

## Budget Boot Camp Module 2: Budget Management Documents

Dr. Andrew Miner, DPA
Director, State Budget Division
Andrew.Miner@dfa.nm.gov
(505) 819-1772

## Module Overview

#### **Budget Management Documents**

Documents that agencies prepare and submit to SBD during the fiscal year to adjust their budget per legislative and statutory authority

#### **Budget Adjustment Requests (BARs)**

- Types and Authority
- How to submit a complete BAR
- Appropriate backup documentation

#### **Budgeting Nonrecurring Appropriations**

OPBUD-4s and Allotment Forms

#### **Special Cases**

Reauthorizations and Companions

#### **Adjusting Nonrecurring Appropriations**

Budget Reallocation Forms (BRFs)

**Creating Budget Projections – UPDATED FOR FY25** 

**Supplemental Documentation** 

### Submission process for BARs, OPBUD-4s and BRFs

01

Create email submission to be sent to

<u>DFASBD.Submissions@dfa.n</u> m.gov

- Include Excel version of BAR, OPBUD-4, or BRF Form
- Include all backup documentation as one PDF

02

Include appropriate word in email subject line to aid in filtering:

- BAR Budget Adjustment Request
- BRF Budget Reallocation Form
- OPBUD4 The form utilized for nonrecurring appropriations

03

SBD Office Manager (or backup) will log in and route to analyst

#### SBD Review Process

# Budget Adjustment Requests (BARs)

- Requests by agency to adjust current-year recurring operating budget (Section 4) according to authority granted by legislature in GAA, either general to all agencies or specific to that agency
- Agencies may do "internal" BARs that adjust budgets lower than the P-code level independent of DFA review. Any adjustment to a P-code level budget must be submitted to DFA.
- LFC has 10-day passive review of all P-code BARs except those involving federal funds.
- Note: Because they have lump-sum budget authority in the GAA (not broken out by expenditure category), Courts submit BRFs where every other agency would submit a BAR.

#### Types of BARs

- Budget Increase Request to increase budget according to granted authority (never GF).
- Budget Decrease Request to decrease budget. Used to align budget with expected revenue amounts.
- Category Transfer Request to transfer budget authority from one expenditure category to another.
- Program Transfer Request to transfer budget authority from one Pcode to another. Usually limited to specific agencies and/or programs denoted in GAA. Must transfer both expenditure and revenue budget.

## Statutory authority for BARs

BAR Statutes: 6-3-23 though 6-3-25 NMSA 1978

#### Special Revenue Fund Statutes

- It is important to refer to language establishing special revenue funds in statutes, as this language will often dictate authority the agency has to increase the budget from this fund outside of the GAA.
- "Money in the fund is appropriated to the department" = Agency has broad authority to submit increase BARs from this fund.
- "Money in the fund is subject to appropriation by the legislature" = Agency does not have authority to request increases beyond those allowed specifically in the GAA.
- Some funds do not have clear language. In such a case please consult your SBD analyst.

### GAA Authority for BARs

\*Note: Section labels may change slightly from year to year. Consult current authority document on SBD website.

#### Section 3 (I)

- Allows agencies with excess revenue from board of finance loans, other acts of the legislature, gifts, grants, donations, bequests, insurance settlements, refunds or payments into revolving funds to request budget increases
- General authority used for federal grant increases

## **Current FY BAR Authority section** (2024 GAA = Section 12)

 Denotes specific authority to certain agencies to request budget adjustments for remainder of current FY. In this year's GAA, this was for the remainder of FY24 so now expired.

L. the board of veterinary medicine may request budget increases up to one hundred thousand dollars (\$100,000) from other state funds to make disbursements from the animal care and facility fund to qualifying animal shelters;

### GAA Authority for BARs

\*Note: Section labels may change slightly from year to year. Consult current authority document on SBD website.

#### Next FY BAR Authority section (2024 GAA – Laws 2025, Chapter 69, Section 13)

- Establishes general authority granted to all agencies to request budget adjustments in next FY as well as specific authority granted to certain agencies
- Subsection C: Authority for category transfers among PSEB, Contracts, and Other (not 500 category)
- Subsection D: Authority for agencies with appropriations from Other State Funds or Transfers to request increases up to 5% of amount budgeted in Section 4.
  - Agencies that don't have broad authority to request increases from special revenue funds must follow this limit
  - Remember that OSF and Fund Balance are grouped together under OSF in GAA
  - If you have both OSF and Transfers, 5% authority to limited to each source separately, not combined (cannot use Transfers budget to increase OSF & vice versa)
- Subsection E: list of authority granted to certain agencies by fund, program and/or purpose
- Note that blanket program transfer authority to all agencies is rare and, for now, extinct

## Requesting BAR Authority

- REQUEST FOR BUDGET ADJUSTMENT REQUEST, SECTION 4 OR SECTION 7 LANGUAGE

  (Prepare separate forms for each request)

  Business Unit Code:

  Agency:

  Program:

  Agency Contact/Phone:

  REQUEST TYPE

  FY20 BAR Language FY21 BAR Language Section 4 Language Section 7 Language

  Language requested for inclusion in General Appropriations Act (Please Follow Legislative Bill Drafting Conventions See Instructions)
- DFA issues guidance to agencies in the fall for submitting BAR authority requests to be considered for inclusion in next session's GAA
- Submit language requests with short justification to both DFA and LFC in BFM
- DFA and LFC recommend BAR authority for inclusion, LFC drafts bill.
- Note: Program transfer authority, even if specific, is difficult to get approved
- Offering a maximum amount can help increase odds of language approval

## Components of a Complete BAR

Budget Journals (copies from SHARE, convert to PDF)

BAR Narrative (create in Word, convert to PDF)

Backup documentation depending on type of BAR, possibly including:

- Copy of <u>specific</u> statutory authority (copy of general authority not needed just citation)
- Federal grant award and budget worksheet
- 5% worksheet
- SHARE reports showing budget availability for category decrease
- Budget projections

Utilize BAR Checklist on SBD's website to ensure complete submission

#### Completing the BAR Form

\*note: Updated BAR Form to use in FY25 with drop-downs!

- Be sure to include correct journal number(s)
- Include appropriate statutory authority from GAA, statutes, etc
- Complete revenue section which should tie to revenue above, include 6 digit code. Use correct equity code for fund balance BAR.
- Mark type of BAR and check "No 10 Day Wait" box if BAR utilizes <u>exclusively</u> federal funds.
- Ensure CFO or designee has signed form

## Completing the BAR Narrative

Use correct narrative for type of BAR: Budget Increase, Budget Decrease, or Category Transfer (can be adapted for program transfers)

Narrative justification of why BAR is necessary – complete thoroughly and accurately. Be specific about what funds are being used for.

- Especially important for category transfers such as requests to move budget out of 200 category
- Keep in mind that the Budget Director reviews BARs for appropriateness and the LFC will review later and may have questions

Make sure information provided on narrative matches that on form, backup documents, etc.

Examples of completed BARs with narratives will be posted on Boot Camp Training website

### Completing the BAR Journals

- Budget Entry Type: BARs are <u>always</u> Adjustments, even if setting up a "new" budget for a federal grant
- Entry Type is always BAR. Use budref (125) and class code (10000) consistent with that FY's Section 4 operating budget
- Ensure that budget increases and decreases have a REVENUE and APROP\_P journal
- Ensure that a transfer BAR is created as a Budget Transfer journal
- Ensure that journals have been approved at all agency levels to be routed to DFA
- Department-level decrease journals for transfer BARs
  - Cannot be done as a transfer must be done separately (first decrease, then increase)
  - Create and post department level decrease journal (Entry Type = AGY) before submitting BAR to DFA, include copy of posted journal in backup
  - After DFA posts BAR, create and post department level increase journal (otherwise it will error out – child exceeds parent budget)

## Backup for Federal Increase BARs

- Copy of grant award that details available funding amount and period of award
- Completed grant recon sheet showing any previous established budget and this BAR
- May consolidate more than one award into one BAR but need recons for each

## Backup for Other Increase BARs

- Special revenue fund statutes detailing authority to increase (if applicable to that fund)
- Copy of fund trial balance report showing available fund balance and correct equity code as well as fund balance reconciliation sheet
- Copy of MOU or similar document if receiving funds from other entity
- Completed 5% worksheet if using that authority to increase

- Up-to-date budget projections for P-code showing need for BAR
- Copy of posted department-level decrease journal (if your agency budgets at dept level)
- Copy of SHARE budget status report showing sufficient budget in requested category to decrease

## Guidelines for BAR consolidation

- Each BAR may only contain actions of one type: Budget Increase, Budget Decrease, Category Transfer, or Program Transfer.
- Multiple actions of the same type may be included on the same BAR, including from different funds and program codes. Each specific action on the BAR must be allowed by appropriate statutory authority.
- Every BAR involving exclusively federal funds and thus exempt from the LFC's ten-day review period must be separated from BARs of other revenue types. Multiple federal actions (of the same type) may be included on the same BAR.
- BARs with multiple actions may combine them on SHARE journals. For example, a category transfer BAR with 5 actions need only have one category transfer journal. A federal increase BAR with 5 grants may combine them on one revenue and one appropriation journal.
- Each action on a BAR must be clearly identified and justified on the BAR narrative. Appropriate backup documentation must also be provided for each.

### **BAR 10-Day Waiver Process**

### Budgeting Non-Recurring Appropriations: OPBUD-4

- Most commonly budgeting items from Sections 5, 6, and 7 of GAA. Occasionally other legislation such as junior budget bills. Not subject to 10-day review by LFC.
- Lump-sum: Agencies have authority to establish budget in different expenditure categories as needed, according to fulfilling the purpose of the appropriation.
  - Exception: May not establish budget in 500 category unless specifically directed by appropriation
- Table of Budget Codes
  - Produced by SBD after every legislative session, posted on SBD website
  - Establishes Z-codes, class codes, and budrefs for all nonrecurring appropriations in GAA and other legislation. Consult and include copy of relevant line when submitting OPBUD-4s

## Components of a Complete OPBUD-4

Complete, signed OPBUD-4 Form (Excel)

#### Budget Journals – REVENUE and APROP\_P

- Budget Entry Type: Original (establishing new appropriation budget)
- Entry Type: OPBUD-4

Copy of appropriation line from Table of Budget Codes

#### Backup dependent on type of appropriation:

- Complete, signed allotment form if appropriation is from general fund, computer systems enhancement fund (Section 7), or tobacco settlement fund
- Copy of PCC certification letter if budgeting Section 7 IT appropriation, with certified amount matching what is being budgeted
- Trial balance report if appropriation is from fund balance
- Documentation that any contingencies in the appropriation have been met

### Completing the OPBUD-4 form

- Use corresponding info from Table of Budget Codes, including statutory citation
- CFO/designee should always sign top right section
- Set up expenditure category budget as desired to fulfill purpose of appropriation
- Use correct 6-digit revenue code (499105 for General Fund)
- Be sure to include both journal numbers
- Section 6 Certification: Only complete if appropriation is from Section 6 of the GAA, denoting an appropriation to fill a budget shortfall in the current or previous fiscal year
- Ensure all info on the budget journals matches the OPBUD-4 form

## Completing the Allotment Form

- Funding Source: If not GF, specify Computer Systems Enhancement Fund or Tobacco Settlement Fund
- Allotment Distribution Type:
   Accelerated (get all money at once)
- Otherwise use same info from bill and OPBUD-4 Form

### Special Appropriation Reauthorizations

- If a nonrecurring appropriation is not spent entirely by its original end date, an agency can request an extension, typically granted for one additional fiscal year.
- Budgeted via normal OPBUD-4 process after original budget period is over
- Use same Z-code as original appropriation but new class code and budref per the Table of Budget Codes
- Budget must be for remaining balance of appropriation include SHARE report showing balance as of last day (6/30) of original period
- Do not include allotment form money was already sent

### Companion BARS and OPBUD-4s

#### Two possible use cases

- Agency transfers funds from special revenue fund into operating budget and wants to increase OSF budget, thereby also increasing special revenue fund transfer. May even come from another agency in limited circumstances
- Agency received nonrecurring appropriation from another agency's special revenue fund and therefore needs to receive transfer from that agency before it can spend the money. Agencies will need to coordinate.
- Procedure: 2 BARs or OPBUD-4s required (companions)
  - Budget with transfer revenue and expenditures in 200/300/400 as desired
  - Budget with original revenue (OSF or fund balance) and 500 category expenditure

## Budget Reallocation Forms (BRFs)

#### Used for two purposes:

- Changes to established nonrecurring appropriations. Usually a category transfer. Increases are only allowed for federal funds.
- Courts use BRFs as BARs since GAA gives them lump-sum Section 4 appropriations (can set up expenditure categories as they wish)

Not subject to 10-day LFC review

#### Components of a complete BRF

- BRF Form (Excel)
- Budget journal(s). Budget Entry Type: Adjustment. Entry Type: BRF. Create Budget Transfer journal for category transfer BRFs.
- Documentation of federal funding availability if applicable
- SHARE report showing available budget for category transfer
- Courts submitting BRFs for Section 4 budgets should provide same documentation as required for a BAR of that type (increase, category transfer, etc.)

- Use relevant Z-code, class, budref for the nonrecurring appropriation
- Courts Use your P-code, class and budref for that FY's recurring budget if adjusting Section 4 budget
- Include brief justification for change to nonrecurring appropriation

## **Completing Budget Projections**

FY25 template available on SBD website under the Budget Adjustment Requests tab Updated every fiscal year with new account codes and number of salary hours (such as 2,080)

Use for budget management and planning during the fiscal year

Submit to DFA as BAR backup (showing need/effect of BAR) and budget availability for HR actions such as raises or upward reclasses of positions

Complete one projection packet per P-code, and different tabs for each funding source within that P-code

Category tab is a summary rollup and copies from detail tabs – shouldn't need to hard type any numbers here

- Populate column B with line item budgets, column C with BAR and revenue adjustments (more on this in a bit)
- Populate columns E and F with actual expenditures / encumbrances from SHARE reports at detail level (trial balance, GL, budget vs. actuals)
- Column I (projected expenditures) in the 200s (PSEB) will populate from data entered on Salary Projections tab. Manual entry required for 300s, 400s, 500s

#### Salary Projections tab

- Complete each field with current HR data
- Class = Exempt, Term, Exempt, Perm F/T, Perm P/T, Temp
- Obj Code = job classification
- Enter annual salary, hourly wage will autopopulate
- Enter remaining pay hours based on current data and payroll schedule tab
- Enter insurance costs per pay period dependent on employee's insurance plan and salary
- Projected remaining costs for each line item will calculate in column S > used for PSEB projections on Detail tab
- 2088 hours in FY25

#### **Vacant Positions**

- Enter remaining work hours based on when you plan to fill position
- Enter zero if no plans to fill position
- Enter salary based on estimate of what you plan to pay position, use midpoint of salary range if unsure
- Use single coverage to estimate insurance costs

## **Budget Projections: Revenue Adjustments**

- All non-general fund revenues should be estimated at least quarterly
- In column C of the applicable revenue detail tab (federal, transfers, other revenue, fund balance) adjust the revenues so the projections reflect actual estimated revenues
- Column D, adjusted budget, will show the adjusted total
- BARs/BRFs can also be adjusted in column C
