STATE OF NEW MEXICO ANNUAL COMPREHENSIVE FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2021

INTRODUCTORY SECTION

WHITE SANDS NATIONAL PARK SOURCE - <u>WWW.HIGH</u> COUNTRY NEWS

STATE OF NEW MEXICO DEPARTMENT OF FINANCE AND ADMINISTRATION FINANCIAL CONTROL DIVISION

407 GALISTEO STREET
BATAAN MEMORIAL BUILDING, ROOM 166
SANTA FE, NEW MEXICO 87501
(505) 827-3682 FAX (505) 827-3692

Michelle Lujan Grisham Governor

Deborah K. Romero Cabinet Secretary

Donna Montoya Trujillo State Controller

To the Governor, the State Legislature and the Citizens of New Mexico:

In accordance with Chapter 6-5-4.1 of the New Mexico Statutes Annotated 1978 (NMSA 1978), the Financial Control Division of the Department of Finance and Administration transmits the State of New Mexico's Comprehensive Annual Financial Report (Report) for the fiscal year ended June 30, 2021.

The Comprehensive Annual Financial Report (ACFR) presents the financial position and operating results of the State, compliant with generally accepted accounting principles (GAAP) applicable to state and local governments, as established by the Governmental Accounting Standards Board (GASB). The purpose of this report is to provide complete and reliable information as a basis for making management decisions, assessing adherence to and compliance with legal requirements, and evaluating stewardship of the state's assets. The basic financial statements and required supplemental information include a required narrative introduction, referred to as Management's Discussion and Analysis (MD&A). This transmittal letter complements the MD&A, which is located immediately following the independent auditors' report, and should be read in conjunction with this letter.

CliftonLarsonAllen LLP (CLA), an independent accounting firm and the New Mexico Office of the State Auditor, have audited the basic financial statements contained within this report. Their audit was conducted in accordance with the generally accepted government auditing standards and their auditor's report precedes the basic financial statements. The goal of an independent audit is to provide reasonable assurance that the State of New Mexico's basic financial statements for the fiscal year ended June 30, 2021 are free of material misstatement. Independent audit procedures include examining, on a test basis, supporting amounts and disclosures, assessing the accounting principles used, review of any significant estimates made by management, and evaluating the overall basic financial statement presentation. An audit also includes consideration of internal controls over financial reporting as a basis for designing audit procedures that are appropriate under the circumstances, but not for expressing an opinion on the effectiveness of the State's internal controls over financial reporting. Accordingly, the independent auditor expressed no opinion on the internal controls over financial reporting.

Under state statute (12.6.3 NMSA 1978), each state agency that is reported together in this ACFR must be audited separately each year. To avoid duplication of effort, the ACFR utilizes the Group Audit Standards. The standards provide requirements and guidance for audits of group financial statements, in particular those in which part of the work is performed by auditors other than the auditor who expresses the opinion on the financial statements of the group.

The group audit process affects reporting timeliness, as the ACFR preparation may commence only after completion of the underlying agency audits, which are generally not available until December following the fiscal year-end.

In terms of audit timing, fiscal year 2021 saw additional challenges due to the COVID-19 Pandemic (Pandemic). The Public Health Emergency that was declared on March 11, 2020 in response to the global COVID-19 Pandemic did further affect the preparation of this Report. New Mexico has taken an aggressive approach to mitigating the public

health and economic impacts of the Pandemic. As such, federal funds received by the state through the Corona Relief Fund (CRF) were directed to agencies performing critical functions related to COVID-19. In addition, significant agencies of the state received direct funding from the federal government for COVID response. These federal funds were utilized in fiscal year 2021 and continue to be utilized in the current fiscal year. Guidance related to some funds was not finalized by the federal government until January 2022 which caused audits of significant agencies to be reported late, further impacting the preparation of this Consolidated Annual Financial Report.

In general however, ongoing discussions continue within the Department of Finance and Administration (DFA) and the State Auditor's Office (SAO) to look for ways to streamline and shorten the overall Report preparation process. In addition, the State Auditor's Office is jointly auditing the Report to learn more about the process and make recommendations for changes to state law, rules, and regulations.

We are proud of the improvements in controls and processes over recent years that have allowed for the production of a reliable and auditable Comprehensive Annual Financial Report; the benefits of these enhancements continue.

PROFILE OF STATE OF NEW MEXICO

New Mexico, became the forty-seventh state of the United States of America when it entered the union on January 6, 1912. Its borders encompass 121,589 square miles of the Great Plains, Rocky Mountains, and the Rio Grande River with elevations ranging from 2,842 to 13,161 feet above sea level. Nicknamed the Land of Enchantment, the state's landscape ranges from wide, rose-colored deserts to broken mesas and high, snow-capped peaks. The Sangre de Cristo Mountains, the southernmost part of the Rocky Mountains, run north to south along the east side of the Rio Grande. The state is home to the White Sands National Monument, which contains the largest gypsum dune field in the world. The State's major economic sectors include agriculture, mining, energy production, federal technology laboratories, and tourism. The estimated population of the state was 2,117,522 as of July 2020.

Structure – The State Constitution divides the powers of government among three equal and independent branches: Legislative, Executive, and Judicial, shown in the organizational chart on page xiii. The powers and duties of each branch of government are outlined in the Constitution of the State of New Mexico, which can be amended only by a majority vote of the State's citizens. The State of New Mexico Consolidated Annual Financial Report includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the executive branch, various offices relating to the judicial branch, the education institutions created by the Constitution of the State of New Mexico, Article XII, Section 11, and discrete component units of the State of New Mexico. Internal Controls – In accordance with the provisions of Chapter 6-5-2.C, NMSA 1978, the Financial Control Division of the Department of Finance and Administration is responsible for ensuring government agencies fulfill their responsibility for implementing and sustaining effective internal controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and reliability of financial records used for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived from its use, and the evaluation of costs and benefits requires managerial estimates and judgments. All internal control evaluations occur within this framework. Consideration as to the adequacy of internal controls is paramount in developing and maintaining the State's accounting system, and the effectiveness and adequacy of internal controls are evaluated during internal reviews performed by the Department of Finance and Administration and annual external audits.

Types and levels of services provided – The State of New Mexico provides its citizens with the following governmental types of services: educational, environmental, health and human services, highway and transportation services, public safety, legislative, judicial, as well as cultural, recreational and natural resource services. The State of New Mexico also administers two cost-sharing multiple-employer public employee retirement systems and three single-employer public employee retirement systems.

Brief summary of budget process – The Governor is required to submit a balanced budget by agency, program, activity and category to the Legislature annually. The Legislature authorizes expenditures in the annual General Appropriations Act by source, which is then signed into law by the Governor. Unless otherwise indicated, annual appropriations lapse at fiscal year-end. In the event actual revenues are insufficient to cover budgeted expenditures, the Governor must order

budget reductions or call a special session of the Legislature to address any budget shortfalls. Adjustments to the budget may also be made throughout the year for changes in departmental or fund revenues so that departments and funds will not end the fiscal year in a deficit position. Expenditures are controlled at the program appropriation level. The budget is administered using the modified accrual basis of accounting; however, the budgetary basis is not consistent with GAAP.

ECONOMIC CONDITIONS AND OUTLOOK

New Mexico utilizes a consensus revenue estimating group (CREG) composed of legislative and executive branch economists to forecast General Fund revenue for the state. The Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations.

The CREG bases its State General revenue forecast on forecasts of the U.S. economy from Moody's Analytics and IHS Markit in combination with forecasts of New Mexico's economy prepared by the University of New Mexico's Bureau of Business and Economic Research. Economic inputs also include data and information provided by state agencies, and other national data sources such as the Energy Information Administration, Bureau of Labor Statistics, Bureau of Economic Analysis, and the U.S. Census Bureau. Historical information on New Mexico's value and volume of crude oil and natural gas produced in the state is derived from the state's GenTax Database reporting system. Product price forecasts are derived from national economic forecasting services and other sources.

Additionally, New Mexico's state revenues are highly sensitive to boom-and-bust cycles in the energy industry; therefore, the CREG conducts a stress test on state revenues during the process. The establishment and use of stress-testing hedges against an economic downturn or an unforeseen downswing in the energy sector. Stress-testing allows for targeting appropriate levels of general fund reserves while safeguarding the state's budget at the same time.

The New Mexico economy, on a year-over-year basis, grew slightly in fiscal year 2021, with real gross domestic product expanding by a marginal 0.8 percent. The state's wages and salaries declined by 2.2 percent while total personal income in the state grew by 9.9 percent. During fiscal year 2021, New Mexico's employment declined 5.9 percent, which represents a loss of approximately 49,420 jobs. The state continues to recover from the unprecedented drop in employment during the second half of FY20 due to the pandemic. New Mexico is recovering from two shocks to its economy: an oil price collapse in March 2020 and the COVID-19 health crisis. New Mexico's employment increased by an average of 2,158 jobs each month in FY21.

Major forecasting agencies (Moody's Analytics and IHS Markit) continue to have solid U.S. growth projections for 2022 and 2023, however, more severe COVID-19 strains represent a continued risk to economic recovery. In addition, tightening employment conditions, a tightening monetary policy, and inflation remain significant risks as well and could hamper the economic recovery

LONG-TERM FINANCING

The State of New Mexico's Constitution and laws authorize the State to issue general obligation bonds, severance tax bonds and revenue bonds to finance or refinance the cost of State capital projects. General obligation bonds are secured by the full faith and credit of the State and are repaid from a dedicated statewide property tax. Article 9, Section 8 of the New Mexico Constitution limits General Obligation indebtedness to no more than one percent of the assessed valuation of all the property subject to taxation in the State. Severance Tax Bonds are used to finance statewide capital projects that have been authorized by the Legislature and approved by the Governor. Severance and Supplemental Severance Tax Bonds are repaid from revenues deposited into the Severance Tax Bonding Fund, which primarily include taxes on mineral production in the State. The State continues to maintain a strong creditworthiness rating from Moody's Investors Services and Standard and Poor's Corporation.

ACKNOWLEDGMENTS

This report could not have been prepared without the cooperation of all State agencies, the Legislature, and the Judiciary. Executive Management of the Department of Finance and Administration would also like to express our gratitude to the dedicated professionals in the State Financial Reporting and Accountability Bureau, whose work made possible the preparation of this report. The coordinated and collaborative effort have produced a report that will provide a means for

government, the financial community, decision makers, and concerned citizens to better understand and evaluate the State's financial condition.

Sincerely,

Deborah K. Romero Cabinet Secretary

Adoral L. Spiero

FINANCIAL SECTION

MANAGEMENT'S DISCUSSION AND ANALYSIS PLUS INDEPENDENT AUDIT REPORT

LAS CRUCES SCENIC VIEW OF ORGAN MOUNTAINS SOURCE - LAS CRUCES SUN NEWS

INDEPENDENT AUDITORS' REPORT

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico
Ms. Debbie Romero, Secretary of the New Mexico Department of
Finance and Administration,
Ms. Donna M. Trujillo, State Controller of the New Mexico Department
of Finance and Administration, and
Mr. Brian Colón, New Mexico State Auditor

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico (State), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the State's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of certain components of the State, which represent the indicated percent of total assets and total revenues as presented in the table below. Those financial statements were audited by other auditors, whose reports thereon have been furnished to us, and our opinions, insofar as it relates to the amounts included for those components, is based solely on the reports of the other auditors.

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico Ms. Debbie Romero, Secretary of the New Mexico Department of Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón, New Mexico State Auditor

Percentage Audited by Other Auditors

| Government-Wide | i otal <u>Assets</u> | i otal <u>Revenues</u> |
|--|-------------------------|---------------------------|
| Governmental activities | 91% | 65% |
| Business-type activities | 99% | 99% |
| Aggregate discretely presented component units | 76% | 69% |

Fund Statements

| Major governmental fund - General Fund | 67% | 58% |
|--|------|------|
| Major governmental fund - Debt Service Fund | 92% | 3% |
| Major governmental fund - Capital Projects Fund | 95% | 98% |
| Major governmental fund - Severance Tax Permanent Fund | 100% | 100% |
| Major governmental fund - Land Grant Permanent Fund | 100% | 100% |
| Major enterprise fund - Educational Institutions Fund | 100% | 100% |
| Major enterprise fund – Unemployment Insurance Fund | 100% | 100% |
| Aggregate remaining fund information | 45% | 45% |

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The New Mexico Small Business Investment Corporation, a nonmajor component unit was not audited in accordance with Government Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico Ms. Debbie Romero, Secretary of the New Mexico Department of Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón, New Mexico State Auditor

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

Correction of Errors

As described in Note 9 to the financial statements, the State restated beginning balances resulting from the correction of accounting errors that occurred in the prior period and for the adoption of GASB Statement No 84. Our opinions are not modified with respect to this matter.

Unemployment Insurance Trust Fund

Other auditors of the Unemployment Insurance Fund, a major proprietary fund, identified the following uncertainty:

The Unemployment Insurance Fund (UIF) waived certain requirements for unemployed individuals to expedite payments to claimants issued by the UIF. Additionally, the UIF was required to pay benefits under the Pandemic Unemployment Assistance program where the UIF was unable to confirm all claimants' prior earnings. As a result, the UIF estimated that unemployment benefit payments made to individuals arising from identity theft, imposter fraud claims, or payments made to other ineligible beneficiaries may account for approximately 2% percent of the \$2.7 billion in unemployment insurance benefit payments and related grants made during the year ended June 30, 2021. Our opinions, based on our audit and the report of the other auditors, is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Schedule – General Fund and Notes to Budgetary Reporting, Schedules of Changes in Net Pension Liability, Schedule of Changes in Net OPEB Liability; Schedules of Net Pension Liability, Schedules of Net OPEB Liability, Schedules of Employer Contributions – OPEB, Schedules of Investment Returns – Pension, Schedule of Investment Returns – OPEB, Schedule of Actuarial Methods and Assumptions – All Retirement Systems, Schedule of Actuarial Methods and Assumptions – New Mexico Retiree Health Care Authority, Schedule of the State of New Mexico's Proportionate Share of the Net Pension Liability, Schedule of the State of New Mexico's Proportionate Share of the Net OPEB Liability, and Schedule of the State's Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico Ms. Debbie Romero, Secretary of the New Mexico Department of Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón, New Mexico State Auditor

of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State's basic financial statements. The combining statements and individual fund financial statements and schedules, introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements and individual fund financial statements and schedules presented as other supplementary information as listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated April 15, 2022 on our consideration of the State's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to solely describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the State's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

INTRODUCTION

The following Management's Discussion and Analysis (MD&A) is required supplementary information to the State of New Mexico's financial statements. It describes and analyzes the financial performance and position of the state, and also provides an overview of the State's activities for the fiscal year ended June 30, 2021. Please read it in conjunction with the transmittal letter in the Introductory Section of this report and with the State's financial statements that follow this section. The subsequent information is highly summarized, and in order to gain a comprehensive understanding of the State's financial condition it should be reviewed in its entirety. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

Government-wide

Net Position of the Primary Government

- The primary government (governmental activities and business-type activities) ended fiscal year 2021 with a net position of \$41.5 billion, an increase of \$8.2 billion, or 24.75 percent, from the previous year.
- The net position is comprised of \$8.1 billion in capital assets, net of related debt, \$39.5 billion in restricted, and a deficit \$6 billion in unrestricted, excluding component units.
- As a result of operating activities, the primary government's total net position increased by \$8.2 billion, or 24.75 percent, in fiscal year 2021 when compared to the previous year's ending net position. The net position of governmental activities increased \$8.7 billion, or 27.81 percent, from previous year's ending net position.
- Program revenues for the primary government increased around 30.28 percent on a year to year basis. Taxes and other general revenues increased by 90.71 percent from previous year. Expenses of \$27.5 billion, increased by \$5.8 billion, with the majority of the increase being in General Control, Unemployment Insurance, Education and Health and Human Services.
- The net position of the business-type activities decreased by \$477 million or 24.47 percent, from the previous year's ending net position. The business-type activities from the prior fiscal year saw an increase in total revenue by \$2.1 billion and an increase in expenses by \$3.3 billion. Program revenue increased by \$1.5 billion while transfers decreased by \$26 million.

Long-term Debt

• The State's long-term bonded debt increased a net of \$255 million for both governmental and business-type activities, combined, due to higher issuance of new bonds compared to the payment on the prior year bonds. New bond issuance for governmental activities was composed of \$167 million for general obligation bonds, \$412 million for severance tax bonds, and \$99 million for revenue bonds. New bond issuance for business type activities was \$204 million in revenue bonds and \$3 million in general obligation bonds. See Note 8 for more detailed information on long-term liabilities. More detailed information regarding the government-wide, fund level, and long-term debt activities can be found in the capital asset and debt administration section of this management's discussion and analysis (MD&A).

For the Year Ended June 30, 2021

Fund Level

Governmental Funds

- As of June 30, 2021, the State's combined governmental funds reported an ending fund balance of \$40 billion, an increase of \$8.8 billion, or 28.55 percent, from fiscal year 2020 year's ending net position, (see the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances).
- Year to year there was an increase in revenue of \$10 billion, primarily the result of higher Federal Revenues, Investment Income, and strengthened Selective Tax Revenues. Year to year, expenditures increased by \$2.8 billion. Operationally, expenditure increases in the areas of General Control, Unemployment Insurance, Education and Health and Human Services are the primary drivers.
- The unassigned fund balance as of the end of fiscal year 2021 was \$335 million.

Proprietary Funds

• The proprietary funds reported net position of \$1.5 billion as of June 30, 2021, a decrease of \$477 million, or 24.47 percent, from fiscal year 2020 ending net position.

OVERVIEW OF THE FINANCIAL STATEMENTS

The focus of this annual report is on reporting for the state as a whole and on the major individual funds. The report presents a more comprehensive view of the state's financial activities. The Financial Section of this Annual Financial Report presents the State's financial position and activities in four parts:

- Management's Discussion and Analysis (this part)
- Basic Financial Statements
 - Government-wide Financial Statements
 - Fund Financial Statements
 - Notes to the Financial Statements
- Required Supplementary Information other than MD&A
- Other Supplementary Information presenting combining statements and schedules

This report also includes statistical data.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

Reporting on the State as a Whole

Government-wide Statements

The government-wide financial statements are designed to present an overall picture of the financial position of the state. These statements consist of the statement of net position and the statement of activities, which are prepared using the economic resources measurement focus and the accrual basis of accounting. This means that all revenues earned and expenses incurred during the year are included, regardless of when cash is received or disbursed, producing a view of financial position similar to that presented by most private sector companies.

The statement of net position combines and consolidates the government's current financial resources with capital assets and long-term obligations. This statement includes all of the government's assets, deferred outflows, liabilities, and deferred inflows. Net position represents one measure of the state's financial health. Other indicators of the state's financial health include the condition of its facilities, roads and highways (infrastructure) and economic trends affecting the state's future tax revenues.

The statement of activities focuses on both the gross and net cost of various activities (governmental, business-type and component units). These costs are paid by the state's tax revenues, charges for services and other revenues. This statement summarizes the cost of providing (or the subsidy provided by) specific government services and includes all current year revenues and expenses.

The government-wide statement of net position and the statement of activities divide the state's activities into the following three types:

Governmental Activities

The state's basic services are reported here, including general government, education, transportation, health and human services, public safety and corrections, judicial, natural resources and recreation, legislative, and regulatory services. Taxes, fees and federal grants finance most of these activities.

Business-type Activities

Activities for which the state charges a fee to customers to pay most or all of the costs of certain services it provides are reported as business-type activities. The state's institutions of higher education are included as business-type activities, as well as unemployment insurance, public schools insurance, medical centers, magazine publication, state fair, state infrastructure bank, environment department, corrections industries, and industries for the blind.

Component Units

Component units are legally separate organizations for which the state is either financially accountable or the nature and significance of their relationship with the state is such that exclusion would cause the state's financial statements to be misleading or incomplete. The state has approximately seventy-three (73) discretely presented component units. Financial information for these entities is presented separately in the supplemental statements and in the notes.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

Reporting on the State's Most Significant Funds

Fund Financial Statements

Fund financial statements provide additional detail about the state's financial position and activities. Some information presented in the fund financial statements differs from the government-wide financial statements due to the perspective and basis of accounting used. Funds are presented in the fund-level statements based on criteria set by the Governmental Accounting Standards Board (GASB). A fund is a separate accounting entity with a self-balancing set of accounts. The state uses funds to keep track of sources of funding and spending related to specific activities. Some funds are required by law to exist, while others are established internally to maintain control over a particular activity.

All of the State's funds are divided into the following categories, each of which uses a different accounting approach:

Governmental Funds

A majority of the state's activity is reported in the governmental funds. Reporting of these funds focuses on the flow of money into and out of the funds and amounts remaining at fiscal year-end for future spending. Governmental funds are accounted for using the modified accrual basis of accounting, which measures cash and other assets that can be readily converted to cash. The governmental fund financial statements provide a detailed short-term view of the state's general governmental operations and the basic services it provides. This information helps determine the level of resources available for the state's programs. The reconciliations following the fund financial statements explain the differences between the governmental activities column reported on the government-wide statement of net position and the government-wide statement of activities, and the governmental funds reported on the fund financial statements. The general fund, debt service fund, capital projects fund, severance tax fund and land grant fund are reported as major governmental funds.

Proprietary Funds

When the state charges customers for services it provides, these activities are generally reported in proprietary funds. Services provided to outside (non-governmental) customers are reported in enterprise funds, a type of proprietary funds, and are accounted for using the economic resources measurement focus and the accrual basis of accounting. These are the same business-type activities reported in the government-wide financial statements, but are reported here to provide information at the fund level. Activities whose customers are primarily other state agencies (e.g., motor pool) are accounted for in internal service funds. The internal service fund activities are consolidated with the governmental activities in the government-wide statements because those services predominantly benefit governmental rather than business-type activities.

Fiduciary Funds

Fiduciary funds account for assets held in a trustee or agency capacity for others. All state fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. The activities are reported separately from other financial activities because the state cannot use the assets to finance its operations. The state's fiduciary responsibilities include ensuring that the assets reported in these funds are used for their intended purpose. Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis accounting.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

Reconciliation between Government-wide and Fund Statements

The financial statements include schedules that reconcile and explain the differences between the amounts reported for governmental activities on the government-wide statements (accrual accounting, long-term focus) with amounts reported on the governmental fund statements (modified accrual accounting, short-term focus).

The following are some of the major differences between the two statements:

- Capital assets and long-term debt are included on the government-wide statements, but are not reported on the governmental fund statements.
- Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond proceeds result in liabilities on the government-wide statements, but are other financing sources on the governmental fund statements.
- Certain tax revenues that are earned but not yet available are reported as revenue on the
 government-wide statements, but are deferred inflow of resources on the governmental fund
 statements.
- Pension related items including Net Pension Liability, Net Pension Asset, and the Deferred Inflows and Outflows of resources related to pensions are included in the government-wide statements and not in the governmental fund statements.
- OPEB related items including Net OPEB Liability and the Deferred Inflows and Outflows of resources related to OPEB are included in the government-wide statements and not in the governmental fund statements

Notes to the Financial Statements

The notes provide additional schedules and information that are essential to a complete understanding of the financial statements. The notes apply to both the government-wide financial statements and the fund financial statements.

Required Supplementary Information (RSI)

Following the Basic Financial Statements are budgetary comparison schedules for major funds with legally adopted budgets. In addition, the RSI includes schedules on the funded status and employer contributions for the State's Defined Benefit Pension Plans and Other Postemployment Benefits Plan. RSI further supports the information in the basic financial statements.

Other Supplementary Information

Supplementary Information includes combining statements for the State's nonmajor proprietary and fiduciary funds. This section also includes schedules which compare budgeted expenditures to actual results at the legal level of control, which is generally the program level of the General Appropriation Acts.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

ADJUSTMENTS TO BEGINNING NET POSITION AND FUND BALANCES

While adjustments were made to the opening balances of a number of entities that are part of the primary government, none individually or collectively were significant to merit discussion.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Position

- Total Assets and Deferred Outflows of the State as of June 30, 2021, were \$62.2 billion, an increase of \$13.4 billion or 27.3 percent from prior fiscal year. The majority of the increase is due to increased receivables.
 - For governmental activities, total assets and deferred outflows were \$52.6 billion, an increase of \$10.4 billion, or 24.60 percent.
 - For business-type activities, total assets and deferred outflows were \$9.6 billion, an increase of \$3 billion or 44.8 percent.
- Total Liabilities and Deferred Inflows as of June 30, 2021 were \$20.6 billion, an increase of \$5.1 billion or 32.88 percent from prior fiscal year.
 - Total liabilities and deferred inflows for governmental activities were \$12.6 billion, an increase of \$1.7 billion, or 15.35 percent.
 - For business-type activities, total liabilities and deferred inflows were \$8.1 billion, an increase of \$3.4 billion or 73.64 percent.
- The State's total net position of \$41.5 billion was \$8.2 billion or 24.75 percent higher in fiscal year 2021 compared to the prior year. Of the State's net position, \$8.1 billion was recorded as net investment in capital assets, while \$39.5 billion was restricted by state statute or other legal requirements and was not available to finance day-to-day operations of the state. Unrestricted net position was a \$6 billion deficit. Most of this is attributable to the net pension liability and net OPEB liability. The reporting of these long-term liabilities is mandated by the Governmental Accounting Standards Board.

Changes in Net Position

The State's net position as of June 30, 2021, was \$41.5 billion which was \$8.2 billion greater than the 2020 net position restated. The State earned program revenues of \$19.7 billion, collected tax revenue of \$8.1 billion, and received \$8 billion of general revenues. Total revenues for 2021 were \$35.8 billion, an increase of \$12.2 billion, or 51.9 percent, from fiscal year 2020. Increased revenue was attributable to the \$611 million increase in taxes and to the \$4.1 billion increase in operating grants and contributions, other general revenues increased by \$7 billion and charges for services increased by \$479 million. The expenses of the State were \$27.5 billion, an increase of \$5.8 billion or 26.79 percent, from fiscal year 2020. Further analysis of results of changes in the State's financial condition follows in the analysis of the State's funds. Net program revenues exceeded net program expenses by \$8.3 billion, whereas in fiscal year 2020 this amount was \$1.9 billion. The tax collections and investment income of the State provided additional funding, which when added to program revenues, supported payment for governmental services.

The following schedule and charts summarize the State's total revenues, expenses, and changes in net position for fiscal year 2021:

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

Governmental Activities

Governmental activities program revenue was \$14 billion, consisting of operating grants and contributions of \$10.6 billion, capital grants and contributions of \$481 million, and \$2.9 billion in service charges. Program revenues increased \$3.1 billion from the prior fiscal year, the result of a \$2.9 million increase in operating grants and contributions, an \$18 million increase in capital grants and contributions, along with a \$233 million increase in charges for services. Governmental activities expenses increased by \$2.5 billion year to year bringing the total to \$19.4 billion. All governmental activities except for general control and culture, recreation, and natural resources activities in the government-wide statement of activities had expenses which exceeded program revenues. The health and human services function, and education function account for three-quarters of governmental activities expenses and net cost. The operating grants and contributions increased due to additional grants received by Health and Human Services and Culture, Recreation, and Natural Resources functions.

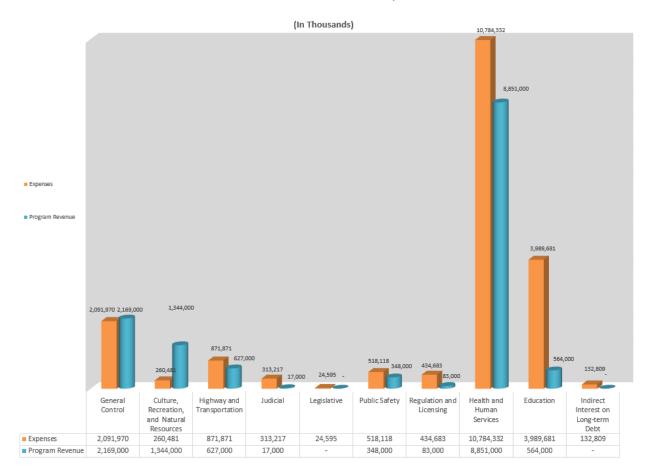

The following table shows to what extent the State's governmental activities relied on taxes and other general revenues to cover all of their costs. For fiscal year 2021, state taxes and other general revenues covered 27.9 percent of expenses. The remaining 72.10 percent of the total expenses was covered by charges for services and grants and contributions.

State of New Mexico
Expenses and Program revenues: Governmental Activities
For the Fiscal Year Ended June 30, 2021

Business-type Activities

Business-type activities generated program revenues of \$5.7 billion, including charges for services of \$2.6 billion, operating grants and contributions of \$3.1 billion and \$31.8 million in capital grants and contributions. This was \$1.5 billion more than the prior year, attributable to the unemployment insurance function. The total expenses for business-type activities were \$8.1 billion, an increase of \$3.3 billion from the prior year. The largest changes occurred in the unemployment insurance function, where expenses increased by \$1.2 billion versus prior year and in the educational institutions function where expenses increased by \$2.1 billion versus prior year. Net expenses exceeded program revenues from the primary government's business—type activities by \$2.4 billion, an increase of \$1.8 billion from the prior year.

Governmental Funds

General Fund

General Fund balance at June 30, 2021 totaled \$5 billion. Net change in General Fund balance, was an increase of \$1 billion. The General Fund ended the fiscal year 2021 with unassigned fund balance of \$356 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

Budgetary Highlights – General Fund

The initial fiscal year 2021 budget was adopted by the Legislature during the 2020 Regular Session. The General Fund original budgeted revenues for fiscal year 2021 were 75.2 percent higher than the fiscal year 2020 final budget basis revenues. During the year, federal revenue was \$471 million less than the final approved budget. After budget amendments, the actual expenditures in the General Fund were \$2.7 billion below the final budgeted amounts. This was mainly the result of agency-mandated measures to reduce expenditures. Refer to the budgetary comparison schedule for the General Fund in the Other Required Supplementary Information section of the Annual Financial Report.

Severance Tax Fund

Fund balance at June 30, 2021, totaled \$6.4 billion, an increase of \$1.1 billion, or 21.1 percent, related increase in investment earnings.

Land Grant Fund

Fund balance at June 30, 2021, totaled \$24.9 billion, an increase \$5.5 billion, or 28.66 percent, reflective of increased investment earnings compared to the portfolio in the prior year.

FINANCIAL ANALYSIS OF THE STATE'S PROPRIETARY FUNDS

Exclusive of Internal Service Funds, the State's proprietary funds reported Net Position of \$1.5 billion, a decrease of \$477 million from the prior year net position.

Educational Institutions

Net Position at June 30, 2021, totaled \$482 million. Current period activity decreased the Net Position of the State's educational institutions by \$1.3 billion, or 63.73 percent. For the fiscal year 2021 the State transferred \$875 million to the State's educational institutions, a decrease of \$48 million, or 5.18 percent from fiscal year 2020.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

DISCRETE COMPONENT UNITS

These are operations for which the State has financial accountability or the nature and significance of their relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. For the most part, these entities operate similar to private-sector businesses and the business-type activities described above. All of the State's discrete component units are presented in the financial statements.

The State's discretely presented major component units are:

- New Mexico Finance Authority
- New Mexico Mortgage Finance Authority
- New Mexico Lottery Authority
- University of New Mexico Foundation, Inc.
- New Mexico State University Foundation, Inc.

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the State's component units are presented in the notes to the financial statements.

CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

Capital Asset Activity

As of June 30, 2021, the State's net investment in capital assets, for governmental activities totaled \$6.2 billion and \$1.8 billion for its business-type activities. The state's capital assets include land, buildings, improvements, machinery and equipment, mineral rights, roads, highways and bridges. The change in the State's investment in capital assets for the current fiscal year was a modest increase of 3.57 percent in total, for governmental activities increase of 4.03 percent and increase of 2.06 percent for business-type activities.

The State has elected to use the depreciation method to account for infrastructure assets (roads and bridges). Under this method, the State allocates the cost of infrastructure assets over their estimated useful lives as depreciation expense. Expenditures to refurbish infrastructure are capitalized and cost depreciated. Under the allowable methodology, termed the modified approach, infrastructure is capitalized and all expenditures except those adding to capacity are expensed. The state did not elect to use the modified approach for infrastructure assets. Costly analyses are also required.

Refer to Note 6 of the financial statements for additional information on capital assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

Long-term Debt Activity

The State Constitution and Law authorizes the State to issue general obligation bonds, severance tax bonds, and revenue bonds to finance or refinance the cost of State capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues. During the past year, the State continued to maintain a quality bond rating from Moody's Investors Services (Moody's) and Standard & Poor's Corporation (S&P) on all State bonds.

The State had the following bond ratings at June 30, 2021:

State of New Mexico Bond Ratings at June 30, 2021

| Bonds | Moody's | Standard & Poor's |
|---|------------|----------------------|
| General Obligation Bonds | Aa2/Stable | AA/Stable |
| Severance Tax Bonds | Aa2/Stable | AA-/Stable |
| Supplemental Serverance Tax Bonds | Aa3/Stable | A+/Stable |
| State Transportation Revenue Bonds Senior Lien | Aa1/Stable | AAA/Stable |
| State Transportation Revenue Bonds Subordinate Lien | Aa1/Stable | AAA/Stable |

Revenue Bonds issuances during the year totaled \$303 million, GO bond issuances during the year totaled \$170 million and STB bond issuances during the year totaled \$412 million.

Refer to Note 8 to the financial statements for additional information on the State's long-term debt and other liabilities.

State of New Mexico Net Outstanding Bonded Debt as of June 30, 2021 (Expressed in Thousands)

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

ECONOMIC CONDITIONS AND OUTLOOK

Economic Factors Affecting New Mexico's Fiscal Year 2021 Budget

New Mexico utilizes a consensus revenue estimating group (CREG) composed of legislative and executive branch economists to forecast General Fund revenue for the state. The Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations. The CREG bases its State General revenue forecast on forecasts of the U.S. economy from Moody's Analytics and IHS Markit in combination with forecasts of New Mexico's economy prepared by the University of New Mexico's Bureau of Business and Economic Research. Economic inputs also include data and information provided by state agencies, and other national data sources such as the Energy Information Administration, Bureau of Labor Statistics, Bureau of Economic Analysis, and the U.S. Census Bureau. Historical information on New Mexico's value and volume of crude oil and natural gas produced in the state is derived from the state's GenTax Database reporting system. Product price forecasts are derived from national economic forecasting services and other sources. Additionally, New Mexico's state revenues are highly sensitive to boom-and-bust cycles in the energy industry; therefore, the CREG conducts a stress test on state revenues during the process. The establishment and use of stress-testing hedges against an economic downturn or an unforeseen downswing in the energy sector. Stress-testing allows for targeting appropriate levels of general fund reserves while safeguarding the state's budget at the same time.

Trends in the U.S. Economy

The United States (U.S) and the world experienced an unprecedented pandemic during the second half of state fiscal year 2020 (FY20). The novel coronavirus-19 (COVID-19) continued to spread through the nation and prompted states to implement various business, social, and government restrictions to combat the virus and its variants.

The roll-out of a vaccine in the second part of FY20 combined with widespread vaccinations resulted in states reopening their respective economies. The national economy, as measured by real gross domestic product, expanded by 1.6 percent in state fiscal year 2021 (FY21). The U.S continues to move towards prepandemic employment levels and added an average of 672 thousand jobs in FY21. Employment averaged 143.0 million employees in FY21 which is 4.12 million, or 2.8 percent below FY20 employment levels Average weekly earnings increased by 5.1 percent exceeding the inflation rate of 2.3 percent in FY21.

The U.S. experienced the worst annualized percent change of real gross domestic product in the fourth quarter of fiscal year 2020. With RGDP declining by 31.2 percent. The pandemic caused a global recession impacting service-based industries, tourism, supply chains, and manufacturing to name a few. Since the economic recession ended, the nation's RGDP grew at 4.4 percent during FY21. At the national level, fiscal and monetary policies were implemented at an unprecedented level to minimize the negative economic impacts of the healthcare crisis. The Federal Reserve lowered short-term interest rates in fiscal year 2020 and maintained low-interest rates through FY21 to bolster the U.S economy. The U.S. Congress passed another federal stimulus package—the American Rescue Plan Act—to provide direct aid to individuals and families adversely impacted by COVID-19.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

New Mexico Economy

The New Mexico economy, on a year-over-year basis, grew slightly in fiscal year 2021, with real gross domestic product expanding by a marginal 0.8 percent. The state's wages and salaries declined by 2.2 percent while total personal income in the state grew by 9.9 percent. During fiscal year 2021, New Mexico's employment declined 5.9 percent, which represents a loss of approximately 49,420 jobs. The state continues to recover from the unprecedented drop in employment during the second half of FY20 due to the pandemic. New Mexico is recovering from two shocks to its economy: an oil price collapse in March 2020 and the COVID-19 health crisis. New Mexico's employment increased by an average of 2,158 jobs each month in FY21.

The state's year-over-year employment declined across most sectors in FY21. The economic shocks experienced by the state are reflected in the sectors that experienced severe employment declines. The most severe employment losses were experienced by the mining sector followed by the leisure and hospitality sector, which lost 7,100 jobs and 12,833 jobs, respectfully, when compared to FY20. This represents a 14.1% decline in employment in the leisure and hospitality sector and a 29.3% decrease in the mining sector. The information sector lost 2,008 jobs, which represents a year-over-year decrease of 19.5%.

Oil prices were higher in FY21 compared to FY20 as state and global economies reopened. Increased consumer demand coupled with lagging oil production accelerated the oil price recovery faster than previously expected. Due to increased domestic and international demand for natural gas and global supply constraints, prices were driven upward in FY21. New Mexico's average natural gas prices were \$3.40 per mcf, and crude oil prices averaged \$50.57 per barrel during FY21. In March 2021, New Mexico surpassed North Dakota as the country's second-largest oil-producing state and accounted for 13% of the oil produced in the lower 48 states. New Mexico ranked 8th in the nation for natural gas production in 2019.

General Fund Revenue and Reserve Outlook

According to the December 2021 consensus revenue outlook, FY21 recurring revenue is increased by 2.9% from \$7.8 billion to \$8.1 billion, while year-end general fund reserves are estimated to be 34.1% of recurring appropriations. The increase in the revenue estimate for FY21 is due to a few factors; gross receipt tax and personal income tax revenues were stronger than anticipated in FY21. Gross receipt tax revenues exceeded expectations due to federal legislation authorizing direct payments to individuals and for their dependents as well as stronger than expected oil prices and production. Personal income tax revenue did not decline as anticipated since high-wage jobs did not suffer as much and recovered at a faster pace compared to lowwage jobs during the pandemic.

New Mexico oil prices averaged \$50.57 per barrel in fiscal year 2021. Additionally, New Mexico produced 408.3 million barrels of oil and 2,142 billion cubic feet of natural gas.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2021

The December 2021 consensus revenue outlook for fiscal year 2022 estimates oil prices will average \$71.50 per barrel and production to be about 497 million barrels.

The consensus revenue outlook expects general fund revenues to increase by 1.3 percent when compared to fiscal year 2021. Total revenues for fiscal year 2022 are estimated to grow at a slower pace mainly due to legislative adjustments. The consensus revenue outlook for fiscal year 2022 estimates ending reserves to increase to \$2.6 billion or 34.3 percent of recurring appropriations.

Major forecasting agencies (Moody's Analytics and IHS Markit) continue to have solid U.S. growth projections for 2022 and 2023, however, more severe COVID-19 strains represent a continued risk to economic recovery. In addition, tightening employment conditions, a tightening monetary policy, and inflation remain significant risks as well and could hamper the economic recovery

GOVERNMENTAL FUND FINANCIAL STATEMENTS

General Fund

This fund is the principal operating fund of the State. It accounts for financial resources of the general government except those required to be accounted for in another fund.

Debt Service Fund

This fund accumulates resources in order to pay the debt service on the State's long-term debt.

Capital Projects Fund

This fund accounts for all resources used to fund the capital improvement projects in the State.

Severance Tax Fund

This fund accounts for the annual portion of severance taxes generated from the production of minerals and other natural resources and distributes the monies to the State General Fund.

Land Grant Fund

This fund accounts for all of the resources of the Land Grant Fund.

RECONCILIATION OF THE BALANCE SHEET – GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

June 30, 2021 (In Thousands)

| Total Fund Balances - Governmental Funds | | | \$ 39,790,254 |
|--|----|--|-----------------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because: | | | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds: | | | |
| Land and Other Nondepreciable Assets (Less \$ 10,325 ISF) Buildings, Equipment, Infrastructure and Other Depreciable Assets (not including \$ 165,002 in Internal Service Fund balances) Accumulated Depreciation (Less \$ 106,801 ISF) | \$ | 1,666,670 15,888,816 (10,372,776) | 7,182,710 |
| In the fund statements, assets (receivables) not available to provide current resources are offset with deferred inflows of resources. The reduction of the liability and recognition of revenue increases net position in the Statement of Net Position. | | | 54,924 |
| Revenues earned during the period but not available for reporting in Fund Financial Statements | | | 49,399 |
| Prepaid warranty expenditures are recorded as an expenditure in the governmental funds, but recorded as an asset, net of amortization in the Statement of Net Position | | | 2,708 |
| The deferred charge on bond refunding issues is not recognized in the governmental funds but is recognized in the government-wide statements. | | | 37,361 |
| The net pension asset for the pension fund which has a positive net position is reported in the Statement of Net Position but not in the funds statements | | | 16,932 |
| The pension and OPEB-related deferred outflows of resources are not recognized in the government-wide statements, and neither are the deferred inflows of resources (Less \$ 17,062 and \$ 6,759 for ISF) | \$ | 1,149,137 (448,081) | 701,056 |
| The deferred gain on refunding is not recognized in the governmental funds, but is recognized the government-wide statements | | | 13,459 |
| Internal service funds (ISF) are used by management to charge for certain activities, such as insurance, information technology, fleet operations, printing, and telecommunications. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. | | | 33,095 |
| Accrued interest payable is not recognized in the govenrmental funds statements | | | (30,037) |
| Long-term liabilities, are not due and payable in the current period and therefore are not reported in the fund financial statements: Net pension liability (Less ISF \$ 58,046) Net OPEB liability (Less ISF \$ 15,595) Bonds payable, including bond premiums net of amortization Compensated absences, notes payable, contingent liabilities, and other liabilities (Less \$ 1,614 ISF) | s | (3,895,326) (979,262) (2,719,411) (204,673) | (7,798,672) |
| Other Differences Total Net Position - Governmental Activities | _ | | \$ 8 40,053,197 |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2021 (In Thousands)

| Net Change in Fund Balances – Total Governmental Funds | | | \$ 8,761,095 |
|--|-------|-----------------------------------|-----------------|
| The change in Net Position reported for governmental activities in the Statement of Activities is different because: | | | |
| Governmental funds report capital outlays as expenditures; however, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are: | | | |
| Capital outlay (less ISF \$12,413) Depreciation expense (less ISF \$ 12,890) Excess of capital outlay over depreciation expense | \$ | 649,771 (534,728) | 115,043 |
| Net change in deferred inflows of resources, adjustments from prior year (reported as deferred inflows of resources in the Balance Sheet - Governmental Funds and reported as revenue in the Statement of Activities.) | | | 47,736 |
| Revenues earned during the period but not available for reporting in Fund Financial Stateme | nts | | 49,399 |
| The Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds report prepaid warranty as expenditures. The Statement of Activities reports as amortization expense, the cost of the prepaid expenditure over the useful life. | | | (2,708) |
| Capital gain (loss) is not recognized in the fund financial statements, but is in the Gov't-wide Net value of assets disposed of during the year Proceeds from sales | S | (5,466) 674 | (4.702) |
| Name of the form of the form of the form of the form | | | (4,792) |
| Net transfer of capital assets to other funds from governmental funds not including internal service funds (less ISF \$2,987) | | | 4,807 |
| Change in estimate of Federal Revenues receivable for settlement of Indian Water Rights claims. | | | 21,000 |
| Internal service funds are used by management to charge for certain activities, such as fleet operations, risk management, printing and records, communications services, and information processing. The net revenue (expense) of the internal service funds is reported with governmental activities. | | | (23,643) |
| Bond proceeds, notes, and capital leases provide current financial resources to governmental activities by issuing debt, which increases long-term liabilities in the Statement of Net Position. Repayments of the bond, notes, and capital lease principal are expenditures in the governmental funds, but reduce liabilities in the Statement of Net Position: | | | |
| Payment of Bond Principal Principal Payment from Refunding Bond Proceeds, Net | \$ | 730,374 112,333 (1,073,427) | (230,720) |
| Governmental funds report the effect of bond premium and discount items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences. | s | (138,737) 76,939 | (61,798) |
| The deferred loss (less deferred gain) on refunding bond issues is capitalized and the amortize reported in the Statement of Activities. | satio | | (33,095) |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2021 (In Thousands)

| Net Change in Fund Balances – Total Governmental Funds (Continued:) Pension expense and OPEB expense of governmental funds is recognized in the Statement of Activities but not in the fund statements. | S | 5,346 70,177 | | 75,523 |
|--|----|-----------------|----|-----------|
| The Statement of Activites is presented on the accrual basis, while the Fund Statements are presented on the "available resources" basis. This adjustment combines the net change of the following balances: | | | | |
| Accrued Interest on Bonds Payable | \$ | (7,187) | | |
| Change in prepaid/inventory balances | | 4,472 | | |
| Compensated Absences Expense (Less ISF \$183) | | (10,886) | | |
| Pollution Remediation Obligation | | 600 | | |
| Other | | 10 | | |
| Expenses reported in the statement of activities in the prior year but not reported as | | | | |
| expenditures in the governmental funds because they did not require the use of | | | | |
| current financial resources are not reported as current year expenses in the statement | | | | |
| of activities. | | 15 | | |
| Contingent Liability | _ | 22 | _ | (12,954) |
| Change in Net Position of Governmental Activities | | | \$ | 8,704,893 |

PROPRIETARY FUND FINANCIAL STATEMENTS

Educational Institutions Fund

This fund accounts for the resources used to operate the seven institutions of higher education and three other schools, which were created by the *Constitution of the State of New Mexico*. These institutions are the University Of New Mexico, New Mexico State University, New Mexico Highlands University, New Mexico Institute of Mining and Technology, Western New Mexico University, Eastern New Mexico University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Visually Handicapped, and the New Mexico School for the Deaf.

Unemployment Insurance Fund

The Unemployment Insurance Fund accounts for funds used for unemployment compensation. This fund does not account for items other than unemployment compensation (i.e., workers' compensation, employment security labor market statistics, administration of the employment compensation program, etc.)

Non-major Enterprise Funds

Combining financial statements for the individual non-major enterprise funds are presented in the Financial Section - Required and Supplemental Information.

Internal Service Fund

Combining financial statements for the internal service funds are presented in the Financial Section - Required and Supplemental Information.

FIDUCIARY FUNDS FINANCIAL STATEMENTS

Pension and Other Employee Benefits Trust Funds

These funds account for the resources accumulated and held for the payment of retirement and other benefits under plans operated by the Public Employees Retirement Association, the Educational Retirement Board, and the Retiree Health Care Authority. Combining financial statements for the individual pension trust funds are presented in the Financial Section - Required and Supplemental Information.

External Investment Trust Funds

These funds account for assets held by the State in a trustee capacity. The funds are held in custody for external participants in the New Mexico State Treasurer's Investment Trust Funds and the State Investment Council External Investment Trust Funds. Combining financial statements for the individual external trust funds are presented in the Financial Section - Required and Supplemental Information.

Private Purpose Trust Funds

These funds account for resources held under trust arrangements and which benefit individuals, organizations, and other governmental units. These funds include the Scholarship Fund, the Education Trust Fund, the Water Trust Fund, and the Bartlett Trust Fund. Combining financial statements for the individual private purpose trust funds are presented in the Financial Section - Required and Supplemental Information.

Custodial Funds

These funds are used to report resources held by various State agencies in a purely custodial capacity for distribution to external parties.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of New Mexico (the State) and its component units have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The State's significant accounting policies are described below. All dollar amounts are in thousands, except when stated.

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Primary government activities are distinguished between *governmental and business-type activities*. Governmental activities are generally financed through taxes, intergovernmental revenues, and other non-exchange revenues. The governmental activities column incorporates data from the internal service funds as well as the governmental funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

B. Reporting Entity

For financial reporting purposes, the State's financial reporting entity includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the Executive Branch, various offices relating to the Judicial Branch, and the ten educational institutions created by the *Constitution of the State of New Mexico*, Article XII, Section 11). The annual financial report does not include the financial statements of the community colleges or public schools.

The GASB has set forth criteria to be considered in determining financial accountability as defined in GASB Statement No. 14, *The Financial Reporting Entity* (as amended). These criteria include appointing a voting majority of an organization's governing body and 1) the ability of the State to impose its will on that organization or 2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. Where a State does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the reporting entity if an organization is fiscally dependent on the State, its resources are held for the direct benefit of the State or can be accessed by the State, or the relationship is such that it would be misleading to exclude it.

Blended Component Units

The following blended component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority. Except for the University of New Mexico Retiree Welfare Benefit Trust, a fiduciary fund of the University of New Mexico, separately issued financial statements for each of these blended component units can be obtained from the New Mexico State Auditor's Office.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

UNM Rainforest Innovations

UNM Rainforest Innovations (formerly known as STC.UNM is a nonprofit corporation formed under the auspices of the 1989 New Mexico University Research Park Act and the New Mexico Nonprofit Corporation Act. The business of the corporation is to manage the commercialization of technologies developed by the University's faculty and manage the real estate development of the Science & Technology Park at the University of New Mexico on the South Campus. UNM Rainforest Innovations, 101 Broadway Blvd. NE, Suite 1100, Albuquerque, NM 87102.

Lobo Development Corporation

Lobo Development Corporation (LDC) was established in October 2007, under the State of New Mexico's University Research Park and Economic Development Act. LDC was established to benefit UNM's Regents in the management and development of University-Owned real estate. The activities of LDC include the acquisition, development, disposition, and rental of University real estate. Lobo Development Corporation, 801 University Blvd. SE, Suite 207, Albuquerque, NM 87106.

Lobo Energy, Inc.

Lobo Energy, Inc. (LEI) was formed by the UNM Regents in June 1998, under the University Research Park Act to be a separate 501(c)(3) corporation wholly owned by UNM. Its responsibilities include the procurement of natural gas and electricity, operations and maintenance of all production facilities, and energy measurement and management systems. Lobo Energy, Inc., 800 Bradbury Dr. SE, Suite 216, Albuquerque, NM 87106.

University of New Mexico Medical Group (UNMMG)

The UNM Medical Group, Inc., was organized in 2007. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). UNMMG is a nonprofit corporation that was organized under the Act. UNMMG's purpose is to promote, advance and support the clinical, scientific, educational, research and charitable purposes of the School of Medicine and the University of New Mexico Health Sciences Center. UNMMG is responsible for the delivery of patient clinical services, practice oversight, and management of the professional medical practice of UNM. University of New Mexico Medical Group, 933 Bradbury Street, Suite 2222, Albuquerque, NM 87106.

UNM - Sandoval Regional Medical Center (SRMC)

In 2009, the UNM Regents approved formation of the Medical Center. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). SRMC is a not-for-profit corporation that was organized under the Act. The creation of SRMC resulted from collaborations between the University of New Mexico Medical Group and University of New Mexico Hospital and hold representation on the SRMC board of directors. SRMC's purpose is to serve as a community based academic healthcare facility. The administrative offices are located at 3001 Broadmoor Blvd. NE, Rio Rancho, NM 87144.

Innovate ABQ, Inc.

Innovate ABQ, Inc. was a nonprofit corporation established under the provisions of the New Mexico Nonprofit Corporation Act and the State of New Mexico University Research Park and Economic Development Act and was operated exclusively for charitable, scientific, and educational purposes under Section 501(c)(3) of the IRC. Innovate ABQ, a public/private partnership, is a research and high technology business district located between the main University campus and downtown Albuquerque, New Mexico that serves as a catalyst for a new innovation economy in New Mexico and other educational initiatives for the University. In fiscal year 2021, ownership of Innovate ABQ, Inc. was transferred to UNM. Innovate ABQ, Inc. is, therefore, no longer considered a component unit of UNM. Lobo Development Corporation and UNM Rainforest Innovations will jointly oversee the Innovate ABQ project going

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

forward. Prior to its transfer to UNM, Innovate ABQ was determined to be a component unit, because the University appointed a voting majority of Innovate ABQ's board and was able to impose its will on Innovate ABQ Innovate ABQ, Inc., 801 University Blvd. SE, Suite 207, Albuquerque, NM 87106.

Arrowhead Center, Inc.

Arrowhead Center, Inc. was organized pursuant to the provisions of the State of New Mexico University Research Park Act of 1989. It provides a financial benefit to New Mexico State University (NMSU) and was established to foster economic development within the State through the development of research parks and University real property as well as to protect, license and market intellectual property developed by faculty, staff and students of NMSU, as well as members of the community. Arrowhead Center, Inc., MSC 3CR, P.O. Box 30001, Las Cruces, NM 88003.

New Mexico Institute of Mining & Technology Employee Benefit Trust

This trust is a single-employer benefit plan organized as a legally formed trust that is tax exempt under section 501(c)(9) of the Internal Revenue Code. The trust was established to provide a funding vehicle to which participants and the Institute contribute to prefund, in part, the cost of other postemployment benefits for eligible retirees of the Institute.

New Mexico Institute of Mining & Technology Research Park Corporation

This is a New Mexico not-for-profit corporation organized to assist the Institute by making available funds to pursue technology research and other programs carried out by the Institute. The Institute is the sole member of the Corporation and appoints the Board of the Corporation.

Northern New Mexico College Eagle Corporation

The Northern New Mexico College Eagle Corporation (the "Corporation") was formed on June 15, 2020 pursuant to the University Research Park and Economic Development Act, NMSA 1978 Section 21-28-1, et. seq (the "Research Park Act"). The Corporation is operated exclusively for the benefit and support of, to perform the functions of, and carry out the purposes of the College. Separately issued financial statements can be obtained by writing to the Northern New Mexico College Eagle Corporation at 921 Paseo de Oñate, Española, NM 87532.

New Mexico Highlands University Highlands Stable Isotopes Corporation

Highlands Stable Isotopes Corporation was granted all of the powers available to it pursuant to paragraph 21-28-6 NMSA 1978 of the University – Research Park and Economic Development Act. The new corporation was filed under the New Mexico Nonprofit Corporation Act and was granted Section 501 (c) (3) of the Internal Revenue Code of 1986 statutes in September of 2018. The purpose of the corporation is to conduct research and research commercialization in accordance with the needs of the University.

Discretely-presented Component Units

In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the State. These component units are entities that are legally separate from the State, but are financially accountable to the State. Complete financial statements are available at the address given.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Major Component Units

New Mexico Finance Authority (NMFA)

The Laws of 1992, Chapter 61, as amended, created the NMFA. The purpose of the New Mexico Authority Act is to create a governmental instrumentality to coordinate the planning and financing of state and local public projects, to provide for long-term planning and assessment of state and local capital needs and to improve cooperation among the executive and legislative branches of state government and local governments in financing public projects. The NMFA is considered a component unit of the State as the Governor appoints a majority of its Board. The NMFA is composed of eleven members, at which a majority of those members serve at the pleasure of the Governor. New Mexico Finance Authority, 207 Shelby Street, Santa Fe, NM 87501.

New Mexico Mortgage Finance Authority (NMMFA)

The Laws of 1975, Chapter 303, as amended, created the NMMFA. The purpose of the NMMFA act is to create a separate public body apart from the State to facilitate programs to assist in the financing of housing for persons of low and moderate income within the State. The NMMFA is considered a component unit of the State because the Governor appoints a majority of its Board. The NMMFA is composed of seven members, at which a majority of those members serve at the pleasure of the Governor. NMMFA fiscal year-end is September 30. This year-end differs for all other state entities, which have a June 30 fiscal year-end. New Mexico Mortgage Finance Authority, 344 Fourth Street SW, Albuquerque, NM 87102.

New Mexico Lottery Authority (Lottery Authority)

The Laws of 1995, Chapter 155, as amended, created the Lottery Authority Act. The purpose of the Lottery Authority Act is to create a separate public body apart from the State, to conduct the New Mexico state lottery and provide revenues for public purposes designated by the Act. The State's higher education institutions receive financial benefit. The Lottery Authority is considered a component unit of the State because the Governor appoints members of its Board. The Board is composed of seven members, at which those members serve at the pleasure of the Governor. New Mexico Lottery Authority, 4511 Osuna Rd NE, Albuquerque, NM 87109.

The following two component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority.

University of New Mexico Foundation, Inc. (UNM Foundation)

UNM Foundation is a nonprofit corporation, organized in 1979 to solicit, receive, distribute, invest, and manage funds for the benefit of the University of New Mexico. The majority of the Foundation's investments are managed by the University. The University of New Mexico Foundation, Inc., Two Woodward Center, 700 Lomas NE, Bldg. 2-203, Albuquerque, NM 87102.

New Mexico State University Foundation, Inc. (NMSU Foundation)

NMS Foundation is a nonprofit corporation formed for the purpose of acquiring and managing charitable gifts, including endowed funds, to be used for the sole benefit of New Mexico State University. The Foundation reports on the FASB basis of accounting. New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003-3590.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Non-major Component Units

The State's non-major component units have been determined to be financially accountable to the State. Non-major component units are: University of New Mexico Alumni Association, University of New Mexico Lobo Club, University of New Mexico - Anderson Schools of Management Foundation, Inc., New Mexico Tech Foundation, New Mexico Highlands University Foundation, Inc., Western New Mexico University Foundation, Inc., Eastern New Mexico University Foundation, Eastern New Mexico University Ruidoso Foundation, Northern New Mexico College Foundation, New Mexico Military Institute (NMMI) Foundation, Inc., New Mexico School for the Blind and Visually Impaired Foundation, Cumbres & Toltec Scenic Railroad Commission, New Mexico Renewable Transmission Authority, New Mexico Small Business Investment Corporation, New Mexico State-chartered Charter Schools, and New Mexico Hospital Equipment Loan Council.

C. Basis of Presentation - Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the State's Enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the State has five major discretely presented component units and seventeen non-major component units. Component units are shown in total in the government-wide financial statements with a combining statement to show the details. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation - Fund Financial Statements

Fund Financial Statements The fund financial statements provide information about the State's funds, including its fiduciary funds. Separate statements are presented for each fund category – governmental, proprietary, and fiduciary. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining enterprise funds are aggregated and reported as non-major funds. The internal service fund is reported in a separate column on the proprietary funds financial statements. The accounts of the State are organized based on funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures.

The State reports the following governmental funds:

Major funds:

- **General Fund** This fund accounts for the financial resources of the State, except those required to be accounted for in another fund. This is the State's primary operating fund.
- **Debt Service Fund** Debt Service Fund accounts are used to account for the accumulation of resources for and the payment of principal and interest on general long-term obligations and other contractual obligations.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

- Capital Projects Fund The Capital Projects Fund accounts for funds appropriated by the State Legislature for
 capital outlay, including severance tax and general obligation bond proceeds and State General Appropriation
 capital outlay funds.
- Severance Tax Fund The Severance Tax Fund accounts for the proceeds of severance taxes, which are levied by the State on certain natural resources extracted from State lands. Severance tax revenues are first applied to pay the required debt service on Severance Tax Bonds issued by the State. Remaining severance tax revenues are then transferred to the Severance Tax Fund, administered by the State Investment Council. Distributions from this fund are stipulated by the State Constitution. This is a special revenue fund that includes the excess of amounts not applied to severance tax bond debt service in the debt service fund.
- Land Grant Fund The Land Grant Fund receives royalties and income from trust lands distributed to various entities assigned by the Ferguson Act of 1898. This is a special revenue fund.

The State reports the following enterprise funds:

Major fund:

- Educational Institutions Fund The Educational Institutions Fund accounts for the activities of the State's ten educational institutions created by the Constitution of the State of New Mexico in Article XII, Section 11: University of New Mexico, New Mexico State University, Eastern New Mexico University, New Mexico Institute of Mining and Technology, Western New Mexico University, New Mexico Highlands University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Blind and Visually Impaired, and New Mexico School for the Deaf.
- Unemployment Insurance Fund The Unemployment Insurance Fund accounts for funds used for unemployment compensation. This fund does not account for other than unemployment compensation (i.e., workers' compensation, employment security labor market statistics, administration of the employment compensation program, etc.) This fund was reported as a non-major enterprise fund in prior year.

Non-major funds:

The State's non-major enterprise funds include the following: Public Schools Insurance Authority, Miners' Colfax Medical Center, New Mexico Magazine, State Fair, Environment Department Clean Water, Corrections Industries, Industries for the Blind, State Infrastructure Bank, Department of Cultural Affairs Museums Program, and Education Trust Board.

The State reports the following internal service fund:

• Internal Service Fund – The State reports the internal service fund type in the proprietary funds statements. The activities accounted for in the internal service fund include fleet operations, risk management, printing and records, communications services, and information processing. In the government-wide financial statements, the Internal Service Fund is included with governmental activities.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Additionally, the State reports the following fiduciary fund types:

- Pension and Other Employee Benefits Trust Funds These funds are used to report resources that are required to be held in trust for the members and beneficiaries of pension plans and other employee benefit plans. These funds account for the activities of the Public Employees Retirement Association (PERA), Educational Retirement Board (ERB), the Retiree Health Care Authority (RHCA), and the Deferred Compensation Plan.
- External Investment Funds These funds account for assets held by the government in a trustee capacity. These
 funds are used to account for cash, securities, and other investments held in custody for external participants in
 the New Mexico State Treasurer's Local Government Investment Pool and the State Investment Council's
 Investment Pools.
- Private Purpose Trust Funds These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments. These funds include the Scholarship Fund, Water Trust Fund, Higher Education Savings Plan, Bartlett Trust, Children's Trust, Children's Next Generation Trust, and Office of State Insurance Trust.
- Custodial Funds These funds are used to report resources held by the State in a purely custodial capacity for
 external parties. Custodial funds account for receipt of various taxes, refundable deposits, and other monies
 collected or recovered to be held until the State has the right or obligation to distribute them to various entities or
 individuals.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The State generally considers revenues available if they are collected within 60 days of the end of the current fiscal period. All other revenues are recognized when they are received if they are not susceptible to accrual. Expenditures are generally recorded when a liability is incurred, as under accrual accounting; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

The fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Custodial funds are custodial in nature and do not involve measurement of results of operations.

Proprietary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described previously. Proprietary funds include both enterprise and internal service fund types. Enterprise funds report the activities for which fees are charged to external users for goods and services. Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are student tuition and fees, net of scholarship discounts and allowances, patient services, sales and services, interest on loans, and most federal, state, and local contracts and grants. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The component units' financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. The information is presented in order to be consistent with the government-wide statements, and is less detailed than the presentation in each component unit's separately issued financial statements.

F. Budgetary Information

1. Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute, in accordance with procedures prescribed by the Financial Control Division (FCD), Department of Finance and Administration. Per these procedures, accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, permission must be obtained from FCD to pay the obligation out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated. The General Fund presented herein includes the general funds of all state agencies. The largest of these general funds are the component appropriation accounts. These appropriation accounts are part of the Department of Finance and Administration. The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as non-appropriated (not budgeted) by the Legislature are the Severance Tax Permanent Fund, the Land Grant Permanent Fund, and the following Enterprise Funds: the Educational Institutions, State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds. The legal level of budgetary control is at the appropriation level.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

2. Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

3. Multiple Year Appropriation - Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These non-operating budgets primarily serve as a management control tool, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided. Special appropriations budgets for one year are included in the Budgetary Comparison Schedule.

4. Excess of Expenses/Expenditures Over Budget

For the fiscal year ended June 30, 2021, there were none of the State agency's Pcode reporting expenses/expenditures exceeding budget authority.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand, cash on deposit with banks, investment in the State General Fund Investment Pool, Local Government Investment Pool, and cash invested in short-term securities. Cash equivalents include investments in short-term, highly liquid securities having an initial maturity of three months or less. Cash balances not held by the New Mexico State Treasurer (State Treasurer) and controlled by various State officials are generally deposited in interest-bearing accounts or other legally stipulated investments.

2. Investments

Investments are under the control of the State Treasurer, the State Investment Council, and other administrative bodies as determined by law. In certain instances, investments are restricted by law or other legal instruments. Investments are valued at fair value. The fair value of investments is based on published prices and quotations from major investment brokers at current exchange rates as available. For investments where no readily ascertainable fair value exists, management in consultation with their investment advisors, have determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The change in fair value is recognized as a component of investment income in the current year.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

The Education Trust Board calculates the net asset value of its units as of the close of The New York Stock Exchange (the Exchange), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. The net asset values of the investments are determined as of the close of the Exchange on each day the Exchange is open for trading. Short-term money market-type debt securities with remaining maturities of sixty days or less are valued at amortized cost (which approximates market value).

3. Investment Pools

State Treasurer - The State is required by statute to deposit any money received with the State Treasurer. Balances maintained at the end of the day are pooled and invested by the State Treasurer in overnight repurchase agreements. All repurchase agreements are collateralized by U.S Treasury Securities held by the State Treasurer's custodian bank. These pooled balances are collectively called the State General Fund Investment Pool (SGFIP), which also includes the deposits in the Tax-Exempt Bonds Proceeds Investment Pool and Taxable Bond Proceeds Investment Pool. The State General Fund is the State of New Mexico's main operating account. All State revenues are credited to the General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature. The Bond Proceeds Pools consist of pooled assets received through the issuance of taxable and tax-exempt bonds. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the SGFIP are reported as a cash equivalent.

All interest revenue is allocated to the General Fund unless state statute or trust agreements require allocations of interest to other funds. Interest is allocated based on the average daily balance and average monthly interest rates.

In addition to the SGFIP pooled cash account, the State Treasurer maintains the Local Government Investment Pool (LGIP). The LGIP also includes the deposits in the Reserve Contingency Fund. Cities, counties, other non-state agencies, and state agencies invest monies with the State Treasurer in the LGIP. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the LGIP are reported as a cash equivalent.

The LGIP, an external investment pool, is not registered with the Security and Exchange Commission (SEC) as an investment company. The investments are recorded at fair value based on quoted market price; however, individual participant balances remain at their carrying cost. The LGIP does not have unit shares. Per Chapter 6-10-10.1F, New Mexico Statutes Annotated (NMSA) 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in the amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. At June 30, 2021, the LGIP carrying cost approximated the fair value. Participation in the LGIP is voluntary. The external portion of LGIP is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the New Mexico State Treasurer's audited financial statements can be obtained by writing the New Mexico State Treasurer, P.O. Box 5135, Santa Fe, NM 87505 or online at http://www.saonm.org/audit_reports.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Public Employees Retirement Association - The Public Employees Retirement Association created a short-term investment pool (Pool) to maximize the benefits of the investment diversification and investment earnings. The Judicial, Magistrate, Volunteer Firefighters, and Public Employees Retirement Systems (Systems) participate in the Pool. The fair value of the investments in the Pool is the same as the value of the pool shares. All investments in the Pool are either SEC registered or are exempt from SEC registration under exemption 3(a)(3) or 4(2) of SEC regulations. Each System's equity percentage in the Pool is based on that System's investment in the pool and will only increase or decrease by additional deposits or withdrawals.

State Investment Council - The State Investment Council (Council) is responsible for the investment activities of certain state trust funds. The Council's investments are reported in the following categories: governmental activities, business-type activities, private-purpose trust funds, and external investment trust funds. Each of the fund types are participants in the Council's pools. Each pool is composed of units of participation of unlimited quantity. Each unit of participation represents an equal beneficial interest in the respective pool and no unit has priority over any other. Each purchase or sale of units requires written authorization as defined in the joint powers agreements executed between the Council and each participant. All units are purchased by cash payment. Each unit of participation is recorded in book entry form by the Council.

The external portion of the Council's investment pools is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the Council's report can be obtained by writing the New Mexico State Investment Council, 41 Plaza la Prensa, Santa Fe, NM 87507.

4. Inventories

The governmental funds, except for the Department of Transportation are mandated to use the purchase method of accounting for inventories. Under the purchase method, inventories are recorded as expenditures when purchased. For the consumption method, costs are recorded as expenditures when consumed rather than when purchased.

Inventories of the proprietary funds are valued by using either the average cost, retail inventory, or first-in-first-out (FIFO) methods.

5. Receivables and Loan Receivables

Receivables, net of allowance, in the governmental, business-type activities and fiduciary activities consist mainly of amounts due from the federal government, local governments, customers, patients and applicable insurance companies, taxpayers, students, and others.

Various reimbursement procedures are used for federal awards received by the State. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year-end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Determining the amount of expenditures reimbursable by the federal government, in some cases, requires management to estimate allowable costs to be charged to the federal government. As a result of this and other issues, management provides an allowance for potential contractual allowances for federal revenue. Any changes in these

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

estimates are recorded in the period that the estimate is changed. Loans are stated at their principal amount. Interest on loans is accrued based on the daily principal balance outstanding, except when a loan has been past due for 90 days. Certain loans are to governmental entities and secured by certain pledged revenues. The loans are being repaid in accordance with their loan agreements.

6. Capital Assets

Capital assets, which include automobiles, buildings and improvements, furniture and fixtures, software, library books, infrastructure (e.g., roads, bridges, sidewalks, and similar items), machinery and equipment, and portable buildings are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The State defines capital assets as costing at least five thousand dollars or more when acquired and having an estimated useful life greater than one year.

Capital assets purchased by governmental funds are recorded as expenditures in the governmental fund financial statements. Interest expense for capital asset construction related to governmental activities is not capitalized. Interest expense incurred during construction of capital facilities related to business-type activities and component units is immaterial and is not capitalized in all cases. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

In accordance with the practices followed by many museums and libraries, museum and library collections are not reported as assets in the accompanying financial statements. Purchases of the items are reported as expenditures. Certain library books, however, are capitalized.

There is no depreciation recorded for land, mineral rights, art and construction in progress. Buildings, equipment, infrastructure and other depreciable assets are depreciated using the straight-line method over the following estimated useful lives:

| Asset Class | Years |
|----------------------------|-------|
| Infrastructure | 10-40 |
| Land Improvements | 15-30 |
| Leasehold Improvements | 15 |
| Furniture and Fixtures | 5-7 |
| Machinery and Equipment | 5-20 |
| Data Processing Equipment | 3-8 |
| Vehicles and Aircraft | 3-15 |
| Buildings and Improvements | 5-75 |

As provided by GASB standards, the State elected to use the depreciation method to account for infrastructure assets (roads and bridges). This method requires the State to allocate the cost of infrastructure assets over their estimated useful lives as depreciation expense.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

7. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

8. Accrued Liabilities

Accrued liabilities include accrued current payroll and fringe benefits payable at year end. These benefits consist of the employee and employer portions of taxes, insurance, retirement, and other compensation-related withholdings.

9. Compensated Absences

Qualified employees' vacation leave is accrued at a graduated schedule of 80 to 160 hours per year, depending upon the length of service and employees' hire date. Employees are paid for the accumulated annual leave upon retirement or other termination up to 240 hours. A maximum of thirty days of annual leave (240 hours) may be carried forward into the beginning of the calendar year, with any excess forfeited. Qualified employees sick leave accrued at the rate of 4.0 hours per bi-weekly pay period. There is no limit to the amount of sick leave, which an employee may accumulate. Employees are paid for accumulated sick leave annually, or upon retirement or other termination, but only for accumulated sick leave in excess of 600 hours. Annually, employees may be paid 50.0 percent of the excess over 600 hours, up to a maximum of 120 hours. Upon retirement or other termination, employees are paid 50.0 percent of the excess over 600 hours, up to maximum of 400 hours. The total liability of the governmental activities for compensated absences is recorded in the government-wide Statement of Net Position as part of long-term liabilities. However, in accordance with GAAP, the liability is not recorded in the Governmental funds financial statements. See additional disclosure in the detailed notes.

10. Unearned Revenue

In the government-wide statements, governmental activities/funds, proprietary fund statements, and fiduciary fund statements, unearned revenue is recorded when cash or other assets are received prior to being earned. *GASB Statement No. 65* requires resources received from another government under voluntary or government-mandated non-exchange transactions before time restrictions are met, but after all other eligibility requirements are met, should be classified as deferred inflows of resources.

11. Bonds Payable

Bond premiums and discounts and deferred amounts on refunding are deferred and amortized over the life of the bonds using the bonds outstanding method or straight-line method, which approximates the effective interest method. Bonds payable are reported at face amount, with the applicable bond premium or discount and deferred amount on refunding reported separately. In accordance with *GASB Statement 65*, bond issuance costs are expensed. In the governmental fund financial statements, total bond premium or discount is recognized when the bonds are first issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

12. Insurance Losses and Loss Adjustment Expense

Public Schools Insurance Authority – The New Mexico Public Schools Insurance Authority (PSIA) insurance losses and related adjustment expenses are charged to operations as incurred. The reserves for losses and loss adjustment expenses are determined based upon case-basis evaluations and actuarial projections, and include a provision for claims incurred but not reported. The actuarial projections of ultimate losses on reported claims and the estimate of claims incurred but not reported are based on a composite of PSIA's experience and benefits, property, casualty, and workers' compensation insurance industry data, which supplements PSIA's historical experience and includes the effects of inflation and other factors. Losses are reported net of estimated amounts recoverable from excess insurance, salvage and subrogation, and the deductible portion of claims. Adjustments to the probable ultimate liability for losses and loss adjustment expenses are made continually, based on subsequent developments and experience, and are included in operations as made.

Retiree Health Care Authority - The amount shown for the Retiree Health Care Authority as reserve for losses and loss adjustment expenses is an actuarially calculated estimate of the ultimate costs of settling all incurred but not reported claims as of the fiscal year-end, while the amount shown on the accompanying fiduciary statement of changes in fiduciary Net Position as losses and loss adjustment expenses represents the change in this estimate during the fiscal year. These reserves represent, in management's opinion, the best estimate of the ultimate cost of settling all reported and unreported claims. There exists a range of variability around the best estimate of the ultimate cost of settling all unpaid claims. Accordingly, the amount reflected in the accompanying financial statements may not ultimately be the actual cost of settling all unpaid claims and the difference may be significant.

13. Interfund Transactions

Government-Wide Financial Statements

Interfund Activity – In general, eliminations have been made to minimize the double counting of internal activity, including internal service fund type activity. However, interfund services, provided and used between different functional categories, have not been eliminated in order to avoid distorting the direct costs and program revenues of the applicable functions. Operating transfers between governmental and business-type activities are reported at the net amount.

Interfund Balances – Interfund receivables and payables have been eliminated from the government-wide Statement of Net Position, except for the residual amounts due between governmental and business-type activities.

Governmental Fund Financial Statements

Interfund Activity – Interfund transactions for goods sold or services rendered for a price approximating the external exchange value and employee benefit contributions are accounted for as revenues and expenditures/expenses in the funds involved.

Transfers are used to report flows of cash (or other assets) between funds without equivalent flows of assets in return or a requirement for repayment. The State's transfers are based on legislative appropriations or other legal authority.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

14. Net Position and Fund Balance

Net Investment in Capital Assets consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of bonds, mortgages, notes, or other debt attributable to the acquisition, construction, or improvement of such assets. Significant unspent related debt proceeds are not included in the calculation of Net Investment in Capital Assets. The unspent portion of the debt is included in restricted for capital projects. The State issues General Obligation bonds and Severance Tax bonds to finance projects for the State and local governments. The Legislature appropriates the bond proceeds from each bond issue to projects throughout the State. Only bonds issued for projects appropriated to State agencies and recognized as a State asset are included in this calculation.

The State reports Net Position as restricted when constraints placed on Net Position are a) externally imposed by creditors, grantors, contributors or laws, or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

Restricted Net Position is designated as either expendable or nonexpendable. Expendable Restricted Net Position includes those funds that may be expended either for a stated purpose or for a general purpose subject to externally imposed stipulations. Nonexpendable Restricted Net Position includes those funds that are required to be retained in perpetuity. Restricted Net Position includes the State's permanent endowment funds subject to externally imposed restrictions governing their use.

Unrestricted Net Position consists of net position that does not meet the definition of Net Investment in Capital Assets or Restricted Net Position.

When both restricted and unrestricted net position are available for use, it is the State's policy to use restricted resources first and then unrestricted resources, as they are needed.

In the governmental fund financial statements, fund balances are classified as non-spendable, restricted, committed, assigned, or unassigned. Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed by outside parties or internally imposed by law through constitutional provision or enabling legislation.

Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislature, such as an appropriation or legislation. The State Legislature is the highest level of decision-making authority that can, by passage of legislation, commit fund balance that is not already restricted. Once adopted, the limitation remains in place until similar action takes place, usually in the form of a new budget bill or other legislation.

Assigned fund balance is constrained by the Legislature's intent to be used for specific purposes by directive of the Legislative Finance Committee of the Legislature or in some cases by legislation. Legislative directives dictate that all fund balances remaining at the end of the fiscal year shall be reverted back to the State General Fund unless the fund is stipulated as non-reverting by the Legislature or by laws or regulations imposed by grantors. If the fund is non-reverting, the agency governing board or department head has the authority to assign a fund balance for a specific use.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

The State has not adopted a formal flow assumption policy and therefore uses the GASB recommendations; that is, it is the State's policy to use restricted fund balance before using components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance, and lastly, unassigned fund balance.

H. Revenues and Expenditures/Expenses

In the government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g. general control, education, health and human services, etc.).

Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted." General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g. federal grants), available only for specific purposes. Unused restricted revenues at year-end are recorded as restrictions of fund balance. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first. In the governmental fund financial statements, expenditures are reported by character: Current, Capital Outlay, or Debt Service. Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Revenues and expenses of proprietary funds are classified as operating or non-operating and are sub-classified by object (e.g. depreciation, benefits, claims and premiums, and game expense). Operating revenues consist of sales of goods or services, interfund services provided/used, grant revenues for specific activities that are considered operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. For certain loan and investment programs, revenue that would normally be classified as non-operating should be classified as operating. An example of this would include interest income on loans. All other revenues that do not meet the above criteria should be classified as non-operating.

Grants

Federal grants and assistance awards made based on entitlement periods are recorded as revenues when entitlement occurs. All federal reimbursement-type grants are recorded as revenues when the related allowable expenditures are incurred and all applicable eligibility requirements are met.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

Investment Income

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses (which includes investment management and custodial fees, securities lending expense, and all other significant investment related costs). Negative investment income is reported where the decrease in fair value of investments due to market conditions exceeded the other components of investment income.

Endowments

Net appreciation on the Educational Institutions' investments of donor-restricted endowments are available for authorization for expenditure by the governing boards of the universities with endowments, which are reported in Net Position as restricted for purposes for which the endowments were established. Donor restricted endowment disbursements of the net appreciation of investments are permitted in accordance with the Uniform Prudent Management of Institutional Funds Act, Chapters 46-9A-1 to 46-9A-10, NMSA 1978, except where a donor has specified otherwise. The universities use the total-return policy for authorizing and spending investment income. The universities review the investment earnings designed to support distributions from the pool and to protect the purchasing power of the endowment principal.

Retirement and Employee Benefit Costs

Most state employees participate in a defined benefit pension plan administered by the New Mexico Public Employees' Retirement Association and the New Mexico Educational Employees' Retirement Board. Contributions collected for the pension plans and the retirement benefits paid are accounted for in the Pension and Other Employee Benefits Trust Funds. All costs for pension, health, and federal social security contributions are reported as expenditures in the appropriate function in governmental fund types or as expenses in applicable proprietary fund types. Pension and other benefits costs are recognized in the fiscal year in which the underlying payroll costs are incurred.

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

J. New Accounting Standards

For the fiscal year ended June 30, 2021, the State implemented the following new accounting standards issued by the Governmental Accounting Standards Board (GASB):

GASB Statement No. 84, Fiduciary Activities

This statement establishes criteria for identifying fiduciary activities of all state and local governments, and describes those fiduciary funds which should be reported, if applicable.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 1 (CONTINUED)

GASB Statement No. 90, Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61

The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units.

GASB Statement No. 98, The Annual Comprehensive Financial Report

This Statement establishes the term *annual comprehensive financial report* and its acronym *ACFR*. That new term and acronym replace usage of *comprehensive annual financial report* and its acronym in generally accepted accounting principles for state and local governments. This Statement was developed in response to concerns raised by stakeholders that the common pronunciation of the acronym for comprehensive annual financial report sounds like a profoundly objectionable racial slur in certain languages. This Statement's introduction of the new term is founded on a commitment to promoting inclusiveness.

K. Future Accounting Standards

The following pronouncements of the Governmental Accounting Standards Board (GASB) are due to be implemented by the State in the year indicated. For all of these new standards, the State has not determined the effect on the financial statements that implementation of the standards will entail.

GASB Statement No. 87, Leases

This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This statement is due to be adopted by the State for the fiscal year ending June 30, 2022. (Implementation date modified per GASBS 95).

GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period

This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. This statement is due to be adopted by the State for the fiscal year ending June 30, 2022. (Implementation date modified per GASBS 95).

GASB Statement No. 91, Conduit Debt Obligations

The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The statement is due to be adopted by the State for the fiscal year ending June 30, 2023. (*Implementation date modified per GASBS 95*).

GASB Statement No. 92, Omnibus 2020

The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The statement is due to be adopted by the State for the fiscal year ending June 30, 2021. Per GASBS 95, paragraphs 6, 7, 8, 9, 10, and 12 have a postponed implementation date for fiscal year ending June 30, 2022 (Implementation date modified per GASBS 95).

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS - NOTE 1 (CONTINUED)

GASB Statement No. 93, Replacement of Interbank Offered Rates

The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR. *The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021.* The statement is due to be adopted by the State for the fiscal year ending June 30, 2022.

GASB Statement No. 94, <u>Public-Private and Public-Public Partnerships and Availability Payment Arrangements</u>
The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The statement is due to be adopted by the State for the fiscal year ending June 30, 2023.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements

This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The statement is due to be adopted by the State for the fiscal year ending June 30, 2023.

GASB Statement No. 97, <u>Certain Component Unit Criteria</u>, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans-An amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB statement No. 32

The requirements of this Statement that (1) exempt primary governments that perform the duties that a governing board typically performs from treating the absence of a governing board the same as the appointment of a voting majority of a governing board in determining whether they are financially accountable for defined contribution pension plans, defined contribution OPEB plans, or other employee benefit plans and (2) limit the applicability of the financial burden criterion in paragraph 7 of Statement 84 to defined benefit pension plans and defined benefit OPEB plans that are administered through trusts that meet the criteria in paragraph 3 of Statement 67 or paragraph 3 of Statement 74, respectively, are effective immediately. The statement is due to be adopted by the State for the fiscal year ending June 30, 2022.

L. State Auditor Rule Disclosure

The Office of the State Auditor Rule requires that audit reports contain a schedule of Joint Powers Agreements (JPA) and Memoranda of Understanding (MOU) that are significant to the State as a whole. There are none that meet this criterion.

Disclosure of these schedules may be found in the stand-alone audit reports which have been issued by the individual State agencies. These are available from the Office of the State Auditor at www.saonm.org.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2

NOTE 2. Cash

Primary Government

New Mexico State Treasurer

All monies, except with specific authority, must be deposited with the State Treasurer. These operating funds are commingled in the State Investment Pool, managed by the Treasurer. Every State agency reports its operating cash as "Investment in State General Fund Investment Pool", and this pool is reported in Note 3, "Investments". The issues concerning the reconciliation of the State General Fund Investment Pool and the resolution are reported in Note 17, "State General Fund Investment Pool."

Cash on deposit represents the demand deposit account with the fiscal agent bank. Current year transactions reflect all banking activity for the fiscal year as well as the activity of investments purchased and disposed of during the fiscal year. The State Treasurer invests all public monies, with the exception of the New Mexico Lottery and the university funds. The university funds are entirely under the control of the universities. These funds are held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance (BOF). The State Treasurer invests excess cash balances on behalf of certain earmarked funds of state agencies identified by State statute and local governments. Interest earnings are distributed based on average outstanding cash balances for local governments and the state agencies where interest is allowed to be earned. All other interest earnings are transferred to the State General Fund Appropriations Account.

All State agencies, unless otherwise exempted, must have specific approval from the State Treasurer in order to maintain separate bank accounts. These accounts are mainly used for agency fund purposes, either as a collection fund until final distribution, or when the funds are being held by the agency in a fiduciary capacity and the funds do not belong to the State.

Custodial Credit Risk. The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The State Treasurer's Office collateral manager reviews and tracks all state funds held in state depository institutions. Deposits and collateral are reviewed almost daily and a statutorily required risk assessment is performed quarterly. Balances are collateralized in compliance with NMAC 2.60.4.

The State Treasurer invests all public monies held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance. The Treasurer deposits public monies with New Mexico financial institutions in denominations which generally are in excess of the \$250 thousand in federal deposit insurance. Accordingly, the State Treasurer requires that depository financial institutions provide additional collateral for such investments. The collateral generally is in the form of marketable debt securities and is required in amounts ranging from 50.0 percent to 102.0 percent of the par value of the investment, dependent on the institution's operating results and capital. Collateral for the fiscal agent account is required in amounts equal to 50.0 percent of the average investment balance.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2 (CONTINUED)

As of June 30, 2021, collateral pledged to public money deposits was as follows:

Office of the State Treasurer Statutory Collateral Compliance (Expressed in Thousands)

| | Fiscal Agent Account | | | rtificates Deposit |
|---|-------------------------|---------|----|-----------------------|
| Cash in Bank * Less: FDIC Insurance Coverage | \$ | 66,281 | \$ | 8,700 (750) |
| Total Unsecured Public Funds | \$ | 66,281 | \$ | 7,950 |
| Collateral Requirement (50.0% - 102.0% of Uninsured Public Funds) | s | 67,607 | s | 3,975 |
| Collateral Pledged: | | · · | | |
| U.S. Government Securities Surety Bond | \$ | 297,137 | \$ | 4,919 2,000 |
| Collateral Pledged | | 297,137 | | 6,919 |
| Over Collateralized | \$ | 229,530 | \$ | 2,944 |

^{*} Fiscal agent bank is required to collateralize the monthly average balance.

While the balances of the Office of State Treasurer are fully collateralized per state statute, *GASB Statement No. 40* requires that the State disclose balances which are not fully insured. As of June 30, 2021, the funds held by the State Treasurer in the fiscal agency account were exposed to custodial credit risk as follows:

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 2 (CONTINUED)

Office of the State Treasurer Custodial Credit Risk (Expressed in Thousands)

| | Balance at | | |
|---|---------------|-------------|--|
| | June 30, 2021 | | |
| Cash in Banks | \$ | 1,098,224 | |
| Less: Deposit of Institutions Which are | | | |
| Fully Insured and Collateralized | | (1,018,182) | |
| Deposits of Institutions Not Fully | | | |
| Collateralized | | 80,042 | |

There are six different agencies or groups which report investments for the State, each of them with separate authority and different objectives. They are: a) the Office of the State Treasurer; b) the State Investment Council; c) the Public Employee and Educational Employee Retirement Plans; d) the State universities and colleges; e) Education Trust Board; and f) State agencies with separately-held investments. In addition, the component units also report separately-held investments.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Those agencies whose investments are held by either the State Investment Council (SIC) or the State Treasurer's Local Government Investment pool (LGIP) are presented in either the SIC or LGIP disclosures, in order to prevent duplication.

State Treasurer

The State Treasurer operates four separate investment pools. They are as follows:

General Fund Investment Pool

The General Fund is the State of New Mexico's main operating account. All State revenues are credited to the State General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature.

During fiscal year 2020, the State Treasurer added mutual funds to the eligible investment options to provide additional liquidity investment alternatives.

Consolidated Investment Pool (Tax-Exempt Bond Proceeds Investment Pool #1)

The Tax-Exempt Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of tax-exempt State of New Mexico general obligation, severance tax, and supplemental severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to the true interest cost of all State of New Mexico debt outstanding and in accordance with the Investment Policy of the Office of the State Treasurer.

Consolidated Investment Pool (Taxable Bond Proceeds Investment Pool #2)

The Taxable Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of State of New Mexico severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to a benchmark and in accordance with the State Treasurer's Investment Policy.

Local Government Investment Pool (LGIP; Short-term Investment Pool)

Cities, counties, and other agencies invest monies in the State Treasurer external investment pool (LGIP). The LGIP investments are presented at fair value based on the valuation date in the financial statements. The individual participant balances remain at their amortized cost. As of June 30, 2021, LGIP amortized cost approximated fair value, with the difference deemed immaterial.

The LGIP is not SEC registered. Chapter 6-10-10.1, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies, and are either direct obligations of the United States or are backed by the full faith and credit of the United States government, or are agencies sponsored by the United States government. The LGIP investments are monitored by the same investment committee and adhere to the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the LGIP is voluntary. As of June 30, 2021, the WAM(R) of the LGIP was 25 days, and the WAM(F) was 77 days. The fund was rated AAAm by Standard & Poor's as of June 30, 2021.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Investment Guidelines and Limitations

The Investment Policy is a comprehensive guide governing the investment functions of the New Mexico State Treasurer with respect to all financial assets of the State of New Mexico invested by the State Treasurer in the exercise of their authority and for which the State Treasurer acts as the investing authority. These assets include, as examples only, the State General Fund, the LGIP, bond proceeds, bond debt service funds, and those pension and permanent funds included in Note 12 and other special funds with respect to which the State Treasurer is the investing authority.

The investment policy and the public finance investment decisions of the State Treasurer must serve and satisfy several fiduciary, fiscal, and financial obligations. In making these decisions and in resolving any conflict or competing considerations that may arise from time to time among these obligations, the State Treasurer will observe the following priority:

- Preservation of Principal to ensure the performance of basic governmental functions, the first priority must be accorded to the preservation and protection of the principal of the funds to be invested;
- Maintenance of Liquidity the second level of priority must be accorded to maintaining sufficient liquidity to satisfy the reasonable anticipated, continuing operational requirements of State Government, and
- Maximum Return the third priority must be accorded to maximizing investment return, through budgetary and economic cycles, consistent with the higher priority accorded to the security and liquidity of principal.

State Investment Council

The State of New Mexico Investment Council (Council) is responsible for the investment activities of certain State trust funds. The Council is composed of eleven members, and currently manages the Land Grant, Severance Tax, and Tobacco Settlement Permanent Funds, the Water Trust Fund, and various investment pools for the benefit of state agencies and other political entities within the State of New Mexico.

In accordance with Chapter 6-8, NMSA 1978, the Council is authorized to invest in domestic and international stocks, debt obligations of the U.S. government, its agencies, or instrumentalities, debt obligations of any U.S. or foreign corporation, partnerships, or trusts with an investment-grade rating from a national rating service, real estate investments, national private equity investments, repurchase agreements secured by U.S. obligations or other securities backed by the U.S., and hedge funds.

Pension Benefits Funds

The two pension benefits agencies are the Public Employees Retirement Association of New Mexico (PERA) and the Educational Retirement Board (ERB). PERA operates four separate cost-sharing multiple-employer public employee retirement systems, and ERB operates one such system for the benefit of educational employees in the State. More information on each of these agencies can be found elsewhere in these Notes. Each is governed by a separate Board, and each has specific investment policies and guidelines to which they must adhere.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

State Universities and Colleges

As mentioned in Note 1. B, the ten educational institutions created by the *Constitution of the State of New Mexico* are included in the State reporting entity. Eight of these institutions maintain separate investment portfolios, as permitted by statute, with some of the investments held and managed by State agencies and some managed by the institutions themselves. Each has investment policies and guidelines which are similar.

Education Trust Board

The Education Trust Board (ETB) is responsible for the management of the two higher education savings plans: Scholar's Edge, and The Education Plan (Plans). The Plans are savings vehicles for higher education expenses under Section 529 of the U.S. Internal Revenue Code. The funds are managed by a private company under contract agreement.

Individual State Agencies

Those agencies with investments in either the State Investment Council Investment Pools or the State Treasurer's Local Government Investment Pool report these investments on their balance sheet. Certain agencies are permitted to invest funds in other ways, such as certificates of deposit. These investments are permitted by statute, depending on the main purpose of the agency.

A. Fair Value

Fair Value Measurement – The State categorizes fair value measurements within the fair value hierarchy established by *GASB Statement No. 72, Fair Value Measurement and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Level 1 inputs are quoted prices (unadjusted) for identical assets in active markets, accessible at the measurement date. Level 1 inputs include exchange markets, dealer markets, brokered markets, and principal-to-principal markets.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset, either directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets and quoted prices for identical or similar assets in markets that are not active.

Level 3 inputs are unobservable inputs for an asset.

Investments that do not have a readily determinable fair value are recorded using net asset value (NAV). NAV is generally provided by the investment managers but the State considers the reasonableness of the NAV, based on market information, to arrive at the fair value estimates for each investment.

B. Custodial Credit Risk

Custodial credit risk is the risk that the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of the State (or State agency), and are held by either the counterparty or the counterparty's trust department or agent but not in the State's (or State Agency's) name.

The State Treasurer's investment policy for safekeeping and custody states that all investment securities purchased by the State, held as collateral on repurchase agreements or held as collateral on securities lending arrangements shall be held in third-party safekeeping at a fiduciary qualified to act in this capacity. All securities held for the State account will be held free and clear of any lien and all transactions will be conducted in compliance with Chapter 6-10-10(O), NMSA 1978, which requires contemporaneous transfer and same day settlement. On a monthly basis, the custodian will provide reports, which list all transactions that occurred during the month, and all securities held for the State at month-end, including the book and market value of holdings. The fiscal agent and representatives of the custodian responsible for, or in any manner involved with, the safekeeping, and custody process of the State shall be bonded in such a fashion as to protect from losses from malfeasance and misfeasance. All investment and collateral securities were held by the State Treasurer or its Custodian in the name of the State Treasurer.

Public Employees Retirement Association (PERA's) securities are held by a third-party custodian, independent of any counterparty. The Custodian holds assets directly, through its agents, its sub-custodians, or designated clearing

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

systems, and is responsible for delivery, receipt, pricing, valuation, and record-keeping services for all securities. PERA reports securities valued at \$ 7.81 billion as held in the name of the investment fund by the fund's custodian bank, and \$ 9.56 billion held under custody arrangements contracted by fund managers.

Education Retirement Board (ERB's) securities are held by a financial institution as a third-party custodian, independent of any counterparty, and are held in the name of ERB. All investments of the State Investment Council (SIC) are held in the name of SIC. All investments of the Retiree Health Care Authority (RHC) are held by SIC. All investments of the Education Trust Board (ETB) are held in the name of that Board.

The University of New Mexico reports that the primary institution had no exposure to custodial credit risk at June 30, 2021. Its discretely-presented component units had exposure for a total of \$ 10.80 million. All of the other schools reported no exposure to custodial credit risk. The assets held by New Mexico State University Foundation on behalf of NMSU, which total \$51.85 million, could not be determined to be either subject to or not subject to custodial credit risk.

C. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. U.S. obligations or investments guaranteed by the U.S. Government are excluded from this requirement. The quality rating of PERA's investment policy restricts investments to specific investment ratings issued by nationally recognized statistical rating organizations.

ERB requires that noncash, interest-paying securities in the high-yield bond portfolios may not exceed 5.0 percent of the market value of the portfolio and that investments in cash may represent no more than 5.0 percent of each individual fund. Credit risk is managed through diversification and by operating within defined parameters versus a benchmark index.

ETB invests directly in Underlying Investments. The registered Underlying Investments' prospectuses provide greater detail about the investment strategies and practices of the Underlying Investments, in compliance with federal regulations and specifically, the Form N-IA of the Investment Company Act of 1940. Form N-IA discloses information and policies about the Underlying Fund and its investment objectives, as well as information on the company structure and operations. In addition, the Program Disclosure Statement and the Participation Agreement provide greater detail about the credit risk, if any, by certain non-registered Underlying Investment.

The quality ratings of investments in fixed income securities at June 30, 2021, were as follows:

D. Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. It is the policy of the State to diversify its investments portfolios. Assets shall be diversified to reduce the risk of loss resulting from an over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. At June 30, 2021, there were no holdings with a single issuer comprising five percent or more of total net investments. It should be noted that investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

E. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Investment managers attempt to match investments with anticipated cash requirements so as to lessen this risk.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager. Duration is loosely defined as the dollar weighted average time to recover all of principal and fixed-income investment. PERA's fixed-income managers are typically limited to duration of plus or minus one year or 20.0 percent of the duration of the applicable portfolio benchmark. ERB does not have a policy for interest rate risk management. However, interest rate risk is managed through duration by operating within defined risk parameters versus a benchmark index.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Securities Lending

The State Public Employee Retirement Association (PERA) participates in a securities lending program as authorized by State statute and its Board policies. Both the State Investment Council and the Educational Retirement Board have terminated their lending programs.

The types of securities lent are U.S. Treasury Notes and Bonds, U.S. and international equity securities, and corporate bonds and notes. Under this program, securities are transferred to an independent broker-dealer or other lending agent in exchange for collateral in the form of cash, government securities, and/or irrevocable bank letters of credit, with a simultaneous agreement to return the collateral for the same securities in the future. The collateral must equal at least 102.0 percent of the market value of the securities.

Per Board policy, PERA may invest the cash collateral in eligible securities or other investments as defined in the governing securities lending agreement. The duration of investments so made does not generally match the maturities of securities loaned. Securities received as collateral may not be pledged or sold without borrower default.

Total securities on loan at June 30, 2021, had a carrying amount and fair value of \$585.9 million. Under the agreement, the lending agent is required to indemnify the entity if the borrower fails to return the securities, if collateral is inadequate to replace the securities lent, or if the counterparty fails to pay the entity for income distributions by the securities' issuers while the securities are on loan. There were no such losses during the year ended June 30, 2021, due to borrower default.

The fair value of investments made with cash collateral is reported as an asset; the fair value of collateral received is recorded as a liability as PERA must return the cash collateral to the borrower upon the expiration of the loan. The fair value of the securities lending collateral investments was \$312.6 million and the securities lending obligations were \$312.5 million at June 30, 2021. Total cash and noncash collateral was \$625.9 million, 106.8% of the fair value of the securities on loan.

As of June 30, 2021, there had been no losses resulting from borrower defaults and PERA had no credit risk exposure to borrowers because the amounts PERA owed to borrowers did not exceed the amounts the borrowers owed to PERA. Net earnings from the securities lending program totaled \$1.7 million for the fiscal year.

Derivatives

Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. The State's retirement funds' investment policies allow certain portfolio managers to trade in certain derivatives for hedging purposes.

The notional or contractual amounts of derivatives indicate the extent of the State's involvement in the various types and uses of derivative financial instruments and do not measure the State's exposure to credit or market risks, and they do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and other terms of the derivatives.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

Risk – There are certain risks inherent in investments in derivatives. Counterparties to financial instruments expose the State to credit risk in the event of nonperformance. The fund managers that are authorized to invest in derivatives

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

are given specific parameters as to the types of derivatives invested in and ratings of the counterparties they are allowed to enter into contracts with to ensure transactions are entered into with only high quality institutions. The State is exposed to market risk; the risk that changes in market conditions may make an investment less valuable. Exposure to market risk is managed within risk limits set by management through buying and selling of specific instruments or by entering into offsetting positions. Foreign currency risk for investments is the risk that changes in exchange rates will adversely affect the investments. Managers of these assets are given discretion to hedge this risk.

Types of Derivatives Instruments

Foreign Currency Exchange Contracts. The State's retirement funds may enter into forward contracts to purchase and sell foreign currencies in the normal course of its investing activities to manage the currency exposure associated with the State's foreign equity and fixed income investments. The terms of these contracts generally do not exceed one year. The credit risk associated with these contracts is minimal as they are entered into with a limited number of highly rated counterparties.

Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. Gains and losses on foreign currency may occur to the extent that the fair value of the contracts varies from the actual contract amount, and they are recorded as incurred in the financial statements.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

The following table summarizes the foreign exchange contracts by currency held by the Education Retirement Board as of June 30, 2021:

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Futures Contracts. The State's retirement funds enter into futures contracts in the normal course of its investing activities, including equity futures, fixed income futures, and commodities futures. They are utilized in order to manage market risk associated with the equity and fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of Net Position available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges.

During 2021 and 2020, the retirement funds were a party to futures contracts held for trading purposes for U.S. Treasury bonds and 90-day Euro dollar fixed income futures. Upon entering into a futures contract, the Board is required to deposit either in cash or securities an amount ("initial margin") equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by NMERB, depending on the daily fluctuation in the value of the underlying contracts. No U.S. Treasury securities owned and included within NMERB's investments, were held by the Plan's broker as performance security on futures contracts as of June 30, 2021.

Options. An option is a contract in which the writer of the option grants the buyer of the option the right to purchase from (call option), or sell to (put option) the writer a designated instrument at a specified price within a specified period. Both written and purchased options were used by the State during the fiscal year. When the State purchases or writes an option, an amount equal to the premium paid or received by the State is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. Gain or loss is recognized when the option contract expires or is closed. As of June 30, 2021, there were no open written or purchased options.

Swap Contracts. Swap contracts are executed on a number of different bases. The two types employed by the State during the fiscal year were interest rate swap contracts and credit default swap contracts. An interest rate swap contract is an agreement between two parties to exchange periodic interest payments. One party agrees to make payments to the other based on a fixed rate of interest in exchange for payments based on a variable rate. The State employs interest rate swap contracts to adjust fixed income portfolio durations. A credit default swap contract is similar to an insurance policy; with the credit risk of an individual issuer or a basket of issuers (the "reference asset") the insured factor. Under such a contract, two parties enter into an agreement whereby the first party pays the second party a fixed periodic payment for the specified life of the contract (analogous to an insurance premium). The other party makes no payment unless a credit event related to the reference asset occurs. If such an event takes place, the second party is obligated to make a payment to the first party. The size of the payment is linked to the decline in the reference asset's market value following determination of the occurrence of a credit event.

Hedge Funds. The use of other derivatives is allowed under the Hedge Fund Investment Policy. These investments are under the management of the Hedge Fund managers who are employed in the "Hedge Fund", "Emerging Market Debt," and "Opportunistic Credit" classifications.

NOTES TO THE FINANCIAL STATEMENTS – NOTE 3 (CONTINUED)

Asset-Backed Securities. The State invests in various forms of asset-backed securities, which fit the previous definition of derivative securities. These securities are held for investment purposes. The credit risk, interest rate risk, and foreign currency risk for these instruments are summarized in the following table:.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 4 (CONTINUED)

Accounts receivable balances are an aggregation of amounts due from the federal government, customers, and others. Receivables from customers include charges for services to local governments, fees and fines issued by the courts and corrections, employer contributions for unemployment benefits, amounts from investment brokers, interest earnings, general and selective income taxes, and receivables because of overpayments to individuals receiving state assistance.

Arizona Water Settlement

The State of New Mexico entered into the Arizona Water Settlement with the federal government. Under the terms of the agreement, the federal government will pay the State of New Mexico a total of \$66 million in 2004 dollars adjusted for inflation, in 10 annual installments. The inflation adjusted amount is estimated at \$90.4 million. The installment of \$9.02 million was received by the Agency during the fiscal year ended June 30, 2021. The settlement was paid off during fiscal year 2021.

The amounts received under this settlement agreement are restricted to costs of a New Mexico Unit that would develop all or some of the water provided to New Mexico in the Arizona Water Settlement Act, for water utilization alternatives that meet a water supply demand, planning, environmental restoration, or mitigation.

Discrete Component Units

The following is an analysis of the allowance for loan losses as of June 30, 2021 for the two largest discretely-presented component units (in thousands):

NMFA & NMMFA - Loan Loss Allowance

| | NM | Finance | N | M Mortgage | |
|--------------------------------------|----|---------|------------|------------|--|
| | A | thority | Fin. Auth. | | |
| Beginning Balance | S | 1,629 | S | 5,847 | |
| Provision for Loan Losses | | 5,346 | | 65 | |
| Loans Written Off, Net of Recoveries | | (48) | | 2,559 | |
| Ending Balance | S | 6,927 | \$ | 8,471 | |

NM Finance Authority Loans have repayment terms ranging from one to 30 years. The stated interest rates are between 0.0-6.0 percent. NMMFA mortgage loans have repayment terms ranging from 10 to 40 years. The stated interest rates for these programs are as follows:

NMMFA - Loan Repayment Terms

| Rental Housing Programs | 2.5% - | 7.0% |
|-------------------------|--------|------|
| Other Mortgage Loans | 0.0% - | 8.4% |
| Second Mortgage Down | | |
| Payment Assistance | | |
| Loans | 0.0% - | 6.6% |

MBSs have stated interest rates ranging from 2.3% and 7.5%.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 5

NOTE 5. Interfund and Interagency Receivables, Payables, and Transfers

Interfund receivables and payables balances result from the time lags between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and 3) payments between funds are made.

Transfers between funds occur when one fund collects revenue and transfers the assets to another fund for expenditure or when one fund provides working capital for another fund. All transfers must be legally authorized by the Legislature through statute or an Appropriation Act. Transfers during the year were made to finance the operations of the individual departments as authorized by the Legislature and to revert (transfers out) any unspent or unencumbered balance of the authorized appropriations. Transfers between the primary government and the fiduciary funds and component units are reclassified as expenditures in the government-wide financial statements.

The composition of interfund balances as of June 30, 2021, is as follows (in thousands):

| | | | | | Transfers | | Transfers |
|---|----|---------|---------------|----|-----------|----|-----------|
| | D | ue From | Due To | | In | | Out |
| Governmental Activities: | | | | | | | |

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 6 (CONTINUED)

NOTE 7. Deferred Outflows of Resources

A. Deferred Charge on Refunding

The State issued multiple series of refunding bonds in prior years to advance-refund certain older issues. Thus, the bonds which were advance-refunded are considered defeased in substance. The excess of the reacquisition price (funds required to refund the old debt) over the net carrying amount of the old debt resulted in a loss, reported as a deferred outflow of resources. For fiscal year ending June 30, 2021, the deferred outflow of resources for governmental activities and business-type activities were as follows (in thousands):

Deferred Charge on Refunding

| | Gov | ernmental | Bus | iness-type |
|-------------------|-----|-----------|-----|------------|
| Beginning Balance | \$ | 60,212 | \$ | 5,368 |
| Additions | | 1,483 | | 4,954 |
| Deletions | | (24,334) | | (215) |
| Ending Balance | \$ | 37,361 | \$ | 10,107 |

B. Interest Rate Swaps

In the course of bond refunding transactions, the State has entered into transactions termed interest rate swaps, which are classified as hedges. This has resulted in items classified as a deferred outflow of resources. For more information on these interest rate swaps, see Notes 8 G and 8 H.

B. General Obligation Bonds

The State issues general obligation bonds to provide funds for the acquisition, construction, and renovation of major capital facilities for local governments as authorized by the Legislature of the State of New Mexico. General obligation bonds are direct obligations and pledge the full faith and credit of the State. These bonds generally are issued as 10-year serial bonds with equal amounts of principal maturing each year. Funding for the payment of the debt service of the general obligation bonds is provided through the collection of property taxes levied by the local governments receiving the funding for capital spending.

On May 27, 2021, the State issued G. O. Bonds Series 2021 in the par amount of \$166.7 thousand, with a premium of \$32.9 thousand, and carrying an interest rate of 5.00 percent. The proceeds of the bonds will be used for capital improvements for senior citizen centers, libraries, and higher education facilities.

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

C. Severance Tax Bonds

Severance tax bonds are used to fund the capital needs of state agencies, local governments, and public and higher education as authorized by the Legislature of the State of New Mexico. In addition, severance tax bonds have been issued to refund severance tax bonds. Funding for the payment of the debt service of the severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources, such as minerals, oil, and gas. The severance tax bonds are secured by the levied taxes. This is a permanent commitment of a portion of total severance tax revenues. As authorized by State statute, severance tax revenues are transferred to the Severance Tax Bonding Fund and first pay the required debt service on severance tax bonds and supplemental severance tax bonds issued by the State, with the remainder being transferred to the Severance Tax Permanent Fund. For the year ended June 30, 2021, total severance tax revenues transferred to the Severance Tax Bonding Fund were \$631.7 million. The total principal and interest requirements were \$168.4 million for long-term debt and \$561.8 million for short-term debt for all severance tax and supplemental severance tax bonds and short-term notes.

On November 3, 2020, the State issued Severance Tax Bonds Series 2020A in the amount of \$ 94.7 thousand, with a premium of \$ 22.6 thousand, and carrying an interest rate of 5.00 percent. The proceeds will be used to finance capital improvements approved by the State Legislature.

On June 29, 2021, the State issued Severance Tax Bonds Series 2021A in the amount of \$ 317.2 thousand, with a premium of \$ 74.6 thousand, and carrying an interest rate of 5.00 percent. The proceeds will be used to finance capital improvements approved by the State Legislature.

D. Short-term Debt

Per Section 7-27-8 NMSA, the Office of State Treasurer is required to transfer any money left in the Severance Tax Bond Fund every June 30 and December 31 to the Severance Tax Permanent Fund. The State Board of Finance issues short-term Severance Tax Notes, which are of one to three days duration, in order to more fully utilize the excess cash until such time as it is transferred. During the fiscal year 2021, short-term notes were sold and redeemed as follows:

| | _ | inning lance | Issued | | R | edeemed | Ending Balance | | |
|--------------|---|-----------------|--------|---------|---|-----------|-------------------|--|--|
| Sponge Bonds | S | | \$ | 396,228 | S | (396,228) | S | | |

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

E. Revenue Bonds

The State also issues bonds where the government pledges certain revenue for the payment of debt service. These revenues are generally a particular agency's share of the governmental gross receipts tax. For those sold for the State Department of Transportation, these also include gasoline excise taxes, motor vehicle registration fees, and other fees required by law to be paid into the State Road Fund. For those issued for higher education institutions, these revenues include tuition fees, distributions from the State Permanent Fund, and other miscellaneous revenue sources.

Revenue bonds payable are as follows:

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

F. Conduit Debt Component Unit

Accounting Standards define conduit debt obligations as certain limited obligation revenue bonds, certificates of participation, or similar debt instruments issued by a state or local government entity for the express purpose of providing capital financing for a specific third party that is not part of the issuer's financial reporting entity. Although the conduit debt obligations bear the name of the issuer, the entity has no obligation for such debt beyond the resources provided by a lease or loan with the third party on whose behalf they are issued.

The New Mexico Hospital Equipment Loan Council, a discretely-presented component unit, has issued revenue bonds, lease purchase agreements, and master financing agreements to provide financing for the acquisition and construction of equipment and facilities. These bonds, lease purchase agreements and master financing agreements are secured by the property financed and are payable solely from payments received on the underlying loans. Neither the Council nor any political subdivision of the State is obligated in any manner for repayment of either the bonds or the lease purchase or master financing agreements. Accordingly, the bonds and the obligations under the lease purchase and master financing agreements are not reported as liabilities in the accompanying financial statements.

At June 30, 2021, conduit debt obligations outstanding are as follows:

New Mexico Hospital Equipment Loan Council Conduit Debt

Debt Service for Current Year: \$ 4.5 million

Business-type Activities

Agency: Miners' Colfax Medical Center

Purpose of Bonds: Improvement and expansion of medical facilities

Total Amount of Bonds Issued: \$17.8 million

Type of Revenues Pledged: Center's share of distributions from the State Land Grant and the

Charitable, Penal, and Reform Permanent Funds

Total Debt Service Remaining: \$ 7.6 million

Term of Commitment: Through June 30, 2027

Revenue Stream for Current Year: \$7.6 million
Debt Service for Current Year: \$1.3 million

Agency: Educational Institutions (UNIM, NIMSU, ENIMU, VINIMU, NIMMI,

NMHU, NM Tech)

Purpose of Bonds: Construction and improvement of various capital facilities

Total Amount of Bonds Issued: \$1.3 billion

Type of Revenues Pledged: Substantially all unrestricted revenues, including Permanent Fund

distributions, student fees, and income from revenue-producing facilities, but excluding state appropriations and income from clinical operations.

Total Debt Service Remaining: \$1.0 billion

Term of Commitment: Through June 30, 2047

Revenue Stream for Current Year: \$632.1 million

Debt Service for Current Year: \$235.2 million

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

H. Other Liabilities

Compensated Absences

Compensated absences of governmental activities are liquidated in the General Fund. Claims liabilities of governmental activities of the Internal Services agencies are liquidated in the Internal Service Fund. Compensated absences of business-type activities are liquidated in the respective fund of obligation.

Pollution Remediation Obligation

The State is responsible for environmental management to reasonably protect human health and the environment in accordance with the Environmental Improvement Act, Chapter 74-1-1, NMSA 1978 (Act). Governmental Accounting Standards Board Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (GASB 49) provides guidance in estimating and reporting the potential costs of pollution remediation.

The following details the nature of the identified sites:

Leaking Petroleum Storage Tanks (LPST)

The State oversees cleanups of LPST sites and reimburses eligible parties from the PST corrective action fund, which has paid for the vast majority of LPST cleanups. However, for Priority 1 State Lead sites, in which there is an imminent danger to the public health or environment, the State has obligated itself to begin remediation cleanup activities as a result of an unwilling or unable property owner in the amount of \$1.7 million as of June 30, 2021.

Superfund

The Superfund Oversight Section of the State assists the United States Environmental Protection Agency (EPA) in characterization of inactive hazardous waste sites; identifies sites which warrant remedial or removal action under Superfund (CERCLA); and oversees remedial activities and provides management assistance to EPA at Superfund sites listed on the National Priorities List (NPL). There are currently 16 listed Superfund sites in New Mexico which are in various stages of investigation and remediation. One of the 16 listed Superfund sites was placed on the NPL in April 2016. The site is currently in the remedial investigation phase in which no financial obligation exists. The Department estimates it will take at least 2 or 3 years before a Record of Decision is issued by the EPA. As of June 30, 2021, this site is excluded from the estimated pollution remediation liability which for Superfund sites totals \$39.3 million.

The total pollution remediation liability for both the LPST and Superfund sites are as follows:

| Е | alance | | | | | E | Balance |

NOTES TO THE FINANCIAL STATEMENTS - NOTE 8 (CONTINUED)

Indian Water Rights Liability

New Mexico currently has three Indian water rights settlements pending implementation: the Navajo Nation Settlement in the San Juan River adjudication, the Settlement Agreement with the Pueblos of Nambe, Pojoaque, Tesuque, and San Ildefonso in the Aamodt adjudication, and the Taos Pueblo Settlement in the Rio Pueblo de Taos/Rio Hondo adjudication. For each of these three settlements, a settlement agreement was executed in 2005 or 2006 by the tribe or Pueblos and the State of New Mexico. The Aamodt and Taos Pueblo settlement agreements also were executed by other water right owning parties. Subsequent to the passage of federal legislation authorizing each of the settlements in 2009 and 2010, the Secretary of the US Department of Interior signed all three settlement agreements on behalf of the United States. Copies of the three fully-executed settlement agreements and related documents can be found at: www.ose.state.nm.us/legal ose proposed settlements.html.

Each of the agreements involves a contribution from the State of New Mexico in the form of construction of infrastructure. The value of infrastructure and mutual benefits projects contemplated in the three settlements are estimated at more than \$1.6 billion as of June 30, 2021. The State will not own the infrastructure once completed; the infrastructure and projects will be owned by tribal and local governments.

A portion of the State's share includes \$10 million on non-mandatory expenditures for ditch rehabilitation under the Navajo Settlement. The State has met its cost share obligations under the Taos Pueblo settlement.

The State has recognized the estimated liability of \$21 million in the financial statements as of June 30, 2021.

A summary of the funds appropriated towards the settlements follows (presented in thousands):

| Indian Water Rights Settlement: | | Total Cost Share | Appropriated Funds | | Unappropriated Balances | | |
|------------------------------------|----|---------------------|-----------------------|---------|----------------------------|---------|--|
| Aamodt | \$ | 104,500 | S | 61,989 | S | 42,411 | |
| Taos | | 20,050 | | 20,661 | | (611) | |
| Navajo | _ | 30,949 | | 32,225 | | (1,276) | |
| Total | S | 155,499 | S | 114,875 | S | 40,524 | |

A summary of the funds disbursed and the remaining liability follows (presented in thousands):

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Due to the fact that the timing of the payments is subject to obtaining appropriations, the amount due for these settlements and any related cost indexing is based on best estimates.

I. University of New Mexico

Standby Purchase Agreements

Standby Purchase Agreements provide liquidity support on variable rate bonds that are remarketed weekly. The liquidity/commitment fees are based on a percentage of the outstanding bond balance, payable semiannually. Liquidity fees for the years ended June 30, 2021 and 2020 were \$273 and \$238, in thousands, respectively. An agreement with U.S. Bank was entered into on December 31, 2014 for a three year term expiring December 29, 2020. The University has entered into negotiations with U.S. Bank for a possible three year extension of the agreement.

A schedule including maturities and fees is as follows (in thousands):

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Risks

Credit Risk

Each of UNM's derivative instruments is held with the same counterparty except for Derivative Instrument D. Deterioration of credit ratings could indicate a potential inability of the counterparty to make the required periodic payments. The credit ratings for each of the counterparties are as follows:

| | Moo | dy's | S & | ł P | Fitch | | |
|----------------|-----------------------|------|-----------------------|-----|---------------------|-----|--|
| Entity | L/T Rating S/T Rating | | L/T Rating S/T Rating | | L/T Rating S/T Rati | | |
| JP Morgan | Aa2 | Pl | A+ | Al+ | AA | Fl+ | |
| RBC Royal Bank | A2 | Pl | AA- | Al+ | AA | Fl+ | |

Interest Rate Risk

UNM is exposed to interest rate risk on its receive-variable, pay-fixed underlying interest rate swaps. As the Securities Industry and Financial Markets Association (SIFMA) swap index decreases, the University's net payment on the underlying swaps increases. Alternatively, on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, as LIBOR and the SIFMA swap index increases, the University's net payment on the overlay swaps increases.

Basis Risk

The variable-rate debt hedged by UNM's derivative instruments are variable-rate demand obligation (VRDO) bonds that are remarketed every seven days. The University is exposed to basis risk on its pay-variable (SIFMA), receive-variable (USD Swap Rate) overlay interest rate swaps, because the variable-rate payments received by the University on these derivative instruments are based on a rate USD Swap Rate other than the index (SIFMA) the University pays on the VRDO bonds. At June 30, 2021, the interest rate on the University's variable-rate hedged debt (SIFMA) is 0.03 %, while the 63.55% of five year USD Swap Rate + 0.31% is 0.60 %.

Termination Risk

UNM or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. In addition, UNM is exposed to termination risk on Derivative Instruments B and C because the contract provides the counterparty with a knockout option to terminate the contract if the 180-day SIFMA is equal to or greater than 7.0 percent. The 180-day SIFMA is defined as the weighted average rate taken off the USD floating SIFMA Index Rates published within the previous 180-day period. If at the time of termination, a derivative instrument were in a liability position, UNM would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

Rollover Risk

UNM is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the debt. When these derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, UNM will be re-exposed to the risks being hedged by the derivative instrument. Derivative Instruments B and C expose UNM to rollover risk because the counterparty has the option to terminate the contract by exercising a knockout option.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 8 (CONTINUED)

Foreign Currency Risk

UNM has no exposure to foreign currency risk from its derivative instruments.

Commitments

All of UNM's derivative instruments include provisions that require UNM to post collateral in the event its credit rating falls below certain levels. UNM has entered into a two-way Credit Support Annex (CSA) with the swap counter-parties, which is based on each party's long-term unsecured unsubordinated debt rating. The following matrix dictates the potential collateral postings if the swaps mark-to-market values are above the mandated thresholds (in thousands):

| | S | Swap MTM | | | | | | | | | |
|-----------------|---------------|---------------|--------|--|--|--|--|--|--|--|--|
| | Th | Threshold for | | | | | | | | | |
| Rating | Party's A & B | | | | | | | | | | |
| AA/Aa2 and > | USD | \$ | 25,000 | | | | | | | | |
| AA-/Aa3 | USD | \$ | 20,000 | | | | | | | | |
| A+/A1 | USD | \$ | 15,000 | | | | | | | | |
| A/A2 | USD | \$ | 10,000 | | | | | | | | |
| A-/A3 | USD | \$ | 5,000 | | | | | | | | |
| BBB+/Baa1 and < | USD | \$ | _ | | | | | | | | |

The collateral to be posted is to be in the form of U.S. Treasury securities in the amount of the fair value of derivative instruments in liability positions net of the effect of applicable netting arrangements. If UNM or the counterparty does not post collateral, the derivative instrument may be terminated. UNM's credit rating is AA/Aa2 at June 30, 2021; therefore, no collateral has been posted.

Derivative Instrument Payments and Hedged Debt

As of June 30, 2021, aggregate debt service requirements of UNM's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are presented below. These amounts assume that current interest rates on variable-rate bonds and current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary. The hedging derivative instruments column reflects only net receipts/payments on derivative instruments that qualify for hedge accounting (in thousands).

Fiscal Year Changes in Swap Valuations

UNM has entered into interest rate swaps as shown in the prior schedule. The swaps were put in place starting in fiscal years 2002 and 2003. The University has recorded the swaps at their estimated fair values as of June 30, 2021. Swaps A through D are deemed cash flow hedges, and therefore, in addition to recording the liability at fair value, the University has recorded an offsetting deferred outflow of resources. Annually, the changes to the fair values are recorded as an increase or decrease to the liability and the offset to the deferred outflow of resources. The fair value change in fiscal year 2021 for the hedge instruments was a \$2.4 million increase to the liability and an equal offsetting increase to the deferred outflow of resources. Swaps E and F are not cash flow hedges, but rather are considered investment swaps, and changes in their fair value are recorded as investment gain (loss). The fair value change for swaps E and F as of June 30, 2021, was recorded to unrealized gain in the amount of \$155.

NMSU issued a tax-exempt Subordinate Lien Improvement Revenue Note, Series 2014 on April 21, 2014 in a direct purchase with BOKF, NA dba Bank of Albuquerque. The original principal amount of the note was \$15.9 million and the interest rate is 3.07%. The note is payable solely from, and secured by, a pledge of, and a non-exclusive subordinate lien on the following revenues: student tuition and fees; sales and service revenue; other operating revenue; investment income; and building fees. The note matures April 1, 2029.

Miners Colfax Medical Center obtained a loan through the Paycheck Protection Program in fiscal year 2020 with the Federal Government. The total amount is \$3.16 thousand, of which the full amount was forgiven during the year.

NOTES TO THE FINANCIAL STATEMENTS - NOTE 9

NOTE 9. Net Position and Fund Equity

A. Governmental Fund Balances

Fund balances of governmental funds are classified as:

- Non-spendable amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be intact. Examples include inventories and permanent fund principal.
- Restricted amounts where legally enforceable constraints are imposed by an external party such as a grantor, by the State Legislature, or by the constitution at the same time the revenue is created.
- Committed amounts where constraints are imposed by formal action of the government's highest level of
 decision-making authority, the State Legislature or the Governor, which cannot be used for any other purpose
 unless the constraint is changed by similar action. These constraints are imposed separately from the creation
 of the revenue.
- Assigned amounts where constraints are imposed on the use of resources through the intent made by any
 level of decision-making authority in the government if the governing body has expressly delegated that
 authority to the official or to a committee.
- Unassigned the residual amount after all classifications have been considered. The General Fund is the only fund that reports a positive unassigned fund balance.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 10

NOTE 10. Leases

Operating Leases

The State leases building and office facilities and other equipment under operating leases. Although the lease terms vary, most leases are subject to annual appropriations from the State Legislature to continue the lease obligation. If an appropriation is reasonably assured, leases are considered non-cancellable for financial reporting purposes.

Operating leases contain various renewal options, as well as some purchase options; however, due to the nature of the leases, they do not qualify as capital leases and the related assets and liabilities are not recorded. Operating lease payments are recorded as expenditures or expenses when paid or incurred. Commitments under operating leases are as follows (in thousands):

| | Gov | Governmental | | iness-type | Fiduciary | | |
|-------------|-----|--------------|----|------------|-----------|-------|--|
| 2022 | \$ | 67,261 | \$ | 6,482 | \$ | 143 | |
| 2023 | | 62,035 | | 4,624 | | 128 | |
| 2024 | | 54,372 | | 3,255 | | 132 | |
| 2025 | | 49,203 | | 2,553 | | 136 | |
| 2026 | | 36,832 | | 1,007 | | 140 | |
| 2027 - 2031 | | 39,015 | | 3,679 | | 629 | |
| 2032 - 2036 | | 5,413 | | 577 | | - | |
| 2037 - 2041 | | 743 | | 355 | | - | |
| 2042 - 2046 | | - | | 233 | | - | |
| Thereafter | | 136,804 | | 109 | | - | |
| Total | \$ | 451,678 | \$ | 22,874 | \$ | 1,308 | |

Operating lease expenditures/expenses for fiscal year 2021 for governmental activities, business-type activities, and fiduciary activities, respectively (in thousands) were \$86,309, \$9,401, and \$147.

Capital Leases

The State is obligated under lease purchase contracts. In the opinion of counsel for the State, these lease purchase contracts comply with the State Supreme Court Montano vs. Gabaldon decision, in that payments for these will be made from Special Revenue Funds and not from general tax revenue.

Leases, that in substance are purchases, are reported as capital lease obligations. In the government-wide financial statements and proprietary fund financial statements, assets and liabilities resulting from capital leases are recorded at the inception of the lease at either the lower of fair value or the present value of future minimum lease payments. The principal portion of lease payments reduces the liability, and the interest portion is expensed. On the governmental fund financial statements, both the principal and interest portions of capital lease payments are recorded as expenditures of the applicable governmental function.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 10 (CONTINUED)

As of June 30, 2021, the State did not have any capital lease obligations for governmental activities. The State does have outstanding capital leases for business type activities. Commitments under capital leases are as follows (in thousands):

| | Busi | Business-type | | | |
|-------------------------|------|---------------|--|--|--|
| | | | | | |
| 2022 | \$ | 476 | | | |
| 2023 | | 373 | | | |
| 2024 | | 279 | | | |
| 2025 | | 289 | | | |
| 2026 | | 12 | | | |
| | | 1,429 | | | |
| Less Amounts | | | | | |
| Representing Interest | | (45) | | | |
| Present Value of Future | | | | | |
| Minimum Lease Payments | \$ | 1,384 | | | |

The carrying value of assets consisting of office equipment, computer equipment, and land for NMSU acquired under these arrangements is \$1.72 million.

Lessor Revenue

The State is also the lessor of office space. Amounts to be received in future years are as follows (in thousands):

| | Gove | ernmental | Business-type | | | |
|-------------|------|-----------|---------------|--------|--|--|
| 2022 | S | 3,715 | \$ | 9,432 | | |
| 2023 | | 3,863 | | 7,566 | | |
| 2024 | | 4,016 | | 6,266 | | |
| 2025 | | 4,133 | | 5,255 | | |
| 2026 | | 4,233 | | 4,877 | | |
| 2027 - 2031 | | - | | 19,709 | | |
| 2032 - 2036 | | - | | 17,836 | | |
| 2037 - 2041 | | - | | 5,952 | | |
| 2042-2046 | | - | | 3,004 | | |
| Thereafter | | - | | 2,536 | | |
| | \$ | 19,960 | \$ | 82,433 | | |

The historical cost for the assets which are leased is \$129.7 million for governmental activities (mostly for use of hangar and runway facilities at the Spaceport) and \$145.0 million for business-type activities.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 11

NOTE 11. Risk Management

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through its Internal Service Fund (ISF). Coverage is provided for the following:

Workers' Compensation
Civil Rights and Foreign Jurisdiction
Aircraft
Money and Securities
Health/Life
General Liability
Automobile
Property
Employee Fidelity Bond
Short-term & Long-term Disability

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through Enterprise Funds within the Risk Management Division (RMD) of the General Services Department. The RMD services all claims for risk of loss to which the State is exposed, including general liability, property and casualty, workers' compensation, employee health and accident, and unemployment compensation. The Department has coverage for general liability and civil rights claims through the Public Liability Fund administered by the State of New Mexico's Risk Management Division. The dollar amount "limits" of the insurance coverage are the damages caps set forth in the Tort Claims Act, NMSA Section 41-4-19, which may be amended from time to time by the legislature. All funds, agencies, and authorities of the State participate in Risk Management. Risk Management allocates the cost of providing claims servicing and claims payment by charging a "premium" to each fund, agency or public authority based on claims history and exposure of each participant. The charge considers recent trends in actual claims experience of the State as a whole and makes provision for catastrophic losses.

ISF fund liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Total insurance claims payable at June 30, 2021, were \$167.3 million. The amounts of the liabilities are determined by independent actuarial consultants to the ISF. The total liability is shown in the accompanying financial statements at the present value of the payments, computed at 2.0 percent annual rate, between June 30, 2021 and the date the claims are ultimately expected to be paid.

Insurance claims payable presented are actuarial computed estimates of the costs of administering, defending, and settling claims for events that had occurred as of the year-end. Since these estimates are based on historical information and various statistical measures, actual amounts paid may vary significantly from the amount estimated by the fund actuaries and reported herein. The basis of estimating the liabilities for unpaid claims is found in the independent actuarial report.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 11 (CONTINUED)

The following shows the reconciliation of changes in the unpaid claims in the ISF, which are stated at present value (in thousands):

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12

NOTE 12. Pension Plans

A. Plan Descriptions

The State maintains five public employees' retirement systems (Systems): Four separate systems are administered by the New Mexico Public Employees' Retirement Association (PERA) and one system is administered by the New Mexico Educational Employees' Retirement Board (ERB).

PERA is the administrator of the Public Employees Retirement System (PERS), the Judicial Retirement System (JRS), the Magistrate Retirement System (MRS), and the Volunteer Firefighter Retirement System (VFRS). ERB is the administrator of the Educational Employees Retirement System (EERS). Collectively, the Systems offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of the Systems are set forth in Chapter 10, NMSA 1978, and applicable Replacement Pamphlets.

PERA is directed by the Public Employees Retirement Board (Board), which consists of twelve members. Ten of the Board members are elected by PERA active and retired members under state and municipal coverage plans. Two Board members, the Secretary of State and the State Treasurer, are ex-officio members.

PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, 33 Plaza la Prensa, Santa Fe, NM 87507.

ERB is directed by the Educational Retirement Board, composed of seven members. Board members include:

Secretary of Public Education, who is appointed by the Governor;

State Treasurer;

One member elected by the membership of the NM Association of Educational Retirees;

One member elected by the membership of the National Education Association of New Mexico;

One member elected by the membership of the American Association of University Professors;

Two members appointed by the Governor

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

The ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to ERB, PO Box 26129, Santa Fe, New Mexico 87502.

The number of participating government employers, and the number of members for each system for the year ended June 30, 2021, were (not in thousands):

B. Funding and Benefit Policies

Public Employees Retirement System (PERS) – This plan is a cost sharing, multiple - employer defined benefit pension plan with six divisions of members: State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10-11-3, NMSA 1978.) Except as provided for in the Volunteer Firefighter Retirement Act (Chapters 10-11A-1 to 10-11A-7, NMSA 1978), the Judicial retirement Act (Chapters 10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (Chapters 10-12C-1 to 10-12C-18, NMSA 1978), the Educational Retirement Act (Chapter 22-11, NMSA 1978), and the provisions of Chapters 29-4-1 through 29-4-11, NMSA 1978, governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded. Senate Bill 72

^{*} Note: PERA Retirement Fund includes the Legislative Fund

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

- Increases employer and employee contributions each year by .5 percent for State General Plan employees for fiscal year 2021, 2022, 2023 and 2024, excludes State Police and Adult Correctional Officer Plan 1 and active members with wages under \$25,000.
- For three fiscal years replaced the current compounding annual 2% COLA with a 2% non-compounding additional payment (13th check) and beginning July 1, 2023, changing to a profit sharing COLA tied to investment performance and PERA's total funded ratio.

Effective July 1, 2019, House Bill 501 increased employer contributions by .0025 percent for funds under the Public Employees Retirement Act.

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for Tier I members (as defined later in these notes). Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of normal retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2.0 percent to 3.5 percent of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60.0 percent to 90.0 percent of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available. A blended pension benefit is equal to the sum of the pension attributable to the service credit the member has accrued under each coverage plan with different pension factors, for service credit earned after July 1, 2013.

Cost of living adjustment (COLA)

- Eligible retired members will receive a 4% COLA.
- Graduated COLA eligibility period for those who retire:
 - Before June 30, 2014: no change to current 2 full-calendar years after retirements to receive a COLA;
 - Between July 1, 2014 and June 30, 2015: 2 full-calendar year eligibility period to receive a COLA;
 - Between July 1, 2015 and June 30, 2016: 4 full-calendar year eligibility period to receive a COLA; and
 - o After July 1, 2016: 7 full-calendar year eligibility period to receive a COLA
- No change in 1-year COLA eligibility for disability retirees or retirees age 65 or older.

For Tier II, the retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (applicable to those hired after July 1, 2013 – Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credits equals at least 85, or at 67 with eight or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4, and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers, and municipal juvenile detention officers will remain in 25-year retirement plans; however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II,

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

pension factors were reduced by 0.5 %. The computation of final average salary increased as the average of salary for 60 consecutive months.

Contribution rates for members vary depending on the plan under PERS. Employee contribution rates range from 4.78 % to 18.15% of annual salary, and employer rates range from 7.0% to 26.12%, Generally, Tier I regular state members contribute 7.42% to 8.92%, while employers contribute 17.24%.

CHANGES FOR RETIREES

Cost of living adjustment (COLA)

- Reduces the COLA from 3% to 2% except for:
- 2.5% COLA for members retired with 25 or more years of PERA service credit (not reciprocity) and disability retired members, whose annual pensions are less than \$20,000.

CHANGES FOR RE-EMPLOYED RETIREES

Cost of living adjustment (COLA)

• Suspends the COLA for grandfathered return-to-work retirees during reemployment with PERA-affiliated employers or retirees employed by entities covered by the Education Retirement Act.

State Legislative Fund – This plan is a defined benefit pension plan which is accounted for in PERS. Eligibility for membership in the State Legislative Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, Section 43 and 43.5, NMSA 1978). State Legislators and lieutenant governors must elect to be a member no later than 180 days after first taking office to be covered under this plan. Member contributions are \$500 for each year of service credit prior to the 2012 legislative session and \$600 for each year beginning with the 2012 legislative session. Legislative service credit is earned each calendar year during which the member fulfills the obligations of the position of the legislator for more than six months of the calendar year, including the legislative session. Legislators are not required to make a member contribution until after the legislative session has ended and after PERA verifies services credit. PERA invoices legislative members to cover member contributions for each legislative session after the session ends, which is normally July or August. State funding for the State Legislative Fund is defined in Sections 10-11-43 and 10-11-43.5, NMSA 1978. The State is required to contribute sufficient amounts to finance the membership of members under state legislator coverage plan 2 on an actuarial reserve basis. The total actuarially determined amount for the State Legislative Fund for the fiscal year ended June 30, 2018 was \$0.00. Regarding the source of funding, Section 7-1-6.43 of the Tax Administration Act states "A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars (\$200,000) a month or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year." During the State of New Mexico (53rd Legislature) in 2017, House Bill 2 was passed that reduced the State's distribution to the legislative retirement fund from \$75,000 a month to \$0.00 a month.

Age and service requirements for retirement are age 65 or older with 5 or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect on the first day of the calendar year that the member retires multiplied by 60 and further multiplied by credited service. The per diem rate starting January 1, 2018 is \$165.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Effective 2019 the annual contribution amount under Legislative Retirement Plan 2 the amount increases to \$1,000 per Senate Bill 307.

Cost of living adjustment (COLA) is made to eligible retirees and beneficiaries. Retirees of the Legislative fund receive a COLA yearly after retirement of two full-calendar years (January 1st through December 31st) subject to certain conditions. The 2% COLA will be effective July 1 of the following year after the two full calendar years and will be compounded for each fiscal year thereafter. The COLA for disabled retired members making less than \$20,000 and members that make less than \$20,000 and have 25 years of service credit will be 2.5%.

Judicial Retirement Fund — This plan is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in Chapter 10-12B-4, NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Judicial Retirement plan.

For individuals that became a member prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75.0 percent of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became members subsequent to July 1, 2005, the annual pension amount is determined as 75.0 percent of salary received during the last year in office prior to retirement multiplied by 5.0 percent of the number of years in service, not exceeding 15 years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of 3.75 percent times the sum of the number of years of service; provided that a pension calculated shall not exceed 75.0 percent of one-twelfth of the salary received during the last year in office.

The retirement age and service credit requirements for normal retirement for judicial members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 33 Substitute in the 2014 Legislative Session. Under the new requirements, judicial members are eligible to retire at age 65 with 8 or more years of service or at age 60 with 15 or more years of service credit.

Effective July 1, 2014, judicial membership is mandatory, all judicial pension factors were reduced, employee and employer contributions increased 3 percent and the computation of final average salary increased as the average of salary for the 60 consecutive months. In addition, cost-of-living increases were suspended for two consecutive fiscal years and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded. Suspends the COLA for judges and magistrates if the Funds' funded ratios fall below 100%. COLA suspensions shall only be implemented for two consecutive fiscal years.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Early retirement provisions apply to members retiring between ages 50 and 60. The plan also provides for survivors' allowances and disability benefits. Members contribute at a rate of 10.5 percent of their salaries and the member's court contributes at a rate of 15.0 percent of the member's salary. Additionally, the district court contributes \$38 for each civil case docket fee paid in the district court, \$25 from each civil docket fee paid in metropolitan court and \$10 (not in thousands) for each jury fee paid in metropolitan court. Contribution rates are established by State statute. Various other changes took place under House Bill 33 which amended the Judicial Retirement Act. Senate Bill 122, which is effective from 2021 until fiscal year 2026 the Judicial Retirement Fund will receive \$100,000 each month from the Oil and Gas Proceeds and pass-through entity withholding tax.

Magistrate Retirement Fund – This plan is a single employer defined benefit pension plan. Eligibility for membership in the Magistrate Retirement Fund is set forth in Chapter 10-12C-4, NMSA 1978. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Magistrate Retirement plan. Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having served as a magistrate for a minimum of five years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75.0% of the salary received during the last year in office prior to retirement by 5.0% of the number of years of service, not exceeding 15 years, plus five years.

The retirement age and service credit requirements for normal retirement for magistrate members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 216 Substitute in the 2014 Legislative Session. Under the new requirements, magistrates are eligible to retire at age 65 with eight or more years of services, at age 60 with 15 or more years of service credit or at any age with 24 years of service credit.

Effective July 1, 2014, membership is mandatory, all magistrate pension factors were reduced, employee contributions increased 3 percent, and the computation of final average salary increased as the average of salary for the 60 consecutive months prior to retirement. Employer contributions increased by 4% effective July 1, 2015. In addition, cost-of-living increases were suspended for two consecutive fiscal years, and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

Member contributions are based on 10.5 percent of salaries and the State, through the administrative office of the courts, contributes at a rate of 11.0 percent of the member's salary. Beginning July 1, 2015, the employer contributions increased to 15 percent of the member's salary. Additionally, the magistrate or metropolitan courts contribute \$25 for each civil case docket fee paid and \$10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute. Certain other changes took place under House Bill 216 and amended the Magistrate Retirement Act. Senate Bill 122, which is effective from 2021 until fiscal year 2026 the Magistrate Retirement Fund will receive \$100,000 each month from the Oil and Gas Proceeds and pass-through entity withholding tax.

Volunteer Firefighters Retirement Fund – This plan is a single employer defined benefit pension plan with a special funding situation. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in Chapter 10-11A-2, NMSA 1978. Any volunteer non-salaried firefighter who is listed as an active member on the

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

rolls of a fire department and who meets certain age and service credit requirements set forth in the statute is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer firefighter for a minimum of 10 years. Benefits are \$125 per month, as of July 1, 2013, with at least 10 but less than 25 years of service or \$250 per month with 25 or more years of service. Benefits for post-retirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make individual contributions to the plan. State statutes require that the State Treasurer transfer \$750,000 during the fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund.

Educational Employees' Retirement System (EERS) - The New Mexico Educational Retirement Board (ERB) was created by the Educational Retirement Act, Chapters 22-11-1 to 22-11-52, NMSA 1978, as amended, to administer and have the responsibility for operating the Educational Employees' Retirement Plan. ERB is an agency of the State. The plan administered by ERB is considered part of the State financial reporting entity and is a pension trust fund of the state.

This plan is a cost-sharing multiple employer pension plan established by statute and administered by ERB to provide retirement, disability, and death benefits for all certified teachers and other employees of the State's elementary, secondary, and higher educational institutions, junior colleges, and technical-vocational institutions. Employees who are employed more than 25% of a full-time equivalency, are required to be members of the Plan, unless specifically excluded.

Plan members whose annual salary is \$24,000 or less are required by statute to contribute 7.9% of their gross salary. For plan members whose annual salary is over \$24,000, they are required to contribute 10.7% of their gross salary to the plan in fiscal year 2021 and thereafter. Employers are required to contribute 14.15% of gross covered salaries in fiscal year 2020 and thereafter. The statutory contribution requirements can be changed by the State Legislature.

For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more,
- The member is at least sixty-five years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member contributions and then becomes re-employed after July 1, 2010 is as follows:

- The member's age and earned service credit add up to the sum of 80 or more,
- The member is at least 67 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements:

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

- The member's minimum age is 55, and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.
- The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire
 under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced
 retirement benefits
- The member's age is 67, and has earned 5 or more years of service credit.

Section 2-11-23.3, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2019, or who were employed before July 1, 2019 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2019. These members must meet one of the following requirements:

- The member is any age and has 30 years of earned service credit.
- The member is at least 67 years of age and has 5 or more years of earned service credit.
- The sum of member's age and years of earned service credit equals at least eighty.

Forms of Payment - The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary.

Benefit Options - There are three benefit options available:

Option A – Straight Life Benefit. The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.

Option B – Joint 100% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death. Option C – Joint 50% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Cost of Living Adjustment (COLA) – All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3 and Tier 4):

- Tier 1 membership is comprised of employees who became members prior to July 1, 2010
- Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

- Tier 3 membership is comprised of employees who became members on or after July 1, 2013, but prior to July 1, 2019
- Tier 4 membership is comprised of employees who became members on or after July 1, 2019

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

Disability Benefit:

Eligibility - A member is eligible for a disability benefit provided (a) he or she has credit for at least 10 years of service, and (b) the disability is approved by the Board.

Monthly Benefit - The monthly benefit is equal to 2.0 percent of FAS times years of service, but not less than the smaller of (a) one-third of FAS or (b) 2.0 percent of FAS times years of service projected to age 60.

Form of Payment - The disability benefit commences immediately upon the member's retirement. Disability benefits are payable as a monthly life annuity, with a guarantee that, if the payments made do not exceed the member's accumulated contributions, determined as of the date of retirement, the balance will be paid in a lump sum to the member's surviving beneficiary. If the disabled member survives to age 60, the regular optional forms of payment are then applied.

Refund of Contributions - Members may withdraw their contributions only when they terminate covered employment in the State and certification of termination has been provided by their former employers. Interest paid to members when they withdraw their contributions following termination of employment is at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or contributions held for less than one year.

Alternative Retirement Plan - Effective October, 1991, the New Mexico legislature established an Alternative Retirement Plan (ARP) through the enactment of ERA Sections 22-11-47 through 52 NMSA 1978 to provide eligible employees an election to establish an alternative retirement investment plan. In contrast to the defined benefit plan administered by NMERB, the ARP is a defined contribution plan. NMERB is the trustee of the ARP which is administered by two third party contractors for NMERB. The administrators approved to offer ARP plans to eligible participants are Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA-CREF), and Fidelity Investments.

These administrators have the authority to perform record keeping, enrollment education services, and other administrative duties for the ARP. The administrators are delegated any and all powers as may be necessary or advisable to discharge their duties under the ARP, and have certain discretionary authority to decide matters under the ARP. As the ARP trustee NMERB is responsible for selecting investment options that provide a prudent rate

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

of return, and to ensure that all investments, amounts, property, and rights under the executed Plan-Trust are held for the exclusive benefit of Plan participants and their beneficiaries, as defined in the Plan Document.

C. Net Pension Liability

The total pension liability, net pension liability, and certain sensitivity information presented on the next page are based on an actuarial valuation performed as of June 30, 2020. The total pension liability was rolled forward from the valuation date to the plan year ending June 30, 2021. The net pension liability of each plan as of June 30, 2021, is as follows (in thousands):

Public Employees Retirement Association and Education Retirement Board Net Pension Liability, By Fund (Expressed in Thousands)

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

PERA Asset Allocations – The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Public Employees Retirement Association All Systems

| | | | Long-term Expected | |
|---|------------|----------|-----------------------|---|
| | Target | | Rate of | |
| Asset Class | Allocation | _ | Return | |
| Global Equity | 35.50 | % | 5.90 | % |

- Long-Term Policy Target approved by the Board on August 2019.
- Allocations shown here include cash held in separately managed portfolios. Total plan includes Legacy Assets totaling \$5,705. Totals may not add to 100% due to rounding.

Rate of Return – Disclosure of the annual money-weighted return is a requirement of GASB 67. It incorporates both the size and timing of cash flows to determine an internal rate of return, and expresses investment performance adjusted for the changing amounts actually invested. The requirements of the calculation are listed below.

- The rate is computed net of investment expenses, but not net of administrative expenses.
- External cash flows used as inputs should be determined on at least a monthly basis.
- Cash flows should be determined on an accrual basis of accounting.
- Cash-flow weighting should be representative of the Plan's actual external cash flow timing.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

For the year ended June 30, 2021, the annual money-weighted rate of return on the PERA pension plan investments net of investment expense was 25.36%. For the ERB pension plan, it was 28.76%.

D. Employer Reporting - Public Employees Retirement Association of New Mexico (PERA)

State - Funded Divisions of PERA

For the fiscal year ended June 30, 2021, the State Funded Divisions of PERA were composed of State General, State Police and Legislative. The measurement date used by the State was June 30, 2020.

Contributions – As stated earlier in this note, the contribution requirements of the plan members and the State are established in the state statute. Statutorily required contributions from the State to the State funded divisions of the pension plan were \$209 million for the fiscal year ended June 30, 2021.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The State-Funded Divisions of PERA reported net pension liabilities as follows (in thousands):

| Division | Net I | Net Pension Liability | | | |
|---------------|-------|-----------------------|--|--|--|
| State General | \$ | (4,006,811) | | | |
| State Police | | 185,383 | | | |
| Legislative | | 10,246 | | | |
| Total | \$ | (3,811,182) | | | |

The net pension liability is further segregated in the following amounts in Governmental and Business-Types (in thousands):

| Governmental Activities (including Internal Service Funds) | \$ 3,730,716 |
|---|-----------------|
| Business-type Activites | |
| (including Nonmajor enterprise | |
| funds and two educational institutions) | 80,466 |
| Total | \$ 3,811,182 |

At June 30, 2021, the State's total proportion of the PERA State Funded Divisions net pension liability was 51.17% percent and at June 30, 2020. Total contributions for State Funded Divisions were \$183.8 million, \$25.4 million, and \$0 for the three divisions respectively. Pension expense was \$141.1 million, \$36.7 million and \$.24 million respectively.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Single-Employer Funds

The State contributes 100 percent of the contributions to three single-employer funds in the PERA System. They are the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds. The measurement date used by State was

June 30, 2020 (in thousands).

| | Judicial | | Ma | ngistrate | | olunteer refighters |
|-------------------------------|----------|---------|----|-----------|---|------------------------|
| Net Pension Liability (Asset) | S | 138,539 | S | 29,547 | S | (16,932) |

Contributions – Contributions from the State to the PERA Judicial, Magistrate Retirement and Volunteer Firefighter funds were \$5.6 million, \$2.3 million, and \$.750 million, respectively, for the year ended June 30, 2021.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The State reported liabilities of \$138.5 million and \$29.5 million for the net pension liabilities of the Judicial and Magistrate Retirement Funds, respectively, which were 100 percent of the proportionate share. For the year ended June 30, 2021, the State recognized \$20.1 million as pension expense for the Judicial Retirement Funds. Also, for the year ended June 30, 2020, the State recognized \$2.2 million as a reduction to pension expense for the Magistrate Retirement Fund, respectively.

The Volunteer Firefighters Retirement Fund reported a plan net position of \$68.8 million and a total pension liability of \$51.9 million for a positive net position asset of \$16.9 million. Therefore, in accordance with accounting guidance, the positive net position is reported as a net pension asset in the financial statements. Pension expense was \$1.6 million.

At June 30, 2021, these plans reported deferred outflow of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

| | Governmental | | | | Business-type | | | | |
|--|--------------|--------------------------------------|----|----------------------------------|---------------|--------------------------------------|----|----------------------------------|--|
| PERA - State-Funded and Single-Employer Funds (Judicial and Magistrates Funds) | | Deferred Outflows of Resources | | Deferred Inflows of Resources | | Deferred Outflows of Resources | | Deferred Inflows of Resources | |
| Differences between expected and actual experiences | \$ | 107,498 | S | (72,661) | \$ | 2,167 | S | (1,369) | |
| Changes of assumptions | | 89,291 | | (11,157) | | 1,433 | | (11) | |
| Net difference between projected and actual earnings on pension plan investments | | 495,906 | | | | 9,684 | | | |
| Changes in proportion and differences between State contributions and proportionate share of contributions | | | | | | - | | | |
| State contributions subsequent to measurement date | | 213,022 | | - | | 4,189 | | - | |
| Totals | \$ | 905,718 | \$ | (83,818) | \$ | 17,473 | \$ | (1,380) | |

The amounts of \$213 million for governmental activities and \$4.2 million for business-type activities, reported as deferred outflows of resources related to pensions resulting from the State's contributions subsequent to the measurement date June 30, 2020, will be recognized as a reduction of the respective net pension liability in the following fiscal year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

| Governmental | | | Business-type | | | |
|-------------------|----|---------|--------------------|----|-------|--|
| Year ended June 3 | 0: | | Year ended June 30 | 0: | | |
| 2021 | S | 181,481 | 2021 | S | 3,548 | |

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

E. Employer Reporting – Educational Retirement Board (ERB)

Contributions – As stated earlier in this note, the contribution requirements of ERB plan members and the State are established in state statute. Contributions for the fiscal year ended June 30, 2021, from the State to the ERB were \$1.2 million for governmental activities and \$ 121 million from the twelve educational institutions reported as business-type activities.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - The total ERB pension liability, net pension liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2020. Therefore, the employer's portion was established as of the measurement date June 30, 2020. On June 30, 2021, the State reported a liability of \$ 54.6 million for its proportionate share of the net pension liability covering state employees in governmental activities, and \$5.4 billion for the collective proportionate share of the twelve educational institutions reported as business-type activities. At June 30, 2020, the proportion was .27 percent for governmental activities and 26.8 percent for business-type activities. The State's proportion of the net pension liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2020. The contribution amounts were defined by Section 22-11-21, NMSA 1978.

For the year ended June 30, 2021, the State recognized pension expenses of \$13.1 million in governmental activities and \$1.3 billion in business-type activities. At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

| | Gov | rernmental | Busin | Business-type | | |
|--|--------------------------------|-------------------------------------|--------------------------------|-------------------------------------|--|--|
| ERB Fund | Deferred Outflows of Resources | Deferred Inflows of Resources | Deferred Outflows of Resources | Deferred Inflows of Resources | | |
| Differences between expected and actual experiences | \$ 339 | \$ (210) | \$ 33,717 | \$ (20,943) | | |
| Changes of assumptions | 21,866 | | 2,176,367 | - | | |
| Net difference between projected and actual earnings on pension plan investments | 1,853 | | 184,425 | | | |
| Changes in proportion and differences between State contributions and proportionate share of contributions | 328 | (1,029) | 1,781 | (90,903) | | |
| State contributions subsequent to measurement date | 1,195 | | 121,043 | | | |
| Totals | \$ 25,580 | \$ (1,239) | \$ 2,517,333 | \$ (111,846) | | |

Contributions made subsequent to the measurement date will reduce the net pension liability for the next fiscal year.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

| Component Units | | 507,563 | | | |

F. Discount Rates and Sensitivity Analysis

Discount Rate -

PERA - The discount rate used to measure the total pension liability was 7.25 percent for the State-Funded Divisions. The discount rate for the Volunteer Firefighters fund and the Magistrate fund was 7.25%. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefits payments of current plan members as determined in accordance with GASB 67. Therefore, the 7.25 percent assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

The discount rate for the Judicial fund was 4.34%

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table provides the sensitivity of the State's Proportionate Share of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

Public Employees Retirement Association Employer Reporting Sensitivity of the Net Pension Liability to Changes in the Discount Rate (Expressed in Thousands)

| Net Pension Liability | 1% Decrease (6.25%) | Current Discount Rate (7.25%) | 1% Increase (8.25%) |
|------------------------|---------------------------|--|------------------------------|
| State-Funded Divisions | \$ 5,055,273 | \$ 3,811,182 | \$ 2,776,605 |
| Single-Employer Funds: | 0.000 | 4000 | (5.000) |
| Judicial | \$ 165,488 | \$ (4.34%) \$ 138,539 | \$ (5.34%) \$ 116,101 |
| Volunteer Firefighters | (6.25%) \$ (10,975) | (7.25%) <u>§</u> (16,932) | (8.25%) <u>§</u> (21,893) |
| Magistrate | (6.25%) \$ 35,376 | \$ (7.25%) \$ 29,547 | (8.25%) \$ 24,596 |

ERB - A single discount rate of 3.89% was used to measure the total ERB pension liability as of June 30, 2021. This single discount rate was based on the expected long-term rate of return on pension plan investments of 7% and a municipal bond rate of 2.45%. The source of the municipal bond rate as of June 30, 2020 is the rate for Fixed Income Market Data/Yield Curve/Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."

Based on the stated assumptions and the projection of cash flows, the Plan's fiduciary net position and future contributions were sufficient to finance payments through the year 2046. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2046 and the municipal bond rate was applied to all benefit payments after that date.

The projection of cash flows used this single rate assuming that Plan contributions will be made at the current statutory levels. Additionally, contributions received through NMERB's Alternative Retirement Plan (ARP) are included in the projection of cash flows. ARP contributions are assumed to remain at a level percentage of ERB plan payroll, where the percentage of payroll is based on the most recent five-year contribution history.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 12 (CONTINUED)

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table provides the sensitivity of the State's Proportionate Share of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate one percentage point lower or one percentage point higher than the single discount rate.

NOTE 13. Post-Employment Benefits Other Than Pensions

A. Plan Description

In addition to pension benefits as described in Note 12, the State provides other post-employment benefits (OPEB). The following is in accordance with the provisions of *GASB Statement No. 75*, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

The New Mexico Retiree Health Care Authority (RHCA) was formed February 13, 1990 under the New Mexico Retiree Health Care Act (Act), Chapters 10-7C-1 to 10-7C-19, NMSA 1978, to administer the retiree health care fund which was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents, and surviving spouses) who have retired or will retire from public service in New Mexico. The Retiree Health Care Act established a cost-sharing multi-employer defined benefit postemployment health care plan (Plan) that provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The Retiree Health Care Act created a governing board composed of 11 members (a twelfth member was added through an amendment). RHCA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to RHCA, 6300 Jefferson Street NE, Suite 150, Albuquerque, NM 87109.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13

The legislation establishing RHCA specifically did not intend to create formal trust relationships among the participating employees, retirees, employers and RHCA administering the Act. However, the substantive plan created by the Act contains all requisite elements to be considered as the equivalent of a trust arrangement. These elements include irrevocable contributions to the Plan, plan assets are dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the Plan, and plan assets are legally protected from creditors of employers or the Plan administrator. Additionally, there is no provision for a participating government entity to withdraw membership, and all risks and costs including benefit costs are shared and are not attributed individually to employers, and a single contribution rate applies to employers. RHCA received a legal opinion that the manner of legal organization of RHCA is substantially equivalent to a trust. As such, RHCA was required to apply GASB Statement No. 74 (GASB 74) *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans* which was implemented by the State effective for fiscal year ending June 30, 2018. The Net Position of the RHCA is reported as restricted per GASB Statement No. 46 and Chapter 10-7-C-14, NMSA 1978.

Eligible employers are institutions of higher education, school districts, or other entities participating in the public school insurance authority, and state agencies, state courts, magistrate courts, municipalities, or counties, which are affiliated under or covered by the Educational Retirement Act, or the Magistrate Retirement Act, or the Public Employees Retirement Act.

Plan Membership (Not in Thousands):

| Current Retirees and Surviving Spouses | 53,092 |
|--|---------|
| Inactive and Eligible for Deferred Benefit | 11,754 |
| Current Active Members | 92,484 |
| Total | 157,330 |

B. Single Employer Post-Employment Plans

Plan Description for UNM

Plan description: The University of New Mexico Retiree Welfare Benefit Trust (VEBA Trust) administers the University of New Mexico Retiree Welfare Benefit Plan (VEBA Plan) – a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for all eligible employees of the University. The University is the fiduciary of the VEBA Trust,

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

and the VEBA Trust's financial statements and required supplementary information are included in the University's financial report.

Management of the VEBA Plan is vested in the VEBA Trust's VEBA Committee, which consists of nine members:

- UNM Controller or Designee
- UNM Vice President of Human Resources or Designee
- Two Faculty Appointees (appointed by the UNM President)
- Two Staff Appointees (appointed by the UNM President)
- Member of the Debt Investment Advisory Committee (ex-officio, appointed by the UNM President)
- Two UNM Presidential Appointees

Plan membership: In order for a retiree of the University to be eligible for OPEB other than basic life insurance, the employee must have been hired prior to July 1, 2015 and contribute to the VEBA Trust for at least five continuous years immediately prior to retirement. If hired prior to July 1, 2013 and retiring prior to July 1, 2018, employees must continually contribute to the VEBA Trust. Employees were automatically enrolled into the VEBA Trust upon its establishment unless they requested to opt out. Opportunities to opt out will occur annually during the benefits open enrollment period. Employees hired on or after July 1, 2015 are not eligible for OPEB other than basic life insurance. Contributions to the VEBA Trust are not required for the basic life insurance benefit since these benefits are not funded through the VEBA Trust.

At the valuation date of January 1, 2019, the VEBA Plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefit payments 4,486, active plan members 7,177 and total plan members 11,663

Total active plan members include 3,453 members hired on or after July 1, 2015 who are not eligible to receive postretirement health benefits but may be eligible to receive postretirement life insurance benefits.

Plan Description for New Mexico State University

Plan Description. New Mexico State University is a single employer that offers employees and their eligible dependents retiree benefits. This is an unfunded OPEB plan operating on a pay as you go basis. The authority to establish and amend the benefit provisions rests with the Board of Regents. Retirees, who have had 10 consecutive years of health insurance coverage with the University at the time of retirement, are offered the opportunity to participate in a fully-insured PPO medical plan, including prescription drugs. Medicare retirees (for retirees 65 years of age and over) are offered the opportunity to participate in a Medicare carve-out medical plan, including prescription drugs. Eligible retired employees may select a Life Insurance benefit up to \$10,000. All premiums for life insurance are paid by the retiree. The University currently pays 60% of the monthly medical and prescription premium for retirees and their eligible dependents until the retiree reaches age 70, at which time the University reduces their contribution to 30%. As of June 30, 2021, 1,438 retirees met the eligibility requirements for health insurance. Employees hired after June 30, 2016 are not offered this benefit.

Plan Participation Percentage. The participation percentage is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. It is assumed that 85% of all pre Medicare employees and their dependents who are eligible for early retirement will participate in the retiree medical plan. It is also assumed that 80% of those enrolled in the pre Medicare plans will continue on the plan once Medicare eligible. Lastly, it is assumed that 88% of all pre Medicare employees who are eligible for the retiree life

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

insurance benefit will participate, and 91% of those enrolled will continue on the plan once Medicare eligible. This assumes that a one-time irrevocable election to participate is made at retirement. Employees covered by benefit terms - At June 30, 2021, the following employees were covered by the benefit terms: Current retirees receiving benefits – 1,880 and current active members – 1,938.

Plan Description for NM Institute of Mining and Technology

Plan Description: The Board of Regents authorized the creation of the New Mexico Tech Employee Benefit Trust (Trust or Plan), a contributory benefit plan, to operate, control and maintain a program to provide certain health and life insurance benefits to the employees of the Institute and their families. Retired employees may participate in the Plan. The Plan is considered a postemployment benefit plan as defined by GASB 74, Financial Reporting for Postemployment Benefit Other than Pension Plans which was implemented for June 30, 2020. The Trust is recorded as a fiduciary fund in the accompanying financial statements and as a blended component unit. The Board of Regents serves as trustee and has delegated the day-to-day operations of the Trust to the executive staff of the Institute. The Trustees and Institutes management have designated a third-party administrator to process the claims submitted by covered participants.

Effective January 1, 2019, the Institute is no longer using the Trust, a contributory benefit plan, to operate, control and maintain a program to provide the health insurance benefits to the employees of the Institute and their families. The Board of Regents made a resolution approving an agreement for participating with New Mexico Public School Insurance Authority (NMPSIA), for employee health benefits for its employees, retirees and their families. The Trust will continue to operate, control and maintain the life insurance and flexible benefits to the employees of the Institute and their families. The Trust issues standalone audited financial statements that can be obtained by request or via the Office of the State Auditor's website at www.saonm.org.

C. Funding and Benefit Policies

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Plan on the person's behalf, unless that person retires before the employer's effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years. Employees of RHCA are allowed to participate in the Plan.

The New Mexico Retiree Health Care Act (Chapter 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service-based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of five dollars (not in thousands) if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100.0 percent of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from NMRHCA or viewed on their website at www.nmrhca.state.nm.us.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

Contributions - The New Mexico Retiree Health Care Act (Chapter 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The contributions are set by legislation and are not based on an actuarial calculation. The Legislature periodically reviews the contribution rates pursuant to Chapter 10-7C-15, NMSA 1978.

For the fiscal year ended June 30, 2021, for regular state employees, the statute required each participating employer to contribute 2.0 percent of each participating employee's annual salary; each participating employee was required to contribute 1.0 percent of their salary.

For employees who were members of an enhanced retirement plan (state police, adult correctional officers, firefighters and judges) during the fiscal year ended June 30, 2021, the statute required each participating employer to contribute 2.5 percent of each participating employee's annual salary, and each participating employee was required to contribute 1.25 percent of their salary.

Current retirees are required to make monthly contributions for individual basic medical coverage. Retiree premium contribution increases are no longer limited by the Act, which the RHCA health care trend's will be the basis for any rate increases for the New Mexico basic plan of benefits. The Board may designate other plans as "optional coverages." Optional and/or voluntary coverages are not subject to the 9.0 percent cap, which expired in fiscal year 2008 per Chapter 10-7C-13, NMSA 1978.

Contributions from participating employers and participating employees become the property of the Retiree Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operations or participation in the Plan. The employer, employee and retiree contributions are required to be remitted to NMRHCA on a monthly basis.

D. Funding and Benefit Policies for Single Employer Plans

UNM

Benefits provided: The VEBA Plan provides health, dental, and life insurance coverage to eligible retirees and their covered dependents. Eligible retirees of the University receive healthcare coverage through a self-insured medical plan, including prescription drugs, available through UNM Health, Presbyterian Health Plan, BCBS of New Mexico, and Express Scripts. Eligible Medicare retirees (for retirees 65 years of age and over) receive healthcare coverage through one of seven fully insured medical/prescription plans: Humana PPO, Aetna PPO ESA, Blue Cross Blue Shield HMO I (Enhanced), Blue Cross Blue Shield HMO II (Standard),, Presbyterian HMO-POS, Presbyterian HMO-POS, and UHC AARP supplemental. Eligible retirees are also offered one of two dental insurance benefit options: Premier High Option and PPO Low Option. Basic life insurance benefits are available to retirees of the University without the requirement to opt in to the VEBA Trust. The authority to establish and amend the benefit provisions rests with the Board of Regents.

Contributions: The contribution requirements of VEBA Plan members and the University are established and may be amended by the Board of Regents. Retiree contributions for medical and dental insurance are required for both retiree and dependent coverage. Retirees are required to pay the full premiums less a subsidy provided by the University. Retirees 65 years of age and over are required to contribute a percentage of the premiums based on their number of VEBA service credit years. Retirees under the age of 65 are required to contribute a percentage of the premiums based on their number of VEBA service credit years and their preretirement annual salary. Benefitseligible employees, who do not opt-out of the VEBA Trust, contribute 0.75% of their salary to the VEBA Trust in

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

order to ensure that the health benefits continue into retirement. The University matches the 0.75% contribution made by the employee.

NMSU

Funding Policy: The University does not use a trust fund to administer the financing and payment of benefits. The retired employees that elect to participate in post-employment benefits are required to make contributions in the form of monthly premiums based on current rates established under the medical and life plans. The University funds the plan on a pay-as-you-go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits, and includes all expected claims and related expenses and is offset by retiree contributions. The pay-as-you-go expenses for fiscal year 2021 were \$6.5 million, net of retiree contributions.

NMIMT

Benefits Provided – Retirees are offered \$10,000 of retiree basic life insurance. In addition, the Trust is used to pay premiums for life insurance coverage on eligible participants and to administer the Flexible Benefits Plan (the Flex Plan). The Flex Plan, which is fully funded by employees, provides reimbursement of certain employee health and dependent care expenses. The Trust also holds Employee Assistance Plan (EAP) and Commuter Benefits Holding funds.

Contributions – The Trust is funded by contributions from both the Institute and employees of the Institute. Flex Plan contributions consist of employee-only contributions and are based on amounts elected by the employees up to specified limits, and are withheld from employee pay. All other contributions, including employee and employer contributions, are based on amounts determined by the Trust Committee as necessary to cover the expenses of the Trust. Contributions are funded on a monthly basis.

E. Funded Status

Investments and Fair Value Measurements: The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used as of June 30, 2021.

The RHCA invested in a number of investment pools offered by New Mexico State Investment Council (NMSIC). Each pool consists of units of participation of unlimited quantity. The pools are held in NMSIC's name. No unit in the pool has priority or preference over any other unit and represents an equal beneficial interest in the pool. The valuation of the RHCA's units in the investment pool is provided by the NMSIC on a monthly basis and represents the fair market value as of that date. Therefore, RHCA has determined that all the investments are measured at Net Asset Value as a practical expedient (NAV practical expedient).

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The table below summarizes the investments valued at NAV practical expedient and other pertinent liquidity information:

| | | Fair | | |
|---------------------------------------|-------|------------|------------------|-----------------|
| Investments Measured at | Value | | Redemption | Redemption |
| NAV Practical Expendient | Jun | e 30, 2021 | Frequency | Notice Period |
| U.S. Large Cap Index Pool | \$ | 176,755 | Daily | 5 business days |
| Non U.S. Emerging Markets Index Pool | | 111,487 | Daily | 6 business days |
| Non U.S. Developed Markets Index Pool | | 146,223 | Daily | 5 business days |
| Private Equity Pool | | 146,383 | 4 times per year | 3 months |
| Credit and Structured Finance Pool | | 145,760 | 4 times per year | 3 months |
| Real Estate Pool | | 95,738 | 4 times per year | 3 months |
| U.S. Small/Mid Cap Active Pool | | 25,120 | Daily | 7 business days |
| Real Asset Pool | | 43,040 | 4 times per year | 3 months |
| Core Bond Pool | | 190,452 | Daily | 5 business days |
| | \$ | 1,080,958 | | |

There are requirements for frequency and timing of actuarial valuations, as well as actuarial methods and assumptions that are acceptable for financial reporting. The Authority obtains actuarial valuations at least biannually and a single actuarial valuation covers all plan members.

RHCA Asset Allocations – RHCA's investment allocation policy is periodically reviewed and amended by the Board of Trustees, as needed. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

Further detail of the individual Investment Pools and their management can be obtained from a publicly available financial report that includes financial statements and required supplementary information for the post-employment healthcare plan at RHCA website https://www.nmrhca.state.nm.us.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The actuarial methods and assumptions for the Plan at June 30, 2021, were as follows:

Valuation Date June 30, 2020

Actuarial cost method Entry age normal, level of percent of pay,

calculated on individual employee basis

Asset valuation method Market value of assets

Actuarial Assumptions:

Inflation 2.30% for ERB: 2.50% for PERA

Projected payroll increases 3.25% to 13.00% based on years of service, including inflation

Investment rate of return 7.00%, net of OPEB plan investment expense

and margin for adverse deviation including inflation

Discount rate 3.62%

Health care cost trend rate: 8% graded down to 4.5% over 14 years for Non-

Medicare medical plan costs and 7.5% graded down to 4.5% over 12 years for Medicare medical plan costs

Schedule of Annual Money-Weighted Rate of Return

| | Annual Money- |
|------------|---------------|
| Year Ended | Weighted Rate |
| June 30, | Of Return |
| 2021 | 22.59% |

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions. The following schedule summarizes the current investment allocation policy as of June 30, 2021:

| | Target |
|-------------------------------|-------------|
| Asset Class | Allocations |
| U.S. core fixed income | 20% |
| U.S. equity - large cap | 20% |
| Non U.S emerging markets | 15% |
| Non U.S developed equities | 12% |
| Credit and structured finance | 10% |
| Private equity | 10% |
| Real estate | 5% |
| Absolute return | 5% |
| U.S. equity - small/mid cap | 3% |
| | 100% |
| | |

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The best estimates for the long-term expected rate of return is summarized as follows:

| | Long-Term |
|-------------------------------|----------------|
| Asset Class | Rate of Return |
| U.S. core fixed income | 0.4% |
| U.S. equity - large cap | 6.6% |
| Non U.S emerging markets | 9.2% |
| Non U.S developed equities | 7.3% |
| Private equity | 10.6% |
| Credit and structured finance | 3.1% |
| Real estate | 3.7% |
| Absolute return | 2.5% |
| U.S. equity - small/mid cap | 6.6% |

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

F. Net OPEB Liability

Net OPEB liability - The net OPEB liability and the plan's actuarial valuation were calculated by the Authority's independent actuary as of June 30, 2021. The plan's valuation and measurement of the total OPEB liability and related net OPEB liability were performed in accordance with GASB 74 requirements at the request of the Authority.

The discount rate used to measure the total OPEB liability is 3.62% as of June 30, 2021. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates.

For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members are not included. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2052. Thus, the 7% assumed investment return on Plan assets, which includes the assumed inflation rate of 2.50%, was used to calculate the net OPEB liability through 2052. Beyond 2052, the index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Thus 3.62% is the blended discount rate.

The following presents the net OPEB liability, calculated using the discount rate of 3.62%, as well as what the Fund's net OPEB liability would be if it were calculated using a discount rate that is 1-percent lower or 1-percent higher than the current rate (in thousands):

| 1% Decrease | | Current Discount Rate | | 1% Increase | |
|-------------|-----------|-----------------------|-----------|-------------|-----------|
| (2.62%) | | (3.62%) | | (4.62%) | |
| \$ | 4,134,248 | \$ | 3,290,350 | \$ | 2,633,890 |

The following presents the net OPEB liability calculated using the current healthcare cost trend rates as well as what Fund's net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (in thousands):

| 1% Decrease | | Current Trend | 1% Increase | | |
|-------------|----|-------------------|-----------------|----|-----------|
| | \$ | 2,646,501 | \$ 3,290,350 | \$ | 3,808,841 |

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The total OPEB liability, net OPEB liability, and certain sensitivity information presented are based on an actuarial valuation performed as of June 30, 2020. The total OPEB liability was rolled forward from the valuation date to the plan year ending June 30, 2021. The component of net OPEB liability as of June 30, 2021, is as follows:

| | Ju | ne 30, 2021 |
|--|----|-------------|
| Total OPEB liability | \$ | 4,409,849 |
| Plan fiduciary net position | | 1,119,500 |
| Net OPEB liability | \$ | 3,290,350 |
| | | |
| Plan fiduciary net position as a percentage of | | |
| the total OPEB liability | | 25.39% |

G. Employer Reporting Net OPEB Liability – RHCA

Contributions – As stated earlier in this note, the contribution requirements of RHCA plan members and the State are established in state statute. Statutorily required contributions for the fiscal year ended June 30, 2021, from the State to the RHCA were \$ 23.4 million for governmental activities and \$ 2.9 million for business-type activities.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - The total RHCA OPEB liability, net OPEB liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2020. Therefore, the employer's portion was established as of the measurement date June 30, 2020. At June 30, 2021, the State reported a liability of \$994.9 million for its proportionate share of the net OPEB liability covering state employees in governmental activities, and \$126.1 million for its proportionate share of the net OPEB liability covering state employees business-type activities. At June 30, 2020, the proportion was 23.69 percent for governmental activities and 3.01 percent for business-type activities. The State's proportion of the net OPEB liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2020.

For the year ended June 30, 2021, the State recognized a reduction to OPEB expense of \$70.1 million in governmental activities and a reduction to OPEB expense of \$9.6 million in business-type activities.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

At June 30, 2021, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

| | Govern | mental | Business-type | | | |
|--|--|--------------|-----------------------------------|-------------------------------------|--|--|
| RHCA | Deferred Deferred Outflows Inflows of of Resources Resources | | Deferred Outflows of Resources | Deferred Inflows of Resources | | |
| Differences between expected and actual experiences | \$ - | \$ (176,660) | \$ - | \$ (22,404) | | |
| Changes of assumptions | 195,298 | (176,680) | 24,767 | (22,406) | | |
| Net difference between projected and actual earnings on pension plan investments | 5,425 | - | 688 | | | |
| Changes in proportion and differences between State contributions and proportionate share of contributions | 3,643 | (8,498) | 2,592 | (10,590) | | |
| State contributions subsequent to measurement date | 23,476 | - | 2,919 | | | |
| Totals | \$ 227,842 | \$ (361,837) | \$ 30,966 | \$ (55,400) | | |

Contributions made subsequent to the measurement date will reduce the net OPEB liability for the next fiscal year.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

H. Single Employer Plans - OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

UNM

The University's net OPEB liability was measured as of July 1, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2020, but adjusted for a change in the discount rate. The components of the net OPEB liability of the University at June 30, 2021 was as follows:

| | | 2021 |
|--|------|----------|
| | In t | housands |
| Total OPEB Liability | \$ | 133,034 |
| Plan fiduciary net position | \$ | 43,519 |
| University's net OPEB liability | \$ | 89,515 |
| Plan fiduciary net pension as a percentage of the total OPEB liability | | 32.71% |

Actuarial assumptions: Actuarial assumptions: The total OPEB liability was determined by an actuarial valuation as of January 1, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Salary increases

2.0%

Investment rate of return

8.0%, net of OPEB plan investment expense, including inflation

Pre-Medicare: 5.5% initially, reduced by decrements to a rate of 5.0% after nine years
Post-Medicare: 5.4% initially, reduced by decrements to a rate of 5.0% after nine years
Dental: 4.0%

Mortality rates were based on the PUB-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2018.

Discount rate: The discount rate used to measure the total OPEB liability was 7.09%, which is a blended rate of the University's 8.0% long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index, which was 2.21% on the last Friday prior to the measurement date of June 30, 2020. A blended discount rate was calculated based on separating the projected future payments between those paid from the VEBA Trust and those paid from general assets. The VEBA Trust assets were projected using the expected employer and employee payroll contributions and the expected long-term rate of return. Payments from the VEBA Trust were assumed to begin when the projected asset amount is fully-funded and all future projected benefit payments will be paid from the VEBA Trust. The VEBA trust is expected to be fully-funded in the year 2032.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

Sensitivity of the net OPEB liability to changes in the discount rate:

The following presents the University's net OPEB liability at June 30, 2021, which was measured using the discount rate of 7.09%, as well as what the net OPEB liability would have been if it were calculated using a discount rate that was one percentage point lower (6.09%) or one percentage point higher (8.09%) than the current discount rate.

| 1% Decrease | Current Discount | 1% Increase | |

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

NMSU

The University's annual other postemployment benefit (OPEB) Service/Interest cost (expense) is the portion of the Actuarial Present Value of plan benefits and expenses for active employees which is allocated to a valuation year by the Actuarial Cost Method. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's net OPEB obligation related for fiscal year 2021:

| | Increas | ses (Decreases) i | n thousands |
|---|---------------|-------------------|-------------------|
| | Total OPEB | Plan Fiduciary | Net OPEB |
| | Liability (a) | Net Position (b) | Liability (a)-(b) |
| Total OPEB Liability - Start of Year (July 1, 2020) | \$ 165,830 | | \$ 165,830 |
| Changes for the year | | | |
| Service cost | 6,497 | - | 6,497 |
| Interest cost | 3,745 | - | 3,745 |
| Differences between expected and actual experience | - | | |
| Changes in assumptions or other inputs | 1,339 | - | 1,339 |
| Benefit payments | (5,718) | - | (5,718) |
| | | | |
| Net change in total OPEB liability | 5,863 | - | 5,863 |
| Net OPEB Liability - End of Year (June 30, 2021) | \$ 171,693 | \$ - | \$ 171,693 |

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The Entry Age Normal Actuarial Cost Method was used based on level percentage of projected salary. The OPEB liability is based on an actuarial valuation performed as of June 30, 2021, conducted in accordance with generally accepted actuarial principles.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

The actuarial methods and assumptions used to determine the total OPEB liability included in the measurement are as follows:

Valuation Date June 30, 2020

Measurement Date June 30, 2021

Discount Rate 2.16% per annum

Source: Bond Buyer 20-Bond GO Index

Salary Increase Rate 2.5% per annum Inflation Rate 3.0% per annum

Medicare Eligibility All current and future retirees are assumed to be

eligible for Medicare at age 65

Health Care Cost Trend Rate The actuarial valuation assumes an annual health

care cost trend on a select and ultimate basis. Medical and prescription benefits on a select basis at 5.5% for retirees 65 years of age and under and 4.5% for retirees over 65 years of age and on an ultimate basis at 4.5%. The select trend rates are reduced .5% each year until reaching the ultimate

trend.

Per Capita Health Claim Cost Expected pre Medicare retiree claim costs were

developed using 24 months of historical claim experience through March 2020. The annual age 60 claim costs for retirees and their spouses is \$7,418. The age 70 costs for retirees is \$3,334.

Mortality Rate PUB-2010 mortality table with generational scale

MP-2019.

Discount Rate. A single discount rate of 2.16% was used to measure the total OPEB liability as of June 30, 2021.

Other Information. The discount rate was updated from the prior valuation. The mortality assumption was updated from RP-2014 mortality table with generational scale MP-2018 to PUB-2010 mortality table with generational scale MP-2019 to reflect the Society of Actuaries' recent mortality study. Experience/Assumptions gains and losses are amortized over a closed period of 3.8 years starting on July 1, 2019, equal to the average remaining service of active and inactive plan members (who have no future service). The Plan participation rates were updated to reflect the participation trend. Currently, the plans are considered to be unfunded as there are no assets and retiree benefits are expected to be paid annually on a cash basis.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

Health Care Trend Sensitivity Analysis. The following schedules measure the Net OPEB Liability if the health care cost trend rate used was 1% higher than the assumed health care cost trend rate and 1% lower than the assumed health care cost trend rate for June 30, 2021.

| | Year Ended June 30, 2021 (in thousands) | | | | | |
|--|---|----------|------|-----------|----|------------|
| | 1%] | Decrease | Curr | ent Trend | 1% | 6 Increase |
| New Mexico State University's net OPEB liability | \$ | 147,344 | \$ | 171,693 | \$ | 203,086 |

Discount Rate Sensitivity Analysis. The following tables show the sensitivity of the OPEB liability to changes in the discount rate as of fiscal year end 2021. In particular, the table presents the University's OPEB liability under the current single rate assumption, as if it were calculated using a discount rate one percentage point lower, (1.16%) or one percentage point higher, (3.16%) than the single discount rate for June 30, 2021.

| | Year Ended June 30, 2021 (in thousands) | | | | | | |
|--|---|----------|-------------------------|-----------|----|-------------|--|
| | 1% | Decrease | Current Discount | | | 1% Increase | |
| | (| l.16%) | Rat | e (2.16%) | (: | 3.16%) | |
| New Mexico State University's net OPEB liability | \$ | 202,222 | \$ | 171,693 | \$ | 147,725 | |

For the year ended June 30, 2021, the University recognized an OPEB expense of \$14.8 million. At June 30, 2021, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

(Amounts in thousands)

| | 2021 | | | | |
|--|------------------------------------|--------|----|--------------|--|
| | Deferred Outflows Deferred Inflows | | | | |
| of Resources | | | | of Resources | |
| Differences between expected and actual experience | | | \$ | 6,464 | |
| Changes of assumptions | \$ | 17,290 | \$ | 1,257 | |
| Total | \$ | 17,290 | \$ | 7,721 | |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30, | (Amounts in thousands) |
|----------------------|------------------------|
| 2022 | 4,512 |
| 2023 | 4,468 |
| 2024 | 586 |

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 13 (CONTINUED)

NMIMT

The Institute's net OPEB liability was measured as of July 1, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2021.

The components of the Institute's net OPEB liability at June 30, were as follows:

| Components of the Institute's net OPEB liability | (Amounts in thousands) June 30, 2021 |
|---|--------------------------------------|
| Total OPEB Liability | 41,323 |
| Plan Fiduciary Net Position | 4,328 |
| The Institute's net OPEB liability | 36,995 |
| Plan fiduciary net position as a percentage of total OPEB liability | 10% |

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The total OPEB liability was determined by an actuarial valuation as of January 1, 2021, using the following actuarial assumptions, applied to all prior periods included in the measurement, unless otherwise specified:

| Salary increases | 3.0% |
|-----------------------------|---|
| Investment rate of return | 6.0% |
| Healthcare cost trend rates | Medical Pre-Medicare: 5.75% initially, reduced by decrements to a |
| | rate of 5.0% after seven years |
| | Medical Post-Medicare: 5% consistent for next seven years |
| | Pharmacy: 7% initially, reduced by decrement to a rate of 5% |

after eight years Dental and Vision: 3.0%

Mortality rate were based on the RP-2006 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2019.

Discount Rate. The discount rate used to measure the total OPEB liability was 3.16%, which is a blended rate of the Institute's 6.0% long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index, which was 2.21% on the last Friday prior to the measurement date of June 30, 2020. A blended discount rate was calculated based on separating the projected future payments between those paid from the Trust and those paid from general assets. The Trust assets were projected using the expected long-term rate of return. Payments from the Trust were assumed to begin when the projected assets value is fully-funded and all future projected benefit payments will be paid from the Trust.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 14 and NOTE 15

NOTE 14. Deferred Compensation Plan

The State of New Mexico offers state, local government, and school district employees a deferred compensation plan (Deferred Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," in accordance with Internal Revenue Code Section 457. The Deferred Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available until termination, retirement, death, or unforeseeable emergency.

PERA is the trustee of the Deferred Plan; however, the Deferred Plan uses a third party administrator, acting under contract with PERA. All costs of administration and funding are borne by the Deferred Plan participants. The Administrator has authority to control and manage the operation of the Deferred Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Deferred Plan, and has certain discretionary authority to decide all matters under the Deferred Plan. As Deferred Plan trustee, PERA's primary responsibility is to select investment options that are safe and provide a reasonable rate of return and to ensure that all investments, amounts, property, and rights under the executed Deferred Plan-Trust are held for the exclusive benefit of Deferred Plan participants and their beneficiaries, as defined in the Deferred Plan. The assets of the Deferred Plan are not assets of the State, but are held in trust for the exclusive benefit of Deferred Plan participants and their beneficiaries. The State has no liability for losses under the Deferred Plan but does have the duty of due care that would be required of a fiduciary agent.

The Deferred Plan issues a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza la Prensa, Santa Fe, NM 87507. This report is also available online at: http://www.nmpera.org/deferred-compensation.

NOTE 15. Arbitrage on Tax-Exempt Bonds

Arbitrage is the excess interest earned by a state or local government on proceeds from the sale of its bonds over interest paid to bondholders. The Tax Reform Act of 1986 TRA required rebate of such arbitrage to the U.S. Treasury Department on governmental bonds issued after August31, 1986, and on private activity bonds issued after December 31, 1984, when the proceeds were held for six months or longer. These rebates must be calculated annually and paid at the end of every fifth year until the bonds are retired.

The Revenue Reconciliation Act of 1989 amended the six-month rule. For bonds issued after December 19, 1989, the rebate requirement does not apply if, both, all of the gross proceeds of the issue, other than the reserve fund, are spent within the six-month period following the date of issue, and the rebate requirement is satisfied for the reserve fund after the six-month period. The term gross proceeds for purposes of the rule includes both the sale proceeds received from the bonds purchaser on the issue date and investment earnings on such proceeds during the six month period. Gross proceeds deposited in a reserve fund or bona fide debt service fund, however, are not subject to the expenditure requirement.

The Office of the State Treasurer compiles this information and files all required reports in compliance with regulations issued by the United States Internal Revenue Service.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 17 and NOTE 18

NOTE 17. State General Fund Investment Pool

The Financial Control Division (FCD), within the Department of Finance and Administration (DFA), in collaboration with the New Mexico State Treasurer's Office (STO), implemented a comprehensive reconciliation model that compared aggregated agency claims on the State General Fund Investment Pool (SGFIP) to the associated resources held by STO. There have been many reviews of the process and each review has deemed it to be adequate and in compliance with established procedures. For fiscal year 2021, the following assertions are provided:

- 1) Resources held in the pool are equivalent to the corresponding business unit claims on those resources.
- 2) All claims, as recorded in SHARE, shall be honored at face value.

For cash management and investment purposes, funds of various state agencies are deposited in the SGFIP, which is managed by STO. The SGFIP is reported as a fiduciary fund in the financial statements of STO. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the DFA is responsible for reconciling the SGFIP balances. As of June 30, 2021, the Component Appropriations Funds report an aggregate investment of \$427.3 million in the SGFIP.

NOTE 18. Tax Abatements:

In fiscal year 2017, the State adopted *Statement No. 77 of the Government Accounting Standards Board, entitled, Tax Abatement Disclosures.* Statement No. 77 requires the governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients.
- The gross dollar amount of taxes abated during the period.
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

Governments should also recognize those disclosures by major tax abatement programs and may disclose information for individual tax abatement agreements within those programs.

Tax abatement agreements of other governments should be organized by the government that entered into the tax abatement agreement and the specific tax being abated. Governments may disclose information for individual tax abatement agreements of other governments within the specific tax being abated. For those tax abatement agreements, a reporting government should disclose:

- The names of the governments that entered into the agreements.
- The specific taxes being abated.
- The gross dollar amount of taxes abated during the period.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 18 (CONTINUED) and NOTE 19

The State has provided the following disclosure of tax abatements affecting the State of New Mexico. Tax receipts processed by the Department of Taxation and Revenue are recognized as revenue in various departments of the State. Abatements affecting local governments are disclosed in the financial statements of each local governmental entity, and can be obtained from the accounting department of each local government.

As allowed by state statute, the various local governments in the State participate in various Industrial Revenue Bond Programs/Industrial Development Projects (IRBs/IDPs) which result in reduced revenues for all participating governments. Various local governments have identified the State of New Mexico as a governmental entity which has been impacted by reduced revenues. The specific amount of loss revenues of the State as a result of these various programs has not been determined; however, it is deemed to be insignificant to the State of New Mexico as a whole.

New Mexico Hospital Equipment Loan Council

At June 30, 2021, there were three bond issues, for a total of \$ 71.6 million, outstanding for which the financed property was exempt from property tax based on the Hospital Equipment Loan Act. The amount of the abatement is determined by the assessed value of the property and the locale where the property is located.

NOTE 19. Commitments

A. Construction Commitments

The State has active construction projects as of June 30, 2021. The projects include highway construction, university infrastructure, and facilities construction and renovation. At year-end, the State's commitments for construction were \$403.5 million for governmental activities and \$142.9 million for business-type activities.

B. Loan Commitments

New Mexico Environment Department

The New Mexico Environment Department had loan commitments at June 30, 2021 of the following:

Wastewater Loan Construction Fund – the agency has executed binding commitments to disburse \$15.5 million for future loans.

Rural Infrastructure Loan Fund – the agency has executed binding commitments to disburse \$794.0 thousand for loans and grants.

New Mexico Energy, Mineral, and Natural Resources Department

Carlsbad Brine Well remediation estimated cost for project completion is \$71 million.

C. Capital Commitments

State of New Mexico Investment Council

The State of New Mexico Investment Council has commitments for capital contributions to various private equity partnerships and real estate/real asset investments. As of June 30, 2021, unfunded commitments to private equity partnerships were approximately \$1.72 billion, and unfunded commitments to real estate and real asset investments

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 19 (CONTINUED) and NOTE 20

were approximately \$2.11 billion. Unfunded commitments to the Credit and Structured Finance Pool were \$1.0 billion. Subsequent to June 30, 2021, the Council approved an additional \$385 million of commitments to private equity, real estate, and real assets partnerships.

NOTE 20. Contingencies

A. Contingent Liabilities

Public Education Department

The State did not meet its required level of financial support for the Special Education Cluster of programs for fiscal years 2011 and 2012. As a result, the Department may have a one-time reduction of future federal funding. Management's estimate of the potential one-time reduction in federal funding ranges from \$0 to \$63.49 million.

Office of the State Engineer

The Office of the State Engineer is a party in an appeal from the State Engineer's denial of an application for a new appropriation of groundwater. In this appeal, the district court ruled in December 2019 that the Agency is jointly and severally liable, along with one other party, for nearly \$400 thousand of the litigation costs of another party. The Agency timely filed a notice of appeal of the District court's ruling to the New Mexico Court of Appeals in June 2021. The Risk Management Division of the State of New Mexico has indicated that it will be unable to extend coverage to the Agency in regard to this claim.

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority (NMMFA) entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development (HUD) under Section 542(c) of the Housing and Community Development Act of 1992, whereby HUD and the NMMFA provide credit enhancements for third party multifamily housing project loans. HUD has assumed 90% of the risk and the NMMFA guarantees the remaining 10% risk of loss in the event of default on specific loans. As of September 30, 2021 and 2020, NMMFA is committed to assume a risk of approximately \$4.7 million and \$6.5 million for the 36 and 38 loans closed, respectively. These loans are considered in the NMMFA's assessment for the allowance for mortgage loan losses. As of September 30, 2021, of the 38 loans closed, 4 of the loans are not included in the Authority's financial statements because they are 100% participations with Fannie Mae. Of the \$4.5 million risk assumed as of September 30, 2020, the Authority's assumed risk approximated \$209 thousand for these off balance sheet loans. The end dates for the guarantees range from 2027-2058. In situations where the Authority is called upon to honor its guarantee, the Authority will take possession of and sell the loan collateral. HUD and the NMMFA will make up any shortfall resulting from the sale of the collateral on a 90%/10% pro rata basis.

The NMMFA also entered into a risk-sharing agreement with the U.S. Department of Agriculture under Section 538 Rural Rental Housing Guaranteed Loan Program. The Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority as of September 30, 2021. The NMMFA assumes 10% of the risk of loss and as of September 30, 2021 and 2020, is committed to assume risk of \$106 thousand and \$108 thousand respectively for the one loan closed, respectively.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 20 (CONTINUED)

B. Other Matters

Federal Funds

The State received funding from federal sources for specific purposes. The funds are subject to audit, which may result in expenses that are disallowed, or other noncompliance findings under the terms of the funding source's guidelines. The State believes that such disallowances or other noncompliance findings, if any, would not be material to the State's financial position.

Taxation and Revenue Department

There is pending or threatened litigation in the form of various protests and lawsuits by taxpayers or other parties claiming abatements, refunds and the recovery of unclaimed property arising from various tax programs administered by the Taxation and Revenue Department. The total dollar amount representing the claims in protest or pending in state courts is \$567.7 million.

Taxation and Revenue Department (TRD) is also subject to legal proceedings involving local public bodies related to Gross Receipts Tax distributions (GRT). The plaintiffs assert that distributions have been improperly reduced. TRD is currently reviewing the details and gathering additional information. The litigation was settled for \$50 million. This settlement will be paid out of TRD's current tax collections, which will reduce the distribution sent to the State General Fund in fiscal year 2022.

New Mexico State University

During the 2021 New Mexico Legislative Session, New Mexico State University Carlsbad was approved to be made into an independent community college known as Southeast New Mexico College. As part of this legislation, all functions, personnel, appropriations, assets and liabilities will be transferred to the new College on April 10, 2022. The effective date of the legislation was July 1, 2021.

Northern New Mexico College

During fiscal year 2021, the Northern New Mexico College accrued an accounts payable in the amount of \$500 thousand related to a litigation settlement, which is expected to be paid in January 2022.

Miner's Colfax Medical Center

Subsequent to year-end, the Medical Center entered into a contract with an unrelated party for a new electronic medical record system. The contract is for ten years with a total cost of approximately \$6.8 million, which includes implementation fees, monthly service fees, and support fees. The Medical Center will be billed monthly for these costs. On November 23, 2021, the Medical Center received a distribution of \$737.2 thousand from the American Rescue Plan Rural Funding, which is administered by the U.S. Department of Health and Human Services. The American Rescue Plan Rural payments have terms and conditions that the Medical Center is required to follow, and these funds are subject to audit. Included in the American Rescue Plan Rural Funding terms and conditions is a potential for repayment of these funds if they are not fully used in line with the terms and conditions.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 21

NOTE 21. Subsequent Events

A. Bond Issues

New Mexico Mortgage Finance Authority

On October 26, 2021, the Authority issued the Series 2021 JLG Central Apartments Projects multifamily housing revenue tax-exempt bonds in the amount of \$11 million. The proceeds will be used to fund a loan to assist in the acquisition, rehabilitation, and equipping of six multifamily rental housing facilities located in the state of New Mexico.

On November 18, 2021, the Authority issued \$99.99 million (2021 Series D) of Single Family Mortgage Program Class I Bonds under the 2005 General Indenture. The 2021 Series D Bonds will be used to finance certain qualifying mortgage loans under the Single Family Mortgage Program. A portion of the 2021 Series D Bonds was sold at a premium generating \$3.7 million, which will be used to purchase 2021 Series D Certificates, to fund 2021 Series D Participation Loans and to fund a portion of bond expenses.

On February 23, 2022, the Authority issued \$100 million (2022 Series A) of Single Family Mortgage Program Class I Bonds and \$33.5 million (2022 Series B) of MBS Pass-through Program Bonds under the 2005 General Indenture. The 2022 Series A Bonds will be used to finance certain qualifying mortgage loans under the Single Family Mortgage Program. The 2022 Series B Bonds combined with funds in the trust estates, will be used to fully refund the Single Family Mortgage Program Bonds 2012 Series A, 2012 Series B, and the 2011A/2015 Series C NIBP Bonds. A portion of the 2022 Series A Bonds was sold at a premium generating \$3.1 million, which will be used to purchase 2022 Series A Certificates, to fund 2022 Series A Participation Loans and to fund a portion of bond expenses.

New Mexico Finance Authority

Summer of 2021, Finance Authority issued \$43 million in bonds.

January 2022, Finance Authority drew \$32 million from a line of credit in anticipation of repaying it with a \$65 million bond being issued in April 2022.

New Mexico Department of Finance and Administration

During FY 2022, the State Board of Finance authorized and sold Severance Tax Notes 2021SC and 2021SD. The sale of the notes resulted in funding of \$285.4 million for future capital projects.

New Mexico Department of Transportation

Series 2021A Revenue Bonds Issued August 2021

The Department issued \$234.6 million NMFA State Transportation Revenue Bonds (Subordinate Lien) Series 2021A in August 2021. The gross proceeds to the Department were \$303.9 million including an original issuance premium of \$69.3 million. The cost of issuance, including the underwriters' discount, was \$1.5 million.

The Bonds are payable solely from and secured by federal funds not otherwise obligated that are paid into the State Road Fund, proceeds of the collection of taxes and fees that are required to be paid into the State Road Fund and not otherwise pledged exclusively to the payment of outstanding bonds and debentures, and taxes and fees required

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 21 (CONTINUED)

by law to be paid into the Highway Infrastructure Fund. The Bonds were engaged in through the NMFA at the direction of the State Transportation Commission of the State of New Mexico to provide funds for the purpose of financing projects administered by the New Mexico Department of Transportation. Proceeds from the sale of the Series 2021A 5Bonds will be used for the purposes of (i) financing the costs of State Transportation Projects consisting of the 2021A Projects, and (ii) paying the costs of issuance of the Series 2021A Bonds. The 2021A Projects' includes the acquisition of rights of way, planning, design, and construction of those State Transportation Projects for which general fund appropriations were made pursuant to New Mexico Laws of 2020 (1st Special Session), Chapter 3, Section 8, and New Mexico Laws 2021, Chapter 43, Section 5. Principal of the Bonds is payable on June 15 through the year 2030. Interest, with a rate of 5.00% per annum, is payable semi-annually on June 15 and December 15 through the year 2030.

B. Other Events

State of New Mexico

The COVID-19 pandemic continued to impact the state in fiscal year 2021. Measures taken by the State of New Mexico have helped to contain the virus and minimize the impact on the economy and the State General Fund. Without being able to predict the future course of the virus or the state's response, it is almost impossible to determine what impact this may have on future revenues and the economy.

The Laws of 2020, 1st Special Session, Chapter 5, Section 14 appropriated \$750 million dollars from the federal Coronavirus Aid, Relief and Economic Security relief fund allocation to the State General Fund for statewide COVID relief efforts. The Laws of 2021, Chapter 137, Section 5, Item 33 extended the expiration date of this appropriation to December 31, 2021. As of June 30, 2021, \$667 million of these funds have been transferred to state agencies for expenditure pursuant to guidance provided by the state legislature and federal government.

Taxation and Revenue Department

Refund claims estimated at \$24.0 million are expected to be paid due to a decision from the Court of Appeals that sales of medical cannabis prior to June 29, 2021 are eligible for a gross receipts tax deduction for prescription drugs.

The Department prevailed at the Administrative Hearings Office on a protest involving whether the most recent version of the high wage jobs tax credit statute applies to certain credit claims in the amount of \$18.3 million. Pending appeal, this decision will prevent those refund claims from being paid.

There is a protest backlog which could be reduced by \$84.4 million resulting from a favorable Court of Appeals decision regarding the gross receipts tax deduction for chemicals and reagents.

EXPO New Mexico

Senate Joint Resolution 10 during January 2022 legislative session - Requires the agency to reclassify \$572.8 thousand to a liability account since the Down's lease agreement was amended per the legislature. Also, EXPO received an IRS assessment totaling \$383.4 thousand. The IRS filed a lien on Expo's property pertaining to \$110.4 thousand of the total amount. This entire assessment amount is being disputed and in process of being resolved.

ANNUAL COMPREHENSIVE FINANCIAL REPORT For the Year Ended June 30, 2021

NOTES TO THE FINANCIAL STATEMENTS – NOTE 21 (CONTINUED)

General Service Division

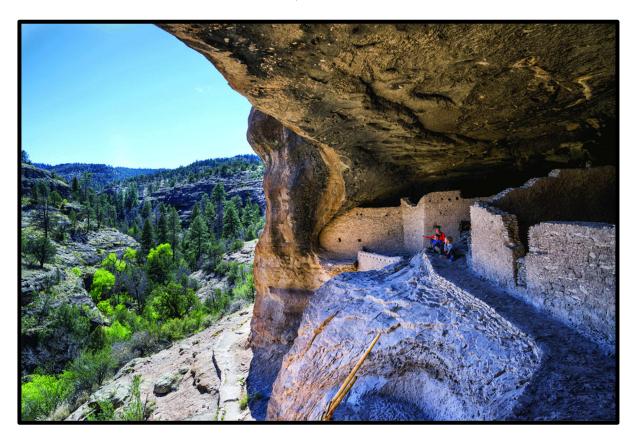

Risk Management Division (RMD) manages the State Unemployment Compensation Reserve (Fund 35300, non-reverting, Section 15-7-2 NMSA 1978) and Local Public Body (LPB) Unemployment Compensation (Fund 35400, non-reverting, Section 15-7-2 NMSA 1978) for the administration of all contributions collected and payments made to beneficiaries pursuant to the Unemployment Compensation Law and compensation benefits paid to public employees of local public bodies of the State of New Mexico who have agreed to participate in the fund activity. RMD paid first quarter and second quarter of FY2022, per Department of Workforce Solutions (DWS) invoices. The Department of Workforce Solutions is having difficulty programming their system to apply the payments in Q1 according to the requirements under the American Rescue Plan Act (ARPA), the federal government has issued a 75% relief on benefit charges this quarter. The State of New Mexico has discontinued its relief, reflecting a remaining balance of 25% of benefit charges due. There may be additional adjustments reflected on invoice for charges prior to 9-5- unemployment rate has triggered the state onto an extended benefit period. The State is responsible for 100% payment on any extended benefits charged in Q1.

REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY REPORTING

For the Year Ended June 30, 2021 (In Thousands)

Budget Process

The State Legislature makes annual appropriations, which lapse at fiscal year-end. Legal compliance is monitored through the establishment of a budget (Modified Accrual Budgetary Basis) and a financial control system, which permits a budget to actual expenditures comparison. Expenditures may not legally exceed appropriations for each budget at the program appropriation unit level. Program appropriation unit is identified in the State's accounting records and in the budgetary schedules as P-Codes, such as "P523 Child Support Enforcement." Budgeted program appropriation unit amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration within the limitations as specified in the General Appropriations Act. The budget amounts shown in the financial statements represent the final authorized amounts. Administrative line item expenditures (personnel, contractual, and other) may legally exceed amounts budgeted; however, the total budget category expenditures may not legally exceed the approved budget for the program appropriation. Chapter 6-3, NMSA 1978, sets forth the process used to develop the budget for the State of New Mexico. The process is as follows:

- 1. No later than September 1, the appropriation request is submitted to the Legislative Finance Committee (LFC), and the Budget Division of the Department of Finance and Administration (DFA), for the fiscal year commencing the following July 1. The appropriation request includes proposed expenditures and the means of financing them.
- 2. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcomes of those hearings are incorporated in the State's General Appropriations Act (Act).
- 3. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit, at which time the approved budget becomes a legally binding document.
- 4. Not later than May 1, an annual operating budget is submitted to DFA by appropriation unit and object code based upon the appropriation authorized by the Legislature. DFA reviews and approves the operating budget, which becomes effective on July 1.
- 5. Formal budgetary integration is employed as a management control device during the fiscal year for the General and Special Revenue Funds.

Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute; however; accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, they must be paid out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

REQUIRED SUPPLEMENTARY INFORMATION NOTES TO BUDGETARY REPORTING

For the Year Ended June 30, 2021 (In Thousands)

Multiple Year Appropriation – Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These non-operating budgets primarily serve as a management control purpose, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

In the accompanying budgetary schedules, budget and actual expenditures are reported only for appropriated activities for the operating budgets. Expenditures are classified in the financial control system based on whether the appropriation is from the operating or multiple year budgets (special or capital). Expenditures funded by the operating budget appropriations are reported as current expenditures classified by the function of the agency receiving the appropriation.

However, in the governmental operating statements, all governmental funds are included and expenditures are classified according to what was actually purchased. Capital outlays are fixed asset acquisitions such as land, buildings, and equipment. Debt service expenditures are principal and interest payments. Current expenditures are all other governmental fund expenditures classified based on the function of the agency making the expenditures. Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated.

Because of perspective differences between this budgetary comparison and the general fund statement of revenues, expenditures, and changes in fund balance, this schedule is presented as required supplementary information (RSI.)

The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as non-appropriated (not budgeted) by the Legislature are the Severance Tax Fund, the Land Grant Fund, and the following Enterprise Funds: State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

Excess of Expenses/Expenditures Over Budget

For the fiscal year ended June 30, 2021, there were none of the State agency's P-codes reporting expenses/expenditures exceeding budget authority.

Notes to the Schedule:

Benefit changes: None

Differences between expected and actual experience: The \$38.5 million decrease in the liability from June 30, 2019 to June 30, 2020 is due to changes in the census, claims, and premiums experience. There is no change in the Total OPEB Liability from the fiscal year ended June 30, 2020 to the fiscal year ended June 30, 2021 due to differences in expected and actual experience.

Changes of assumptions: The \$6.4 million decrease in the liability from the fiscal year ending June 30, 2017 to the fiscal year ending June 30, 2018 is due to the increase in the assumed discount rate as of the measurement date. The \$7.1 million decrease in the liability from the fiscal year ending June 30, 2018 to the fiscal year ending June 30, 2019 is due to the increase in the assumed discount rate as of the measurement date. The \$7.7 million increase in the liability from June 30, 2019 to June 30, 2020 is due to the decrease in the assumed discount rate from 6.78% as of June 30, 2019 to 6.69% as of June 30, 2020, as well as updates to the trend, excise tax, and mortality assumptions. The \$6.5 million decrease in the liability from the fiscal year ended June 30, 2021 is due to the increase in the assumed discount rate as of the measurement date.

Industries for the Blind – The New Mexico Commission for the Blind's mission is to encourage and enable the State's blind citizens to achieve vocational, economic, and social equality. This proprietary fund is used to provide career training and other assistance for New Mexico's blind citizens and entails the operations of the Albuquerque Training Center.

Corrections Industries Revolving Fund – This fund is used to account for certain activities of the Corrections Industries Division of the Department of Corrections. These activities include the manufacture of furniture and textiles, production of agricultural crops, and data entry services.

Environment Department – This fund is used to account for revolving loans for wastewater and drinking water facilities.

New Mexico Magazine – New Mexico Magazine is a program of the Department of Tourism. The fund accounts for the publishing and distribution of the monthly New Mexico Magazine.

New Mexico Public Schools Insurance Authority (NMPSIA) – NMPSIA is a self-insurance pool that provides various benefits and risk coverage to participating public schools, school board members and public school employees, plus retired board members and employees. Coverage provided includes property, casualty, workers' compensation, health, life, and disability.

State Infrastructure Bank – The State Infrastructure Bank is a proprietary fund administered by the Department of Transportation. The fund is used to account for loans made for road projects.

Miners' Colfax Medical Center – Miners' Colfax Medical Center is a State owned medical facility in Raton, New Mexico. The current organization is a result of a merger between the Miners' Hospital and Northern Colfax County Hospital. Miners' Colfax operates a 25-bed acute care hospital; a 37 bed extended care facility and various outpatient clinics in Raton, New Mexico. Miners' Colfax has programs that serve both miners and non-miners.

State Fair Commission – This fund administers the operations of the annual New Mexico State Fair and the use of the Fairgrounds facilities during the year

Department of Cultural Affairs – This fund administers the enterprise operations of the Department of Cultural Affairs.

Education Trust Board – The Education Trust Board of New Mexico operates as a self-sustaining entity which is administratively connected to the NM Department of Higher Education. This fund administers New Mexico's Section 529 College Savings Plans under rules promulgated by the Board. The financial statements of the two savings plans are presented as a private purpose fiduciary trust fund.

OTHER SUPPLEMENTARY INFORMATION NONMAJOR INTERNAL SERVICE FUNDS COMBINING FINANCIAL STATEMENTS

June 30, 2021

Fleet Operations – This fund accounts for the operations of the Transportation Motor Pool and the State Aircraft Pool, which provide ground and air transportation services to all state agencies on a fee basis.

Risk Management – This fund provides insurance coverage for all state agencies. Areas covered include public liability, workers compensation, group health and life, unemployment compensation, surety bond, and property insurance. Agencies are charged a premium based on several factors, including history and number of employees.

Printing and Records – This fund accounts for the provision of printing services of all kinds to state agencies according to an approved fee schedule. The fund also includes services for the retention and storage of public records for all state agencies, which pay an assessment based on size and usage.

Communications Services – This fund provides voice and data telecommunications services to all state agencies, which are assessed an annual fee based on size and prior usage.

Information Processing – This fund provides automated data processing services for all state agencies, which are assessed an annual fee based on size and prior usage.

OTHER SUPPLEMENTARY INFORMATION FIDUCIARY FUNDS PENSION AND OTHER EMPLOYEE BENEFITS TRUST FUNDS FINANCIAL STATEMENTS

Public Employees Retirement Association - (PERA) – PERA is a qualified, defined benefit, government retirement plan established by the State of New Mexico to provide pension benefits for all State, County, and Municipal employees, police, firefighters, judges, magistrates and legislators. PERA is comprised of four separate systems which offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators.

Educational Employees' Retirement System (EERS) – EERS is a qualified, defined benefit, governmental retirement plan established and administered by the State of New Mexico to provide pension benefits for all state certified employees, teachers and other employees of the State educational institutions, junior colleges, and technical vocational institutes.

New Mexico Retiree Health Care Authority (RHCA) – RHCA is a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that provides comprehensive core group health insurance for persons who have retired from public service with entities in the State of New Mexico.

Deferred Compensation Plan (IRC 457) – The State of New Mexico offers its employees a deferred compensation plan (Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," is in accordance with Internal Revenue Code Section 457. The Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Public Employee's Retiree Association is the trustee of the Plan; however, the Plan is administered by a third party administrator acting under contract with PERA.

State Investment Council – The State Investment Council (Council) is responsible for the investment activities of certain State of New Mexico Trust Funds. Pursuant to New Mexico law, the Council created the following investment pools: Large Capitalization Active, Large Capitalization Index, Core Bonds, Structured Credit, Mid\Small Capitalization, Non-U.S. Equity Securities, Non-U.S. Emerging Markets, and Absolute Bonds. The investment pools provide long-term investment opportunities for state agencies and designated institutions that have funds available for a long-term investment program that will extend for more than one year. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by State entities are presented in both the Governmental Funds and Proprietary Funds as assets of those respective entities.

State Treasurer – The Office of the State Treasurer holds and invests monies for other state agencies and local governments through the Local Government Investment Pool. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by the State are presented in both the Governmental Funds and Proprietary Funds as assets of those respective entities.

STATE OF NEW MEXICO ANNUAL COMPREHENSIVE FINANCIAL REPORT FOR THE FISCAL YEAR ENDED JUNE 30, 2021

STATISTICAL SECTION

HATCH CHILE SOURCE - NEW MEXICO MAGAZINE

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

INDEX TO STATISTICAL SECTION

The Statistical Section provides additional historical context and detail to aid in using the information in the financial statements, notes to the financial statements and required supplementary information for the primary government of the State of New Mexico in understanding and assessing the State's overall financial health.

Financial Trends Information

These schedules present trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

| Schedule A-1 318 | Net Position by Component |
|---------------------|--|
| Schedule A-2 320 | Changes in Net Position |
| Schedule A-3 326 | Fund Balances, Governmental Funds |
| Schedule A-4 328 | Changes in Fund Balances, Governmental Funds |

Revenue Capacity Information

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

| Schedule B-1 330 | Schedule of Revenues, State General Fund |
|---------------------|---|
| Schedule B-2 336 | Revenue Base |
| Schedule B-3 338 | Revenue Payers by Industry – Taxable Sales, Services, and Use Tax Purchases |
| Schedule B-4 339 | Revenue Payers – Personal Income Tax |
| Schedule B-5 340 | Personal Income Tax Rates |

Debt Capacity Information

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

| Schedule C-1 342 | Ratios of Outstanding Debt by Type |
|---------------------|--|
| Schedule C-2 344 | Long-Term Liabilities |
| Schedule C-3 346 | Legal Debt Margin |
| Schedule C-4 348 | Statutory Debt Limit – Severance Tax Bonds |
| Schedule C-5 350 | Pledged Revenue Bond Coverage |

ANNUAL COMPREHENSIVE FINANCIAL REPORT

For the Year Ended June 30, 2021

INDEX TO STATISTICAL SECTION

Demographics and Economic Information

These schedules contain demographic and economic indicators to help the reader to understand the environment within which the State's financial activities take place.

| Schedule D-1 | Demographic and Economic Indicators |
|--------------|-------------------------------------|
| 353 | |
| Schedule D-2 | Principal Employers |
| 354 | |
| Schedule D-3 | Composition of Labor Force |
| 355 | _ |
| Schedule D-4 | Public Higher Education Enrollment |
| 357 | • |

Operating Information

These schedules offer operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

| Schedule E-1 | Full-Time Equivalent State Employees by Function |
|--------------|--|
| 359 | |
| Schedule E-2 | Operating Indicators by Function |
| 361 | |
| Schedule E-3 | Capital Assets Statistics by Function |
| 367 | |

Other Information

These graphs and schedules offer a historical view of expenditures in constant dollars.

| Schedule F-1 | Expenditures – Historical and Constant Dollars |
|---------------------|---|
| Schedule F-2 370 | Per Capita Expenditures – Historical and Constant Dollars |

Sources: Unless otherwise noted, the information in the following schedules is derived from the State of New Mexico Annual Financial Report.

Note: The statements which comprise the Statistical Section have not been audited.

- Note The State of New Mexico passed the Accountability in Government Act, NMSA 6-3A, in 1999. Efforts have been made in identifying and determining performance measurements since that time. Agencies began tracking and calculating these performance measurements beginning in fiscal year 2004. These operating indicators will continue to be tracked in the future in order to reach a ten year historical comparison.
- N/A Measure deleted in FY09 or a latter Fiscal Year and replaced by different criteria.

OTHER REPORTS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico
Ms. Debbie Romero, Secretary of the New Mexico Department of Finance and Administration,
Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and
Mr. Brian Colón, New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of State of New Mexico, as of and for the year ended June 30, 20211, and the related notes to the financial statements, which collectively comprise State of New Mexico's basic financial statements, and have issued our report thereon dated April 15, 2022. Our report includes reference to other auditors who audited the financial statements of certain components of the State, as described in our report on the State's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the New Mexico Small Business Investment Corporation were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered State of New Mexico's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of State of New Mexico's internal control. Accordingly, we do not express an opinion on the effectiveness of State of New Mexico's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico Ms. Debbie Romero, Secretary of the New Mexico Department of Finance and Administration,

Ms. Donna M. Trujillo, State Controller of the New Mexico Department of Finance and Administration, and

Mr. Brian Colón. New Mexico State Auditor

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether State of New Mexico's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as items 2021-001 and 2021-002.

State of New Mexico's Response to Findings

State of New Mexico's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. State of New Mexico's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2021

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2021

Financial Statement Findings - Compliance and Other Matters

2021-001 (Original Finding # 2018-002) - Component Financial Reporting (Other Matter)

Condition: The financial statements of the State are considered "group financial statements" under *AU-C 600, Special Considerations – Audits of Group Financial Statements*. Whereas, "group financial statements are defined as financial statements that include the financial information of more than one component. The "component" is defined as an entity or business activity for which group or component management prepares financial information that is required by the applicable financial reporting framework to be included in the group financial statements.

The State's financial statements consist of more than 200 components, these components consist of state agencies/entities under each of the three branches of the government (Executive, Judicial, Legislative), various boards and commissions of the State, various educational institutions as established by the State's constitution, and various other entities that are legally separate from the State that meet the criteria of a component unit of the State under GASB codification. Examples of component units included in the State's financial statement include the finance authorities, the lottery, foundations of aforementioned educational institutions, and numerous state authorized charter schools and their related foundations. All components of the State are separately audited and issue separate stand-alone financial statements. The following represent some of the more significant issues identified at the component level that have an impact on state-wide reporting:

- During our audit, we observed the following discrepancies and other issues when comparing the component level reporting to the State level reporting:
 - A component of the educational institution opinion unit early implemented GASB 87, which
 was identified by the ACFR Unit and required adjustments because early adoption was not
 allowed for entities that are components of the statewide reporting entity.
 - Material adjustments were required by the ACFR Unit to the debt service opinion unit because a component of the debt service fund did not record refunding activity in the respective fund statements.
 - The State has established various accounts within the State's chart of accounts for those components on the State's ERP system (SHARE) to improve the consistency and accuracy of statewide reporting, however, we have observed inconsistent use of these accounts across these components.
 - The State has established the Manual of Model Accounting Practices (MAPs) as the prescribed set of policies and procedures that are required to be followed for stand-alone state agencies. We noted a component of the state is not adhering to the policy to account for inventory, as required by FIN 10.1 of MAPS.

Management's Progress for Repeat Finding: The State has made significant improvement in consolidating the information that rolls into the Annual Report. Agencies are becoming accustomed to the new accounts that must be used for transactions across components. There continued to be a few instances whereby the accounts were not utilized appropriately. We continue ongoing review and training for this process. To understand the progress made for other points of this finding, please note that while agency audits are reviewed prior to utilizing the information to prepare these statements, activity that may be miscoded by agencies are occasionally not identified until the preparation of the consolidated data due to the short timeline required to review over 200 agency audit reports. Efforts to streamline this process continue to move forward.

Criteria: Per Section 6-5-2 NMSA 1978, the Division shall maintain a central system of state accounts and shall devise, formulate, approve, control and set standards for the accounting methods and procedures of all state

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2021

agencies ("state agency" means any department, institution, board, bureau, commission, district or committee of the government of the state and means every office or officer of any of the above). The Division shall prescribe procedures, policies and processing documents for use by state agencies in connection with fiscal matters and may require reports from state agencies as may be necessary to carry out its duties and functions. In addition, Section 6-5-2.1 NMSA 1978 requires the Division to conduct all central accounting and fiscal reporting for the state as a whole and produce interim statewide financial reports and the state's comprehensive annual financial statements, which should be prepared in accordance with generally accepted accounting principles.

Cause: These issues can be attributed to the complexity of the State's reporting entity combined with the quantity of separate components and their related control environments/processes that comprise the State's financial statements. Additionally, the State may not identify a financial presentation issue at the component level prior to the release of the report. The State continues to improve its process to communicate with the components and their IPA of observed issues, identified post report release for correction in the subsequent year financial statements. Overall, improvement is needed for the State's control environment over the financial reporting of the State as a whole to facilitate the production of timely and accurate financial statements of the State.

Effect: The State of New Mexico experiences difficulty preparing financial statements in accordance with generally accepted accounting principles in a timely manner. Furthermore, possible opinion modifications on the State's financial statements.

Recommendation: To improve statewide reporting impacted by component level reporting, we recommend the following:

- For issues caused by inconsistent reporting between the components and the State's financial statements, we recommend the State identify those specific issues and provide specific guidance to these entities and their Independent Public Accountants (IPAs) on the required reporting and presentation.
- 2) The State should evaluate any necessary assistance that can be provided to those significant components that have received modified opinions to avoid future impacts on the State's financial statements.
- 3) For those components that report under SHARE, the State should provide additional training to those entities that are not properly using the established accounts for activity among component units and educational institutions, as necessary. The State should evaluate the established accounts and ensure all agencies know which accounts to utilize, depending on the nature of the transaction.

Management's Response:

The SFRAB unit (SFRAB) will identify specific issues uncovered during this audit process and request corrective action plans from the responsible agencies. The corrective action plans will be reviewed and approved by the SFRAB and monitored throughout the year to ensure that identified processes are in use and working as intended. In addition, management will continue dialogue with the State Auditor's Office to gain support for the SFRAB to attend entrance and exit conferences of the entities that roll into the State's ACFR, as deemed necessary. This will translate to the SFRAB gaining an early awareness of issues that may be encountered during ACFR preparation and promote an enterprise view of internal control across agencies. Currently, reactive approaches to internal control management can vary greatly among agencies.

In addition, ongoing process integration, training, and oversight is planned to more fully address these issues and meet upcoming challenges. These plans include the creation of SFRAB staff positions designed specifically to address agency staffing shortages, problems, and to provide on-site training. This is ongoing and the State Controller is responsible for resolution.

SCHEDULE OF FINDINGS AND RESPONSES YEAR ENDED JUNE 30, 2021

2021-002 (Original Finding # 2015-001) Late Submission of Audit Report (Compliance and Other Matters)

Condition: The audit report for the annual financial report for the year ended June 30, 2021 was not submitted by Regulatory due date of December 31, 2021.

Management's Progress for Repeat Finding: The State has made significant improvement in consolidating the information that rolls into the Annual Report. Agencies are becoming accustomed to the new accounts that must be used for transactions across components. There continued to be a few instances whereby the accounts were not utilized appropriately. We continue ongoing review and training for this process.

Criteria: Audit reports not received on or before the due date are considered to be in non-compliance with the requirements of Section 2.2.2.9.A of the State Audit Rule.

Cause: The State lacks an adequate financial reporting process and adequate resources to achieve the established deadline of December 31.

Effect: Non-compliance with the State Audit Rule; and the users of the State's financial statements did not receive the financial information in a timely manner.

Recommendation: We recommend the State evaluate the entire approach of producing the State's financial statements and the related processes and methodology to determine which processes could be improved to facilitate the State's ability produce a more timely and accurate report. Furthermore, the State should evaluate if additional resources within the annual financial report unit would improve the timeliness of the annual financial report preparation.

Management's Response: Under statute (12.6.3 NMSA 1978), every state agency must be audited annually. To avoid duplication of effort, the Annual Comprehensive Financial Report (ACFR) audit relies and builds upon agency audits. The existing group audit process affects timeliness, as ACFR preparation may only commence after completion of the underlying agency audits, which are generally not available until the December following fiscal year-end. Ongoing discussions continue within the Department of Finance and Administration and the State Auditor's Office to identify opportunities to streamline and shorten the overall ACFR preparation process. In addition, ongoing process reengineering, documentation, training, and oversight are planned to more fully address these issues. These plans include an evaluation of the effectiveness and efficiency of currently utilized programs and electronic processes to determine the systematic value provided to the overall business process. This is ongoing and the State Controller is responsible for resolution.
