Infrastructure Capital Improvement Plan (ICIP) Submission Guide for K-12 Public Schools

2026

FY2028-2032 ICIP Cycle

INTRODUCTION TO THE ICIP

The ICIP is a planning tool administered through the Capital Planning and Policy Bureau within the Infrastructure Planning and Development Division of the Department of Finance and Administration (DFA). The ICIP is entered and submitted on the Capital Projects System (CAPS) website. The ICIP is a tool for local public bodies that establishes planning priorities for anticipated capital projects. The state-coordinated local ICIP process encourages entities to plan for the development of capital improvements so that they do not find themselves in emergency situations, but rather can plan for, fund, and develop infrastructure at a pace that sustains their activities and is within the entity's capabilities.

The Department of Finance and Administration (DFA), through its authority in NMSA 1978, Sections [5-8-6A](#), [6-6-2J](#), [6-6-4](#), [9-6-5.1](#), [11-6-2](#), [11-6-3](#), [11-6-4.1](#), [11-6-5](#), and [11-6-5.1](#), **strongly encourages** each jurisdiction to prepare a five-year infrastructure capital improvement plan.

The initial step in the ICIP process is the creation of the individual entity plan. The plan covers a five-year period and is developed, prioritized and submitted annually. It includes policy direction, funding time frames, estimated costs, justifications, and the details of each specific infrastructure capital improvement project proposed, by year, over the five-year period. The plan includes repair or replacement of existing infrastructure, the development of new infrastructure, or the purchase of equipment, vehicles or furniture and furnishings. Each proposed project includes a description, scope of work, project budget, existing funding sources, anticipated funding mechanisms, and project justification.

GENERAL INFORMATION

The current state Fiscal Year Plan period is for FY2028-2032. This means that the 5-year cycle of the current plan should be from **July 1, 2027, through June 30, 2032**. Due to recent capital outlay changes, all capital outlay requests \$100,000 or more must be associated with an ICIP project. **It is HIGHLY recommended that you enter projects you will request capital outlay for even if it is under the \$100,000 threshold.** Your school/district may also list ICIP projects for which you will not request capital outlay for. The CAPS website has a grant matchmaking feature, and projects need to have an ICIP project entered to use those features.

FY2028-2032 ICIP SUBMISSION DEADLINES – For K-12 Schools Only

- ☐ **Deadline to Submit your completed FY2028-2032 ICIP – Friday, August 28, 2026**

CAPS WEBSITE

- <https://platform.dfa.nm.gov/>
- To enter your ICIP, you must request access to CAPS. The request access form is on the login page to the website. After you request access to CAPS, DFA must approve your request. It will not be approved automatically. Once DFA approves your request, you will receive a temporary password to your email. You will be able to log in with that temporary password, verify your email or phone, then set your own password. Step-by-step instructions are located on the [CAPS Data Entry Manual](#) on our [website here](#).
- If you need assistance or haven't received a temporary password, please contact IPDD staff below.
- If you are having technical issues with the website, please contact RTS Support at support@rtsolutions.com
