No public comment.

4) Investment Accounting Report (Moved from Item 7 to Item 4)

Ms. Kristen Dorland, State Treasurer's Office (STO) Chief Financial Officer, presented the reconciliation results for July 2025. In June 2025, investment reconciliations were performed between JP Morgan reports and the investment software, Broadridge Investment Accounting System (BIA). The General Fund Liquidity Fund, REPO, Severance Tax Bonding Fund, and the LGIP Short-Term all experienced variances on a greater basis. Year-to-date distributions totaled \$14.3 million to the State General Fund and \$4.7 million to Self-Earnings participants totaling over \$19 million.

5) Executive Summary

In her Executive Summary, STO Chief Investment Officer, Ms. Vikki Hanges, reported that at the end of July, the State Treasurer's Office was managing \$19.5 billion in assets, the largest in STO's history. During the month, the Office earned approximately \$67.3 million from its investment positions. Due to higher interest rates, portfolios were down by \$32 million on an unrealized mark-to-market basis, but net income was positive at around \$35 million. The Federal Reserve is expected to decrease rates by at least 0.25% next week, a shift from their steady stance in July.

The Treasurer, Council, and staff discussed the significant impact of the revised economic data, such as the negative job revision and a recent downward revision of 911,000 positions on investment decisions. The market is now pricing in 2-3 rate cuts by the end of this year and potentially six by the end of next year. The team is evaluating strategies like a barbell structure of two and five-year securities to maximize yield while managing risk. To date, STO has been able to keep our duration and take less risk versus the benchmark. While at the same time, we've been able to outperform.

6) Broker Dealer Activities & Investment Policy Compliance Report

Mr. Arsenio Garduño, STO Compliance and Risk Manager, presented a review of broker-dealer transactions and asset allocations. In July, the office executed just over \$2 billion in purchases. Investment compliance was fully maintained, including \$1.8 billion in primary bonds and \$200 million in secondary bond volume. The state holds nearly \$2 billion in variable rate notes. There were 69 trades tracked during the month.

The Council discussed the plans for the upcoming comprehensive revision of the STO Investment Policy. The project is being led by Deanne Woodring of Government Portfolio Advisors. The process involves reviewing policies from eight other states and aligning with GFOA best practices. The revision is still in the early stages and a long way from Board presentation. STO staff are currently prioritizing the completion of this year's audit and will return to the policy update once audit is completed.

7) Credit

Mr. Arsenio Garduño, STO Compliance and Risk Manager, in his report presented various charts and graphs that tracked monthly activity, top issuers, and portfolio exposures, with some approved issuers currently inactive. Mr. Garduño also reviewed the credit watch list for the longer-term portfolio, noting positions in Amazon and no current holdings in PepsiCo. The report

also covered short-term credit and overall corporate credit exposure.

8) General Fund Cash Projections

Mr. Arsenio Garduño, STO Compliance and Risk Manager, reported on the general fund cash projections. The fiscal year began with the state general fund at \$11.5 billion in July, a 6.7% increase year-over-year and a 2.9% increase month-over-month. On August 28th, \$1.2 billion was transferred to reserves, including \$805 million for Early Childhood Education, \$335 million to the Severance Tax Fund, and \$100 million to the new Behavioral Health Trust Fund. Mr. Garduño also reported that tax revenue for the start of FY26 increased by 4.4% (\$70 million) compared to the same period in the previous fiscal year. FY25 revenue ended \$500 million higher than FY24. Oil and gas revenue saw a 5.6% increase, which is approximately \$16 million higher than the previous July.

9) Portfolio Summary – General Fund Investment Pool

Ms. Vikki Hanges, STO Chief Investment Officer, reported the General Fund Investment Pool ended the month of July at \$11.4 billion, with 96% in fixed income securities and 4% in floating rate notes. STO earned nearly \$900 million in all portfolios, including mark-to-market, in FY25. In August, a drop in interest rates caused many securities to be called, increasing the cash position. The portfolio continues to outperform its benchmark, but new corporate bond issues are heavily oversubscribed, making it difficult to acquire desired allocations (e.g., receiving \$30 million of a \$100 million request).

10) Portfolio Summary - Local Government Investment Pool – Short Term

Ms. Anna Murphy, STO Senior Investment Officer, reported that the Local Government Investment Pool – Short Term (LGIP ST) ended the month of July at \$2.215 billion, growing to \$2.238 billion by the current date. It continues to maintain its AAAM rating by Standard & Poor's, with a net yield of 4.35%. The LGIP ST is positioned with a shorter weighted average maturity than its benchmark to capitalize on attractive Repo rates (4.35-4.39%). The team is weighing the benefit of high current short-term yields against extending duration in anticipation of future rate cuts by the Federal Reserve.

11) Portfolio Summary – Local Government Investment Pool – Medium Term

Ms. Anna Murphy, STO Senior Investment Officer, reported that the Local Government Investment Pool – Medium Term (LGIP MT) closed the month of July at \$1.05 billion. The Pool's assets remained stable. It is composed of 20-25% corporate securities and the remainder in Treasuries, with corporate exposure decreasing due to declining relative value. The strategy is constrained by the need to track its benchmark, which requires reinvesting in the less attractive three-year maturity part of the curve.

12) Portfolio Summary – Tax-Exempt Bond Proceeds Investment Pool

Ms. Anna Murphy, STO Senior Investment Officer, reported that the Tax-Exempt Bond Proceeds Investment Pool closed the month of July at \$1.361 billion. A payment of nearly \$180 million was made from the Pool on July 1st. The portfolio is positioned very short, with about 50% in cash equivalents, in anticipation of upcoming draws and bond payments. This conservative positioning is expected to cause a greater tracking error against its benchmark.

The Council began a discussion on the successful \$1,000 test payment that was made to a newly created State and Local Government Series (SLGS) Account. However, further funding and project pay-downs are delayed pending the completion of the audit. Additionally, STO has partnered with the Department of Finance and Administration for the return of former STO Acting CFO, Kathleen Pinyan, to assist STO in completing the implementation of the SLGS accounts. There was a discussion about the need to develop a formal strategy for yield restrictions to reduce future arbitrage payments. One option is to hire an agency to potentially support STO in its efforts in maintaining these accounts. It is also thought that this should be included in the updated Investment Policy; however, no decisions have been made.

13) Portfolio Summary – Taxable Bond Proceeds Investment Pool

Ms. Anna Murphy, STO Senior Investment Officer, reported that the Taxable Bond Proceeds Investment Pool (BPIP) closed the month of July at \$3.3 billion versus \$3.402 billion at the end of June. Taxable BPIP has maintained duration shorter than that of the benchmark to provide adequate liquidity for project withdrawals. Monthly net earnings on the portfolio for July were \$12.1 million. The Pool paid out \$95.8 million in project draws during the month of July.

14) Portfolio Summary - Severance Tax Bonding Fund

Ms. Vikki Hanges, STO Chief Investment Officer, reported that the Severance Tax Bonding Fund ended the month of July with a market value of \$220.2 million. The Fund will hold collateralized bank deposits, utilize U.S. Treasury Repo versus U.S. Government Money Market Funds, maintain a presence in municipal variable rate demand notes, and purchase commercial paper and U.S. Treasury Bills to outperform its goals. The fund received \$152 million in tax receipts in July. It is targeting the end of December to accumulate funds for debt service payments due on January 1st and July 1st of the next year. Sponge notes may be issued around December 22, 2025.

15) State Agency Deposit Balances

Ms. Ashly Quintana, STO Cash Management Team Member, reported as of the end of July that total state funds held in financial institutions were approximately \$1.3 billion, and non-state funds were about \$490 million, with LGIP accounting for \$439 million of non-state funds. No financial institutions exceeded the equity capital and deposit ratios. The total deposits overseen are about \$1.8 billion across 402 accounts.

16) Collateral Report on Agency Deposits

Ms. Ashly Quintana, STO Cash Management Team Member, reported on agency deposits and CDs. She included a breakdown of deposit types and collateral requirements. All depository institutions holding public funds met the minimum collateral requirements in July. The report provided a breakdown of collateral for various deposit types. J.P. Morgan and Washington Federal met their 75% collateralization threshold for the medium-term fund.

17) Next Meeting

The next meeting is scheduled for October 8, 2025, at 9:00 AM.

18) Closing Remarks and Adjournment

Treasurer Montoya began her closing remarks by informing the Council of the very busy previous week where the Treasurer and STO staff visited six different schools in honor of National Financial Literacy Day. The STO team visited with elementary students, middle school students, and high school students on the importance of financial literacy. The Office is partnering with one of the banks to offer five free financial fitness webinars on topics including budgeting, saving, credit basics, and teaching financial lessons to children. STO staff is excited to offer one session in Spanish. These will take place on September 15th, 17th, and 18th.

Member Leach informed the Council that a new member of the State Treasurer's Investment Council is expected to be selected by the NM Board of Finance at their upcoming meeting on September 16, 2025. Additionally, Treasurer Montoya announced that STO Chief Investment Officer, Ms. Vikki Hanges, will be presenting the STO Quarterly Investment Report at that meeting.

In closing, the State Treasurer informed the Council of some information compiled from STO's recent presentation to the Legislative Investments & Pensions Oversight Committee (IPOC). The Office's managed assets have grown to \$19.6 billion, a 227% increase from fiscal year 2020, and a 207% increase in trade volume, despite having a decrease in staff. In addition to the processing of educational technology bonds and increased collateral management responsibilities, STO staff were able to work together to successfully complete and submit 40 of 80 audit items in a day and a half. The Treasurer expressed her gratitude for the team's continued performance under resource and staffing constraints.

The State Treasurer's Investment Council adjourned at 10:07 AM.

¹ Calculated Unrealized Gains or Losses represent the “market value” of the portfolios as compared to their “net book value” as of the effective date of calculation. Net book value = original book value less amortization/plus accretion of premium/discount. As such, they approximate the values which could be realized/lost if the positions were to be liquidated at market prices on the day that the calculation was performed. Market conditions change on a daily basis and the resulting calculations will also change with market movements.

² Unaudited. Change in Unrealized Gain/Loss from previous month. Mark-to-market values are calculated using the QED system and weekly securities pricing from IDC. Securities, such as Certificates of Deposits, for which there is no quoted market price, are carried at cost basis (amortized through the holding date).

³ Effective Duration. Portfolio durations are calculated as of a moment in time, specifically at month end. Source: JP Morgan.

⁴ Portfolio Purchase Yields are calculated at a moment in time, specifically at month end, reflecting the weighted average yield of all portfolio holdings at purchase.

In our management of the STO funds, we try and exceed benchmarks on a 3-month and 12-month basis. Monthly market swings will affect our performance more dramatically on a short-term basis than on a longer investment horizon. We believe that longer horizons keep our focus on the investment goal which is to meet or exceed our benchmark levels.

⁵ Relative performance is periodic total return compared to the return of the portfolio benchmarks.

- The General Fund Pool's investment earnings were higher by \$1.2 million vs. FY'25 as balances were higher by \$930 million. Interest rates were lower by 1.00%, 0.30% and 0.07% for three month, 2 year and 5 year maturities, respectively. The Fed Funds rate was lower by 1.00% vs. the prior year. With short-term interest rates lower the GF Liquidity was investing new cash at lower yields, while GF Core was able to invest more seasoned maturities at higher yields.
- The Bond Proceeds Pools' investment earnings were higher by \$6.0 million vs. FY'25, as balances rose. The total market value of both Pools was \$1.1 million higher.
- The LGIP ST investment earnings were lower by \$0.4 million vs. FY'25 as balances increased by \$390 million. The Fed reduced the Funds rate in September by 0.25%, to the range of 4.00% to 4.25%. Participants can expect the LGIP ST yield to decline, resulting in reduced earnings.
- The LGIP MT earned \$481,000 less in FY '26 vs. the same period in FY '25 as reinvestment rates for maturities were lower.
- The Severance Tax Bonding Fund had higher earnings compared to the same period in FY'25. The market value was lower by \$14.2 million.

⁶ Each fund is managed using different objectives, as more fully detailed in this report. As such, returns and earnings on the funds will vary on a month to month basis. Investment Net Earnings = Accrued income + realized gains and losses net of amortization/accretion for premiums/discounts.

⁷ Gross Earnings, Participant Earnings reflect 0.05% reduction for management fees.

Monthly Investment Outlook

US Treasury yields were lower for the month of August, as investors assigned a higher probability to a 0.25% short-term interest rate reduction in September. The Federal Reserve did, in fact, lower the Funds rate range to 4.00% to 4.25% at the FOMC meeting as anticipated. The main catalyst for the Fed's action was the large downward revision to nonfarm payroll employment released in early August. This was just a few days after the July 31st FOMC meeting, when the Fed was comfortable with the employment situation, expressing "with some downside risks". Inflation continued to be above the Fed's 2% annual growth rate target, but the reversal in the employment picture took precedence over the Fed's decision to reduce short-term interest rates. There was one Fed member who dissented, preferring to see the rate drop by 0.50%.

Investors are pricing in two additional Fed Funds rate cuts of 0.25% each by year end 2025. This would bring the range down to 3.50% to 3.75%. The nonfarm payroll 3-month average change is now 29,000, much lower than the 150,000 that had been trending prior to the -258,000 revision in the data. As employment has stepped into the limelight, the unfortunate development of the US Government shutdown, has caused a delay in the release of this data for September. Markets have not reacted unfavorably following the shutdown that commenced on October 1st, as this has happened before, with expectations that it will be short-lived. This is a critical time for the data dependent Fed to formulate the next policy rate decision at the October 29th meeting that is fast approaching, while leaving investors temporarily rudderless.

STO portfolios have been positioned closer to 95% of the duration of benchmarks as we have already seen a material move lower in US Treasury yields. Current yields are reflecting 98% and 90% probabilities for 0.25% rate reductions at both the October 29th and December 10th meetings respectively. Inflation, although slightly elevated, has not yet become a concern, as tariff increases have been slow to reach the consumer.

As yields have fallen, supply in corporate issuance has increased, while investor risk appetite continues to be voracious. STO has been able to participate in some deals, however issuers on our approved credit list have been less active, while allocations continue to be somewhat paltry. Credit spreads continue to grind tighter, adding value to overall performance. Agency securities with call features have been redeemed at a rapid pace as interest rates have fallen, while low volatility has kept new issues relatively tight to US Treasuries. As always, the investment philosophy employed is to maintain safety, liquidity, and yield, in that order.

Commissions Paid

As counterparty, the state transacts in purchase or sale sizes sufficient to achieve competitive results in the bidding or offering process. Implied in the market-clearing prices that we are offered is some form of dealer markup.

Regarding specific transactions, we process the bulk of our trades using an electronic trading platform. As such, we understand, and document, the market at the time of transaction. These trade terms are held as a part of our trade documentation as approved by STIC.

Variable Rate and Structured Note Holdings

At the end of August, total holdings of Variable Rate Notes were \$1,908,917,000.

There were 0 inter-portfolio trades during the month.

Unrealized Gains and Losses

The STO Investment Policy requires security-by-security reporting of all investment mark-to-market gains and losses calculated versus book values during the period.

The Executive Summary of this report includes a tabular reference to the aggregate mark-to-market per portfolio. In the section detailing each specific portfolio, a further summary of mark to market calculations is included.

In the listing of the specific portfolio holdings, a position level mark-to market calculation is included.

Realized Gains and Losses

Realized gains/losses are a result of a difference between amortized cost and the sale proceeds for each position at the time of sale. This amount is booked against investment earnings in the respective accounting period. There were 0 sales which resulted in realized gains/losses.

Interoffice Memorandum

DATE: October 2, 2025

TO: The Honorable Laura M. Montoya, State Treasurer

FROM: Kristen Dorland, STO Chief Financial Officer 

Cc: STO Investments Division

Subject: August 2025 Investment Reconciliation & State General Fund Distribution

The August 2025 investment reconciliation included the following to verify the completeness and accuracy of the JP Morgan reporting:

1. Net asset values of all investment accounts.
2. Change in transaction activity between September 30, 2025, and October 31, 2025.
3. Cash transaction activity proof.
4. Earned income proofs.
5. Proof of change in cost.
6. Duplicate cash activity.
7. JP Morgan to Broadridge Investment Accounting (BIA, formerly QED) inventory reconciliation.
8. JP Morgan to BIA income reconciliation.

Investment Reconciliation

The differences that exceed the BPS Dollar Threshold are explained below:

Inventory Holdings:

- General Fund Liquidity 09336/1000, 09334/1101, REPO 09334/7701, STBF 89523/4001, and LGIP Short-Term have exceeded the BPS dollar threshold between JP Morgan and BIA (formerly QED) due to the differences in how the commercial paper-discount-based securities are reported. Though the inventory's position size and carry basis are reported similarly between JP Morgan and BIA, the market value differs between the systems.

- REPO P09334/1101. The REPO account reflects income due to Investing Agencies of \$564,108.70 within the cash balance in BIA, which is not included in the JP Morgan REPO statement. Income is distributed to the investing agencies about the 15th of the following month.

New Mexico State Agency

RE: July/August 2024 Self-Earners' Interest Distribution

This letter is to inform you of a correction that has been completed in your self-earners account(s). The State Treasurer's Office (STO) Budget and Finance Division identified negative balances in the daily cash balance query in SHARE for July 2024 through August 8, 2024. This interest distribution was unusually low, prompting STO to conduct a thorough review of the interest calculation process as well as hire an outside auditor for an external review. The results confirmed that the daily balance query was only capturing the July and August 2024 dated transactions and not the June 2024 dated transactions that occurred in July and August 2024. This occurred because the software system (Access) is challenged when two fiscal years are open at the same time.

Baker Tilly provided an external review of the Self-Earners' accounts and developed a calculation method to verify Self-Earners' interest calculations, resulting in a revised July/August 2024 interest earned which now includes the June 2024 dated transactions as described in paragraph 1.

Please see the attached documentation showing the initial interest distribution as well as the re-calculated and confirmed distribution for your records. A journal entry will be completed to distribute the interest owed to your agency (the difference between the re-calculated, confirmed interest earned, and the initial interest distributed).

As we complete the first quarter of the new fiscal year, we kindly request that your agency provide documentation/legislation confirming that your account is authorized to be a Self-Earner to ensure annual compliance.

Thank you for your patience throughout this lengthy process as we worked to correct this error. Please review the updated interest earned calculations and contact kristen.dorland@sto.nm.gov if you have any questions (cc Treasurer Montoya at laura.montoya@sto.nm.gov.)

Respectfully,

Kristen Dorland
Chief Financial Officer
