within the State's Proprietary fund interact with other agencies of the State on a regular basis. Educational Institutions accounting activity is supported by ERP software other than SHARE. The State does not have an effective process to identify and eliminate payables/receivables between these proprietary funds and other funds of the State.
- Ouring the preparation of the State's financial statements, numerous funds are consolidated into single funds of the State. During the consolidation process numerous balances should be reclassified or eliminated to avoid the error of counting a transaction more than once which would affect assets and liabilities within the consolidated fund. Additionally, transfers should also be eliminated when they are among funds that are consolidated. The State doesn't have a reliable process to eliminate or reclassify all balances and activities of funds that are consolidated into a common fund on the State's financial statements. Furthermore, the State doesn't have a process to identify any federal/state funds that are passed through from one fund to another at the business unit level, yet consolidated at the State level, which may result in federal revenues and related expenses that are counted multiple times in the financial statements.

Numerous department/business unit level financial statements report assets within agency funds, as they hold them in a fiduciary capacity. When the State consolidates the various funds of the components of the State, there is not a process to evaluate agency funds as to whether they should remain classified as agency funds in the State's financial statements, or be reclassified into other fund types of the State. The agency fund category of the State, reports approximately \$1.1 billion in assets that are payable to various funds of the State. In addition, the agency fund includes approximately \$262 million in assets reported from the State Land Office, which are reported as assets held in trust for the beneficiaries of the Land Grant Fund, all of the beneficiaries are components of the State, yet the State doesn't have a corresponding receivable for these assets. Fiduciary funds should be used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. For the two examples above, 50% of the assets reported in the agency fund were actually assets of the reporting entity. Reporting these assets as fiduciary understates the assets of the consolidated state entity.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated (Continued)

• <u>Intra-Entity Activity and Balances</u>

- The State does not have a process to ensure the reporting of all receivables and payables between the primary government and component units are accurately reflected in the State's financials as required.
- o The State does not have a process to identify significant transactions between the primary government and component units to report the nature and amount of such transactions.

Criteria: Per Section 6-5-2 NMSA 1978, the (Financial Control) Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

Per NCGAS 1 Governmental Accounting and Financial Reporting Principles

Transfers should be recognized in the accounting period in which the interfund receivable and payable arise
and requires that a government accrue a governmental fund liability and expenditure for most expenditures
and transfers in the period in which the government incurs the liability. Furthermore, transfers of financial
resources among funds should be recognized in all funds affected in the period in which the interfund
receivable(s) and payable(s) arise.

Per GASB 34 Para 112

• Nonreciprocal interfund activity is the internal counterpart to nonexchange transactions. It includes: (1) Interfund transfers—flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. This category includes payments in lieu of taxes that are not payments for, and are not reasonably equivalent in value to, services provided. In governmental funds, transfers should be reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers should be reported after non-operating revenues and expenses.

Per GASB 34 Para 58

 Amounts of receivables and payables between the primary government and fiduciary funds are reported as receivable from and payable to external parties.

Per GASB 34 Para 57

Paragraph 57 States "In the process of aggregating data for the statement of net position and the statement
of activities, some amounts reported as interfund activity and balances in the funds should be eliminated or
reclassified." This same approach should be applied at the fund financial statement level.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated (Continued)

Per GASB 34 Para 61

• Resource flows (except those that affect the balance sheet only, such as loans and repayments) between a primary government and its discretely presented component units should be reported as if they were external transactions—that is, as revenues and expenses. However, amounts payable and receivable between the primary government and its discretely presented component units or between those components should be reported on a separate line.

Per GASB 34 Para 69

• Fiduciary fund reporting focuses on net assets and changes in net assets. Fiduciary funds should be used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. The fiduciary fund category includes pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds, and agency funds. The three types of trust funds should be used to report resources held and administered by the reporting government when it is acting in a fiduciary capacity for individuals, private organizations, or other governments. These funds are distinguished from agency funds generally by the existence of a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Per GASB 34 Para 128

• In addition to the financial statement information required by paragraph 126, the notes to the financial statements should disclose, for each major component unit, the nature and amount of significant transactions with the primary government and other component units.

Cause: Historically, financial reporting for the State has been de-centralized and each component of the State has established its own policies and procedures regarding the accounting treatment of interagency transactions, without regard for the State's financials as a whole. The State Financial Reporting and Accountability Bureau (SFRAB) within the Financial Control Division, as the oversight entity, initially began establishing and communicating policies and procedures with all components of the State to ensure transactions are recorded in a consistent manner and that the necessary information was transmitted to the SFRAB beginning in 2014. Additional policies and procedures continue to be developed.

Effect: The State is unable to properly prepare timely financial statements in accordance with generally accepted accounting principles. These issues led to the opinion modifications on the State's financial statements.

Auditors' Recommendation: We recommend the SFRAB evaluate the nature of all significant transactions among the various components of the State that comprise the interfund/internal/intra-entity activity and balances within the State's financial statements and 1) determine the proper accounting treatment for the various types of transactions; 2) develop policies and procedures for all of these related transactions, which include proper recording in SHARE and year-end reporting packages from the non-SHARE entities; 3) communicate these procedures to all components of the State; and 4) establish procedures to monitor this activity monthly, which allow the SFRAB and the components to identify and address differences in these transactions among the components in a timely manner. In

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings (Continued)

2013-002 - Interfund, Internal, and Intra-Entity Activity and Balances (Material Weakness) - Repeated (Continued)

addition, the SFRAB shall establish procedures for properly consolidating and eliminating these transactions in the State's financial statements to properly report interfund/internal/intra-entity balances and activity for the State as a whole. This would include establishing procedures for identifying valid timing differences which may exist between components and which would be reconciling items between the State's financial statements and the component level financial statements.

Management's Response: Management agrees with this finding and continues to modify the Model Accounting Practices (MAPs) that are used within the State's ERP system, SHARE, as well as supplemental procedures and requirements for entities that are part of the primary government or component units whose accounting processes are supported in systems other than SHARE. It is recognized that proper classification and subsequent eliminations can only be achieved if transactions are properly identified and classified. Revisions to accounting practices and transaction recording requirements have been implemented and continue to be refined. Furthermore, implementation of the Hyperion Financial Reporting software, the addition of two new SFRAB staff members and enhanced accounting data validation logic, part of the Cash Remediation II project should all aid to address this issue. However, complete resolution may require multiple CAFR cycles as other additional factors become apparent as progress is achieved.

2013-005 Internal Control over Financial Reporting (Material Weakness) - Repeated

Condition: During the audit we evaluated the State's internal controls over financial reporting, which revealed that the State's internal controls over financial reporting were not adequate to ensure preparation of financial statements for the State in accordance with generally accepted accounting principles. The following are some of the issues encountered during the audit, which illustrate the need for enhanced controls over financial reporting for the State in preparing financial statements in accordance with generally accepted accounting principles and the New Mexico State Audit Rule:

- The SFRAB is unable to properly prepare timely and accurate financial statements for the State in accordance with generally accepted accounting principles.
- The SFRAB lacks a comprehensive documented policies and procedures related to the processes used in preparing the State's financial statements.
- State Financial Reporting has historically been de-centralized, in which the individual audited entities of
 the State have determined the accounting treatment, timing and recognition of transactions, and when
 implementation of new GASB statements would occur. The de-centralized approach fosters
 inconsistencies across agencies and complicates the State's financial statement consolidation process when
 transactions are consolidated into a single report for the State.
- We noted instances of activity and balances within SHARE but not in the financial statements of an audited entity.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings (Continued)

2013-005 Internal Control over Financial Reporting (Material Weakness) - Repeated (Continued)

- Inconsistent use among funds in the presentation of interests in the local government investment pool. In some funds this was separately classified, while in other funds it was either included in cash/cash equivalents or investments.
- Excessive number of entity-level restatements and audit adjustments/reclassifications identified by the SFRAB and the auditors during the audit.
- During our review of the State's financial statements, various inconsistencies and/or misclassifications were identified and remain uncorrected.
- The State has not considered and prepared all necessary consolidating/eliminating journal entries required in the State's financial statements.
- When posting the full accrual adjustments to the fund statements, the entries contained numerous errors, the financial statements contain a \$10M misstatement in the other obligations of the governmental activities.
- The State's financial statements contain excessive rounding errors throughout the financial statements and related notes.

Criteria: Per Section 6-5-2 NMSA 1978, the Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

Cause: As identified in the FY13 audit, a primary factor contributing to the issues identified with the State's financial statement preparation process is the cumbersome process used to produce the State's financial statements, which was improved for FY15 with the implementation of Hyperion. Although the SFRAB has been addressing the issues identified during the FY13/FY14 audit, the State's financial reporting is still very de-centralized among all components that are included in the State's financial statements. The process to standardize the various inconsistencies among the component financial information is a very time consuming component of the financial preparation process.

Effect: The State of New Mexico is unable to properly prepare financial statements in accordance with generally accepted accounting principles in a timely manner. Furthermore, these issues led to the opinion modifications on the State's financial statements.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings (Continued)

2013-005 Internal Control over Financial Reporting (Material Weakness) - Repeated (Continued)

Recommendation: Although the State faces many challenges in its effort to resolve the issues identified with the financial reporting process we did observe that improvement has been made since the FY13/FY14 audits. Furthermore, we recognize that the process to completely address the deficiencies in the reporting process will be a gradual and evolutionary in nature consisting of constant refinements of the processes, procedures and system configuration over time. With the implementation of Hyperion for FY15, we recommend the SFRAB continue to improve on using the full functionality of the system to eliminate as many of the manual processes as possible. In addition, the SFRAB should attempt to prioritize the issues with the State's financial reporting process and establish appropriate controls and procedures to resolve each deficiency in the reporting process.

Management's Response: Management agrees with this finding. The State historically has had a decentralized approach to the financial statement preparation process. In 2014, after the FY13 audit, the SFRAB began to modify and develop accounting policies and procedures to facilitate CAFR preparation.

With a focus on enhancing data integrity and traceability, SHARE became the ultimate book of record for all state agencies in FY14, with all financial statements contained in the independent stand-alone audits matched the financial data in SHARE in FY15.

Using funding obtained during the prior two Legislative sessions, DFA purchased, configured and implemented the Hyperion Financial Reporting software to assist with the preparation of the FY15 and future CAFRs. While implementation occurred very late in the FY15 production cycle, the software's potential to expedite future CAFR production was very apparent and encouraging. Additionally, the second phase of the Cash Management Remediation Project has been completed and along with a number of upgrades, such as improved accounting transaction validation. This preventive control should address some of the issues noted by making necessary transactional identification data mandatory. Finally, additional staff has been added to the Bureau, providing much needed staff to oversee agency and entity financial activity.

Compliance and Other Matters

2015-001 Late Submission of Audit Report (Compliance and Other Matters)

Condition: The audit report for the CAFR for the year ended June 30, 2015 was not submitted by Statutory due date of February 15, 2016.

Criteria: Audit reports not received on or before the due date are considered to be in non-compliance with the requirements of Section 2.2.2.9.A of the State Audit Rule.

Cause: While there were numerous reasons for the untimely submission of the State CAFR, the two primary causes for delinquent submission were the timing of the receipt of agency audited financial statements and the extensive amount of work performed by the SFRAB on numerous agency financial statements from the time of release of the reports from the State Auditor and continuing throughout the preparation of the State's financial statements.

Effect: Non-compliance with the State Audit Rule; and the users of the State's financial statements did not receive the financial information in a timely manner.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2015

Financial Statement Findings (Continued)

Compliance and Other Matters (Continued)

2015-001 Late Submission of Audit Report (Compliance and Other Matters) (Continued)

Recommendation: We recommend the State continue its efforts in improving the financial reporting process by working with State Financial Reporting Entities and the State Auditor to allow for timely submission in subsequent years.

Management's Response: Management agrees that timely issuance of financial statements enhances reporting usefulness. The financial statements presented within the CAFR are an amalgamation of primary government agencies, educational institutions designated under the constitution and discrete component units of the State, which under statute are all individually audited. The audit of the CAFR applies the group audit approach and is dependent on the results and timeliness of the underlying audits. While the Financial Control Division took action to automate the production of the CAFR this year and the state has implemented steps to expedite completion and release of the underlying agency audits, including a required fifteen day acceleration of the submission date for audited financial statements by the Office of the State Auditor (OSA), we were unable to meet the established February 15 due date. Although CAFR preparation commenced prior to mid-February, there was a need to update, reanalyze and modify all schedules as additional unit audits were released.

To address CAFR timeliness, we will revisit the FY17 close schedule and work with the OSA to determine feasibility of further acceleration of agency financial statement submissions. Additionally, given the importance that all agencies hold to the financial reporting schedule, incremental monitoring will be implemented. We believe that the January 2016 implementation of the Hyperion Financial Reporting Software and the addition of SFRAB staff will expedite financial statement consolidation and result in faster CAFR production in coming years.
